ANNUAL TOWN REPORT

OF

MILTON

MASS.

FOR THE YEAR ENDING

DECEMBER 31, 1897.

COMPILED BY

THE AUDITORS.

BOSTON:
ALFRED MUDGE & SON, PRINTERS,
1898.

Approved for $.....
MILTON
BOARD OF ENGINEERS.
OCT 14 1898
.....Chief,

STATEMENT OF THE AUDITORS.

To the Citizens of Milton:

In accordance with the Public Statutes and the By-Laws of the town, we have examined the books and accounts of all officers and committees intrusted with the expenditure of money, and all original bills and vouchers on which monies have been paid from the Treasury for the year ending Dec. 31, 1897, and have found the same correct.

All bills are now handled direct by the Town Treasurer except those of the School Committee and Trustees of the Cemetery. In order that all the town accounts may be kept in a uniform manner, we suggest that these two boards follow the example of the others

Sundry additions and changes have been made in our financial statements which we hope will increase the usefulness of the Report.

Respectfully submitted,

W. NEWTON HARLOW,
J. S. RUSSELL,
Auditors.

MILTON, MASS., Dec. 31, 1897.

Tax Rate . . . . . $9 per $1000.

* Term ends March, 1898.

BY-LAWS OF THE TOWN OF MILTON.

ADOPTED BY THE TOWN AND APPROVED BY THE SUPERIOR COURT, JULY 7, 1896.

MEETINGS.

I. The warrants for all town meetings shall be directed to either of the constables of the town, and the meetings shall be notified by posting attested copies of the warrant in each of the post-offices of the town fourteen days at least before the day of such meeting, and by leaving printed copies thereof at the dwelling-houses in the town.

II. The annual town meeting for the election of town officers shall be held upon the first Monday of March in each year, the polls to be open at nine o'clock in the forenoon, and after the election of a moderator they shall remain open until two o'clock in the afternoon for the election of such other town officers as are required by law to be elected by ballot, all said officers to be voted for on one ballot. At any time after 2 P. M. a vote may be passed to close the polls in not less than ten minutes.

"After the closing of the polls and the election of other town officers, the remaining articles n the warrant shall be considered.

"After the declaration of the vote for town officers, thirteen legal voters shall be appointed by the moderator, who, together with the chairman of the selectmen, chairman of the school committee, and the officer in charge of the repairs on highways (if there be such officer), shall constitute a committee to be known as the Warrant Committee. And the persons so appointed shall continue members of said committee until the town meeting of the ensuing year.

"Said Warrant Committee shall, within two weeks after their appointment, meet, at the call of the member thereof first named, for organization by the choice of a chairman and secretary. And they shall meet thereafter from time to time as they may deem advisable.

"It shall be the duty of said committee to consider those affairs and interests of the town the subject-matter of which is generally included in the warrants for its town meetings; and the officers of the town shall, upon their request, furnish them with facts, figures, and any other information pertaining to their several departments, provided, however, that any such information may be withheld when, in the opinion of the officer or board of officers so requested, the communication thereof might injuriously affect the interests of the town or its citizens.

"Said Warrant Committee shall consider the various articles in the warrants for all the town meetings held during the period for which they were appointed, including the various articles in the warrant for the annual town meeting next after their appointment. And they shall report in print before all such town meetings their estimates and recommendations for the action of the town."

III. All motions shall, if required by the moderator, be reduced to writing before being submitted to the meeting.

IV. Upon taking the question, if the decision of the moderator is doubted, or a division of the house called for, the moderator shall request the voters to be seated, and shall appoint tellers; the question shall then be distinctly stated, and those in the affirmative and negative, respectively, shall be requested to rise

nd stand in their places until they are counted by the tellers, who shall carefully count each side and make report thereof to the moderator.

V. No vote shall be reconsidered at the same meeting, except upon a motion made within one hour of the adoption of such vote, or unless ordered by two thirds of the voters present and voting thereon.

VI. When a question is under debate, no motion shall be received but to adjourn the meeting, to lie on the table, to commit or amend, to refer or to postpone to a day certain, or to postpone indefinitely ; which several motions shall have precedence in the order in which they are arranged.

FINANCIAL REGULATIONS.

VII. The financial year shall begin with the first day of March.

VIII. The selectmen shall annually, not less than seven days before the annual meeting, cause to be printed and distributed among the tax-payers of the town a detailed report of all moneys received into and paid out of the town treasury during the preceding calendar year, with such information and recommendations as they may deem proper, and with detailed estimates of the amounts of money that will be required for the ensuing financial year. With this report shall be printed the records of all meetings of the town held since the last annual report was printed, the reports of the auditors, of the road commissioners, and of the engineers of the fire department, the collector's account of receipts, payments, and abatements, a list of all taxes assessed, an abstract of the births, marriages, and deaths, to be furnished by the town clerk, a statement concerning the condition and funds of the public library, and of the cemetery, to be furnished by the trustees respectively, and a statement of all other funds belonging to the town or held for the benefit of its inhabitants.

IX. The assessment of taxes shall be completed, and the tax list and warrant shall be delivered to the collector on or before the first day of August in each year.

X. Poll taxes shall be paid on demand, and all other taxes assessed in each year shall be paid on or before the first day of December in the same year; and on all such taxes as shall not be paid on or before said first day of December, interest shall be charged at a rate to be fixed annually by the town, pursuant to section 67, of chapter 11 of the Public Statutes; and the collector shall use all the means and processes provided by law for the collection of all taxes remaining unpaid after the first day of December in the same year.

XI. No officer of the town shall be interested directly or indirectly in any contract, bargain, sale, agreement, or employment in which the town is interested, in that department of the affairs of the town to which the duties of his office pertain; and any and all such contracts, bargains, sales, agreements, or employments shall be utterly void as to the town; but nothing in this section shall apply to the payment to any officer of his salary, or for his services for performing the duties of his office, or to any contract or agreement for such payment.

XII. The selectmen, being duly authorized by vote of the town under the limitations imposed by statute, may authorize the treasurer to borrow money temporarily in anticipation of the collection of taxes, or for loans authorized by vote of the town, and to give promissory notes therefor in behalf of the town, the same to be signed by the treasurer and countersigned by a majority of the selectmen.

XIII. No money granted for special purposes shall be applied to any other use unless by a vote of the town, and all unexpended balance of such grants shall be stated in the selectmen's annual report.

XIV. No orders shall be drawn by any officer or committee on town treasurer for any purpose not authorized by a vote of the town or by the laws of the Commonwealth, nor shall any such draft be made for any amount which overdraws the appropriation against which it is made, whether general or special; and the town treasurer shall keep all necessary accounts in respect to the several separate appropriations and the drafts made against each, and shall not honor any draft which does not state specifically the appropriation against which it is drawn, or which overdraws such appropriation, whether general or special.

To provide for possible necessary expenditures of departments in excess of appropriations made, the town shall annually appropriate a certain sum of money to be known as the "Contingent Fund." No direct drafts against this fund shall be made, but transfers from the fund may be made by vote of the warrant committee to the account of any other appropriation on application of any officer or department. Certified copy of such vote shall be sent to the town treasurer, and the treasurer shall transfer accordingly, and honor drafts against the funds so transferred as if originally appropriated.

XV. No grant of a sum of money exceeding five hundred dollars shall be made until the subject-matter thereof has been considered and the estimates reported to the town either by the selectmen, the school committee, the road commissioners, or other town officers, or by some committee chosen for that purpose in pursuance of a vote of the town.

XVI. The selectmen shall have full authority, as agents of the town, to institute and prosecute suits in the name of the town, and to appear and defend suits brought against it, unless it is otherwise specially ordered by a vote of the town.

XVII. Whenever it shall be necessary to execute any deed conveying land or other instrument required to carry into effect any vote of the town, the same shall be executed by the selectmen, or a majority thereof, in behalf of the town, unless the town shall otherwise vote in any special case.

XVIII. Two auditors shall be chosen by ballot at the annual meeting, who shall have the power and perform the duties prescribed by statute.

POLICE REGULATIONS.

XIX. Whoever, without a written license from the road commissioners or other officers having charge of the repairs of the highways, shall suffer any wood or coal, or any cart or wagon, to remain within the limits of a highway or street, or upon a sidewalk of a highway or street, so as in any manner to obstruct the travel thereon, or for more than twenty-four hours, shall forfeit and pay a sum not less than one dollar and not more than ten dollars for each offence; and he shall be subject to a like penalty if he neglects to remove the same within the time ordered by such officers, who may revoke such license at any time.

XX. Whoever, without the written permission of the road commissioners or other town officers having charge of the repairs of the highway, shall place or cause to be placed in any highway or street, or upon any sidewalk thereof, any ashes, dirt, rubbish or filth of any kind, or any animal or vegetable substance, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXI. Whoever shall suffer any horse, or grazing beast, or swine to run at large in the town, or to feed in any highway or street, either with or without a keeper, and whoever shall drive any such animal upon and over any sidewalk,

or suffer any horse to remain hitched across any sidewalk, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXII. Whoever shall coast upon a sled or sleds on Adams street, between Churchill's lane and the line of the city of Boston, or the sidewalks thereof between those points, or any other highway, street, or public place upon which the selectmen shall by public notice prohibit such coasting; and whoever shall drive, wheel, or draw any coach, cart, wheelbarrow, hand-cart, velocipede, bicycle, or any carriage of burden or pleasure (except children's carriages drawn by hand), or coast upon a sled, or sleds, upon any sidewalk in the town, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXIII. Whoever shall behave in any indecent or disorderly manner, or use profane, indecent, or insulting language in any public place, or on any sidewalk or street in the town, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, and any person or persons who shall play or perform on any musical instruments, or sing, or parade, or march, or congregate in any of the streets or public places of the town, except in connection with a funeral, without a written permit from the selectmen, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

XXIV. Three or more persons shall not continue to stand or remain in a group, or near to each other, on any sidewalk or in any public place in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on; and any person who shall violate the provisions of this By-Law shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXV. Whoever shall be or remain on any doorstep, portico, or other projection from any house or building, or upon any wall or fence on or near any highway, street, or public place, after being requested by the occupant of the premises or by any constable or police officer to remove therefrom, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXVI. Whoever shall affix, by paste or otherwise, any handbill, placard, notice or advertisement, or paint, draw, or stamp the same, or any marks or figures to or upon any sign-boards of the town, or to or upon any building, fence, wall, tree or structure in the town, without the permission of the owner of such building, fence, wall, tree or structure, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence; and if such handbill, placard, notice, advertisement, mark, or figure be obscene or indecent, the penalty shall not be less than twenty dollars for each offence.

XXVII. Whoever shall undertake to enter a particular drain into a common sewer, or make or cause to be made an excavation in a highway or street for any purpose without a permit in writing from the road commissioners (or from the selectmen if there be no road commissioners), or without complying with the conditions and directions of such permit, shall forfeit and pay a sum not exceeding ten dollars.

XXVIII. Whoever shall lead or cause to be led into any highway, street, or running steam in the town any drain or pipe from any house or other building whereby filthy water or other unclean matter may be emptied into or upon any such highway, street, or running stream; and whoever shall throw, lead, or discharge, or cause to be thrown, led, or discharged into any highway, street, or running stream in the town, any noxious or poisonous matter or substance, or any matter or substance which shall cause an offensive smell or odor, or which

shall be destructive of, or injurious to, animal life, shall forfeit and pay a sum not less than five dollars nor more than twenty dollars.

XXIX. The selectmen may grant licenses to use a certain portion of any public way as a carriage-stand, under such terms and conditions as they may prescribe; and no person shall use any portion of any public way in this town as a carriage-stand for the solicitation of passengers for hire without a license from the selectmen; but licenses shall not be confined to one person to the exclusion of other applicants, and shall be granted so as to allow competition and promote public convenience.

TRUANCY.

XXX. The town of Milton hereby avails itself of the several provisions of the statutes of this Commonwealth, now in force, relating to habitual truants and absentees from school, and in pursuance of authority conferred thereby adopts the following By-Laws: —

XXXI. All children between the ages of seven and fifteen years, residing in said town, and who may be found wandering about in the streets or public places of said town, having no lawful occupation or business, not attending school, and growing up in ignorance, shall be committed to the Plummer Farm School, Salem, or the County Truant School at Walpole, for confinement, instruction, and discipline.

XXXII. Two or more truant officers shall be appointed annually, whose duty it shall be to inquire into all the violations of the truant laws and of the law relating to compulsory education, and to do all the acts required of them by the laws of the Commonwealh.

XXXIII. It shall be the duty of every truant officer, previous to making any complaint under these laws, to notify the truant or absentee from school, also his parent or guardian, the offence committed, and of the penalty therefor, and if the truant officer can obtain satisfactory pledges for the restraint and reformation of the child, he may at his discretion forbear to prosecute, so long as such pledges are faithfully kept.

XXXIV. It shall be the duty of the school committee, the teachers of the public schools, and the citizens generally, to aid the truant officers as far as possible in the discharge of their duties.

XXXV. It shall be the duty of the truant officers to keep a full record of all their official acts, and make an annual report thereof to the school committee, who shall publish the same with their own report.

XXXVI. Nothing in these By-Laws shall be construed as to alter or impair the obligation and duty of teachers to enforce punctuality and regularity of attendance, and to preserve good order and discipline.

THE CEMETERY.

XXXVII. The sole care, superintendence, and management of the cemetery shall be intrusted to a board of five trustees to serve for the period of five years; one of said board shall retire and a new member be elected at each annual March meeting of the town.

XXXVIII. Citizens of Milton who are heads of families shall be entitled to lots in the cemetery free of expense, allowing one lot to a family, subject to the regulations adopted by the town.

XXXIX. The trustees, when in their judgment it shall be deemed advisable, may sell lots at the rate of fifty cents a square foot, but only to those who are in some way connected with Milton people.

XL. The proprietor of each lot shall cause to be erected, at his own expense, corner-stones, and a step with his name and the number of the lot inscribed on the same, and shall cause his lot to be kept in proper order ; and if the proprietor shall omit, for thirty days after notice, to erect such landmarks and to keep the lot in order, the trustees shall have authority to have the same done at the expense of said proprietor.

XLI. No lot shall be used for any other purpose than as a place of burial for the dead ; and no proprietor shall suffer the remains of any person to be deposited within the bounds of his lot for hire ; nor shall any proprietor sell or transfer the whole or any part of his lot without the consent of the trustees.

XLII. If, in the judgment of the trustees, any trees or shrubs in any lot shall become detrimental to the adjacent lots or avenues, or dangerous or inconvenient, it shall be the duty of said trustees for the time being to enter upon said lot, and to remove said trees and shrubs, or such parts thereof as are thus detrimental, dangerous, or inconvenient.

XLIII. There shall be no structure nor inscription placed in, upon, nor around any lot which the trustees for the time being shall deem offensive or improper ; and it shall be the duty of the trustees to remove all offensive or improper objects.

XLIV. The trustees for the time being shall have authority to purchase any tomb in Milton cemetery offered for sale, paying for the same such sums as, in their judgment, may be fair and reasonable. They shall also be authorized to give for any tomb a lot, to be constructed on the land occupied by the tomb, or to be selected at some other point in the cemetery grounds, as they may agree with the proprietor of the same. Should there be no living proprietors or legal representatives of a tomb, the trustees may take possession of such tomb, carefully remove its contents to a lot prepared for the purpose, and erect over the remains a suitable memorial stone.

XLV. The following regulations shall be posted within the cemetery : —

1. All persons are prohibited from driving upon the borders.
2. No horse can be left upon the grounds without a keeper, unless fastened to posts provided for the purpose.
3. All persons are prohibited from discharging firearms within the grounds of the cemetery, except in case of military funerals.
4. All persons are prohibited from writing upon or otherwise defacing any sign, monument, fence, or other structure.
5. All persons are prohibited from gathering flowers, or breaking any tree, plant, or shrub.
6. Dogs are not allowed within the cemetery grounds.

GENERAL PROVISIONS.

XLVI. The penalty of any violation of these By-Laws shall, when not otherwise provided for, be the forfeiture and payment for each offence of a fine not exceeding twenty dollars.

XLVII. Prosecutions for the breach of the provisions of the By-Laws of the town shall be commenced within six months from such breach.

XLVIII. These By-Laws may be amended at any annual town meeting, an article having been inserted for the purpose in the warrant for such meeting, and upon the approval of these By-Laws all By-Laws heretofore passed shall be annulled and repealed.

MILTON TOWN RECORDS

FOR THE MUNICIPAL YEAR 1897-98.

MARCH MEETING.

The annual Town Meeting was held in the Town Hall, upon Monday, March 1, 1897, at 9 A. M., when the following proceedings were had upon the several articles in the warrant for said meeting, namely : —

ARTICLE 1. To choose a Moderator.

Hon. Edward L. Pierce chosen.

Town Treasurer. — Joseph Holmes.

School Committee. — H. Clifford Gallagher, Walter C. Shapleigh.

Collector of Taxes. — John H. Emerson.

Auditors. — W. Newton Harlow, James S. Russell.

Park Commissioner. — (3 years) J. Henry Brooks.

Sewer Commissioners. — Joseph E. Hall (3 years), Ernest W. Bowditch (1 year).

Board of Health. — Henry P. Jaques, (3 years).

Trustees of Public Library. — (3 years) Edward L. Pierce; Wm. B. Weston, Joseph C. Whitney.

Trustees of Cemetery. — Wm. H. Kennedy (5 years); Wm. H. Forbes (3 years).

Constables. — Joseph B. Blanchard, Peleg Bronsdon, Edwin L. Crossman, Fred M. Farrington, Edwin A. Houghton, Jacob S. Lincoln, Timothy McDermott, Peter McIntyre, Charles Mitchell, Maurice Pierce, Henry C. Shields, John H. Tucker.

The following officers were chosen, *viva voce:* —

Fence Viewers. — Henry W. Vose, George Y. Badger.
Surveyors of Lumber. — John H. Burt, Arthur M. Gardner.
Measurer of Wood and Bark. — James H. Packard.
Field Drivers. — John Welch, C. Henry Lawton.
Pound Keeper. — Fred E. Sanford.

ART. 3. Shall licenses be granted for the sale of intoxicating liquors in this town? The ballot shall be "Yes" or "No," in answer to said question.

Negatived, "Yes," 245; "No," 475.

ART. 4. To hear and act upon the auditor's report.

Voted, That said report be accepted.

ART. 5. To see what sum of money the Town will appropriate for the support of schools the ensuing year.

$51,500 appropriated as follows: $49,000 general expenses, $1,000 for completion of rooms in High and Pleasant street buildings and $1,500 for High School equipment.

ART. 6. To see what sum of money the Town will appropriate for highways the ensuing year.

$35,000 appropriated.

ART. 7. To see what sum of money the Town will appropriate for the improvement of the cemetery the ensuing year.

$2,000 appropriated.

ART. 8. To see what sum of money the Town will appropriate for the Public Library the ensuing year.

$2,400 appropriated.

ART. 9. To see what sum of money the Town will appropriate for the support of poor the ensuing year.

$7,500 and sales from farm appropriated, also $500 for Soldiers' Relief Fund.

ART. 10. To see what sum of money the Town will appropriate for the Fire Department the ensuing year.

$15,000 appropriated.

ART. 11. To see what sum of money the Town will appropriate for the Police Department the ensuing year.

$15,000 appropriated.

ART. 12. To see what sum of money the Town will appropriate for street lighting the ensuing year.

$8,960 appropriated. The Selectmen to make contract on the same terms as in 1896, and that all appliances connected with street lighting by electricity be subject to inspection by the Town's Superintendent of Wires, and that all his recommendations be promptly complied with.

ART. 13. To see what sum of money the Town will appropriate for salaries of town officers the ensuing year.

$5,600 appropriated.

ART. 14. To see what sum of money the Town will appropriate for Town Hall and lot the ensuing year.

$1,200 appropriated; $200 to be for grading and improving grounds.

ART. 15. To see what sum of money the Town will appropriate for State Aid the ensuing year.

$1,000 appropriated.

ART. 16. To see what sum of money the Town will appropriate for printing the ensuing year.

$1,300 appropriated.

ART. 17. To see what sum of money the Town will appriate for miscellaneous expenses the ensuing year.

$15,400 appropriated, viz.: $2,000 general miscellaneous expenses; $6,500 for interest; $2,500 abatement of taxes; $4,000 for contingent fund, and $400 for assessors.

ART. 18. To see what sum of money the Town will appropriate for the Health Department the ensuing year.

$1,500 appropriated.

ART. 19. To hear and act upon the reports of committees. See Article 57.

ART. 20. To regulate the jury box.

The following list was accepted, namely: —

LIST OF JURORS.

Brackett, Albert A.

ART. 21. To choose a Committee of Vaccination.

Board of Health chosen.

ART. 22. To authorize the Collector of Taxes to use all means of collecting the taxes which a Town Treasurer when appointed Collector may use.

So authorized.

ART. 23. To fix the rate of interest on taxes unpaid after a time fixed by the Town.

Six per cent after Dec. 1.

ART. 24. To see if the Town will vote to appropriate the sum of two hundred dollars to be expended by Huntington Frothingham Wolcott Post 102, G. A. R., on Memorial Day.

So voted.

ART. 25. To see what sum of money the Town will appropriate for insurance on the Town buildings the ensuing year.

Articles 25 and 43 considered together, see Art. 43.

ART. 26. To see what sum of money the Town will appropriate for hydrant rental.

$6,300 appropriated.

ART. 27. To see if the Town will vote to build a vault in the Town Hall building for the use of the Assessors, and appropriate money for the same.

$300 appropriated.

ART. 28. To see what sum of money the Town will appropriate for building the extension of Church street.

$500 appropriated.

ART. 29. To see if the Town will appropriate the sum of twenty-five dollars for the use of the Board of Park Commissioners for the ensuing year.

$25 appropriated.

ART. 30. To see if the Town will build a sidewalk on Brush Hill road from the junction of Mattapan street to Tucker street, and appropriate money for the same.

Voted, To appropriate the sum of $600 for the building of a permanent sidewalk on the southeast side of Brush Hill road, from Mattapan street to Brook road, the work to be done by the Highway department.

ART. 31. To see if the Town will erect and maintain thirty electric lights on Randolph avenue from Centre street to the Quincy line, and appropriate money for the same.

$500 appropriated for twenty-five lights.

ART. 32. To see what sum of money the Town will appropriate for Transportation of Scholars for the ensuing year.

$2,700 appropriated.

ART. 33. To see if the Town will erect and maintain fifteen electric lights on Edge Hill road from Pleasant street to Adams street, and appropriate money for the same.

$300 appropriated.

ARTS. 34 and 35 considered together.

ART. 34. To see if the Town will appropriate the sum of $1,500 to extend the sewer in the village to a point where it will connect with the Metropolitan sewer.

ART. 35. To see if the Town will appropriate the sum of $ to build a sewer or sewers on a portion of the Mattapan Street Boulevard (so called), or better described as Blue Hill avenue, from the Neponset river to Mattapan street, and on Mattapan street from Blue Hill avenue to Brook Road.

$11,500 appropriated.

ART. 36. To see if the Town will appropriate eight hundred dollars to be expended in removing the fire bell and striker at present on the Town Hall, and placing same in an open belfry to be built on to the tower of the Central Fire Station.

Indefinitely postponed.

ART. 37. To see if the Town will erect and maintain four electric lights on Brook Hill road from Canton avenue to Eliot street, and appropriate money for same.

$80 appropriated.

ART. 38. To see if the Town will accept Highland street and Thacher street as altered by the Selectmen, and appropriate money for the same.

Voted, To accept, any expense charged to Highway department.

ART. 39. To see if the Town will accept Squantum street as altered by the Selectmen, and appropriate money for the same.

Accepted (no appropriation).

ART. 40. To see if the Town will vote to build a brick sidewalk on Adams street from R. L. Chapman's line to Eliot street, and a crosswalk between the sidewalks near the station of the N. Y., N. H. & H. R. R., and appropriate money for the same.

So voted, the cost to be taken from Highway appropriation.

ART. 41. To see if the Town will accept the Valley road, Oak road, Rock View road, and the extension of Maple street as laid out by the Selectmen, and appropriate money for the same.

Indefinitely postponed.

ART. 42. To see if the Town will accept the provisions of Chapter 158 of the Acts of 1896, entitled "An Act relative to the apportionment of assessments for Betterments."

Indefinitely postponed.

ART. 43. To see what action the Town will take relative to insurance on its Public Buildings.

$1,200 and return premiums appropriated, and a committee consisting of John C. Cobb, F. Elliot Cabot and George W. Nickerson appointed to investigate the whole subject.

ART. 44. To see if the Town will vote to place twenty electric lights between Randolph avenue and the Metropolitan Park line on Hillside street, and appropriate money for the same.

$300 appropriated for fifteen lights.

ART. 45. To see if the Town will accept Chapter 101 of the Public Statutes, entitled "of the suppression of Common Nuisances."

Accepted.

ART. 46. To see if the Town will appropriate money to rebuild Granite avenue, or a part of it, from Squantum street to Granite Bridge.

Left to a committee, consisting of J. Henry Brooks, Wm. H. Kennedy, and Jere. P. Fenno, to investigate and report at next annual meeting.

ART. 47. To see what action the Town will take in regard to borrowing money.

Voted, That the Town Treasurer be authorized, with the sanction and approval of the Selectmen, to borrow such sums of money as may be necessary for town use, in anticipation of the taxes of the year 1897, and that all sums so borrowed be made specifically payable from the taxes of the present year, 1897.

ART. 48. To see if the Town will amend the By-Laws by inserting the following regulations in regard to the laying out of town ways : —

1. Every way that shall be laid out for the acceptance of the Town as a town way shall be not less than forty feet in width.

2. Every way that shall be laid out for the acceptance of the Town as a town way shall end at both ends on a town way.

3. Whenever an existing private way, the fee of which is in the abutters, shall be laid out for the acceptance of the Town as a town way, the documents relating to such laying out shall be accompanied by the certificate of a competent civil engineer, which shall be filed in the office of the Town Clerk, together with said documents. The said certificate shall state that such private way is well built ; that as constructed it is equal to the average construction of the existing highways of the Town, and that it will require no extraordinary repairs for seven years.

Referred to Joseph C. Whitney, Edwin J. Fairbank, Jr., and Thomas H. Randall, committee, to report at the next annual meeting.

ART. 49. To see if the Town will vote to elect a Tree Warden for the municipal year, 1897-98, in accordance with Chap. 190, Acts 1896, said warden to serve without pay.

Indefinitely postponed.

ART. 50. To elect a Tree Warden as provided by the previous article.

Indefinitely postponed.

ART. 51. To see if the Town will appropriate the sum of five hundred dollars to be used by the Tree Warden.

Indefinitely postponed.

ART. 52. To see if the Town will authorize the Trustees of the Cemetery to set aside a lot in the Cemetery to be known as the "Soldiers Lot," to erect suitable posts and steps, etc., to grade and care for same, the expense to be paid from general appropriation for Cemetery.

So voted.

ART. 53. To see if the Town will vote to purchase from the estate of Col. O. W. Peabody, for Cemetery purposes, the land and building situated on Centre street adjoining the Cemetery, containing about twenty-two acres.

So voted, and $15,800 appropriated for purchase.

ART. 54. To see what action the Town will vote to take in regard to paying for or borrowing money to pay for the property mentioned in Article 53.

Voted, That the appropriation of money voted for the purchase of land for Cemetery purposes under Article 53, be raised by borrowing, and that the Town Treasurer be and is hereby authorized and directed to issue the negotiable notes, bonds, or scrip of the Town, in the aggregate principal sum of fifteen thousand eight hundred dollars; the notes, bonds, or scrip to be issued for the first fourteen thousand dollars, according to dates of maturity, to be in denominations of one thousand dollars, or multiples thereof; and the remaining eighteen hundred dollars to be in denominations of one hundred dollars or multiples thereof, all bearing date the first day of April, 1897, payable to the bearer at the Shoe and Leather National Bank in the City of Boston, as follows: two thousand dollars on the first day of April in each of the years 1898 to 1904 inclusive, and eighteen hundred dollars on the first day of April in the year 1905, so that the said loan shall all be paid and retired in eight years from the date it bears.

The said notes, bonds, or scrip shall bear interest at a rate not to exceed four per centum per annum, payable at said bank semi-annually, on the first days of April and October in each year, to the registered holder thereof or the bearer of the interest coupons to be annexed to the bonds, upon presentation and surrender thereof as they severally become due.

The said notes, bonds, or scrip shall be called and recorded "Milton Cemetery Loan," and each and every bond, note, or scrip shall bear such title on its face, shall be signed by the Treasurer, countersigned by the Selectmen or a majority thereof; shall have the seal of the Town attached, and shall be in such form, containing such recital or certificate as to the due issue and validity thereof as the Treasurer shall determine, and the execution thereof by the Treasurer shall be deemed a sufficient determination of such form.

If coupons are annexed they shall bear the fac-simile signature of the Treasurer.

The said notes, bonds, or scrip shall be sold and delivered by the Treasurer with the approval of the Selectmen, at public or private sale, and the proceeds of the sale thereof to the amount of fifteen thousand and eight hundred dollars

shall be expended by the Trustees of the cemetery in payment of the purchase money for about twenty-two acres of land and buildings thereon to be purchased from the estate of the late Oliver W. Peabody, and the residue of the proceeds, if any, shall be applied to the retiring of any portion of said loan by purchase or otherwise as far as it shall be sufficient.

The above was passed by a more than two-thirds vote of those present and voting, viz., yea, 212, nay, 6 votes.

ART. 55. To see if the Town will vote to create the office of town book-keeper, to be appointed annually by the Selectmen, and whose duties it shall be to act as Clerk of the Selectmen, Assessors, School Committee, Board of Health, Park Commissioners, Trustees of Public Library, Sewer Commissioners, and Trustees of Cemetery.

Indefinitely postponed.

ART. 56. To see if the Town will vote to appropriate eight hundred dollars as salary for town book-keeper.

Indefinitely postponed.

ART. 57. 1st. To act upon the report of the Building Committee.

2d. To act upon or adopt any recommendations made by that Committee.

3d. To accept the provisions of the Acts of the Legislature relative to the adoption of a building law in Milton.

Report accepted, Chapter 481, Acts of 1894, also accepted; recommendations of the Committee indefinitely postponed.

REPORT.

The Committee recommends that the following sections of the Acts of 1894, Chap. 481, be adopted by the Town, and reports the following By-Laws for Construction of Buildings and Plumbing: —

STATE LAW.

REGULATION AND INSPECTION OF BUILDINGS.

Public Statutes. Chap. 481, *of the Acts of* 1894.

SECT. 11. With the exception of Boston, each city or town which has adopted chapter two hundred and forty-three of the Acts of the year eighteen hundred and seventy-two, or section one of chapter one hundred and four of the Public Statutes, or which adopts this section, may for the prevention of fire and

the preservation of life, by ordinances or by-laws not repugnant to law, and applicable throughout the whole or any defined part of its territory, regulate the inspection, materials, construction, alteration and use of buildings and other structures within its limits, excepting such buildings and structures as are owned or occupied by the United States or the Commonwealth, and excepting also bridges, quays, and wharves, and may prescribe penalties not exceeding one hundred dollars for each violation for such regulations.

PROPOSED BY-LAWS IN RELATION TO THE CONSTRUCTION AND INSPECTION OF BUILDINGS AND PLUMBING, FOR THE TOWN OF MILTON.

SECTION 1. There shall be in the Town of Milton a Department for the Inspection of Buildings, which shall be furnished with office room, and such supplies for the transaction of business as the selectmen may provide.

SECT. 2. The officer of said department shall be called the "Inspector of Buildings." He shall be appointed by the selectmen, and shall hold office until his successor is appointed. His compensation shall be regulated by the selectmen.

SECT. 3. The selectmen may, after a hearing, of which public notice shall be given at least seven days prior to said hearing, by posting a written notice in each post-office in the town and on the public bulletin boards in the town and by publishing the same in a newspaper published in the town, or, if there be no such newspaper, in one published in the City of Boston, pass a vote establishing building limits within the town, and, upon the acceptance of said vote by the inhabitants of the town, at a town meeting, called as provided by law, said building limits shall be established.

Said building limits may comprise the whole or any specified part or parts of the territory of the town.

SECT. 4. The inspector of buildings may, so far as is necessary for the performance of his duties, enter any building or premises within said town at any reasonable hour.

SECT. 5. The inspector of buildings shall keep a record of all business of the department and shall submit to the selectmen such reports of the same as they may require.

SECT. 6. No work shall be done upon any wall, building or other structure within said "building limits" except such repairs as may be necessary for the preservation of said wall, building or other structure, nor shall any wall, building or other structure be erected, raised, moved, enlarged, altered, built upon or torn down, within said "building limits," without a permit from the inspector of buildings.

SECT. 7. Applications for such permits shall be in writing and shall be directed to the inspector of buildings, who shall keep a record of the same.

SECT. 8. The plans and specifications of every building, or other structure, and of every alteration in a building or other structure, for which a permit is required, shall be deposited temporarily with the inspector of buildings. A copy of the plans and specifications of every public building and of every alteration in a public building shall be deposited permanently. All plans and specifications deposited under this section shall be dated and signed by the inspector immediately upon being received by him.

Every permit issued by the inspector of buildings shall state the purpose for which the building is to be used, and the conditions, if any, under which it is granted. All permits issued shall be recorded in detail, and said records shall be preserved.

SECT. 9. The inspector of buildings shall not give a permit for the erection of any building or other structure, until he has inspected the plans and specifications thereof, and ascertained that the building, as planned, has sufficient strength, proper means of ingress and egress, and that it conforms with the laws; or for the alteration of any building or other structure already erected, until he has examined said building or other structure and the plans and specifications of said alteration and has satisfied himself that said building, as altered, will have sufficient strength, proper means of ingress and egress, and that it will conform to the laws.

The inspector of buildings shall, as often as is practicable, inspect all work for which a permit has been issued, and shall see that it is being carried on according to the requirements of law.

SECT. 10. No permit for the erection of any building to be used as a factory, or in which steam or other motive power is to be used; or to be used for the manufacturing of chemicals; or for the alteration, or the moving of any building for any of such uses, shall be granted until after public hearing before the selectmen, and no building for any of such purposes shall be erected, altered or moved without such permit.

Notice of such hearing shall be given, at least seven days prior to said hearing, by posting a written notice in each post-office in the town, and on the public bulletin boards in the town, and by mailing a copy of the same to the owners of premises, within 500 feet of the proposed location of the building, addressed to their last known residence or place of business, and by publishing the same in a newspaper, published in the town, or, if there be no such paper, in one published in the City of Boston.

No boiler to furnish steam for motive power shall be set, or erected, except on permit from the inspector of buildings, issued after hearing as provided above.

This section (ten) shall apply to the whole town, irrespective of the building limits prescribed by this by-law.

SECT. 11. Permits for the erection, alteration, or moving of any building, to be used as a stable, in which more than four horses are to be kept, shall only be granted after hearing as provided in the preceding section. Notice of such hearing shall be sent to the Board of Health, in addition to the notices required in said preceding section.

SECT. 12. The Selectmen may, in their discretion, after a hearing as provided in the two previous sections, instruct the inspector of buildings not to issue the permit asked for at such hearing, and, in such case, no such permit shall issue.

SECT. 13. In case the owner of any building or other structure, or an applicant for a permit to erect or alter a building or other structure, is dissatisfied with any order or decision of the inspector of buildings, the matter shall be referred to the selectmen, who, within one week from said reference, shall hear the parties, and, after taking such expert opinion as may seem to the selectmen to be necessary, give their decision. In case the decision of the inspector of buildings be affirmed, the expense of any expert opinion, taken by the selectmen, shall be paid to the town by the owner or applicant, on demand, otherwise such expense shall be borne by the town.

SECT. 14. Every portion of every structure in process of construction, alteration, repair or removal, and every neighboring structure or portion thereof, affected by such process or by any excavation, shall be properly supported during such process or excavation.

SECT. 15. All chimneys shall be built of brick or stone and shall be lined with flue linings from the bottom of the first floor to the top of the attic floor and shall be topped at least three feet above the highest point of contact with the roof. No nails shall be driven into any chimney at any point; and no woodwork shall be within one inch of any chimney.

All wooden buildings of two or more stories shall have sills, posts and girts, mortised, tenoned and pinned together and shall be properly braced. End girts shall be placed in all wooden buildings. Sills shall not be less than 6 x 6 inches; and posts and girts not less than 4 x 6 inches.

All woodwork including lath and plaster within two feet of any heating apparatus or smoke-pipe and all woodwork including lath and plaster coming in contact with any pipes from said apparatus shall be properly protected by a metal or stone shield.

No wooden building shall be built within two feet of the line of an adjoining lot unless a brick wall at least eight inches in thickness shall be substituted for the wooden wall next said line.

Where dwellings of more than two stories are to be occupied by more than two families there must be at least two flights of stairs from ground floor to top floor, or one flight from ground floor to top floor inside, together with an approved fire escape outside.

Every owner, either by himself or through his builder or carpenter shall, before making any substantial alterations in a building, or erecting any new building, within the town of Milton, whether inside the building limits or not, file at the office of said inspector, upon blanks furnished by the town for that purpose, notice of all such work or alterations as come under the provisions of this section; and no such work shall be done in any building in said town except subject to the approval of said inspector.

This section (fifteen) shall apply to the whole town irrespective of the building limits prescribed by this by-law.

SECT. 16. The selectmen may, after a hearing, of which public notice shall be given at least seven days prior to said hearing by posting a written notice in each post-office in the town, and on the public bulletin boards in the town, and by publishing the same in a newspaper, published in the town, or, if there be no such newspaper, in one published in the city of Boston, and by giving personal notice to the owners of land, to be affected, by delivering to such owners a copy of said notice or by depositing the same in the post-office, post-paid, and addressed to them at their last known residence or place of business, pass a vote establishing a building grade or building grades for any part or parts of the town, and on the acceptance of such vote by the inhabitants of the town at a town meeting, called as provided by law, said building grade or building grades shall be established.

Said building grade or building grades may be at different heights above the level of the sea, in different parts of the town, as the nature of the ground may require.

No cellar floor of any building, erected on land for which a building grade has been established, nor any part, except the foundation, of a building, which has no cellar, shall be below said grade.

SECT. 17. The inspector of buildings in the name of the town may take

such measures, as the public safety requires, to carry this by-law and every section thereof into effect, and any expense incurred in so doing may be recovered by the town from the owner of the defective property.

SECT. 18. There shall be a fee of $2.00 for any permit required by this by-law. Fees shall be collected by the inspector before issuing permit, and be by him paid into the town treasury and shall be applied toward defraying the cost of the department for the inspection of buildings.

SECT. 19. Any person, firm or corporation guilty of a breach of any regulation contained in this by-law shall be liable to a fine of not less than $20.00 nor more than $100.00 for each such offence. Such fines to be paid into the town treasury.

BY-LAW IN RELATION TO PLUMBING.

SECTION 1. No person shall carry on the business of plumbing unless he is a plumber and shall have first registered his name and place of business in the office of the inspector of buildings; and notice of any change in the place of business of a registered plumber shall be immediately given to said inspector. *Only plumbers allowed to perform plumbing.*

SECT. 2. Every plumber, before doing any work in a building, shall, except in the repair of leaks, file at the office of the said inspector, upon blanks furnished for that purpose, a notice of the work to be performed; and no such work shall be done in any building without the approval of such inspector. *Permit necessary before work is performed.*

SECT. 3. No drainage, sewerage or plumbing shall be covered or concealed in any way until after it has been examined and approved by the inspector. Notice must be sent to the inspector when the work is sufficiently advanced for such inspection, and it shall be the duty of such inspector, within two working days after receiving such notice, to inspect the same; and in case any change therein shall be found necessary, he shall direct in writing the change to be made. *Plumbing not to be concealed from view until approved.*

SECT. 4. Plumbing work shall not be used until the same is tested in the presence of the inspector, with the water test, if possible, or with the peppermint or other reliable test, and approved by him in writing; and such written approval shall be sent to the owner and the plumber. *Plumbing to be tested by water pressure before using.*

SECT. 5. The sewerage of every house or building shall be separately and independently connected with the street sewer, where one is provided, or with a proper cesspool; and where there is no sewer in the street, and it is necessary to construct a private sewer to connect with one on an adjacent street, such plans shall be used as may be approved by this department. *Buildings to be separately and independently connected with sewer.*

SECT. 6. The soil-pipe of every building shall be of sufficient size to receive, and allow freely to pass, all that enters or should enter the same. All soil-pipes shall be of extra heavy cast-iron pipe, all drain and connecting ventilating pipes within the building shall be of sufficient size and made of cast-iron, with leaded and calked joints, but wrought-iron pipe may be used for vent purposes; said pipes shall be properly secured to walls and ceiling with *Sizes and kinds of pipe to be used.*

wrought-iron hangers. The soil-pipe of any building shall not be less than 4 in., vents not less than 1¼ in., and iron waste not less than 2 in. in diameter.

Running trap, where placed.

SECT. 7. Every drain-pipe shall be supplied with a suitable trap placed with an accessible clean-out at the point where it leaves the building, and shall have a proper pitch, and extend 5 ft. outside of cellar wall; said clean-out may be placed outside of cellar wall if made accessible. The pipe from this point to sewer or cesspool must have tight joints. All drain or ventilation pipes must extend undiminished in size at least 2 ft. above the highest window on roof, and all changes in direction of soil pipes must be made by Y branches.

All changes in direction of soil-pipe must be by Y branches.

Joints in iron pipe, how made.

SECT. 8. All joints in iron drain-pipes, soil or vent pipes, must be made by thoroughly calking the same with molten lead, joints of lead pipes with iron pipes must be made by soldering the same into brass ferrules, and calking the ferrules to iron pipes or screwing them to wrought-iron pipes.

Every fixture shall have a separate trap.

SECT. 9. Every water-closet, urinal, sink, basin, bath-tub, slop-hopper, and every tray or set of trays, shall be furnished with a separate trap, placed as near the fixture as possible and in no case shall the waste from the bath-tub or other fixture be connected with a water-closet trap. Traps should be protected from siphonage or air pressure by special pipes of a size not less than the waste-pipe, placed outside or below the trap; lead pipes may be used only where they are exposed to view. Air-pipes for water-closets shall not be less than 2-in. bore. Two or more air-pipes may be connected together, or with a soil-pipe, but in such connection with soil-pipe it must be above the upper fixture of the building.

Traps to have air-pipes.

What fixtures shall not be connected with soil-pipe.

SECT. 10. No drip or overflow pipes from safes under water-closets, urinals or other fixtures, no overflow from tanks or cisterns, no waste-pipe from a refrigerator or other receptacle in which food is stored, no rain-water conductors and no steam exhaust or steam from waste-pipes shall be connected with any soil-pipe. No openings will be allowed in the sewer-pipe of any building for the purpose of receiving the surface drainage of the cellar. No brick, sheet-metal, earthenware or chimney flue shall be used as a sewer-ventilator, or to ventilate any trap, drain, soil or waste pipe; and no water-closet shall be flushed from a tank that is used for any other purpose.

No flue, etc., to be used for a ventilator.

Closet supply-pipe.

SECT. 11. Every water-closet or line of water-closets on the same floor, inside of the building proper, shall be supplied with water from a tank, and shall have a flushing pipe of not less than 1¼ in. in diameter inside.

Construction cesspools.

SECT. 12. Cesspools shall have a top of stone or arched brick with iron rim and cover, and may be laid up dry, unless otherwise ordered by the board of health.

Vaults, how constructed.

SECT. 13. Every privy vault shall be at least 4 ft. distant from the line of any adjoining lot, unless by the consent of the owner of such lot; and every vault shall be so constructed as to be conveniently approached, opened and cleaned, and shall be made tight, so

that the contents thereof cannot escape therefrom, if in the opinion of the inspector the surroundings require it.

Woodwork around water-closets.

SECT. 14. No water-closet shall be enclosed with any upright woodwork.

SECT. 15. In case of any dispute or difference in opinion between the inspector and any person, firm or corporation, the same shall be submitted by either party to the local board of health, who shall pass upon the same, and whose finding therein, after hearing, shall be final and conclusive upon all parties. No member of said board shall sit in a case in which he is interested, and in case of such disqualification, or of the necessary absence of any member, the two other members shall appoint a substitute. If two or more members are so disqualified or absent, the inspector shall appoint one substitute, the appellant another, and the two so appointed shall, if necessary, appoint a third.

Appeals.

SECT. 16. The inspector of buildings in the name of the town may take such measures, as the public safety requires, to carry this by-law and every section thereof into effect, and any expense incurred in so doing may be recovered by the town from the owner of the defective property.

SECT. 17. In case of violation of any one or all of the foregoing sections, by any person or persons, firm or corporation, by or upon whom any duty is herein prescribed or imposed, he or they or it so offending shall be liable to a fine not exceeding the sum of one hundred dollars, to be paid into the town treasury.

Penalty.

ART. 58. To see if the Town will vote to instruct the Town Clerk to have regular office hours at the Town Hall and to keep the Town records at the Town Hall.

Indefinitely postponed.

At 11 h. 33 m. P. M. *Voted*, to dissolve the meeting.

At the meeting aforesaid, the whole number of ballots cast was 934, together with 161 additional, cast by women voters for members of the School Committee.

WARRANT COMMITTEE, 1897–98.

The following were a committee appointed by the Moderator at the foregoing meeting to be known as the Warrant Committee, as per Section 2, of the By-Laws, to wit: —

J. Henry Brooks.
C. Minot Weld.
Patrick Cunningham.
Dexter E. Wadsworth.
Thomas K. Cummins, Jr.
Wm. H. Balkam.
J. Frank Pope.
Samuel D. Parker.
Walter C. Shapleigh.
Chas. E. Rogerson.
Peleg Bronsdon.
Alfred H. Crossman.
James Tucker.

RECOUNT OF VOTES.

Commonwealth of Massachusetts.

Norfolk, ss. Milton, March 4, 1897.

At a meeting called and held at the Town Hall on the above date, as per order of the Moderator of the meeting, annually held for the election of Town Officers, a recount of the votes for candidates for Selectmen and members of the School Committee being petitioned for by ten citizens, the result of said recount was as follows: —

For Selectmen, Overseers of the Poor, and Surveyors of Highways.

Albert A. Brackett, four hundred forty-six votes.

J. Walter Bradlee, four hundred eighty-eight votes.

William H. Chubbuck, three hundred seventy-five votes.

George W. Nickerson, three hundred ninety-nine votes.

J. Albert Simpson, four hundred twenty-nine votes.

Arthur H. Tucker, four hundred ninety-nine votes.

Blanks, one hundred forty-two.

For School Committee.

H. CLIFFORD GALLAGHER, seven hundred fifty-seven votes.

WALTER C. SHAPLEIGH, five hundred eleven votes.

HENRY E. SHELDON, four hundred ninety-six votes.

Blanks, 1,260 : Scattering, 11.

(Signed) EDWARD L. PIERCE,
Moderator.

At the meeting aforesaid held for the recount of votes cast for Selectmen and School Committee upon March 4, 1897, the following persons were appointed by the Moderator as Tellers to sort and count said votes and were by him sworn, viz. : Edward B. Wheeler, William H. Kennedy, Nathaniel T. Kidder, W. Newton Harlow, Arthur A. Hibbard, Bradford O. Hamilton, Maurice A. Duffy, and Jesse B. Baxter.

All of the above votes after being counted were again sealed up and delivered to the Town Clerk.

Attest : HENRY B. MARTIN, *Town Clerk.*

MILTON, March 4, 1897.

As per Statute law of this Commonwealth, the Town Clerk this day made out his Warrant and delivered to Constable Timothy McDermott, requiring him within three days from the date thereof to summon all officers chosen, and not having qualified, to appear before the Town Clerk within seven days from the date of such notice to qualify for their several offices, to be sworn where an oath is required, or to signify their refusal of said office ; also to signify their acceptance or refusal of said office to which they had been chosen, where no oath is required.

Attest : HENRY B. MARTIN, *Town Clerk.*

SPECIAL MEETING.

WARRANT.

Commonwealth of Massachusetts.

NORFOLK, ss. *To either of the Constables of the Town of Milton*, GREETING: —

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Milton, qualified to vote in Town affairs, to meet at the Town Hall, in said Milton, on Tuesday, the twenty-sixth day of October, next, at half past seven o'clock in the evening, then and there to act on the following articles, to wit: —

ARTICLE 1. To choose a Moderator to preside at said meeting.

ART. 2. To see if the Town will vote to accept the provisions of Chapter 374, Acts of 1895, relative to the election of a single surveyor of highways by ballot the next annual meeting of the Town.

ART. 3. To see if the town will appropriate six thousand five hundred dollars ($6,500) for sewer purposes to be expended by the Sewer Commissioners.

ART. 4. To see if the Town will accept and allow the following streets as altered and widened by the Selectmen: Brook road on both sides at its crossing with Central avenue, Quarry street at the corner of Pleasant street, and Centre street at the corner of Canton avenue.

ART. 5. To see if the Town will accept and allow the reserved spaces for street railway as laid out by the Selectmen in the following streets: Adams street, Eliot street,

Central avenue, White street, Canton avenue, Reedsdale road, Quarry street, Pleasant street, Edge Hill road, Randolph avenue, Brook road and Thacher street.

ART. 6. To see if the Town will vote to have a committee of five citizens appointed to investigate what electric railroad facilities, if any, the Town requires, and how, looking to the present and future best interest of the Town, such facilities should be procured. Said committee to report in print, and one thousand dollars ($1,000) be appropriated for its use.

ART. 7. To see if the Town will vote to authorize the Selectmen to pay John Marshall *et al.* the sum of one hundred twenty-five dollars ($125) with interest, for draining Capen street, which was contracted for in the year 1894. If so, the same to be paid within ten days from the date of this Town meeting.

And you are directed to warn said inhabitants, qualified as aforesaid, to meet at the time and place and for the purposes herein mentioned, by posting attested copies of this warrant in each of the post-offices of said Town, fourteen days at least before the day of said meeting, and leaving printed copies hereof at the dwelling-houses in said Town.

Hereof fail not, and make due return of this warrant, with your doings hereon, to the Town Clerk, at the time and place of said meeting.

Given under our hands at Milton, this sixth day of October, eighteen hundred and ninety-seven.

ARTHUR H. TUCKER,
J. WALTER BRADLEE,
ALBERT A. BRACKETT,
Selectmen of Milton.

NORFOLK, ss. OCTOBER 25th, 1897.

By virtue hereof, I have posted copies of this warrant in the post-offices of said Town, fourteen days before said meeting, and printed copies have been distributed at the dwelling houses in said Town as herein required.

PETER McINTYRE,
Constable of Milton.

At a meeting of the inhabitants of the Town of Milton, held according to a warrant of which the foregoing is a copy, upon October 26th, 1897, the following proceedings were had upon the several articles in said warrant, namely: —

ARTICLE 1. George R. R. Rivers, Esq., was chosen Moderator.

On motion of Mr. Weston, *Voted*, That the Moderator be requested to appoint a Committee to draw up Resolutions upon the death of the late Hon. Edward L. Pierce.

COMMITTEE APPOINTED.

William B. Weston, Horace E. Ware, Amor L. Hollingsworth, Samuel Gannett and J. Malcolm Forbes.

ART. 2.

Voted, To indefinitely postpone.

ART. 3.

Voted, To appropriate the sum of six thousand five hundred dollars for Sewer purposes, said sum to be expended under the direction of the Sewer Commissioners.

ART. 4.

Voted, To take up Articles 4 and 5 in conjunction.

ART. 5.

Voted, To proceed to ballot on said articles; the Moderator stating upon inquiry that the ballot "Yes" to count in favor of the two articles; the ballot "No" to count in opposition to said articles. Mr. Chas. Rackemann then made the inquiry of the Moderator, if the result of the vote was in favor of the said articles, did that mean that the Town did accept the lay-out and location? and his reply was, Yes!

At 10 o'clock and 11 minutes, *Voted*, That the polls (on Articles 4 and 5) be closed, the result of said ballot being as follows: Yes, 439 votes; No, 199 votes.

Mr. Weston, for the Committee, reported resolutions upon the death of the late Hon. E. L. Pierce, which upon being read were adopted by a unanimous and rising vote.

RESOLUTIONS.

Resolved, That the Town deeply deplores the loss of our honored and patriotic citizen, Edward L. Pierce.

We remember him as ever ready to serve this Town, at all times, having been largely instrumental in the establishment and organization of our Public Library, serving as Trustee to the day of his death; and the books found on its shelves show his good judgment and literary taste in their selection.

As Moderator he presided over our Town Meetings in a most faithful, fair and impartial manner for several years. At two different periods he represented the Town in the Legislature, where he was always public spirited in matters pertaining to the welfare of the Town, State, and Nation.

From his youth he was a student, and in his maturer years an accomplished Historian, and a writer on legal subjects of acknowledged authority.

He was always found advocating and working for great principles and high ideals for the benefit of mankind.

He was ever in the van contending with his pen, voice, and example, for the general welfare, and the development of the material resources of the Town.

When the Government was in danger, and the Civil War broke out, he enlisted at the first call of the President, and went to the front, where later he was selected and appointed by the Government as the most efficient man for the great and untried duty of collecting and organizing the "Freedmen," the "Contrabands" of war, on the Sea Islands of South Carolina, and making them into self-supporting and useful citizens, which work he accomplished with great and signal success.

This Town, by his death, loses one of its earnest, devoted citizens, one whose nature was essentially manly and straightforword, and always fearless in his expression of opinion.

His neighbors and friends sadly miss him from their midst, and the Town feels proud of having had such a reliable, public-spirited citizen; and we point to the example of his unblemished character and sterling integrity as a standard for the present and future generations to live up to and emulate.

Resolved, That the resolutions be spread upon the records and the Town Clerk instructed to transmit a copy to Mr. Pierce's family, with assurance of our deepest sympathy in their loss.

Signed,

WM. B. WESTON,
AMOR L. HOLLINGSWORT
HORACE E. WARE,
SAMUEL GANNETT,
J. MALCOLM FORBES,
Committee.

MILTON, Oct. 26, 1897.

Voted, That the Town Clerk be requested to retain all ballots cast under Articles 4 and 5, until otherwise ordered.

ART. 6.

Voted, To indefinitely postpone.

ART. 7.

Voted, That Article Seventh be accepted and the Selectmen be instructed to pay to John Marshall the sum of one hundred twenty-five dollars, with interest from March 1, 1895. The amount needed above the appropriation to be taken from the contingent fund.

Voted, To dissolve the meeting.

At the meeting aforesaid Wm. W. Churchill was appointed by the Selectmen as Teller, and sworn by the Town Clerk.

Ellerton P. Whitney, John Graham, James S. Russell, and John Swift were appointed by the Moderator as Tellers, to receive, sort, and count votes given in under the balloting upon Articles 4 and 5.

A true record.

Attest, HENRY B. MARTIN, *Town Clerk.*

NOVEMBER MEETING.

WARRANT.

Commonwealth of Massachusetts.

NORFOLK, ss. *To either of the Constables of the Town of Milton*, GREETING:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the inhabitants of the Town of Milton, qualified to vote at elections, to meet at the Town Hall, in said Milton, an Tuesday, the second day of November, next, it being the Tuesday next after the first Monday of said month, at seven o'clock in the forenoon, then and there to bring in their ballots for the following officers, to wit: —

A Governor, Lieutenant-Governor, Secretary, Auditor, Attorney General, Treasurer and Receiver-General of this Commonwealth.

One Councillor for the Second Councillor District. One Senator for the First Norfolk District. One Representative to the next General Court for the Fourth Norfolk Representative District.

One County Commissioner, a Register of Deeds, and a Treasurer, all for Norfolk County.

All the officers herein above named to be voted for on the ballots to be provided by the Secretary of the Commonwealth for that purpose.

The polls will open at seven o'clock in the forenoon, and may be closed at four o'clock in the afternoon.

And you are directed to serve this warrant, by posting attested copies hereof in each of the post-offices of said

Town and distributing printed copies hereof at the dwelling houses of said Town, seven days at least before said meeting.

Hereof fail not, and make due return of this warrant, with your doings hereon, to the Town Clerk, at or before the time set for said meeting.

Given under our hands at Milton, the fifteenth day of October, in the year of our Lord one thousand eight hundred and ninety-seven.

ARTHUR H. TUCKER,
J. WALTER BRADLEE,
ALBERT A. BRACKETT,
Selectmen of Milton.

Commonwealth of Massachusetts.

NORFOLK, ss. MILTON, October 26, 1897.

Pursuant to this within warrant, I have notified the inhabitants of the town of Milton, as therein directed, to meet at the Town Hall in said Milton, upon the date above mentioned, for the purposes therein set forth.

PETER McINTYRE,
Constable of Milton.

At a meeting of the inhabitants of the town of Milton, held according to a warrant of which the foregoing is a copy, upon November 2, 1897, the following number of votes were given in for the several persons hereinafter named, for the respective offices specified below. Namely : —

For Governor.

JOHN BASCOM, of Williamstown, four votes.

THOMAS C. BROPHY, of Boston, two votes.

WILLIAM EVERETT, of Quincy, thirty-six votes.

GEORGE FRED WILLIAMS, of Dedham, ninety-five votes.

ROGER WOLCOTT, of Boston, four hundred sixty-eight votes.

Blanks, twenty-two.

For Lieutenant-Governor.

EDWARD A. BUCKLAND, of South Hadley, four votes.

CHRISTOPHER T. CALLAHAN, of Holyoke, eighty votes.

JAMES E. COTTER, of Hyde Park, sixty-seven votes.

W. MURRAY CRANE, of Dalton, four hundred twenty-one votes.

WILLARD O. WYLIE, of Beverly, four votes.

Blanks, fifty-one.

For Secretary of Commonwealth.

ADDISON W. BARR, of Worcester, four votes.

CHARLES D. NASH, of Whitman, ninety-four votes.

WILLIAM M. OLIN, of Boston, four hundred and twenty-eight votes.

EDWIN SAWTELLE, of Brockton, four votes.

BERNARD M. WOLF, of Boston, thirty-four votes.

Blanks, sixty-three.

For Treasurer and Receiver General.

GEORGE A. BROWN, of Lynn, one vote.

ROBERT C. HABBERLY, of Hyde Park, seven votes.

EDWARD P. SHAW, of Newburyport, four hundred and four votes.

HORACE P. TOBEY, of Wareham, forty-three votes.

THOMAS A. WATSON, of Braintree, one hundred and one votes.

Blanks, seventy-one.

For Auditor.

JOSEPH BALLAM, of Boston, one vote.

HARRY DOUGLASS, of Great Barrington, thirty votes.

JOHN W. KIMBALL, of Fitchburg, four hundred and thirteen votes.

JOSEPH HENRY SHELDON, of Haverhill, ninety-nine votes.

HERBERT M. SMALL, of Templeton, five votes.

Blanks, seventy-nine.

For Attorney-General.

Wolcott Hamlin, of Amherst, seven votes.

William Harrison, of Lawrence, four votes.

Hosea M. Knowlton, of New Bedford, four hundred and fifteen votes.

William W. McClench, of Chicopee, thirty-five votes.

John A. O'Keefe, of Lynn, ninety votes.

Blanks, seventy-six.

For Councillor (Second District).

Dana Estes, of Brookline, forty-three votes.

Benjamin S. Lovell, of Weymouth, three hundred and ninety-eight votes.

George O. Wentworth, of Stoughton, one hundred and four votes.

Blanks, eighty-two.

For Senator (First Norfolk District).

Harrison O. Apthorp, of Milton, one hundred and three votes.

James H. Flint, of Weymouth, three hundred and fifty-two votes.

Tristam R. Newell, of Braintee, ninety-three votes.

J. C. Casey, one vote.

Blanks, seventy-eight.

For Representative to General Court (Fourth Norfolk District).

Frederick P. Drake, of Canton, two hundred and eighty-one votes.

George R. R. Rivers, of Milton, three hundred and twenty-six votes.

Blanks, twenty.

For County Commissioner.

JAMES HEWINS, of Medfield, four hundred and sixty-six votes.

FRANK DUDLEY, one vote.

A. A. BRACKETT, one vote.

Blanks, one hundred and fifty-nine.

For Register of Deeds.

JOHN H. BURDAKIN, of Dedham, four hundred and fifty-nine votes.

Blanks, one hundred and sixty-eight.

For County Treasurer.

CHARLES H. SMITH, of Dedham, four hundred and forty-eight votes.

Blanks, one hundred and seventy-nine.

At 4 o'clock P. M., *Voted*, That the polls be closed in ten minutes.

At 4 o'clock and ten minutes, *Voted*, That the polls be closed.

All of the above votes were duly sorted, counted, declared, and recorded, sealed up in open town meeting and delivered to the Town Clerk.

At the meeting aforesaid, Messrs. George V. Fabian and Hazen B. Williams, Republicans, and James H. Haley and Bernard F. Murray, Democrats, were appointed by the Selectmen as Ballot Clerks, and Jesse B. Baxter, Harvey F. Chute, C. Russell Hurd, Charles S. Pierce, W. Newton Harlow, Republicans, Charles E. Churchill, Edmund J. Duffy, William F. Walsh, Thomas M. Lennon, John H. Watson, Democrats, were appointed Tellers to receive, sort, and count votes, all of the above being sworn by the Town Clerk.

At five o'clock and thirty minutes, *Voted*, That the meeting be dissolved.

A true record.

Attest: HENRY B. MARTIN,
Town Clerk.

Whole number of ballots cast, six hundred and twenty-seven.

Recount of votes for Representative.

George R. R. Rivers, one of the candidates for Representative to the General Court, having petitioned for a recount of votes, cast at the election held upon November 2, for Representative, the Selectmen and Town Clerk met at 3 P. M., on November 9, at the Town Hall in Milton, and proceeded to canvass the votes cast at said election for said office.

The votes having been counted, and no change in the result of the balloting being had, the ballots were again sealed up and delivered to the Town Clerk.

Attest: HENRY B. MARTIN,
Town Clerk.

Fourth Norfolk Representative District.

We, the undersigned, Town Clerks of the towns of Canton and Milton, comprising Representative District Number Four, in the County of Norfolk, hereby certify: —

That at an election duly held in said towns on the second day of November, A. D. 1897, for a candidate to represent said district at the next General Court, the following number of votes were given in for the several persons hereinafter named, to wit: —

For FREDERICK P. DRAKE, of Canton, six hundred and twenty-eight votes.

For GEORGE R. R. RIVERS, of Milton, six hundred and fifteen votes.

Blanks, fifty-one.

Given under our hands at Canton, this twelfth day of November, A. D. 1897.

WALTER AMES,
HENRY B. MARTIN,
Town Clerks of Canton and Milton.

REPORT OF SELECTMEN.

POOR DEPARTMENT.

The Town Farm has continued in charge of Mr. and Mrs. Elias C. Conant during the year.

The number of inmates has varied from six to twelve, and they have been well cared for. The aim has been to make the Farm more productive, and to keep the inmates busy at useful work.

The Farm has furnished enough wood, sawed, split, and delivered, to provide the poor throughout the town.

The water-supply at the Farm is not satisfactory, the well becomes dry or very low every summer, and the cistern is then insufficient for the needs of such an institution. There is no water for fire-protection. A supply from the Water Company's pipes should be provided at the earliest practicable time.

STREET LIGHTING.

Early in the year a new contract was made with the Electric Light Company, which follows to some extent the terms of the previous contract, but with some improvements by which a fairer method of ascertaining the candle-power is made use of.

We think that the company has suffered from past mismanagement, but has tried during the year to give the town a good light, and has succeeded, with few exceptions, in doing so.

The March test showed 25.6 candle-power; July test, 24.09; September test, 22.0; November test, 20.7; and the

January test, 22.4 candle-power. The contract calls for twenty-five candle-power.

We think that since early September, when the additional lights were being placed on streets not before lighted, as voted by the town at the last annual meeting, that the lights have not been up to the standard before maintained, and that the company should do whatever is needed to make its plant do the work as well at least as it did before.

We think also, after some investigation and a comparison of the terms under which incandescent street light is furnished other Massachusetts towns, that it is very doubtful if we are paying as much as we ought for what we are getting, and that the price paid for street lights should be raised. It does not seem to us that it is advantageous to the town to pay to a light company located and owned in the town, a price at which the company can barely exist.

We made arrangement in March with the Metropolitan Park Commissioners, by which they assume the cost of maintaining fifteen lights located on the Blue Hill Parkway, and we have placed about this number of lights on other streets where most needed.

NEPONSET VALLEY SEWER.

This system of sewerage, with its outlet through Moon Island to the sea, has been a subject of sharp contention between the Metropolitan Sewer Commission, the city of Boston, and the surrounding cities and towns, for some time, and the past year has been no exception. Numerous hearings by legislative committees were attended, at which the town was represented by counsel, and strong effort put forth in conjunction with other municipalities to further the passage of such legislation as would impose a just tax, and no greater, upon surrounding cities and towns for the use or purchase of Boston's outfall works.

The apportionment of the cost of the Neponset Valley Sewer being in our opinion unjust to the Town of Milton, and it having been upheld by the single justice to whom it was referred, appeal was made to the full bench of the Supreme Court, the case was heard in November, and the Court has since sent down a decision confirming the apportionment.

STREETS.

Mr. Richard A. Clink of Natick was appointed Superintendent of Streets, and has been in charge of the Department since April 1. Under his direction the stone-crushing plant was greatly improved before commencing operations, a new engine was put in, and arrangement made for the more careful assortment of the crushed stone as it comes from the crusher. Early in the season improvement was made in Brush Hill Road by laying drains and building catch-basins to carry away the water which falls on the road, and also to drain off the water in and below the road-bed. While this sort of work does not make a great showing on the surface, it is beyond doubt of large importance in roads having long or steep grades, as many of our Milton Roads do, and especially in very wet and springy soil, such as that on the north slope of Brush Hill.

Canton avenue, from H. J. Gilbert's entrance westerly to the line of the Blue Hill Parkway, has been one of the sections of street to be rebuilt and macadamized this year. The portion of Canton avenue (about 650 feet) lying within the Blue Hill Parkway was also macadamized by agreement with the Metropolitan Park Commission, the Commonwealth paying the town $1,520 for doing the work.

Nearly all the crushed stone used in doing this macadamizing was quarried from one ledge of trap rock located on Pleasant street. This is a departure from the custom of

other years of using field stone gathered from all directions within a mile or more of the crusher. The advantage of using stone of one kind, instead of the many kinds of loose scattered boulders, is that the wear of the road is perfectly uniform, each stone being of equal hardness and wear with every other stone. The advantage of using this particular kind of stone is that it contains a large proportion of the wearing and cementing qualities necessary for the best road-building. This fact was ascertained by a test of the stone made by the Massachusetts Highway Commission, whose report shows that the stone is of excellent quality. Only a comparatively limited quality can, however, be got advantageously from this ledge. One or two ledges exist within the town, from which a great supply of excellent road-building material can be obtained. We believe that it would be of the utmost value to the town to purchase such a spot and locate there permanently the crushing-plant. It would be a financial saving, and would produce better results in our roads.

The Selectmen have attended to their duties in maintaining the guideboards on the public ways.

At the last March meeting the town voted that a sidewalk be built on Adams street, from Chapman's line to Eliot street. When preparing to carry out this vote, the Selectmen found that Mr. Lemuel Crossman claimed rights in some twelve feet of land in front of his stable, and was unwilling that the town should enter upon this land for the purpose of building a sidewalk. Upon careful search, the records of the county and town showed a somewhat complicated state of rights in the land in question, and it seemed best to us, as the case stood, not to build.

It was our intention to re-surface Adams street at the village, put in a cross-walk at the station, and put the street in good shape; but, on finding that the street was to be torn

up by the Metropolitan Water Board in laying their water-pipes, we decided that it would be wiser not to do any of the work contemplated until after the water-pipes were laid. This part of Adams street should receive early and thorough attention next season.

The laying of this Metropolitan Water Supply pipe has been a source of much annoyance to the Selectmen and inconvenience to the citizens. The coming of winter prevented the complete finishing of the surface work, but we have the assurance of the engineer in charge that the surface of this street will be properly cleaned up and graded as soon as the frost is out of the ground.

In October, several street widenings were laid out, and reserved spaces defined for the use of electric street cars, in accordance with the reserved space act. These spaces having been accepted by the town at a special town meeting held Oct. 26, franchises were granted on Dec. 10 to the Boston, Milton & Brockton Street Railway Company for the route between Milton village and Randolph, and to the Quincy & Boston Street Railway Company for the route between Mattapan and East Milton. The former company having been granted some modifications in their franchise, it was accepted by them; the latter company did not accept. We think that, if it can be accomplished without too great expense, it would be well for the town to widen these thoroughfares, and have the cars run in the middle of the street.

NEPONSET RIVER PARKWAY.

On July 2, the Selectmen concurred in a taking by the Metropolitan Park Commissioners of some seven acres of land on the bank of the Neponset River, near Paul's Bridge. The strip taken skirts along the river bank from Paul's Bridge to the boundary line of the town of Hyde Park.

PERAMBULATIONS AND STONE BOUNDS.

In June, four stone monuments were erected on the southeasterly side of Squantum street to mark certain angles which had not been previously marked in our boundary line next the city of Quincy.

In October, a stone monument was set at the south corner of Milton, joining Canton and Randolph. This point had previously been indicated by a cedar stake.

Perambulations were made, as required by statute, of the boundary lines between our town and Hyde Park, Canton, and Randolph, Selectmen of those towns being present with us.

HALL AND LOT.

The avenues about the hall have been gravelled, and a new vault for the use of the assessors has been built, in accordance with the votes of the town.

We recommend that a sufficiently large appropriation be made for the ensuing year, so that a new tin roof can be put on the main roof, and so that the town water may be introduced into the building, and better sanitary arrangements be made.

In closing our report to the town, we wish to say, that, while difference of opinion has sometimes prevailed, our associations on the Board have been always pleasant, and our desire has been to conduct the town's business for the best interests of all its citizens.

ARTHUR H. TUCKER,
J. WALTER BRADLEE,
A. A. BRACKETT,
Selectmen of Milton.

MILTON, Feb. 4, 1898.

SELECTMEN'S ESTIMATES OF APPROPRIATIONS REQUIRED FOR THE ENSUING YEAR.

Schools (including transportation)	$59,000 00
Streets	37,500 00
Street-lighting	12,700 00
Poor, receipts from farm, etc.	8,000 00
Police department receipts, etc.	16,000 00
Soldiers' relief	500 00
Fire	15,000 00
Cemetery	2,000 00
Public Library	2,000 00
Salaries (including Selectmen's clerk)	6,000 00
Town Hall and lot	1,500 00
Hydrants	7,000 00
Printing	1,300 00
State aid	1,200 00
Miscellaneous	3,000 00
Abatement of taxes	2,000 00
Interest	6,500 00
Post 102, G. A. R.	200 00
Board of Health	1,500 00

REPORT OF THE ASSESSORS.

The Assessors of the town of Milton submit this their annual report for the year 1897.

The Board was organized with E. D. Wadsworth, chairman, and T. Nelson Perkins, clerk.

They recommend an appropriation of $425 for clerk hire and renewal of land plans.

In accordance with the requirements of the Public Statutes the Board caused legal notices to be printed and posted requesting taxpayers to bring in true lists of their polls, real and personal estates.

They also visited all dwellings and places of business during the month of May as required by statute.

There was a loss of personal estate of $117,200 and a gain of real estate of $139,900 over the previous year; there was also a gain of thirty-six polls.

The commission appointed by the Governor to inquire into the expediency of revising and amending the laws of the Commonwealth relating to taxation has made its report. If the recommendations of the majority of the Commissioners are adopted the town of Milton will suffer a net loss of $97,924.18 annually in taxes, increasing the tax rate to twenty-one dollars on a thousand on the present valuation of real estate, if the same scale of expenditures is maintained.

The Assessors desire to call the attention of residents of the town owning stock in National Banks or Massachusetts Corporations to the necessity of having their residence recorded on the books of these corporations as of Milton, otherwise the tax on their stock which is paid by the corpo-

rations will be lost to the town. The Assessors found the names of thirty-eight residents of Milton owning stock in these corporations returned to the Tax Commissioner's office as being residents of other municipalities, which municipalities were credited with the tax that belonged to Milton.

E. D. WADSWORTH,
J. FRANK POPE,
T. NELSON PERKINS,
Assessors.

DEC. 31, 1897.

For the financial statement of the Assessors see pages 53, 123.

REPORT OF THE PARK COMMISSIONERS.

MILTON, Dec. 31, 1897.

To the Citizens of the Town of Milton:

The past autumn the graded field on the East Milton playground had a turf strong enough to allow of games being played on it. We hope to be able to get it in still better condition by another year. We have had the grade of the field continued out on the north side to the railway's land, and the New York, New Haven & Hartford Railway promises to put up a fence on the boundary line, dividing the expense with us, and which they will afterwards maintain. This fence seems desirable as marking our boundary, and further, as a safeguard against trespassing on the railway tracks.

We have had the dead trees removed from this lot.

At Waterside Common the bushes and some trees along the street have been cut out and a little rough filling done which leaves a row of fine elms fortunately planted long ago and opens a good view of the park and river from the road. Bushes along the river, too, have been cut out enough to increase the open space available for games. Seats have been placed at some of the more attractive points with reference to shade or watching any sports which may be in progress. Your Commissioners have under consideration some slight further improvements but deem it advisable to keep all the ground as simple and natural as is consistent with its proper enjoyment by those who use it. Of course its treatment will depend a little on the purposes for which it is used.

We have bought bound posts for the park and playgrounds in our charge, but were prevented by the frost from setting them this autumn and they must wait until spring.

A list of rules to regulate the use of the public lands seemed desirable, and we have posted a few. They read as follows: —

Rubbish must not be thrown on any park or playground.

Trees, shrubs, fences or buildings on the park lands must not be broken or defaced.

No fires are to be lighted.

Order is to be kept.

The police have instructions to enforce these rules if necessary.

For the general uses of the Commission we propose to ask again for $25.

At the last March meeting there was an article in the warrant asking the town if it would elect a Tree Warden.

It was voted to indefinitely postpone the article.

The duties of such officer are set forth in Chap. 190 of the Acts of 1896 as follows: —

ACTS, 1896. CHAPTER 190.

AN ACT *to provide for the preservation of public shade trees, and to authorize towns to elect tree wardens.*

Be it enacted, etc., as follows: —

SECTION 1. Any town may at its annual election of town officers elect a tree warden, to serve for one year.

SECT. 2. The tree warden shall have full care and control of all public shade trees in the town. He shall have charge of the expenditure of all public funds appropriated or granted for setting out shade trees, and may order the removal of such shade trees, or parts thereof, as he may determine to be for the best interests of the public, after hearing parties interested.

SECT. 3. No tree warden or other person shall cut down, remove or injure any live public shade tree until the warden has given public notice of the intention so to do by posting a notice on the tree to be cut in at least seven public places in the town. Said notice shall also appoint a suitable time and place for hearing all parties interested. At the time and place appointed the tree warden shall attend and hear all persons appearing relative to the matter, and shall then determine as to the necessity or expediency of such removal, and his decision shall be final.

SECT. 4. Tree wardens shall enter and prosecute complaints for malicious injury to, or unlawful acts concerning, public shade trees.

SECT. 5. Tree wardens shall receive reasonable compensation for their services from the town treasury.

SECT. 6. All acts or parts of acts inconsistent herewith are hereby repealed.
SECT. 7. This act shall take effect upon its passage.
Approved March 25, 1896.

Since then it has come to our notice that by Chapter 428 of the Acts of 1897, the Park Commissioners of Towns have the duties formerly given to Tree Wardens where such had been chosen.

This act reads thus: —

ACTS, 1897. CHAPER 428.

AN ACT *relative to the powers and duties of town officers.*

Be it enacted, etc., as follows: —

SECTION 1. Tree wardens or park commissioners, when chosen in towns, shall have full care and control of all public shade trees in the town, have charge of the expenditure of all public funds appropriated or granted for setting out shade trees, and perform such other duties as are prescribed in chapter one hundred and ninety of the acts of the year eighteen hundred and ninety-six, entitled "An Act to provide for the preservation of public shade trees and to authorize towns to elect tree wardens."

SECT. 2. In each town, having a population of more than five thousand, the board of health shall have charge of all matters relative to the licensing of slaughtering house and stables in the town, and shall send an annual report of the deaths in such town to the state board of health. The form of such reports shall be prescribed and furnished by the state board of health.

Approved May 25, 1897.

By this act we understand that we are expected to take charge of the road-side trees, and we ask for an appropriation of $500 for that specific purpose.

(Signed) J. HENRY BROOKS.
NATHANIEL T. KIDDER.
H. A. LAMB.

SECOND ANNUAL REPORT OF THE SEWER COMMISSIONERS.

MILTON, Dec. 31, 1897.

To the Citizens of Milton, Mass.:

Conditions have so changed since the report was made in 1895 by the Committee on Drainage, that the Sewer Commissioners feel that the plan then drawn by George A. Kimball, approved by the State Board of Health and accepted by the town, is inadequate, and work ought not to be constructed in accordance with it.

Concisely speaking, the plan of 1895 provided for sewer connections being made by the Town of Milton with the Neponset Valley low-level sewer and Dorchester intercepter, at four points, viz., at Mattapan, Central avenue, Adams street, and at Granite avenue.

The plan provided sewers for 1100 acres of the town and were 87,045 feet in aggregate length, estimated to cost $206,420.

As this did not seem to include all the districts of the town where sewers might be wanted in the immediate future, your Commissioners thought best to study the problem more closely, and offer for your approval the accompanying plan for 55 miles of streets, estimated to cost $585,000, comprising all sections of the town that can, with accuracy, be planned at present.

Local sewers running near large undeveloped tracts, which may not be subdivided for years to come, are figured of sufficient size to provide for five people to the acre, which will probably be the maximum average density in the outlying districts for thirty years.

We find in the 7th Annual Report of the Metropolitan Sewerage Commission (1896) the following, written by the Chief Engineer: —

"The Neponset Valley can find an outlet for its drainage until about 1905 in the Dorchester intercepter of Boston main drainage system, after that date it will be best to co-operate with the City of Boston in constructing the high-level sewer from Hyde Park to Squantum, and that this outlet will be competent until about 1915, when duplicate outlet works will yield a safe disposal until after 1930."

This means, that in seven years the intercepting sewer, which, under the Kimball plan, affords the only outlets for our sewers, may be overloaded.

With this knowledge, it did not seem wise to the Commissioners to continue work under the existing plan, without specific directions so to do from the town, and it is the judgment of the Commissioners that any plan that may require extensive remodelling within seven years from the time construction is begun, is scarcely a wise undertaking for the town to embark in.

Careful study of the topography of the town, and the running of various lines of levels to the Readville district, show that it is possible to run a local high-level gravity trunk sewer from Paul's Bridge to East Milton, in such a location and at such a grade as to sewer the entire area of the town, excepting only the districts embracing 100 acres at Mattapan, 90 acres at Central avenue, and 460 acres between the Lower Mills and East Milton, the latter being largely composed of salt marshes that probably may never be used for either residential or business purposes.

This high-level sewer would be at such a grade where it crossed the easterly boundary of the town that it could be extended to the sea at Nut Island without pumping being required.

While these investigations and surveys were being made, it was learned that the Engineer of the Metropolitan Sewerage Commission was actually running trial lines for a high-level sewer to relieve the possible gorging of the Neponset Valley sewer. Informal conferences followed which showed that the line proposed by the Metropolitan Commission was substantially identical between Thacher street and Centre street, with the line selected, tentatively, by your Commission for the Milton local trunk, and that the Metropolitan project was, to get authority to build to Squantum or to Nut Island, either of which schemes would, when constructed, practically eliminate, almost entirely, the cost of pumping Milton sewage, which, by the plan heretofore considered by the town, was essential.

The Metropolitan Sewerage Commissioners' Report for the year ending Sept. 30, 1897, gives a supplementary opinion of their Chief Engineer on the proposed high-level sewer through Milton, which it seems well to quote in full, as it concerns, virtually, the general arrangement of our laterals.

Boston, Mass., Aug. 24, 1897.

Hosea Kingman, Tilly Haynes, George A. Kimball, *Board of Metropolitan Sewerage Commissioners.*

Gentleman: – In compliance with your request, preliminary studies have been prepared of probable cost of sewage disposal for the Charles and Neponset River areas of the Metropolitan sewerage system, by other means than through the main sewers and pumping station of the main drainage works of the City of Boston. The results of these studies are herewith submitted.

The total area at present tributary to the main drainage works is approximately one hundred and twenty-one square miles, divided as follows: —

City of Boston (square miles)	23
City of Quincy (square miles)	12
Charles and Neponset areas of Metropolitan sewerage (square miles)	86

This is approximately one hundred per cent in excess of the area for which the works were originally designed. The excess is made up by the addition of the following cities and towns in the area as originally outlined: Waltham, Watertown, Dedham (nearly the whole of the town, including the main village), Hyde Park, Milton, and Quincy.

The very large added areas and the increase of population, much in advance of the original estimates, have so materially reduced the life of the works that the

ultimate capacity will probably be attained about A. D. 1910, or from ten to fifteen years earlier than anticipated in the original studies. This fact is further outlined in the seventh annual report of your Board, pages 44 and 45.

Of the area now tributary to main drainage, sixty-one square miles, or about fifty per cent of the tributary area, is of sufficient elevation and suitably located to collect its sewage in a gravity sewer, outletting at Moon Island or elsewhere on the coast. Such a high-level intercepter was contemplated in the original design of main drainage, and a branch nine feet in diameter was built into the main sewer at Squantum in anticipation of it.

The necessities of the Neponset valley will probably require the construction of a high-level relief sewer to Hyde Park as early as A. D. 1905, as outlined in the seventh annual report of your Board, pages 42 to 46, inclusive. As the Moon Island outlet could provide for it for only five or ten years, it would appear desirable to construct a new outlet at Nut Island, Peddock's Island, or elsewhere. The probable route of such a high-level sewer when built above Hyde Park could pass within a short distance of the lower end of the Charles River main. A practical and comparatively inexpensive scheme would be to sufficiently enlarge this high-level sewer when built, and receive sewage from the Charles River area lifted to it about forty-five feet by pumps located near the lower end of the Charles River system.

On the accompanying map are outlined, in brown, areas naturally tributary to such a high-level sewer; areas in the Charles River valley and lower Neponset and Quincy requiring to be pumped are outlined in blue.

Quincy is already preparing to pump all its sewage about thirty feet to Squantum; to the high-level sewer, as shown, drainage from only the two lower areas will need to be lifted about twenty feet, while the higher parts of the city can drain into it by gravity.

Preliminary estimates of cost from the best available data have been prepared for a high-level sewer over the routes indicated on the map to Moon Island, Nut Island, and Peddock's Island, with and without enlargement sufficient to receive Charles River sewage. No surveys or geological studies of the ground have been made.

Table of gross cost for high-level sewer, as shown on accompanying maps, from corner of Boylston and Cypress streets in Brookline to outlet at coast, including pumping stations and force mains in Charles and Neponset river areas, not including cost of pumping station and force main in Quincy: —

To Moon Island:	
High-level sewer without Charles River sewage	$3,922,296
High-level sewer with Charles River sewage	4,714,925
To Nut Island:	
High-level sewer without Charles River sewage	$3,331,856
High-level sewer with Charles River sewage	4,202,956
To Peddock's Island:	
High-level sewer without Charles River sewage	$3,745,516
High-level sewer with Charles River sewage	4,618,713

From the foregoing table it appears that about nine hundred thousand dollars for either of the three routes would be the total cost of enlarging a high-level trunk sewer sufficiently to receive Charles and Neponset area sewage needing to

be pumped, and providing pumping stations and force mains from present metropolitan areas outlined in blue.

The studies thus far made indicate that by A. D. 1905 a high-level sewer will probably have been constructed. At that date the sewage from about one fifth of the Neponset and nine tenths of the Charles River area will require to be pumped.

The expense of disposal for these areas through the high-level system for the decennial period, A. D. 1905 to 1915, will be approximately as follows: —

Interest and sinking fund charges, 3½ per cent on $900,000		$31,500
For maintenance of Charles River pumping station: —		
Labor	$6,000	
Coal and supplies	6,000	
		12,000
For maintenance of Granite Bridge station: —		
Labor	$3,000	
Coal and supplies	2,000	
		5,000
Total yearly charges		$48,500

For disposal through main drainage system by rental for these areas, as outlined in letter of B. W. Wells, of Jan. 23, 1896, for A. D. 1905 to A. D. 1910, is: —

1905	$65,300
1910	74,600

averaging for the period, $69,900.

The conclusions from the study are as follows: —

The capacity of Boston's present outlet at Moon Island is so rapidly being taken up by the sewage from the very largely extended areas now tributary to it, that when the high-level gravity sewer is built it will probably be found wisest to seek a new outlet for it at the coast; that the necessities of the Neponset valley will require this high-level sewer about A. D. 1905; that when built it can be slightly enlarged to receive through pumps the Charles River sewage, at reasonable and practicable costs, and with ecomomy, above rental at present demanded by the city of Boston.

To determine the most desirable location for a new outlet at the coast for a high-level system would require careful hydrographic surveys extended over a year or more. Much of the sewerage of Milton is possibly dependent on the route of a future high-level sewer through that town. In Hyde Park and the southerly section of Stony Brook area of the city of Boston, definite knowledge is already needed of the future high-level route, to enable engineers to prepare studies of sewage relief for these areas. The State Board of Health has practically prohibited overflows from your Neponset valley system, which will necessitate an additional relief outlet at an early date.

It would seem desirable to arrange, if possible, for a comprehensive study of the future high-level problem. It might offer a solution of the question of future rental to the city of Boston. Profiles and detailed estimates of routes indicated accompany the general map.

Respectfully submitted,

(Signed) WM. M. BROWN, Jr.,
Chief Engineer.

The presentation of this new plan has required the running of more than 70 miles of levels, the making of profiles for that entire length of streets, and the discussion in much detail of all possible schemes.

While we advise the use of temporary outlets for two districts, the area so sewered will not be a large one, and we consider such outlets essential for the health of residents living in the districts.

Your Commissioners have, therefore, adopted the accompanying plan in the belief that it will prove the least expensive scheme to carry out, that will accommodate the entire area of the town; and that it will require to be modified only in unessential details, until after the population has reached 30,000.

CONSTRUCTIONS FOR 1897.

When plans and details for construction were perfected, specifications were written and separate bids called for, on labor, and all classes of materials and contracts awarded the lowest responsible bidders; the quality of the finished work is entirely satisfactory to the Board. The method of separating the labor from the materials resulted in giving the town the benefit of all trade discounts, though it gave more trouble to the Superintending Engineer, and necessitated yards in which to store materials.

Excepting 400 feet of pipe sewer laid in Blue Hill avenue, the work at Mattapan was confined to Blue Hill Parkway.

The sewer construction in the Parkway was rendered more costly and tedious than was at first contemplated on account of the unwillingness of the Metropolitan Park Commissioners to allow the construction of a single line of sewer in the Parkway.

The duplication of pipes rendered necessary, a double length of trenching, and the location preferred by the

Metropolitan Park Commission forced upon us rock-cutting that was very onerous and expensive.

At the Lower Mills, connection was made between the old sewer on Adams street and the Metropolitan sewer; the former outlet of the Adams Street sewer at the railroad bridge has been retained as an overflow in the time of heavy rains, the intercepting sewer being retained for sewage only.

During the progress of this work, it was found that when the Adams Street sewer was laid, the lower end near the outlet was laid higher than the portion built under and near the Adams Street bridge over the railroad; as a consequence, several hundred feet of the sewer next above this point were almost entirely filled with sand and sewage which had been accumulating ever since the sewer was built. That portion of the sewer that was not down to grade is now being taken up and relaid at the proper grade, and the deposit in the pipe flushed out so that there is no likelihood of a recurrence of the trouble.

Eventually the existing Adams Street sewer should be used for surface or ground water exclusively, and a new separate sewer laid for house-wastes.

The appropriations for 1897 were $18,000 expended as follows: —

Mattapan District	$12,271 49	
Lower Mills	2,160 20	
Surveys and plans	502 78	
Total expenditure		$14,934 47
Unexpended balance, Dec. 31, 1897		$3,065 53

In addition to this, the expenditures made by the Metropolitan Sewerage Commission for connections with the intercepting sewer were as follows: —

Mattapan, 198 feet	$3,813 50
Central Avenue, 294 feet	1,403 42
Lower Mills, 201 feet	519 94

CONSTRUCTION ADVISED FOR 1898.

We ask an appropriation of $20,000, to better the sanitary conditions existing on *Russell*, *North Russell*, *School street*, *Canton* and *Randolph avenues*, with a temporary outlet into the Dorchester intercepter at Central avenue.

We also ask an appropriation of an additional $20,000 for general sewerage purposes and for the work on the Granite avenue outlet, because, in our judgment, the next district to need sewers will be that section of the Town, and the location to be obtained along 2,400 feet of Granite avenue will be very unsatisfactory, and will need either piling or floating on a cradle, either of which requires time, is expensive, and ought not to be hurried.

Respectfully submitted,

ERNEST W. BOWDITCH.
JOSEPH E. HALL.
ELLERTON P. WHITNEY.

For the financial statement of the Sewer Department see page 128.

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

The trustees have no change of method to report or propose.

The number of books added during the year has been about the same as last year, which, it may be remembered, was more than the year before.

Nor does any material increase or decrease appear in the number of books taken out; and the use of the library rooms, both in Milton Village and East Milton, is sufficient to assure us that the library is doing a service to the town.

In past years we have asked for a sum of money and the "dog tax." Last year we asked in the warrant for $2,400, and ask for the same sum again this year. The change was owing to a different method of treating the unexpended balances of the town, and the fact that the dog tax is not received until late in the spring.

Though the town has in public meeting expressed its keen sorrow in the loss of Edward L. Pierce, it is not possible to send in this report without referring to his death as depriving this Board of Trustees of one of its most devoted and valued members.

For the Trustees,

NATHANIEL T. KIDDER,
Secretary pro tem.

For the financial statement of the Library see page 108.

REPORT OF TRUSTEES OF MILTON CEMETERY.

The trustees of Milton Cemetery herewith present their annual report.

Again has death invaded the little band of the trustees. Col. William H. Forbes, who was elected, in 1897, to fill the position of the late Col. Peabody, attended but three meetings of the Board; but, even in this brief service, we realized the value of his suggestions, and the enjoyment of his presence.

In recalling, however, his connection with this same Board in former years, where his deep interest in the cemetery, his wise and excellent judgment in its management were seen by all, we feel more deeply the loss to his co-trustees and to the town.

The trustees, with much reluctance, accepted the resignation of James H. Packard, whose efficient and valued services as superintendent had extended over many years, and given general satisfaction to the citizens.

They placed in the vacant position Frank L. Gage, who came to the peculiar duties of the cemetery inexperienced, and, in a measure, unequipped for the work; but, thus far, they have been well pleased with his services.

The trustees believe the town has taken a wise course in securing for the future needs of the cemetery the Peabody lot of twenty-two acres.

This lot adjoining the cemetery is admirably adapted to our purposes; and the work of the former owner in laying out the land as a private park, leaving trees and shrubs, and the outlines of the surface in the undisturbed condition of nature, is exactly in the line of our needs.

The town has now nearly fifty-nine acres devoted to burial purposes, which would seem to be sufficient for many years to come.

The Trustees do not recommend that the new purchase be brought into present use, except as the needs of the town require. Nor do they think it wise to expend large sums of money on this land. They recommend, however, that a plan of the new territory be secured, connecting it in a proper way with the old, and putting it in readiness for future use. For this purpose they ask a special appropriation of two hundred and fifty dollars. And as the usual appropriation is barely sufficient to meet the needful expenditures on the present grounds, they also ask that the rents of the house be set aside for the care of the house and the new grounds as far as needful.

In the work of the year under review, thirty-two lots have been taken by citizens and put in order. Two of these were old lots surrendered by their owners to the trustees. Three others were newly laid out, fifty loads of loam filling being required for grading. One of these three lots was trenched to a depth of five feet, several boulders and a large amount of stone being removed therefrom. The remaining twenty-one lots had been graded, and were ready for placing of stone work. Two of the last were sold to non-residents closely connected with the town and townspeople.

Ten old lots have been renovated, new steps being placed in two. A hedge around one of these was removed, the lot reseeded, and a large boulder weighing between five and six tons removed therefrom. Nine lots were laid down to grass.

The Soldiers' Lot has been put in order, the posts with cannon balls on top, and the tablet marked "Soldiers' Lot" being set in position, making the lot ready for use. Foun-

dations have been laid for twenty-two tablets and five monuments.

There have been eighty-five burials during the season. Of these, ten were from the receiving tomb, forty-eight were residents of Milton, and thirty-seven non-residents. Of the latter number, seven were removals from other cemeteries to this.

The time of three men is occupied through the whole growing season in clipping the lots and keeping the same in order. The paths and avenues require constant care and attention, so that the whole working force now employed by the cemetery is hardly sufficient to keep the present grounds in proper condition.

The trustees respectfully request for the old grounds the usual appropriation of two thousand dollars for the ensuing year.

Respectfully submitted,

A. K. TEELE,
for the Trustees.

DEC. 31, 1897.

For the financial statement of the Cemetery see page 105.

ANNUAL REPORT OF THE SUPERINTENDENT OF STREETS.

To the Honorable Board of Selectmen:

GENTLEMEN, — I hereby submit my report as Superintendent of Streets from April 1, 1897, to Jan. 1, 1898.

In the following table will be found a complete schedule of work done on various streets, resurfacing where the work done was of a permanent nature, no record being made unless more than four inches of material was applied.

STREET.	Length in Feet.	Width in Feet.	Square Yards.	Material.	No. of Catch-basins.	Yards of Paving.	Feet of Fence.	Sidewalk, Square Yards.	Cross Walk.	Feet of Underdrain.	Size of Pipe.
Adams St.	.....	....	.....	.....	3	....	....	....	....	360	8"
Atherton St.	1,000	16	1,778	Gravel.	....	389	....	....	....	....	....

UNDERDRAIN TABLE, BRUSH HILL ROAD.

Under the direction of your Honorable Board, there was placed in this road a 10″ Akron pipe, laid on the high side of the road, beginning at estate of A. L. Hollingsworth and extending 3,132 feet to a point just west of the Peabody estate. At suitable distances brick catch-basins were built. The total cost of same basins was $1,650.75, or 52 66/100 cents per foot. The amount of water which is constantly running in this drain, also the manner in which it cares for the surface-water, is a sufficient warrant for the expenditure.

CANTON AVENUE.

Cost of macadam, 1,231 3/8 tons, at $1.19	$1,465 34
" teams	513 90
" grading	224 50
" steam-roller	105 00
" underdrains and catch-basins	1,696 40
	$4,005 14

By referring to table above, total length and width and number of square yards will be found.

STREET SPRINKLING.

During the past year six watering carts have been employed in this work, the cost being as follows: —

Paid to James Donahoe	$520 77
" H. B. Reid	570 00
" George Simpson	580 00
Credit of town teams	1,044 00
Milton Water Company	1,186 34
	$3,901 11

At the request of your Honorable Board I submitted an estimate to the Metropolitan Park Commission for the watering of Mattapan street, the amount being $550.00 for four months. With this amount we were able to increase the number of streets watered in that section belonging to the Town, at the following cost: —

H. B. Reid, labor	$403 75
Milton Water Company	87 00
	$490 75
Amount of Contract	550 00
Balance	$59 25

STONE CRUSHER.

The number of tons of stone crushed was 2,779, and the actual running time was 556 hours. The crushed material gave the following percentages of the different sizes: —

Size No. 1,	430 tons, 200 lb.	15 47/100% whole
Size No. 2,	403 tons, 1630 lb.	14 53/100% "
Size No. 3,	1,839 tons, 1960 lb.	66 21/100% "
Size No. 4,	105 tons, 1020 lb.	3 79/100% "

Cost of coal,	$154.33; per ton,	$0.05 1528/2779
Cost of oil,	73.40; per ton,	.02 1782/2779
Running expenses,	694.76; per ton,	.25
Loading "	406.00; per ton,	.14 1694/2779

Average amount crushed per hour, 5 tons.

The cost of stone crushed and loaded on carts was $1.19 per ton. While this is a figure in the vicinity of 50% better than what it has cost the Town in previous years, yet it is not what it should be, and for this reason: last year it cost to keep screens clear, 5 33/100 cents per ton about,

14 50/100 cents per ton to load into carts, making a total of 19.83 cents per ton, which could be saved by the erection of elevator and storage bins.

NEW ENGINE.

Owing to the extensive repairs ordered by the State Inspector on the old engine and boiler, it was thought advisable to purchase a new outfit, and $487.00 was paid for a new thirty horse-power locomotive boiler and twenty-five horse-power slide-valve engine delivered at Mattapan. It was put into operation and the expense of crushing stone per ton was reduced as follows: $0.04 for coal, $0.08 per ton for crushing, and the average output was increased from 2 4 5 tons per hour to 5 1/2 tons per hour.

Much comment has been made as to the policy of using stone of even quality and hardness. Trap stone was considered too hard. In the past it was also considered that not enough had been located to warrant its use. Early in the season my attention was called to a dyke of stone located south of Pleasant street, and on examining the same I considered it somewhat above the ordinary. I made application to the State Highway Commissioners for a test of the same; on June 16 a test was made, and the result shows a coefficient of wear of 25.73, a remarkably high test in comparison with other tests made in different localities, as follows: —

Saugus	21.22
Newton	20.79
Lynn	20.37
Newburyport	16.10
Quincy	15.21
Salem	15.51
Field stone (five tests)	5.01 to 9.47

The above figures show for themselves the folly of using an inferior quality of stone with almost sixty per cent less of wear and only about seven per cent less in cost.

Under the contract which was made with the Metropolitan Park Commissioners to macadamize that part of Canton Avenue which was under their control, I make the following report of the cost:

Steam roller	$45 00
Cost of grading	127 50
709 tons of stone, at $1.19	843 71
Cost of teams	292 93
	$1,309 14
Contract, Metropolitan Park Commission	1,520 00
Balance	$220 86

I submit the following estimate for rebuilding, in best manner, certain portions of the streets which are most in need of improvement, and which have been called to my attention by residents along those streets.

Adams street from Bridge to Churchhill's lane	$7,410 00
Brook road, from Brush Hill road to Vose lane	9,796 45
Brush Hill road, from Hollingsworth estate to Brook road	3,322 90
Canton Avenue, from Atherton street to Babcock's Hollow	4,254 30
Canton avenue, from Vose lane to C. C. Holmes' estate	7,021 45
Reedsdale road, from Canton avenue to Randolph avenue	4,750 00

Randolph avenue, from Russell street to H. H. W. Sigourney's . .	$4,400 00
Street sprinkling	4,000 00
Elevator and bins at crusher . .	950 00
Street cleaning	3,500 00
General repairs	6,500 00
Support of horses and teams . .	3,500 00
Care of catch-basins . . .	600 00

The above estimates are for macadam work, and I would recommend that on principal streets no gravel construction be made.

All of which is respectfully submitted.

RICHARD A. CLINK,
Superintendent of Streets.

For the financial statement of the Street Department see page 94.

INVENTORY OF STOCK IN STREET DEPARTMENT, DEC. 31, 1897.

4 bushels corn	$1 80	1 neck yoke	$4 00
3550 lb. hay, at $20 per ton	35 50	8 hay forks	6 00
27 bushels of oats	9 18	3 strings of bells	3 00
4 bushels of ground oats	1 76	1 stable lamp	4 00

2 60-gallon hub oil tanks	12 00
Gravel screens	20 00
	$11,153 50

ENGINEERS' REPORT.

To the Honorable Board of Selectmen:

GENTLEMEN. — The Board of Engineers herewith presents its annual report. This has been a busy year for the Fire Department, there having been quite a number of small working fires, but no fire has extended beyond the building in which it originated.

There were an unusual large number of alarms for brush fires in the spring, but all of these fires were of trifling importance.

In our reports for several years past we have called attention to the fact that it was the duty of all citizens to know where the nearest fire alarm box was to their property and how to give the alarm. We think our warning has been heeded by many of our citizens, but not by all as there were two cases this year where the want of this knowledge caused a fire loss much greater than there was any necessity for.

The annual appropriation of $15,000, with the department as at present constituted, is sufficient, with proper care, to pay all annual running expenses; but it will not allow of any unusual expenditures, though the same may be most necessary. It seems best for us, in asking for money for the annual maintenance of this department, to ask for an amount necessary for regular annual expenses only and to ask for any money necessary for unusual expenditures in the form of a special appropriation.

These unusual expenses seem to be accumulating faster than we have been able to provide for them. There are several at present.

The removal of the bell on the Town Hall to a tower to be built on the Central Fire Station, and the remodeling of the stable at the Central Fire Station, both most desirable improvements, have been spoken of in previous reports.

We are now confronted with the necessity of 1000 feet of new hose, several new fire alarm boxes, and giving the running gear of our steam fire engine a general overhauling. We trust some of the matters may be attended to the coming year.

These improvements and additions will cost as follows: —

Moving bell from Town Hall to Central Fire Station	$800 00
Remodeling stable, Central Fire Station	1,200 00
New Hose	650 00
Overhauling steamer	300 00
New fire alarm boxes	750 00
	$3,700 00

The general physical condition of the department has been fully maintained during the year, and the conduct of both regular and call men has, as a whole, been most satisfactory.

We have responded to four Boston alarms and one Hyde Park alarm, and Boston has responded to ten Milton alarms.

One death has been caused by fire, one citizen and one fireman have received serious burns, and one fireman was injured by a kick from a horse.

The District State Fire Marshal has investigated three fires.

October 5, 1897, Christopher H. Whalen, Captain of Ladder Company No. 1, died of meningitis, in his thirty-seventh year. He was an enthusiastic, conscientious fireman, an efficient officer, and most highly respected by every member of this department. His untimely death is greatly to be deplored.

EXECUTIVE OFFICERS.

The executive officers are a chief and three district chiefs, — one more district chief than last year.

PERMANENT FORCE.

The permanent force is the same as last year, consisting of superintendent of wires, engineer of steamer, and six drivers of apparatus.

CALL FORCE.

The call force consists of forty men, two less than last year, assigned as follows: —

Engine & Hose 1	10
Hose 2	6
Hose 3	6
Hose 4	5
Ladder 1	9
Chemical 1	4

On account of resignations and promotions there have been a number of changes among the call members of the department. The new members appointed to fill vacancies have not as yet experienced any hard fire duty, but where an opportunity has presented itself they have worked well.

APPARATUS AND EQUIPMENT.

A new large hose pung has been bought for Hose 1, and the old pung has been repainted and fitted for Hose 2.

Hose 1 wagon, coal wagon No. 1, also the Superintendent of Wires wagon have been thoroughly overhauled, repainted and varnished. Small changes have been made in the running gear of the ladder truck.

The boiler of the engine has been thoroughly inspected and is pronounced good for four or five years to come. The

running gear is in poor condition and should receive attention.

A new length of 4-inch suction hose has been purchased for the engine.

All miscellaneous equipments have been kept in good repair.

HORSES.

There are twelve horses owned by the department. Nine are in good condition. Three are in poor condition. One disabled horse has been replaced. There will have to be two new horses bought the coming year.

HOSE.

There are 5,500 feet of $2\frac{1}{2}$-inch rubber-lined cotton hose, 4,000 feet in good order, 1,500 feet in from poor to bad order. Some of this hose has been in use from twelve to fifteen years which speaks well for the care it has had. 1,000 feet of new hose should be bought.

BUILDINGS.

The driveway in front of the Central Fire Station and a small space in front of the chemical engine house have been paved with granite blocks, replacing plank. A new tar and gravel roof has been laid on the roof of the truck house.

The buildings need painting, especially Hose 2 house, otherwise with the exception of the Central Fire Station stable, they are in good repair.

FIRE ALARM.

The new storage battery has given perfect satisfaction. The whole fire alarm system is in the very best of order and has been so all through the year, except for short periods of

time when connections have been burned out by lightning. All alarms have been given correctly.

There have been thirty-one bell alarms and thirty-nine still alarms.

There is no question but fire alarm boxes are the cheapest and most efficient form of fire protection we can add to our present equipment. There are several places where boxes could be advantageously placed. There are forty-five fire alarm boxes, of these eighteen boxes are of modern non-interference type, twenty-one of a reasonably good type, six are old fashioned and should be replaced by non-interference boxes.

For maintenance and current expenses of the department for the ensuing year the Board of Engineers recommend an appropriation of $15,000.

Respectfully submitted,

GEO. F. CHOATE.
C. WILDER HOLMES.
W. H. SIAS.
ELLERTON P. WHITNEY.

MILTON, Dec. 31, 1897.

For the financial statement of the Fire Department see page 101.

REPORT OF SUPT. OF POLICE.

MILTON, Dec. 31, 1897.

To the Honorable Board of Selectmen:

GENTLEMEN, — I have the honor to submit for your consideration the annual report of the police department for the year ending Dec. 31, 1897.

ORGANIZATION.

Superintendent, — Maurice Pierce.
Deputy Supt., — Timothy McDermott.
Keeper of Lock-up, — Edwin A. Houghton.

PATROLMEN.

James Wigley.	Geo. C. Partelow.
Geo. B. Bradlee.	Edward M. Corner.
Fred M. Farrington.	Henry A. Paterson.
Thomas H. Welch.	Henry C. Shields.
Lucius E. Damon.	John F. O'Connell.

William J. Stephenson.

Driver of Patrol Wagon, — John H. Tucker.

CHANGES.

During the year 1897 Patrolman John Leary was removed from the department.

May 1, John F. O'Connell was appointed a patrolman.

Sept. 17, William J. Stephenson was appointed a patrolman.

ARRESTS FOR THE YEAR.

Number of persons arrested	87
Males	83
Females	4
Residents	34
Non-residents	53

CAUSE OF ARREST.

Assault and battery	8
Assault felonious	1
Assault on a police officer	4
Allowing a dangerous dog to run at large	1
Bastardy	1
Default warrant	1
Disturbing the peace	7
Drunkenness	39
Illegal transportation of liquor	2
Larceny	4
Malicious mischief to real estate	1
Non-support of family	1
Overdriving a horse	2
Peddling without a license	1
Robbery (highway)	2
Tramps	7
Trespass	3
Vagrant	1
Violation of the game law	1
Total arrests	87

MISCELLANEOUS WORK.

Accidents reported	8
Buildings found open, and secured	44

Complaints investigated	187
Dangerous places on streets and sidewalks discovered and lanterns furnished at night	17
Dead bodies found	2
Defective streets and sidewalks reported	48
Defective water-pipes reported	4
Defective wires reported	15
Dogs killed	3
Electric lights reported out	879
Insane cared for	2
Injured and sick persons assisted	5
Lost children found and cared for	2
Officers detailed by request of citizens	14
Officers detailed for public occasions	10
Residences reported temporarily vacant, and special police protection requested	23
Stray animals running at large and cared for	6
Stray teams cared for	7
Street obstructions reported	22
Water running to waste	2
Value of property reported stolen	$265.00
Value of property recovered	$167.00

LODGERS.

Total number of lodgers for the year	1,609
American born	771
Foreign born	838

PROPERTY OF THE DEPARTMENT.

We have a well equipped police department with two horses, patrol and other wagon, all in good condition. We have not a fit stable to keep them in, and the place in which they are kept is not worth spending any money on.

POLICE SIGNAL SYSTEM.

During the year a new signal box has been added to the system located on Central avenue. I would recommend two additional boxes, one in the Mattapan district, one in the Centre district. The system has given very satisfactory service.

STATION HOUSE.

The building is in poor condition. The town will have to build a new station as the present one is both settling and spreading. I would recommend a new police station built on the land now owned by the town on Adams street where there is room enough for a station and stable connected.

And another objection to the building is keeping tramps in it, for I am afraid if it is allowed to remain in its present condition, it will not be a great while before the vermin, which are quite numerous on a great many of these people, will find their way into other parts of the building. Under any circumstances there is danger of this, but as it is now, it is almost impossible to prevent it. The only way to avoid this trouble is to have a separate building for this purpose. A building twenty feet square would be sufficiently large. This would require the employment of an officer for about seven months of the year, as we are not troubled with them during the warm months. Some of these lodgers are worthy men, but the great majority of them are professional tramps and many are criminals, so that any charitably disposed persons who are appealed to by them are advised not to allow them to enter their houses, for although they may appear to be clean, such cannot be the case when there are from twelve to twenty-five in a room thirteen feet wide by eighteen feet long, during the night.

MORALS OF THE TOWN AND THE FORCE.

The town has been free from serious offences or crime during the year.

The conduct and discipline of the force, with few exceptions, has been very good.

A police officer should be civil and courteous at all times, and so conduct himself as to insure the moral support of law-abiding citizens, but he who is everybody's friend is usually better adapted to other occupation than that of police work.

In conclusion I desire to thank the entire force for their co-operation and loyal service, and all others who have assisted me in the performance of my official duties.

And you, gentlemen of the Board, for the uniform courtesy and support you have given me.

Respectfully submitted,

MAURICE PIERCE,
Superintendent of Police.

For the financial statement of the Police Department see page 104.

REPORT OF THE HIGH SCHOOL BUILDING COMMITTEE.

To the Citizens of Milton:

At the Annual Town Meeting in 1895 an appropriation of $65,000 was made for an addition to the High School building and equipment of the same.

Your Committee at once entered upon its duties and awarded the contract for said addition to Lord Brothers, they being the lowest bidders for the work. It became necessary to make repairs and improvements to the old building and about $2,500 of the said appropriation was expended for this purpose.

The building was completed and ready for occupancy at the beginning of the Autumn Term of 1896. A detailed account of the expenditures may be found in the Auditor's Report of 1895, 1896 and 1897. A brief summary of expenditures is as follows: —

Lord Bros., ...	$49,252 00	
Heating and ventilating . .	7,007 00	
Architect's services . . .	2,961 32	
Miscellaneous	2,963 56	
Furniture	2,927 21	
Insurance	186 72	
Unexpended balance . .	41 95	
		$65,339 76
Appropriation	$65,000 00	
Interest earned	339 76	
		$65,339 76

The balance of $41.95 will revert to the Town Treasury.

Twenty-seven regular meetings and many informal meet-

ings were held by your Committee during the construction of said addition.

No charge has been made by your Committee for time spent, or for any personal expenses incurred, or for services in drawing contracts, etc.

As a full description of this building was given in last year's School Report, it becomes unnecessary to again give any further description of the building.

Respectfully submitted,

J. M. BROWNE,
H. C. GALLAGHER.
EMMA F. WARE,
HENRY S. HUNTINGTON,
FREELAND D. LESLIE,
H. F. THAYER,
WALTER C. CHAPLEIGH,
E. D. WADSWORTH,
JOSEPH E. HALL,

Building Committee.

Full-face figures indicate an overdraft.

NOTE. — Heavy ruling indicates accounts whose balances on March 1, 1897, revert to the Treasury. Balances of all other accounts are carried forward until such time as the object for which they were appropriated is accomplished.

C. F., Contingent Fund Appropriations.

* Public Library expenses from Dec. 31, 1896, to March 1, 1897 ($179.48), not included in sum total, as previous to March, 1897, this account was kept by the Treasurer of the Public Library, and the appropriation drawn all at one time, and was considered by us as an expenditure for the full amount. By taking in the expenses from Dec. 31, 1896, to March 1, 1897, it would be charging it twice.

	$3,102 50
Less expenses, see page	85 98
	$3,016 52

EXTRACT FROM THE WILL OF ELIZABETH T. L. REED.

"All the rest, residue and remainder of all the moneys remaining in the hands of said Executor or Administrator, I direct shall be divided into three equal parts.

. . . . . .

"The second of said parts shall be paid to and deposited with the Treasurer for the time being of said Town of Milton, the same to be received, held and invested by said Town as a fund to be known as the 'Jason Reed Fund,' and the income thereof shall be applied to the preservation, care, improvement or embellishment of the said Milton Cemetery.

"And the third of said parts shall be paid to said Town of Milton, and the same shall be applied by the proper legal authorities to or towards laying out, improvement, or ornamentation of a Public Park or Parks in said town, in such manner as said authorities may deem advisable.

"I make the foregoing bequests in favor of First Parish, the Cemetery and the Parks in said Milton, both on account of the deep interest taken by my father, the late Jason Reed, deceased, in the affairs of said Town, and of my own profound desire for the welfare of said Town and of the citizens thereof."

FREELAND D. LESLIE.

Term Expires March, 1900.

WALTER C. SHAPLEIGH.
H. CLIFFORD GALLAGHER.

REPORT OF THE SCHOOL COMMITTEE.

To the Citizens of Milton:

The School Committee respectfully submits its annual report for the year 1897.

ORGANIZATION OF THE COMMITTEE.

At the last annual Town Meeting, H. Clifford Gallagher and Walter C. Shapleigh were elected members of the Board for the term of three years. The Committee met for organization on March 8, and elected J. M. Browne, Chairman, and Walter C. Shapleigh, Secretary and Treasurer. The terms of J. M. Browne and Henry F. Thayer expire in March, 1898, and two members must be elected to fill the vacancies.

FINANCES.

On the first day of January, 1897, there remained an unexpended balance of $8,413.29 to provide for general school expenses for the months of January and February. The Town at its last annual meeting appropriated $51,500 for general school expenses for the year beginning March 1, 1897, to March 1, 1898. Your Committee has received for tuition the sum of thirty-six dollars, making an aggregate of $59,949.29 for general school purposes from Jan. 1, 1897, to March 1, 1898, covering a period of fourteen months. Your Committee has expended for general school purposes for the year beginning Jan. 1, 1897, and ending Dec. 31, 1897, $51,430.64, leaving a balance of $8,518.65 for general school expenses to the first day of March, 1898,

a sum amply sufficient for the purpose. (For further details see Financial Report.)

TRANSPORTATION.

On the first day of January, 1897, there remained a balance of $905 of a special appropriation voted for the conveyance of pupils to and from the High School; $427.50 were expended for said purpose for the months of January and February, 1897, leaving a balance of $477.50 on the first day of March, 1897, which reverted to the Town Treasury. The town at its last annual meeting appropriated $2,700 for transportation for the year beginning March 1, 1897, and ending March 1, 1898; $2,100 have been expended from March 1, 1897, to Jan. 1, 1898, leaving a balance on hand, Jan. 1, 1898, of $600, a sum more than sufficient to pay for transportation to March 1, 1898, at which time the balance on hand will revert to the Town Treasury. During the past year, pupils from the Belcher, Houghton, and Sumner districts have been provided with transportation. But the coming year it is estimated that fifty pupils from the Belcher District alone must be provided with transportation, thereby necessitating another barge. Your Committee therefore recommend an appropriation of $3,500 for the year beginning March 1, 1898, and ending March 1, 1899. (For further details see Financial Report.)

RE-NAMING OF THE SCHOOLS.

In 1894 the Committee appointed a sub-committee "who, with two other citizens to be appointed by them, should inquire whether among former distinguished citizens of Milton some could not be found whose names might be associated with the different schools, and thus increase the interest and knowledge of the pupils in the history of the town. The sub-committee, acting under the advice of the Rev. Dr. Teele and Dr. J. R. Webster, recommended

the following list: East School, Gov. Andrew Belcher; West School, General Sumner; North School, the 'Worshipful John Glover'; South School, Jason Houghton, teacher for nineteen years in that district; Centre School, Rev. Peter Thacher; Pleasant Street School, Captain Wadsworth, killed in Sudbury fight; Mattapan School, Robert Tucker, one of the earliest residents of the town."

Rev. Dr. Teele subsequently delivered, before a large and enthusiastic gathering of pupils and parents in the Town Hall, an admirable address on the lives of those whose names had been recommended to be thereafter associated with the respective schools. Indeed, your Committee has deemed this address so worthy of a place in the school history of the town that they have inserted it in this annual report. At a recent meeting of the Board it was voted that the several schools should be given the proposed names. Any reference to said schools in this report is made under the new names.

TUCKER SCHOOL.

The recent action of the Metropolitan Park Commission in widening the street upon which this school is situated has resulted in taking a considerable portion of the school yard. The yard, so diminished, will contain about one fourth of an acre, exclusive of the land upon which the building stands. The building contains six large school rooms, but with the future growth of this district there will be an urgent need of additional school accommodations at no distant day. At the present time two hundred and twenty-two pupils attend this school. The present building is so arranged that an addition of four or six rooms can be readily made without affecting ventilation or light, but with any such addition the school yard will not be adequate for the increased number of pupils attending the school. Now, it is apparent to every careful observer that the growth of this district will be very rapid in the future, when those facilities and improvements

now contemplated become an actual fact. Although your Committee do not recommend any addition to the building for the coming year, yet after a careful investigation of the matter in hand, they have arrived at the unanimous conclusion that the present school site will remain the centre of the school population of this district for some time. Therefore it would be wise for the Town to purchase additional land at once to enlarge the present school yard, without waiting until necessity actually calls for such enlargement. Delay would undoubtedly compel the Town to pay an increased price for such land as is needed for the purpose. In the rear of the present school yard, and adjoining the same, there is a vacant lot on Oak Street containing 22,500 square feet. This lot is level and well adapted for a school yard. Your Committee, acting upon its best judgment, have bonded the said lot for the sum of five thousand dollars, subject to the action of the town at its annual meeting. They therefore recommend that the town purchase the said lot, and that the sum of five thousand dollars be appropriated to pay for the same.

BELCHER SCHOOL.

It was stated in the annual school report of 1893 that the school building then in process of erection would "have adequate accommodations for at least two hundred and seventy-five pupils." The total enrollment in this school for 1897 is three hundred and twenty pupils. Any further increase will be detrimental to both teachers and pupils. This building was opened for occupancy at the beginning of the autumn term of 1894, and at the commencement of the autumn term of 1898 will have been occupied four years. When the building was erected the future growth of the school was carefully considered, and now the time has arrived when additional accommodations must be provided for this school. Some may say, "Fit up the old school building." Such a step, in the opinion of your Committee, would be an unwise one. Our school chil-

dren must be provided with first-class, modern, and well-equipped school buildings, if we desire them to obtain the greatest advantage from their school life. Now, the present building is so constructed that an addition can be made to it that will not impair or injure it in the least. Your Committee therefore recommend that an addition of three school rooms and an assembly hall be made to the present building. Your Committee, from careful estimates, believe that said addition with equipment can be made for $16,500. They therefore recommend this sum to be appropriated for that purpose at the next annual meeting.

MISCELLANEOUS.

Fire escapes have been placed on the Belcher and Glover school buildings.

The upper room in the addition of the Wadsworth School has been finished and equipped, and is now occupied by the third and fourth grades.

The attic room in the old part of the High School building, formerly occupied as a manual training room, has been fitted up as a science lecture room.

The Committee desire to express their grateful acknowledgment to Miss Emma F. Ware for the presentation to the School Department of a complete set of the annual school reports from the year 1838 to the year 1896 inclusive.

We also deem it worthy of note that some of our teachers and pupils, by their voluntary contributions, have purchased pictures to decorate the walls of several school rooms.

APPROPRIATIONS.

The Committee recommend an appropriation of $55,500 for general school purposes for the year beginning March 1, 1898, and ending March 1, 1899, estimated as follows: —

Salaries, fuel and care	$43,500 00
Books and stationery	2,000 00
Repairs and incidentals	6,750 00
Manual training and cooking	2,000 00
High School equipment, including books, etc.	1,250 00
Total	$55,500 00

SPECIAL APPROPRIATIONS.

Transportation	$3,500 00
Lot at Tucker School	5,000 00
Addition to Belcher School and equipment	16,500 00

GENERAL REMARKS.

We most earnestly ask you as citizens, and more especially as parents of the pupils, to read carefully all the reports connected with the School Department, as they contain many important facts relative to school work, and suggestions for further improvement. Our teachers do not measure their labors by the salary standard. They not only give their undivided attention to the pupils during school hours, but the correction of papers, preparation of lessons, and assistance to the backward, consume much of the teachers' time outside of the school room. Their success during the past year attests their faithfulness in their chosen vocation.

The day preceding Memorial Day is observed in our schools by exercises of a patriotic character, a feature of our public school life that is much encouraged by the presence of many parents. Delegations of the Grand Army visit each school and tell of the stirring scenes of the late Civil War, with an intensity of patriotism that can but be reflected in the hearts of the youthful hearers. We believe that we voice the patriotic sentiment of the town in thanking the veterans for their interest, and may the day be far distant when our school rooms shall be deprived of their noble presence on such occasions.

School buildings should be made instructive and attractive. Paintings and works of art should relieve the bareness of our schoolrooms and corridors. For instance, while our children are committing to memory the beautiful lines of Longfellow or Whittier, or reciting the noble deeds of Washington or Grant, what a great incentive to them if, upon the walls of the school room, they behold the likenesses of those whose names are immortalized by verse or valor!

Your Committee feel confident that you, as citizens of the Town, will not consider money misapplied if some small portion of each year's appropriation is expended for the purchase of pictures and works of art for our school rooms.

Notwithstanding the fact that the town appropriates each year more money than it is legally bound to do, yet none too much is appropriated to maintain our schools at their present high standard. As an illustration, there is no law compelling a town to maintain a kindergarten school for children of a tender age, yet our town cheerfully appropriates money for the support of four. And if, perchance, a tax payer should doubt the propriety of appropriating money for such a purpose, let him visit one of our kindergarten schools and spend an hour with the children, look into their bright sunny faces, listen to their little songs, hear them recite snatches of poetry, and obtain a glimpse of how their little minds are beginning to expand, and we venture to say that he will vote money for kindergarten schools whenever needed. The town that measures its duty to its school children only by the statute requirements will never take rank as a leader of the educational forces. The public school must continue in the future, as it has proven in the past, the great safeguard of our Republican form of government. Upon the general diffusion of knowledge and the constant inculcation of principles of integrity and honor in our schools, the stability and prosperity of the State depend.

May the pupils of the public schools of the town ever remember with grateful hearts the noble efforts of its citizens in their behalf, is the fervent wish of your Committee.

For the Committee,

J. M. BROWNE,
Chairman.

Approved Jan. 10, 1898.

REPORT OF THE TRUANT OFFICER.

Milton, Jan. 4, 1898.

To the Superintendent of Schools, Milton:

Dear Sir, — I would report that I have visited the different manufacturing establishments, and I find they are complying with the law in all respects.

Respectfully yours,

JAMES WIGLEY,
Truant Officer of Milton.

SUPERINTENDENT'S REPORT, 1897.

To the School Committee of the Town of Milton:

I have the honor of submitting to you the eighteenth in the series of Annual Reports of the Superintendent of Schools, and the third under my administration.

THE SCHOOL CENSUS.

The annual school census, taken May 1, 1897, shows a school population between the ages of five and fifteen years of 1,099 pupils distributed as follows: Belcher (East) District, 259; Glover (North) District, 205; Houghton (South) District, 47; Sumner (West) District, 92; Thacher (Centre) District, 94; Tucker (Mattapan) District, 267; Wadsworth (Pleasant Street) District, 135. The table below gives the school population and the distribution of the same for the past ten years.

District.	1888.	1889.	1890.	1891.	1892.	1893.	1894.	1895.	1896.	1897.

SCHOOL ATTENDANCE.

Thirteen hundred and two different pupils were enrolled in our schools during the year 1897. The number belong-

ing Dec. 23, 1897, the last school day of the year, was 1,082, an increase of 54 over the year 1896. They are distributed as follows: —

Grades.		High School.	Consolidated Grammar School.	Belcher School.	Glover School.	Houghton School.	Sumner School.	Thacher School.	Tucker School.	Wadsworth School.	Total for each Grade.
High	12	23	–	–	–	–	–	–	–	–	23
	11	27	–	–	–	–	–	–	–	–	27
	10	40	–	–	–	–	–	–	–	–	40
Grammar	9	45	–	–	–	–	–	–	–	–	45
	8	–	42	32	–	–	–	–	–	–	74
	7	–	56	27	–	–	–	–	–	–	83
	6	–	–	21	15	6	14	8	24	7	95
	5	–	–	25	22	5	5	4	18	18	97
Primary	4	–	–	23	13	5	7	11	43	10	112
	3	–	–	25	18	0	0	10	32	16	101
	2	–	–	33	19	7	9	6	31	14	119
	1	–	–	39	22	11	12	10	33	18	145
Sub-Primary		–	–	33	28	–	–	–	41	19	121
Total for each school		135	98	258	137	34	47	49	222	102	1082

The per cent. of school attendance for 1897 is 92.5; that of 1896 was 91.6. This improvement is the more gratifying because of an epidemic of measles last spring which caused a great deal of absence from school.

The number of visits by parents and interested friends was 2,570 as against 1,465 for the year 1896. This increased interest in our schools has been an encouragement both to teachers and Superintendent, and parents are earnestly requested to visit schools frequently during the year that is to come, and to actively co-operate with teachers in the work which is of common interest to both of them. Additional information as to school attendance can be found in the statistics on attendance.

THE GRADING OF THE SCHOOLS.

Your attention is called to the importance of the improvement that has been and is being made in the grading of our schools. The fewer the grades in a room, the greater the attention that can be given to the individual needs of the

pupil. If there is but one grade in a room, it may be divided into two divisions, one for the mentally quick pupil and another for the slower pupil, and each will be benefited by the change. The room with two grades is about as well off as that with one, because the time devoted by the teacher to the instruction of one of the grades may be employed by the other in the preparation of lessons. But the two-grade room cannot, as a rule, be divided into fast and slow sections, because of the unprofitable multiplication of classes.

More than two grades in a room, however, means such a small amount of the teacher's time for each grade that an inferior quality of work must result, a fact which is repeatedly brought out when pupils from such a school come into competition with those from the better graded school.

The extent of the improvement in the grading of our schools is brought out by the following statement: Two years ago at this time there were seven rooms with one grade in a room, seven with two, five with three, four with four, and one with five. At the present time there are seventeen with one grade in a room, thirteen with two, two with three, and none with four or five grades in a room.

READING.

In the fall of 1895, much attention was attracted by the Pollard System of reading.

Permission was given the Superintendent to try this system with a small class of ten pupils in the North School under the charge of Mrs. Emma K. Gordon. At the close of this school year it was decided not to adopt it. There was very much that was good in it, but it was so encumbered with memorizing of rules, marking of words, and other objectionable devices, that its adoption as a whole was out of the question. The teacher in charge, however, had become interested in the strong points of this system, as well as in those of the Ward System, which had met with so much

success in Brooklyn, N. Y., and asked permission to attempt during another year to combine the good points of both into a system of her own. She was allowed to continue her experiment during the school year of 1896–97 in the first primary grade of the Wadsworth School. The work was carried on in a most systematic way. A day book was kept, and in it was recorded the daily progress and the degree of success of every new step taken. During the last two months of the school year, a most careful series of comparisons between this class and classes of the same grade in our own and other towns was made by the superintendent and members of the committee. In every test the results were surprisingly in favor of the new system. The power of this class in pronouncing new words by repeated actual count was about three times that of any other class of the same grade in town. In thought-getting, expression, and fluency they also excelled. Some half dozen superintendents from other towns were invited to see the work, and were unanimous in expressions of approval of it. One of them, who has been a prominent superintendent in the State for over thirty years pronounced it the best first grade reading that he had ever heard.

In September, 1897, the system was introduced into every first grade in town, and Mrs. Gordon has met the first and second grade teachers since that time once a month, and has given them the benefit of her carefully conducted and carefully recorded experiments of the year before.

Many changes have taken place of late years in the teaching of reading. Almost no schools now begin reading by committing to memory the names of the letters in the alphabet. The sound is now associated with the letter rather than its name. After a few such sounds are mastered, simple combinations of them are made. New letters and new sounds are introduced from time to time until the whole alphabet is involved. Such a system of teaching reading is called a phonic system.

A second quite widely used method of teaching reading is the so-called word and sentence method. Words are learned as wholes, and repeatedly used until the child is familiar with them. Much attention is also given to the mastery of the sentence as a whole. This method possesses a great advantage at first in interesting the child and in securing good expression, but it has the fatal defect of not giving him power to recognize new words. Each word is a problem by itself, and gives little aid in determining the next word. The child's mind soon becomes overstocked with words, and most grotesque mistakes are made in naming them.

The best schools at the present time are using a combination of the word and sentence and phonic systems. In the beginning the child learns words as wholes or at sight. After he has mastered from fifty to a hundred of the more common words at sight, he begins the study of the sounds of letters, and of their combinations into words. In most of our first reading books new words have the sounds of their letters indicated by diacritical remarks, and by combining these the pupil forms his words. New words are, as a rule, marked and developed by the teacher in the class, and in most reading books are used so frequently for a few lessons that there is a reasonable doubt as to whether the child does not learn them after all as wholes and not phonetically. Such a system has serious defects. The ordinary printed page has no diacritical marks at all, and the child who has learned to depend upon such marks has neither the incentive nor the power to read outside of his reading book.

The Milton system of reading is not so much an original one as it is an original selection and adaptation of the strong points of several systems. It combines the word and sentence and a phonic system, but it differs from most phonic systems in two important particulars: first, in the use of phonograms, and second, in the absence of diacritical marks. Nearly all monosyllabic words in the English language can be grouped into families, which have phonetic resemblances.

The endings of such words furnish the best basis for this classification. For instance, the words prick, pick, stick, kick, etc., etc., can be considered as belonging to the "ick" family, or fight, right, slight, might, sight, etc., etc., to the "ight" family. Such a combination of letters as "ick" or "ight" is called a phonogram. The Milton system begins with the sounds of certain of the letters and early combines them into simple phonograms. For instance, ă and t may be combined to form the phonogram "at," and upon this, as a basis, can be built a long list of word, *e. g.*, cat, rat, mat, sat, etc., etc. It may be necessary, with a few phonograms, to place upon them some distinguishing marks when they are first developed, but when once mastered all marks are dropped. The phonogram is ultimately learned, remembered and referred to as a whole. Every new phonogram, by the prefixing of consonants or combinations of consonants, becomes the basis of a longer or shorter list of words, and this formation of new words fixes the phonogram itself in the child's mind so firmly that it is not easily forgotten.

Suppose, for instance, that the child encounters the new word "crack." He at once recognizes that it belongs to the "ack" family. He analyzes and sounds it something as follows: one, "ack"; two, "cr"; three, "crack."

Every new phonogram adds a list of new words, and the rate at which the pupil gains power to handle them is a rapidly accelerating one. After the mastery of monosyllabic words, words of more than one syllable offer almost no difficulty, because each syllable is simply a member of a monosyllabic family with which the child is already familiar. This fact was brought out most forcibly in the tests that were made last June. The word "commander" was put upon the blackboard. Under the old system it was necessary first for the teacher to mark the word. After it was marked many pupils could sound correctly every letter in it, but few could put them together to form the word. To the pupil under the new system it offered no difficulty. Not a mark of any

kind was placed upon it, but every syllable was a member of a known family. His analysis of the word was as follows: one, "er"; two, "ander"; three, "ommander"; four, "commander." It should be noticed that each step in this analysis is a distinct preparation for the step that follows. The following is a part of a list of new words which were analyzed and pronounced without hesitation by members of this class:—commander, American, accepted, services, headquarters, scabbard, rejoicing, sorrowful, officers, president, family, plantation. Every child in the class recited individually, but one failed to get his word, and it met with a full chorus of replies when given to the rest of the class. The same list was given to other first grades in town, was properly marked by the teacher in charge, but was incomprehensible to most of the pupils.

Under our present system of reading, the first month is devoted to learning the sounds of some of the letters, to making simple phonograms with the same, and to building words from these phonograms. Sounds from nature, pictures and gestures, are associated with the letters to retain the child's interest and to fasten the sounds in his memory. Reading from script on the blackboard is begun in the second month. Many words familiar in meaning to the child are given him as wholes or sight words, but the list of sight words is never a long one, because, while it is constantly being added to at one end, former sight words are constantly fitting into new families, and thus ceasing to become sight words. As soon as the child is fairly started in reading, the work divides itself along two lines, phonic drill with new phonograms, and thought-getting or reading. By care and system in the selection of phonograms, the child is enabled to pronounce each day not only the new words of the lesson, but a host of others like them. Pupils begin to read from the reading book in December.

From its beginning, this system offers abundant material for profitable seat work, and it admits of all devices for

getting thought and expression that other systems offer. Its distinctive feature is its systematic development of power in the pupil to help himself. It is not an exaggeration to say that the class which tried it during the last school year accomplished in that time the equivalent of a year and a half's work under the old system.

THE HIGH SCHOOL.

For two years past, the plan has been to broaden the course of study in the High School, and to allow great freedom of choice in the selection of work, with the expectation of thus satisfying most of the varying needs of its pupils. In accordance with this plan, during the year passed, two new courses have been added to the curriculum, one in wood-turning and the other in stenography and typewriting.

A room in the basement was equipped with eight lathes of latest design for wood-turning, and thrown open for use in May last. Power for the lathes is furnished by the engine which runs the fan.

In September, a course in stenography and typewriting was added. It is too often the case that pupils graduating from our Grammar schools are influenced to enter business colleges with the expectation of becoming, at the end of a year's time, competent book-keepers or stenographers. These pupils have not a sufficient mental development to get a large amount of good out of such a business course, and to this lack is probably due the distrust which many employers feel toward the average business college graduate. The High School ought to include in its course of study first-class instruction in book-keeping, stenography, typewriting, and commercial law, so that its pupils may get at once a high school and a business education, both of which are essential to the well-equipped business man. For such a course, however, the High School needs additional equip-

ment in the way of typewriters, a specially equipped commercial room, etc. Additional information about the High School can be found in the special report of its principal, which follows this report.

LOCAL HISTORY.

The following outline in local history has been prepared for use in our sixth grade. References are made in it to the pages of the history of Milton. The study of local history has a twofold object in view. First, it is a natural preparation for the formal study of United States history which is begun in the seventh grade. A knowledge of our own town's participation in many of the stirring events in national history, and the study of its institutions, ancient customs, and of the lives of some of its worthy citizens, will surely give added interest, and added understanding to the study of our national history.

Second, it is training in good citizenship. Few towns in Massachusetts have a more interesting or a more worthy history than the town of Milton. A knowledge of its glorious past ought to make the pupil more thoughtful for its welfare in the present. It has been a source both of surprise and regret to the Superintendent, as he has become familiar with the richness and interest of our local history, that no organization whatsoever exists in the town for the preservation of historical information. A local history society could receive and care for interesting historical documents which will otherwise soon be scattered and lost, and could also be the source of a wholesome pride and interest in our town's history and welfare.

In the absence of any such organization, the Superintendent would be glad for the loan of any documents or letters which will add to the interest of this study in our schools.

OUTLINE IN LOCAL HISTORY.

I. INDIANS. *(pp. 1–10).
   1. Massachuset tribe of Indians; original power; plague of 1613–14; Massachusetts Fields; derivation of word Massachusetts.
   2. Neponset tribe; Nanepashemet; Chickautabut; Kitchamakin; removal to Ponkapog; missionary work of John Eliot, Peter Thacher and others.

II. EARLY EXPLORERS (pp. 1–5).
   1. John Smith probably explored Boston Harbor, 1614.
   2. Miles Standish probably visited Milton, 1621.

III. MILTON AS UNQUITY PRECINCT OF THE TOWN OF DORCHESTER, 1630–62; DERIVATION OF UNQUITY (p. 34).
   1. Israel Stoughton (pp. 12, 28); the first mill (p. 367).
   2. Richard Collicot (p. 13); the first house (p. 153).
   3. Other early settlers (pp. 18–30).
   4. Ministerial lands (p. 14).
   5. The parallel lines allotments to citizens of Dorchester; Canton Ave. and the central parallel (pp. 16–17).

IV. TOWN ORGANIZATION, 1662.
   1. Chief cause for the separation from Dorchester (pp. 31–34).
   2. Origin of the name Milton (pp. 35–37).
   3. Original boundaries of the town (p. 40).
   4. Accession of Blue Hill lands, 1712 (pp. 41–43).
   5. Accession of tract containing Houghton's Pond, 1754 (p. 47).
   6. Loss of Fairmount, 1868, to form Hyde Park (p. 47).
   7. Change of boundary in 1885 (p. 47).

V. MILTON DURING KING PHILIP'S WAR, 1675–76.
   1. Cause of the War (pp. 42, 43).
   2. Edward Hutchinson and the Brookfield Massacre (p. 404).
   3. Capt. Wadsworth and the Sudbury Fight (pp. 406–409).
   4. The Ponkapog Indians (pp. 404, 405).

VI. MILTON DURING KING WILLIAM'S, QUEEN ANNE'S, AND THE FRENCH AND INDIAN WARS (pp. 409–417).
   The Arcadian exiles in Milton (pp. 413, 414).

VII. GOV. JONATHAN BELCHER (pp. 109–112).
   1. Short sketch of his life.
   2. His Milton estate.
   3. His social life in Milton.

*References by pages are made to the history of Milton.

VIII. Gov. Thomas Hutchinson (pp. 133–144).
1. His birth and early life.
2. His home in Milton, interest in town affairs, and love for nature.
3. The Hutchinson House.
4. The Stamp Act Riot.
5. The Boston Tea Party.
6. Departure from Milton and later life.
7. Action of town meeting growing out of his departure (pp. 421–423).

IX. George Whitfield's Visit to Milton, 1771 (p. 116).
Give a short sketch of Whitfield's life.

X. Milton during the Revolution.
1. Spirit of her citizens as manifested by instructions given her representatives from 1765–75 (pp. 418–421).
2. The Suffolk Resolves (pp. 424–430).
   a. Where passed and by whom?
   b. Their meaning and importance.
   c. Their reception by the country at large.
3. The Lexington alarm (p. 430).
4. The Fortification of Dorchester Heights (p. 436).
5. Major Vose's Raid (p. 435).
6. Milton's part in the later events of the war (pp. 438–440).

XI. Milton during the Civil War (pp. 442–465).

XII. Early Roads and Paths.

Note.— As the building of roads very closely followed the settlement of the town, teachers are urged to give this topic careful consideration. A careful study of the historical map (p. 210) is recommended, and a reproduction of some of the earlier roads upon the board.

1. Early Indian Trails over Milton Hill and elsewhere (p. 188).
2. Adams Street, 1654. Its early importance (pp. 188, 189).
3. Part of Canton Avenue, 1660. Why built? (p. 190.)
4. Churchill's Lane, 1661. Why built? (p. 191.)
5. Pleasant Street, 1669. Resemblance to present street (p. 193).
6. Old trail partially along the lines of Ruggles Lane and Brush Hill Road (p. 194). Brush Hill Road built 1676 (p. 196).
7. Road from Mattapan to the Brook, partially along the

lines of Thacher street and Brook Road (p. 194). Location of present Brook Road, 1694 (p. 198).

8. Foot path from Algerine Corner to Second Meeting House, partially along line of Centre Street, 1672 (p. 195).
9. Vose's Lane, 1673. Why built? (p. 195.)
10. Path from Brush Hill to Second Meeting House, 1676–7 (p. 196).
11. Road from Pine Tree Brook to Second Meeting House, along line of Canton Avenue and Centre Street, 1680 (p. 197).
12. Road from Pine Tree Brook to Canton line, along line of Canton Avenue, 1681 (p. 197).
13. Foot path from New State to Second Meeting House, along line of Gun Hill Street, 1696 (p. 200).
14. Later roads (pp. 200–208).
15. Origin of names, Brush Hill, Algerine Corner, New State, Gun Hill Street.

XIII. The Meeting House.

1. Reasons why Puritans left England to settle in the new world.
2. Early religious intolerance, and close union of church and State.
3. Importance of the meeting house.
4. First meeting house in Milton before 1662, probably at the head of Churchill's lane (p. 192).
5. Second meeting house, 1671, corner Vose's Lane and Centre Street (p 280).
6. Third meeting house, 1727, Canton avenue, near present Unitarian church; controversy over its location (pp. 281–83).
7. Fourth meeting house, 1787, present Unitarian church; enlarged or repaired, 1835, 1851, 1871 and 1896 (pp. 283, 284).
8. Pastorate of Peter Thacher, 1680–1724 (pp. 240–253).

   Note. — Read in this connection "Trials of the Old-Time Country Parson" (p. 250), and selections from Peter Thacher's Journal (p. 641).

XIV. The Schools.

Note. — Read in connection with this topic Martin's "Evolution of the Massachusetts Public School System." The list of school buildings given below is probably an incomplete one.

1. North District.
   - *a.* First school before 1700, probably in First Meeting House (pp. 317–319).
   - *b.* New school built 1718, near first school (pp. 319–20).
   - *c.* New school built in 1793, on top of Milton Hill, east side of Adams street (p. 322). Burned in 1846 (p. 347).
   - *d.* New school built in 1847 on School Street, site of present school.
   - *e.* Present schoolhouse built 1889.
2. East District.
   - *a.* First schoolhouse, Churchill's Lane near Centre street, built in 1768 (p. 320). Burned 1779 (p. 320), probably rebuilt.
   - *b.* New schoolhouse built in 1835, north side of Squantum Street, near Adams Street (p. 346).
   - *c.* Present Old East School on Adams Street built 1852, enlarged 1877 (p. 347).
   - *d.* Present New East School on Church Street built, 1894.
3. Centre District.
   - *a.* First school, 1837, Canton Avenue, near Thacher Street (p. 346).
   - *b.* Second school, 1859, same site (p. 348).
   - *c.* Present school, corner Clapp and Walnut streets, built 1889.
4. Pleasant Street District.
   - *a.* First school, 1853, near present schoolhouse (p. 348).
   - *b.* Present schoolhouse built 1879, addition 1896.
5. West District.
   - *a.* First schoolhouse built on Brush Hill, 1718 (pp. 319–20).
   - *b.* Second schoolhouse on Canton Avenue, near Atherton Street, built in 1768 and called Middle Street School (p. 320).
   - *c.* Brush Hill and Middle Street Schools united in 1812 in the Old Brick Schoolhouse built on site of present West School (p. 345).
   - *d.* Present West Schoolhouse built in 1870 (p. 248).

6. South District.
   a. First schoolhouse built 1768 on lane leading from Hillside Avenue, near Harland Street (p. 320). Repaired 1791 (322).
   b. Present schoolhouse built 1852. Upper room finished 1889.
7. Mattapan School.
   a. Two-room building built on present site, 1877. Upper room finished 1890. Four-room addition, 1893.
8. Milton Academy. Chartered 1798.
   a. Its history from 1798 to 1867 (pp. 326–338).
   b. Re-establishment in 1885 (pp. 338–344).
9. Milton High School (pp. 348–350).
   a. Established 1866. In old Academy Building until 1885.
   b. New High School, 1885–6.
   c. Rebuilt and enlarged 1896.

XV. Seal of Milton. Its History, Meaning and Use (pp. 303–6).

XVI. History of Milton's Industries.
1. The Neponset River (pp. 357–363).
   a. Town landings.
   b. Ship building (p. 383).
   c. Navigation and commerce (pp. 363, 367).
   d. The first grist mill (pp. 367, 368).
   e. The first powder mill (pp. 368, 369).
   f. The chocolate mills, beginning, growth, and present importance (pp. 372, 373).
   g. Paper mills (pp. 370, 372).
2. The granite business.
   a. Cause of East Milton's first growth (p. 154).
   b. Building of Bunker Hill Monument and first railroad (pp. 381, 382 and 391). Give a short sketch of the history of steam railroads.
   c. Milton quarries (pp. 394–396).
3. Bakeries. Bent & Co. and others (p. 386).

XVII. Historical Landmarks. Read carefully (pp. 102–187).

ENGLISH.

The following course of study in English for our grammar schools was adopted and put into the hands of teachers in December, 1897.

COURSE OF STUDY IN ENGLISH.

The value of any study in our curriculum is measured by the power, useful in after life, which it gives the pupil. Judged by this standard, no study is so important as that of the English language.

From a utilitarian point of view, whatever a pupil's vocation in after life, power to express himself in clear, forcible English, will always be of the first importance. From the point of view of the profitable employment of one's leisure hours, there is no legacy we can leave our pupils which is so sure to yield abundant return as a taste for, and appreciation of, good literature. One of the most important recent advances in the study of English is the recognition of the fact that such a taste can be cultivated in the grammar schools, and the consequent substitution of carefully chosen masterpieces of literature for the higher numbers of the reading book.

The following course of study is treated under three heads:

1. Spelling.
2. Language, including oral, technical, and written work.
3. Reading or literature.

Spelling.

The instruction in spelling should be based upon pupils' mistakes in their written work. This means a great deal more than that pupils should learn to spell correctly only the words they actually mis-spell. It means rather that their mistakes should indicate to the teacher the phonetic combinations with which they have difficulty, and that correctness should be obtained by constant drill along these lines. The teacher's desk should be supplied with several different spelling books, from which to select lists of words.

Language.

For fear that teachers will confine their instruction to the specified topics and time, many educators object to laying down any definite course in language, or to assigning any definite time for language instruction. Therefore in the interpretation of the following outline, it cannot be said too often and too strongly that every oral recitation, and every written page, whatever the subject matter, is a lesson in language, and that mistakes in language should invariably be corrected whenever and wherever they occur. More than that, the pupil should be made to understand that in any subject whatsoever only his best English is acceptable; for instance, that correct answers in history expressed in incorrect English are no more acceptable than incorrect answers.

Some outline in the technical part of grammar seems necessary to avoid omissions or unwise repetitions from year to year. In its use, teachers should understand that it is intended merely to emphasize certain things that are to be done, but expects that others will not be left undone. The work of any one year also presupposes constant review of the work of preceding years. No text-book is indicated, but the teacher is advised to have several on her desk. The study systematically of technical grammar is deferred until the seventh grade. In the earlier grades it is more important that the teacher should direct her efforts toward securing correct expression than toward explaining why it is correct. In this same connection, also, teachers are warned against too frequent exercises in the correction of bad English, as there is danger in the child's becoming too familiar with incorrect forms.

Written Work.

Teachers are advised to require every day original written work of some kind from every pupil. The amount of this

written work that can be corrected depends upon the number of pupils in the class. The ideal is the correction and handing back of every paper. This cannot be done, however, in many schools, and teachers should not burden themselves with too much of this kind of work. Once a week at least, and oftener if conditions allow, an exercise for each pupil should be carefully corrected, handed back and rewritten. Teachers are advised in addition to look over a few of every set of papers, and to select some of the salient mistakes as a basis for instruction in spelling or language. But whether the papers are corrected or not, the pupil should write every day, since the only way to learn to write is to write frequently. A careful correction of one of a pupil's written exercises every week will reach most of his mistakes.

Poor compositions are too often due to a lack of ideas on the part of pupils, therefore great care needs to be taken in the assignment of subjects for written work. The teacher should be sure first that the pupil is interested in his subject, and second, that he has clear and definite ideas upon it.

The following topics are suggested as a basis for written work: —

I. Reproduction in the pupil's language of stories read by the teacher. Such stories in the lower grades should be short and full of interest. Before being reproduced, they should first be read paragraph by paragraph, and carefully explained until the teacher is sure that the thought is clear, and then read entire. Longer stories may be used in the higher grades, and a synopsis as a guide in writing in the beginning is often profitable. Such a synopsis should not be too full, and should be discarded as soon as possible.

II. Reproduction of facts learned from lessons in history, geography, nature study, and literature.

NOTE. — Teachers are advised to encourage rather than discourage "natural" poetic reproduction on the part of the pupil of the thoughts of literature, nature study, etc.

III. Narration of personal experiences or descriptions of familiar scenes and objects.

IV. The imaginative element is always strong in children. Intense interest may be given to a subject in history, geography, or literature, when the pupil is asked to imagine himself as a participant in the scene. Personification in nature study yields the same result.

V. The study and description of pictures. This is particularly well adapted to lower grades. The teacher should encourage pupils not only to tell accurately what they see in a picture, but to use their imagination about it. See in this connection remarks upon the use of pictures in the introduction to the course of study in geography.

Reading.

This subject includes silent reading, memorizing of selections, class reading, and reading to the class.

From silent reading, the pupil should acquire power to absorb readily the thoughts from a printed page. Toward this end, silent study of much of the class reading is recommended.

It is recommended that a portion of the time assigned to the opening exercises be devoted to memory recitations. Great care is necessary, especially in the primary grades, that pupils memorize correctly, and understand what they memorize. In class recitations, where such care is not exercised, grotesque mistakes are often made by pupils.

In class reading, the teacher should give special attention to clear pronunciation and good expression. Pupils should stand well, and read in a tone of voice that can be distinctly heard across the room. Above the second grade, teachers are advised not to gather the pupils about them for a reading lesson, but to hear them from their seats. Expression will be improved by seat study, and by a lesson now and then upon selections with which pupils are already familiar.

Reading to the class by the teacher has for its object the cultivation of the ear of the pupil. An exercise of this kind should come once a week at least, and always calls for the teacher's best reading, as imitation is a potent aid to pupils in securing good expression.

The suggestions for reading to the class, story telling, and memory work were prepared by Miss A. G. Pierce. Teachers are urged to supplement them with selections of their own. The three volumes of "Open Sesame" are especially suggestive for some of this work.

Language. Grade I.

ORAL WORK.

Pupils should be led to converse freely on subjects of general interest, the aim being to accustom them to tell in simple, correct sentences their observations and experiences, or to reproduce what has been told them. Teach pupils forms of greeting, thanking, and making excuses.

TECHNICAL WORK.

I. ABBREVIATIONS. Mr., Mrs., Dr.
II. PUNCTUATION.
1. Period in such abbreviations as are used, and at the end of the sentence.
2. Use of interrogation mark.
III. CAPITALS — At beginning of sentence, with proper names, and with the pronoun I.
V. Persistent correction of common mistakes.

WRITTEN WORK.

I. Copy from cards written in script, letters, words, and short sentences. Give each pupil some practice upon blackboard to secure freedom of movement.
. Copy words or sentences from reading books (print to script).
I. Dictate words and easy sentences, being careful to use only words which have been copied before.
V. Teach pupil to write his name; residence; school; his father's (Mr.), his mother's (Mrs.), and his teacher's (Miss) names.
V The last part of the year have pupil begin to write short, easy, original sentences, drawing material from the oral recitation.

Language. Grade II.

. Continue the oral work of Grade I. Every oral recitation in every grade should be a lesson in language.
. ABBREVIATIONS. — Mr., Mrs., Dr., St., Ave., Ans., and such as may be necessary in arithmetic.
II. PUNCTUATION. — Use of period and interrogation mark as in Grade I.
V. CAPITALS.
1. Beginning of sentence.
2. With I, and O.
3. With names of persons.

4. With names of places (countries and cities).
5. With names of streets.
6. With names of days of weeks and months (not with names of seasons).

V. Grammatical Forms.

1. Regular plurals in s.
2. Correct use of is and are, was and were, has and have, may and can ; and the present and past tenses of see, do, sit, write, read, take, know, bring, break, come and go.

WRITTEN WORK.

I. Read carefully what is said under topics Spelling and Written Work in the introduction.

II. Copy sentences, memory gems, etc.

III. Give frequent dictation exercises, which should supplement the technical work in hand.

IV. Give daily work in original composition. During the early part of the year this will consist largely of short, easy sentences. Toward the end of the year, encourage the use of longer sentences, but correct the use of long sentences composed of statements not closely related, and connected by a series of "ands."

Language. Grade III.

ORAL AND TECHNICAL WORK.

I. Continue oral work in recitations. Every oral recitation in every grade should be a lesson in language.

II. Abbreviations. — Review work of Grades I and II. Teach Rev., Supt., U. S., Mass., N., S., E., W., A. M., P. M., and abbreviations of days in the week, months, and common abbreviations used in arithmetic, *e. g.*, in., ft., lb., oz., pt., pk., gal., bu., cts., doz., sec.,and min.

III. Punctuation.

1. Review thorougly the work of Grades I and II.
2. Teach use of comma in simple series, in address, and in direct quotations.
3. Teach use of quotation marks in simple quotations.
4. Teach use of exclamation point.
5. Teach use of apostrophe in possession and contractions.

IV. Capitals.

1. Review thoroughly work of Grades I and II.
2. Teach capitals at beginning of each line of poetry.
3. Teach capitals in direct quotations.

V. CONTRACTIONS. — Teach contractions with not. Persistently correct the use of ain't for is n't and are n't, and don't for doesn't. Explain the use of the apostrophe.

VI. GRAMMATICAL FORMS.

1. Review thoroughly the work under this topic in Grade II.
2. Give oral and written practice in the use of present, past, and perfect forms of begin, buy, choose, drink, draw, fall, fly, give, hang, hide, bear, hold, hurt, leave, run, say, stand, send, sing, sleep, speak, take, tell, and think.

NOTE. — Do not take more than one new verb a day, and repeatedly refer to it in subsequent lessons. Do not spend too much time any one day upon this work. Teach the form inductively rather than technically, by repeated use rather than by memory.

3. Possessive case: Simple work with 's and s'.
4. Regular plurals, and some of the more common irregular plurals, *e. g.*, men, mice, etc.
5. Correct use of singular and plural forms of common verbs.
6. Correct use of this and these, that and those, a and an, here and there, who and which. Persistently correct common mistakes, ain't, don't, seen, done, etc.
7. Oral practice in the correct use of the pronoun as subject, object, and predicate.

NOTE. Teach inductively; *e. g*, *Question*, Who is at the door? *Ans.* It is I, he, they, etc.

VII. FAMILAR HOMONYMS. — Be and bee; here and hear; hour and our; no and know; nose and knows; I and eye; write and right; read and red; sun and son; there and their; wood and would; ate and eight.

NOTE. Do not take more than one a day, and illustrate and emphasize by repeated use in sentences.

WRITTEN WORK.

I. Read carefully the topics Spelling and Written Work in the introduction.

II. Continue practice of Grade II in longer sentences. Correct as before incorrect use of "and" in long disjointed sentences.

III. Give the pupil his first idea of a paragraph by grouping together sentences closely connected. This can best be taught at first by means of a synopsis with main and subheads. Teach indentation in connection with paragraphing.

IV. Give frequent dictation and copying lessons. Connect this work closely with the technical work.

V. Require original, written composition of some kind every day of every pupil.

VI. The last part of the year begin simple work in letter writing Put correct forms upon the board and have pupils copy.

Language. Grade IV.

ORAL AND TECHNICAL WORK.

I. Continue oral work in recitations. Every oral recitation in every grade should be a lesson in language.

II. ABBREVIATIONS. Review work of previous grades. Teach Col., Capt., Gen., R. R., P. O., P. S., Esq., Messrs., Jr., Sr., N. B., Co., M. C., and others as they occur. Teach use of initials and of the more common abbreviations of proper names, *e. g.*, Chas., Thos., etc.

III. PUNCTUATION.

1. Review work of previous grades.
2. Teach quotation marks in divided quotations.
3. Teach hyphen in divided words.
4. Teach use of comma and colon in quotations.

IV. CAPITALS — Review thoroughly the work of previous grades. Teach any new cases that may arise in daily work.

V. CONTRACTIONS.

1. Review work of previous grades.
2. Teach it 's, 't is, there 's, I 'm, they 're, he 's, and others that may occur in daily work.

VI. GRAMMATICAL FORMS.

1. Review present, past, and perfect forms of verbs given in previous grades, and add: bite, blow, burst, build, cut, drive, forget, feed, freeze, find, grow, keep, lose, make, rise, shake, strike, sell, slide, and steal. (Read note in connection with this topic in Grade III.)
2. Possessive case. — Teach thoroughly all forms singular and plural, regular and irregular.
3. Plurals. — Teach plurals of words ending in y, f, fe, and o. Continue work in irregular plurals.
4. Persistently correct common mistakes, *e. g.*, is for are, ain't for is n't or are n't, seen for see or saw, love for like, learn for teach, wish for want, can for may, etc.
5. Review and continue work of Grade III in the use of the pronoun as subject, object, and predicate. (See note Grade III.)

VII. Familiar Homonyms. — See note Grade III. Review work of previous grades and add: dear and deer; not and knot; to, too, and two; by and buy; flower and flour; grate and great; lead and led; pail and pale; rose and rows; sail and sale; see and sea; steal and steel; wait and weight; weak and week; won and one.

VIII. Teach pupils inductively to recognize statements, inquiries, commands, and exclamations.

IX. Teach pupils inductively to recognize nouns (name words) and adjectives (words which tell something about nouns).

WRITTEN WORK.

I. Read carefully the topics Spelling and Written Work in the introduction.

II. Continue work in paragraphing as in Grade III.

III. Continue daily original composition. Use longer stories; require longer reproductions. A synopsis will be found valuable at first, but do not continue its use too long. Alternate it with independent work for a while, and finally discard it altogether. Care should be taken in the preparation of the synopsis that it be not too full, and that it leave abundant opportunity for original expression on the part of pupils.

IV. Give frequent exercises in dictation and copying, connecting this work closely with the technical work in hand.

V. Letter Writing.— Continue work of Grade III. Teach:— *a*, Heading; *b*, Address; *c*, Salutation; *d*, Body of letter; *e*, Superscription. Have pupils copy correct form at first, and then originate similar forms. Give practice in writing letters to father, mother, uncle, aunt, one another, etc.

Language. Grade V.

ORAL AND TECHNICAL WORK.

I. Oral work from recitations. Every recitation in every grade should be a lesson in language.

II. Abbreviations. Hon., Gov., M. D., Ph. D., D. D., LL. D. Abbreviations in geography, arithmetic, and others, as they occur.

III. Review and continue work of preceding grades in punctuation, use of capitals, and use of contractions.

IV. Grammatical Forms.

1. Review the use of the present, past, and perfect forms of verbs previously given, and add: beat, find, bleed,

feel, fight, grind, hit, kneel, lay, lead, lend, meet, pay, send, shoot, shrink, sink, spring, stay, stick, string, swing, weep, win, wind, and wring. (See note under this topic in Grade III.)

2. Thoroughly review work of previous grades in possessives and plurals. Teach plurals of letters, numbers, etc.
3. Persistently correct common errors: who for whom, them for those, come for came, and double negatives. (See this topic under Grade IV.)
4. Review and continue work upon forms of pronouns.

V. Familiar Homonyms. Review those of previous grades. Add: bear and bare; blew and blue; fore and four; knew and new; made and maid; pair, pear and pare; pane and pain; peace and piece; sent and cent; cents and sense; sow, so, and sew; stair and stare; threw and through; way and weigh; wear and ware; whole and hole. Add others as they occur in daily work.

VI. Continue work in the recognition of nouns and adjectives. Teach inductively common and proper nouns, and comparison of adjectives. Guide the pupils in the choice of adjectives, so that they will avoid the excessive and incorrect use of such words as nice, grand, splendid, fine, awful, and beautiful.

VII. Teach inductively the recognition of verbs (action words) and adverbs (words which tell something about verbs, adjectives, or other adverbs.)

VIII. Word Study — Begin practice in the use of the dictionary in connection with reading. Begin work in prefixes and suffixes.

IX. Teach subject and predicate in simple sentences.

WRITTEN WORK.

I. Read carefully the topics Spelling and Written Work in the introduction.

II. Continue work in paragraphing, dictation, and original composition as outlined in previous grades.

III. Letter Writing. — Continue work of previous grades. Teach thoroughly the various forms of heading, etc., etc. In History have pupils write descriptive letters from distant scenes. Correllate in like manner with Geography and Literature.

Teach how to write notes of invitation with regrets or acceptance of the same ; receipts ; and bills for goods or services.

Give practice in addressing envelopes.

Teach when to enclose a stamp.

NOTE. Call attention to the growing custom in notes and personal letters of putting the heading at the close of the letter.

Language. Grade VI.

ORAL AND TECHNICAL WORK.

I. Continue oral work in recitations. Every oral recitation in every grade should be a lesson in language.

II. Review and continue work of previous grades in punctuation, use of capitals, and abbreviations.

Dictate passages from prose or poetry that involve special features of punctuation. Teach the use of the semicolon.

III. GRAMMATICAL FORMS.

1. Review the present, past, and perfect forms of irregular verbs given in previous grades, and add others that may occur in daily work.
2. Teach plurals of names of persons, titles, and compound words.

IV. Review and continue work as outlined in previous grades under homonyms, and recognition of nouns, adjectives, verbs, and adverbs.

V. Teach inductively the recognition of conjunctions, prepositions, and interjections.

VI. Give practice in classifying the words of a sentence as parts of speech, much as you would classify minerals or plants.

VII. Review and continue work in recognition of subject and predicate of simple sentences. Teach in this connection adjective and adverbial phrases.

VIII. Teach the recognition of simple, complex, and compound sentences. Very simple work. Make no attempt at analysis.

IX. WORD STUDY. — Continue work of previous grades in recognition of diacritical marks, use of dictionary, use of prefixes and suffixes, and in word building.

WRITTEN WORK.

I. Read carefully the topics Spelling and Written Work in the introduction.

II. Continue work in paragraphing, dictation, and daily original composition.

III. Continue work in letter writing. Teach how to write letters of introduction, and various forms of business letters, *e. g.*,

answers to advertisements, orders for goods and answers to same; *a* when money is enclosed, *b* when C. O. D., *c* when charged.

IV. Teach exact expression by having pupils formulate directions for making a model in sloyd, a dish in cooking, or a piece of work in sewing. Give practice in writing promissory note, P. O. order, check and draft in connection with course in arithmetic.

Language. Grade VII.

NOTE. — Pupils in Grades VII. and VIII. are given a choice between a so-called Latin-English and an English course. The Latin-English course devotes less time to the study of English Grammar, but includes the study of Latin, and expects to teach much English Grammar through Latin. The English course devotes the entire time to the study of English Grammar. The outline that follows applies more particularly to the English course.

TECHNICAL WORK.

I. Review thoroughly punctuation and the use of capitals.

II. Continue the work of previous grades in the classification of words as parts of speech.

III. Teach thoroughly adjective and adverbial modifiers, and complete and essential subject and predicate.

IV. Give thorough drill in the analysis of all kinds of simple sentences (indicative, interrogative, imperative, and exclamatory). Extend this work the last part of the year to complex and compound sentences.

NOTE. — The "limited" use only of diagrams in sentence analysis is advised.

V. NOUNS.

1. Kinds — proper, compound, collective, etc.
2. Gender. How denoted.
3. Inflection.
4. Number. Review thoroughly the formation of plurals.
5. Case. *a*, subject of a verb; *b*, predicate nominative; *c*, cases in apposition; *d*, nominative by address and absolute; *e*, object of a verb; *f*, object of a preposition; *g*, indirect object; *h*, possessive case.
6. Use of infinitive, adjective, and other parts of speech as nouns.
7. Practice in parsing nouns.

VI. PRONOUNS.

1. Personal Pronouns. — *a*. Inflection for gender, person, number, and case. *b*. Drill upon their correct use.

2. Demonstrative Pronouns.
3. Interrogative Pronouns.
4. Relative Pronouns. — *a.* Teach their use in complex sentences. *b.* Drill upon the correct use of who, whom, and which.
5. Practice in parsing pronouns.

VII. ADJECTIVES.

1. Classes — descriptive, demonstrative, etc.
2. Comparison of adjectives.
3. Parsing of adjectives.
4. Adjective phrases.

VIII. WORD STUDY.

1. Continue work of Grade VI. in word building, use of prefixes, suffixes, etc.
2. Begin work in the choice of words.

WRITTEN WORK.

NOTE. Because of the fact that the work of Grades VII. and VIII. is departmental, there is special danger that to the English teacher may be left all the correction of mistakes in English. To guard against this, emphasis is laid again upon the fact that every oral recitation and every written page is an exercise in English. Teachers in every subject are expected invariably to correct mistakes in English in oral recitation, and by the use of some simple code to note salient mistakes of the same kind in the written work.

I. Read carefully topics Spelling and Written Work in the introduction.

II. Continue work of previous grade in letter writing. Emphasize brevity, clearness, and courtesy in business correspondence.

III. Continue work in exact expression by formulating directions in connection with industrial or science work.

IV. Correct and hand back at least once in two weeks a written composition.

NOTE. It is expected that this work will be supplemented by frequent shorter exercises in composition, or dictation under the direction of the English teacher, and by written work under other teachers.

Language. Grade VIII.

See note at beginning of outline for Grade VII.

I. Review and amplify the work of Grade VII.

II. VERBS.

1. Transitive and Intransitive.
2. Inflection for tense, mode, person, and number.

3. Active and passive voice.
4. Conjugation. Teach carefully how to form conjugations from the principal parts. Do not attempt to memorize conjugations. Review in this connection the principal parts of irregular verbs.
5. Teach correct use of shall and will, may and can, might and could, would and should, must and ought.
6. Infinitives and participles.
7. Drill in parsing.
8. Participial and infinitive phrases.

III. ADVERBS.
1. Classes — time, place, manner, degree, etc.
2. Conjunctive adverbs. Connect with work in complex sentences.
3. Comparison.
4. Adverbial phrases.
5. Drill in parsing.

IV. PREPOSITIONS.
1. Object — noun, adjective, adverb, etc.
2. Drill in parsing.
3. Prepositional phrases.

V. CONJUNCTIONS.
1. Co-ordinate and subordinate. Associate with complex and compound sentences.
2. Drill in parsing.

VI. INTERJECTIONS.

VII. CONTINUE work in analysis of complex and compound sentences.

VIII. WORD STUDY.
1. Continue work in word building and choice of words.
2. Synonyms.
3. Paraphrasing (simple work).

IX. Recognition of the more common figures of speech.

WRITTEN WORK.

See outline for Grade VII.

Reading. Grade I.

CLASS READINGS.

Cyr's Primer and First Reader.
Dean's Phonetic Reader.
Interstate Primer and First Reader.
Harper's First Reader.
Nature's Byways. — Ford.

SUGGESTIONS FOR READING TO THE CLASS AND STORY TELLING.

Fairy Know a Bit. — A. L. O. E.
Adventures of a Brownie. — Mrs. Craik.
Nature in Verse.
Night before Christmas.
Child's Garden of Verses. — Stevenson.
Story Hour. — Kate Douglas Wiggin.
Stories of American History.
A Little Word that was Lost.
Myths.

SUGGESTIONS FOR MEMORIZING.

Five Little Brothers. — Ella W. Wilcox.
The Baby. — Geo. MacDonald.
An Old Saw. — Celia Thaxter.
Daisy Nurses. — Little Flower Folks, Vol. 2.
Little Birdie. — Tennyson.
Spring, Autumn, Winter, in Motion Song Book.
Good Night. — Victor Hugo.
Twenty-fourth Psalm.

Reading. Grade II.

CLASS READINGS.

Cyr's Second Reader.
Æsop's Fables.
Fables and Folk Stories. — Scudder.
Verse and Prose.
Stories of Plant Life. — Bass.
Stories of Animal Life. — Bass.
Grimm's Fairy Stories.

SUGGESTIONS FOR READING TO CLASS AND STORY TELLING.

The Prince and the Pauper. — Twain.
Fairy Frisket. — A. L. O. E.
Friends in Feathers and Fur. — Johonot.
Legends of the Red Children. — Pratt.
Why Little Birds Hop. — L. J. Bates.
Love Songs of Childhood. — Field.
Stories from American History.
Myths.

SUGGESTIONS FOR MEMORIZING.

Good Morning. — Browning.
Sing, Little Bird, Oh Sing ! — Thaxter.

Spring. — R. N. Turner.
A Child's Question. — De Vere.
My Shadow. — Stevenson.
Good Night. — Sidney Dayre.
Sixty-Seventh Psalm.

Reading. Grade III.

Class Readings.

All the Year Round. — Autumn.
Hans Andersen's Fairy Tales.
Seven Little Sisters. — Jane Andrews.
Each and All. — Jane Andrews.
Stories of Great Americans for Little Americans.

Suggestions for Reading to the Class and Story Telling.

How the Rain Sprites were Freed.
Jungle Stories — Kipling.
Melody. — Laura Richards.
Birds' Christmas Carol. — Wiggin.
Pied Piper of Hamelin. — Browning.
Stories from American History.
Myths.

Suggestions for Memorizing.

Wind in a Frolic. — Hewitt.
Angels of the Spring.
God's Father-Care. — Hey.
Give. — Adelaide Proctor.
An Easter Text.
Seven Times One. — Proctor.
March. — May Riley Smith.
Recipe for a Happy Day. — Selected.
One Hundredth Psalm.

Reading. Grade IV.

Class Readings.

Selections from Longfellow. — Riv. Ed. 11 and 63.
Old Stories of the East.
Mother Nature Stories. — Jane Andrews.
Pratt's History Stories.
Seaside and Wayside. — No. 2.
Wonder Book. — Hawthorne.
Child Life in Prose. — Whittier.

Suggestions for Reading to the Class and Story Telling.

Stories from American History.
Timothy's Quest. — Kate Douglas Wiggin.
William Henry Letters. — Mrs. Diaz.
Arabian Nights.
Stories of Industry.
Myths.

Suggestions for Memorizing.

Time to Go. — Selected.
Snow Flakes. — Longfellow.
The Petrified Fern. — M. L. B. Branch.
The Blue-Bell. — Little Flower Folks, Vol. 2.
March. — Celia Thaxter.
Oh, the Fragrance of the Air. — Celia Thaxter.
October. — Helen Hunt Jackson.
Up Life's Hill.
Ninety-first Psalm.

Reading. Grade V.

Class Readings.

Hiawatha. — Longfellow.
King of the Golden River. — Ruskin.
Water Babies. — Kingsley.
Old Testament Stories. — Riv. Ed. No. 46.
Ten Boys. — Jane Andrews.
Selection from Longfellow. — Riv. Ed. No. 11 and 63.

Suggestions for Reading to the Class and Story Telling.

Heidi. — Johanna Spyri.
Jan of the Windmill. — Ewing.
Being a Boy. — Warner.
Great Masters. — Maud Mefenee.
A Dog of Flanders. — Ouida.
Praise Meeting of the Flowers.
John Gilpin. — Cowper.
Stories of Industry.
Myths.

Suggestions for Memorizing.

Asleep. — Edward A. Jenks.
Burial of Moses. — Mrs. Alexander.
Flowers. — Longfellow.
The Pilgrim Fathers. — Hemans.

Birthday of Agassiz. — Longfellow.
Ice Storm. — Mark Twain.
Conduct. — Whittier from the "Mahabharada."
Tom. — Nature and Verse.
Ninety-fifth Psalm.

Reading. Grade VI.

CLASS READINGS.

Miles Standish. — Longfellow.
Hawthorne's Biographical Sketches.
Hawthorne's Daffydowndilly.
Gods and Heroes. — Francillon.
Selections from Holmes' Poems. — Riv. Ed. No. 6.
Peasant and Prince. — Martineau.
The Cricket on the Hearth. — Dickens.
A Christmas Carol. — Dickens.

SUGGESTIONS FOR READING TO THE CLASS AND STORY TELLING.

Tom Brown's School Days.
Rab and his Friends.
Selections from Ethics for the Young.
Saxon Grit. — Robert Collyer.
Lincoln. — Tom Taylor.
Gulliver's Travels.
Baron Munchausen.
Myths.

SUGGESTIONS FOR MEMORIZING.

The Angelus.
Abraham Davenport. — Whittier.
The Shell. — Tennyson.
Ode from the Nineteenth Psalm. — Addison.
Our Country — Grimké — Open Sesame.
My Native Land. — Scott.
Christmas Bells. — Longfellow.
Where did Yesterday's Sunset go? — Gannett.
One Hundred Third Psalm.

Reading. Grade VII.

CLASS READING.

Evangeline. — Longfellow.
Snow Bound, Mabel Martin, etc. — Whittier.
Greek Heroes. — Kingsley.
The Man Without a Country. — Hale.
Autobiography. — Franklin.
Birds and Bees. — Burroughs.

Reading. Grade VIII.

CLASS READING.

Sketch Book. — Irving.
Merchant of Venice. — Shakespeare.
Gettysburg Speech. — Lincoln.
The Succession of Forest Trees and Wild Apples. — Thoreau.
Sella, Thanatopsis, etc. — Bryant.
Stories of the Old World. — Church.
A Hunting of the Deer. — Warner.
Lays of Ancient Rome. — Macaulay.

NOTE. — Much of the reading to the class and of the memory work in Grades VII. and VIII. may be taken from the books assigned for class reading.

SCHOOL DECORATION.

It is a pleasure to again acknowledge gifts of various kinds to our schools. The Glover School has received gifts of pictures, maps, and a cast of Michael Angelo's Madonna, and the Sumner School gifts of books. Acknowledgment was omitted from last year's report of a gift to the Houghton School of a portrait of Jason Houghton, from whom the school took its name. Increased attention is being given at the present time to the importance of pictures, casts, etc., as an uplifting influence within the school room. Some firms are publishing, at a low cost, most excellent reproductions of masterpieces of art specially designed for school decoration. Our schools have thus far depended for such adornment upon the bounty of interested friends, and have been most generously remembered; but these gifts have not been evenly distributed, and some schools are almost without decoration of any kind. It is to be hoped that something can be done by the school authorities in the year that is to come in the way of school decoration.

In closing this report, I wish to thank the Committee for their cordial support during the year that has passed, and the teachers for their increased faithfulness and cooperation.

Respectfully submitted,

M. W. RICHARDSON,
Superintendent.

SPECIAL REPORTS.

HIGH SCHOOL.

MILTON, MASS., Jan. 1, 1898.

To Mr. M. W. Richardson, Superintendent of Schools:

Herewith is submitted the High School report for 1897. The school opened on Sept. 7, 1897, with an attendance of 137, distributed as follows: post-graduates 2, seniors 21, juniors 28, sophomores 41, freshmen 45, a total of 137. Since that time five have left and four have entered, a net loss of one. There are now in the school 23 post-graduates and seniors, 28 juniors, 40 sophomores, and 45 freshmen. Of the present senior class 7 are preparing for college.

The course of study in the High School is largely elective. Such a course has the great advantage of allowing pupils to select those branches which appeal to their dominant interests, but there is danger that selections will be unwisely made. Safeguards against unwise selections have been placed by restricting certain branches to certain years, by requiring that a certain amount of science and foreign language be included in the selection, and that the branches chosen by the pupils meet the approval of parents and teachers. In order that a selection of studies may be made more intelligently when the proper time comes, there is here subjoined a brief outline of the character and extent of the work in the several departments.

This outline is intended as a help to parents in advising their sons and daughters, but is not intended to remove the desirability of consultation with the teachers, a method which is much more likely to result to the satisfaction of all concerned.

ENGLISH AND LITERATURE.

These branches, well begun in the grammar grades, are continued through the whole four years of the High School. During the first year some representative English and American authors are read.

SCOTT. — Lady of the Lake.
Ivanhoe.
GOLDSMITH. — The Traveler.
The Deserted Village.
The Vicar of Wakefield.
GRAY. — Elegy written in a Country Church Yard.
LONGFELLOW. — Tales of a Wayside Inn and other poems.
WHITTIER. — Tent on the Beach and other poems.
HAWTHORNE. — Tales of the White Hills.
IRVING. — Selections from the Sketch Book.

In the work of this year special attention is paid to the following points: narration, description, the strength and beauty of the characters depicted, the more common figures of speech, the musical quality of the verse, and the beginning of the history of American Literature.

In the second year the study of English and American authors is continued, together with the history of American literature. Attention is paid to some of the more prominent qualities of style.

HOLMES. — Selected Poems.
Selections from prose works.
LOWELL. — Same as above.
TENNYSON. — Such selections as The Princess, and Idylls of the King.
RUSKIN. — Selections from Modern Painters.
SHAKESPEARE. — Julius Cæsar.
BURNS. — Selected poems.

In this year beauty is emphasized, much oral reading is done, and passages are committed to memory more than during the first year.

The text of Shakespeare is not strictly analyzed, but character study is made prominent.

In the third year style and development of plot are carefully considered. English and American authors are continued.

GEORGE ELIOT. — Silas Marner.
ADDISON. — The De Coverley Papers.
COLERIDGE. — The Ancient Mariner and other selections.
SHELLEY. — Ode to a Skylark and other selections.
KEATS. — Ode to a Grecian Urn and other selections.
WORDSWORTH. — Selections.
LAMB. — Selections.
SOUTHEY. — Selections.
SHAKESPEARE. — As You Like It.

In the fourth year emphasis is placed on the development of language, and the text is studied more critically than in previous years. Passages of striking force or beauty are committed to memory.

EMERSON. — Selections.
MACAULAY. — Essay on Milton.
MILTON. — L'Allegro.
Il Penseroso.
Lycidas.
Paradise Lost, books I. and II.
BURKE. — On Conciliation with America.
SHAKESPEARE. — Hamlet or Macbeth.
CHAUCER. — Selections from Canterbury Tales.
SPENSER. — Selections from Faerie Queene.

Pupils who are preparing for college take the college preparatory course in English, which is the same for all the leading colleges and identical with the course outlined above with the exception of the last half of the senior year. College preparatory work is subject to change from year to year, and the changes are announced by the colleges, two or three years in advance. Apart from the regular work in English it is the aim of the school to make every recitation an exercise in the correct use of spoken English, and every written exercise a lesson in the correct use of language, Incorrect use of language, spoken or written, ought to receive attention whenever and wherever it may occur.

LATIN.

Latin is studied in the High School four years, and two years in the grammar grades.

The first year in the High School is occupied with advanced portions of Tuell and Fowler's book, selections from Viri Romæ and Cæsar, and with Latin composition.

During the second year selections from Cæsar and Nepos are read and the work in composition continued.

The third year is devoted to Cicero and Latin composition and the fourth to Vergil and Ovid.

During the entire course special stress is laid upon the derivation of English words from the Latin. In the first two years grammatical forms, indirect discourse, uses of the subjective and technical points of construction, receive much attention. In the last two years more attention is given to the literature of the language, metre, style, mythology, geography, and literary beauty. Pupils have practice in sight-reading in every year of the course, but care is taken that it be conducted within such reasonable limits as to prevent pupils from developing into good guessers instead of accurate translators.

Greek is studied three years. The first year is devoted to the necessary parts of the grammar, Greek composition, White's Beginning Greek Book, and the Anabasis. In the second year several books of the Anabasis are read and Greek composition is continued, based on the text read. During the third year Homer's Iliad and Odyssey occupy the time. The work is sufficient to fit pupils for any college. As in the Latin course, the last year is the time for more attention to the literary value and beauty of the language, also for instruction in the life, religion, manners, and customs of the ancient Greeks.

German extends through the last three years of the high school course. The first year is taken up with grammar, German composition, and easy selections for reading.

Special attention is paid to pronunciation. During the second and third years such works as Grimm's Tales, Wilhelm Tell, Minna von Barnhelm, Dichtung und Wahrheit, Nathan der Weise and Aus dem Staat Friedrichs des Grossen are read. Composition work is continued through the three years. Much of the recitation work is conducted in German. The work covered prepares pupils for the maximum requirement of the leading colleges.

In French the same plan is adopted as in German, with corresponding French selections, and the course is of the same length. After the preliminary work of the first year, such works as Super's French Reader, Colomba, Sans Famille, Le Cid, L'Abbe Constantin, Contes Choisis and Voyage de M. Perrichon are read. The course prepares pupils for any college.

HISTORY.

The following courses in history are offered: —

English History, which includes the development of the English people from the earliest time of their existence down to the present. Montgomery's Leading Facts of English History is the text-book employed, but much collateral reading in books of the reference library is done.

Ancient History. This course deals principally with the Greeks and Romans and their oriental connections.

Mediæval and Modern History, the principal aim of which is to trace as clearly as possible the changes and periods through which Europe has passed in reaching its present condition. Special attention is given to the causes and progression of the French Revolution, and its effects upon other countries in Europe.

American History and Civics. The aim of this course is to consider the conditions under which the government of the United States has developed into its present form. The value of the course lies chiefly in the fact that the pupils use largely their own powers of research and are, consequently,

encouraged to acquire the habit of using many books of reference, reading the most important chapters rather than the whole book. This is an advanced course and is adapted for the more mature pupils.

In this connection it may be said that a class in local history has been formed of voluntary members from the senior and junior classes. This work is outside the regular work of the school and will be carried on by meetings once in two or three weeks, and occasional excursions when the weather is pleasant. The purpose is to acquaint the members with the facts and places that are, historically, most interesting in the history of the town.

MATHEMATICS.

Algebra is a required study the first year, and algebra and geometry, alternating, the second. After that mathematics is an elective, including advanced algebra, solid geometry, and trigonometry. The geometry of the second year is taught largely without the usual text-book, but from a syllabus or prepared outline. The object of this is to make the work original, so far as may be practicable, and thus encourage thought and reasoning power on the part of the pupil, and not memory alone. The work in mathematics meets all college requirements.

Under this head must be treated business arithmetic. Inquiry is sometimes made as to the difference between ordinary arithmetic and business arithmetic. In reply it may be said that the latter is a practical application of the former to every-day business affairs. Carpenters, masons, and other mechanics, clerks in stores, banks, and various other offices, all have different applications of numbers to their respective lines of work. In all these employments rapid methods of arriving at results have been devised. Business arithmetic teaches these methods which pupils before the high school age are not capable of fully comprehending. Indeed, pupils in the fourth year of the high school course might learn

much of arithmetic as practically applied to percentage, discount, and averaging of accounts.

BOOKKEEPING.

From the bookkeeping as taught in the High School a pupil may learn the forms of making entries, and also simple, systematic plans of keeping accounts so that they will show the results usually required in ordinary bookkeeping. It is not possible to make expert bookkeepers of boys and girls while in a high school. To be expert in this branch requires the same maturity of mind, long practice, and knowledge of details as are required to be expert in any other calling. It may be said, however, that the more mature a pupil is, the more he will get from the course as offered. We cannot expect pupils to gain more than the rudiments of the subject before they are mature enough to comprehend business relations and operations. Pupils who finish this course ought to be able to enter correctly in the proper books ordinary business transactions, and be in a position to acquire rapidly facility in dealing with complicated business operations.

CHEMISTRY.

The course of chemistry embraces an extended series of practical experiments by each pupil, which are selected with a view to make him acquainted with the common elements and their reactions in forming various compounds. This work leads up to an elementary course in determining by experiment the composition of a given substance. Every pupil has his own equipment and performs each experiment for himself.

PHYSICS.

In this course, as in chemistry, each pupil performs a carefully prepared series of experiments, work which is supplemented by abundant demonstration before the class. The experiments and demonstrations deal with important facts in

relation to the general properties of matter, the mechanics of fluids and solids, heat, sound, light and electricity.

ZOOLOGY.

In this course pupils learn by personal observation and examination in the laboratory the habits and external structure of common insects, animals, and other forms of life. Drawings of the objects are made in note books. In the proper seasons field work in connection with the course enables the pupils to become acquainted with the birds, insects, and other animals of this region. No dissection of live specimens is allowed. As in chemistry, each pupil has his own equipment and learns by actual observation and examination.

GEOLOGY.

In this course stress is placed upon the forces of nature rather than upon the historical aspect of the subject. Consequently, tides, waves, glaciers, rivers, and other geological agents are the topics emphasized. Something of historical geology is also introduced. The study of the text-book is supplemented by laboratory and field-work.

ASTRONOMY.

This interesting and valuable subject, one of the most inspiring of studies, does not receive the attention it deserves. The heavenly bodies in all their wonderful movements and phenomena are considered, the leading constellations are traced and located in the sky, and the brightest stars learned by name and position. As yet the school is not equipped with a telescope, but the observatory is waiting to receive one.

BOTANY.

The work in botany begins with a careful and somewhat extended study of the form, structure, and life of flowering

plants, after which a few typical flowerless plants are considered. In the spring representative flowering plants are studied by families, and special attention is given to relationship and cross-fertilization. Work in the laboratory forms the basis of the course, but it is supplemented constantly by reading and out-of-door study.

PHYSIOLOGY.

This course is intended to afford a practical knowledge of the structures, activities, and care of the human system. In addition to the regular laboratory work, experiments, microscopical preparations, and anatomical models are used to give vividness and accuracy to the ideas gained from the textbook.

STENOGRAPHY AND TYPEWRITING.

The last two years are devoted to this course. It is placed here because of the feeling that two years in the High School will enable pupils to enter upon the work much more intelligently than they otherwise would. When the course is finished pupils will have had four years of work in the school, and in every way will be better qualified to fill acceptably positions they may obtain. Yet it must be stated that this department was not established with the sole object in view of making pupils self-supporting at the close of their high school career, though this is a worthy object, but also for the additional purpose of placing it within the power of pupils preparing for college to become sufficiently expert to take full reports of lectures, of which no small part of their course will consist. It is expected that two years of work will enable pupils to fill satisfactorily any ordinary business position both in shorthand and typewriting. Aside from the practical business value of these branches the mental training in accuracy, and especially in concentration of mind, must not be too lightly esteemed.

SLOYD.

It is often supposed that sloyd means industrial training merely, and the sloyd school is regarded as a carpenter shop only, or a trade school. The aim of sloyd is to give a pupil not merely special training for a particular trade, but also a general development. Froebel says: "The end and aim of all our work should be the harmonious growth of the whole being." The object of the work, therefore, is not simply a training of the hand in the use of tools, but something much broader. It involves the training of the mind in conjunction with the hand and eye, and should be a physical exercise as well. While boys and girls are acquiring skill in handling tools, they are also gaining self-reliance and independence, the value of which can hardly be over-estimated. Habits of close attention, concentration of thought, perseverance and accurate observation, all of which lie at the foundation of success in any calling, are fostered, pupils learn to plan and execute, and the tool work becomes a means to obtain the end of a general development.

The extension of sloyd in the schools has been in two directions; whittling has been introduced into the fifth and sixth grades, and wood-turning into the High School. The whittling is carried on in the school-room under the supervision of the regular teacher, who has the help of an assistant from the sloyd department of the High School. The boys in the fifth and sixth grades spend one hour a week in whittling while the girls are occupied in sewing. Particular attention is given to the correct use of the knife and try-square, and care is taken that proper standing positions are maintained in order that the physical development may be even. Thin wood is used almost entirely in the fifth grade, and simple working drawings of two dimensions are made. In the sixth grade three eighths and one half inch wood is used, and drawings having two views are required. Accurate

work is expected. The power of self-control, and the careful attention required, are great helps as the pupils advance and take up the regular grammar school work.

The boys of the seventh and eighth grades spend one hour and a half a week in the sloyd room and learn to use the ordinary tools of the carpenter, beginning with the saw, plane, chisel, and hammer. Class work is done at first, but after a few of the fundamental principles are learned each boy is allowed to advance as rapidly as his ability will permit. Here, again, accuracy of measurement is required, yet the real object sought is a gain in power rather than the completion of a perfect model. Mere skill with the hand is not the chief object sought.

The work in the High School is now elective and consists of two half courses. It is a continuance of the work in the lower grades, advancing in regular order, the progression of tools, exercises, and drawings being carefully graded. The time spent is four periods a week of forty-two minutes each, usually reduced to a double period twice a week.

In the second year wood-turning is added to the course, the boys spending one of the double periods at the bench and the other at the lathe. Six boys are now working at the lathe and have shown a fair degree of success. The need of careful thought and close attention has been quite evident to them, and the previous training is found of great value. The training of the eye and the judgment will be one of the chief aims in this work.

The models made by the pupils are kept in cases made for that purpose, and may be seen by visitors at any time when the school is in session.

LIBRARY.

At the beginning of the school year the library received an addition of about 250 volumes of reference books, and now contains about 600 volumes. A few more books are needed for immediate use, and when these are added the

school will be well supplied in this department. The library is one of the most valuable features of the school. The books are now being renumbered and rearranged, after being labelled with a neat design made by the drawing teacher. Soon there will be placed in each of the class rooms a blank book in which pupils will keep a record of books read by them during the year, and their impressions of these books. Such a book is a valuable aid to teachers in learning the tastes of pupils and making helpful suggestions.

DECORATION OF THE WALLS.

In most respects the High School is unusually well equipped, but there is one which is now receiving the attention of the school authorities and deservedly so; that is the matter of decoration of the rooms and halls with pictures and other works of art. It has been noticed that, whenever photographs of noted places or persons, or drawings made by the pupils, have been placed upon the walls, they have attracted interest and attention. They are silent educators. We hope soon to have works of art in the school that will not only add to the pleasing appearance of the rooms, but also leave a lasting impression on the minds of those who see them day after day.

The general aim of the school is to offer as broad a course of study as possible and at the same time make the work thorough. In the future, as in the past, the efforts of the teachers will be directed toward giving pupils an equipment in mind and heart that will enable them to fill honorably to themselves and with credit to the town their positions as residents and citizens in all that these words imply. In discipline the aim is to encourage self-government, to appeal to the best that is in pupils, to endeavor to bring them to realize that self-denial, obedience, respect for the rights of others, are essential to true success in any calling, and at the basis of all good government.

The spirit of the school has been excellent, showing the results of faithful and wise work by the teachers during previous months, and ready response on the part of pupils. Parents and friends will be welcomed whenever they find it convenient to visit the school.

EMORY L. MEAD, *Principal.*

MUSIC.

Mr. M. W. RICHARDSON, *Superintendent of Schools.*

Dear Sir, — A review of the year's work gives us the assurance of a real advance.

At the beginning of the year, the work was well planned and systematically arranged, and the program has been very carefully followed.

No special teacher could wish for more hearty enthusiasm from the pupils, nor for more earnest endeavor from the regular teachers. The progress has been rapid and the improvement marked.

Much attention has been paid to individual work both in reading and in tone production. Whenever a lack of knowledge in any part has been apparent, special instruction has been given the pupil, with satisfactory results. Constant vigilance has to be exercised in order that the tones be pure and the expression correct. It is hoped that the harsh, shrill tones will rapidly give place to those which are sweet and musical. Each lesson should be a step toward the accomplishing of this object.

In most cases the music period is not looked upon as an hour of toil and drudgery, but as a pastime. One of our most enthusiastic and careful teachers has successfully accomplished the work planned for a whole year in four months' time, and yet affirms that she has not been obliged to overwork either herself or the pupils. This simply illustrates what may be accomplished by careful, persistent effort.

It is a matter of regret that all schools cannot be closely graded. In the rooms in which two grades are taught the same lesson, it necessarily follows that either the higher grade is held back, or the lower grade is advanced too rapidly. If this be true of two grades, the evil must be still more apparent in rooms where three grades are taught.

Perhaps no subject requires more enthusiasm, personal magnetism, and persistent effort from the teacher than music. If the teacher does not inspire her pupils, or should she attack the lesson in a spiritless way, the result will be failure; while, on the other hand, the pupil will rarely refuse to respond to a bright, cheerful instructor.

We truly appreciate the words of praise and commendation which have been so freely spoken on every occasion when the pupils have appeared in public. It is a source of encouragement both to pupils and teacher. We are still looking forward to many improvements.

A High School orchestra is much needed. A broader and more extended knowledge of music is desired. A more finished style, and many things which time and untiring effort may produce.

George E. Wales, *Teacher*.

DRAWING.

Mr. M. W. Richardson, *Superintendent of Schools*.

Dear Sir, — During the year, changes have been made in the primary work, which seem to better adapt it to the children. Less time has been given to type solids, and more to real work with the pencil and color.

Picture study has been introduced, that the children may become acquainted with at least one good work of art each term.

Above the third grade, the artists themselves have received attention. Their lives have been written, and as

many of their pictures studied as it was possible to secure. Both children and teachers have been very interested, and have done excellent work along this line.

The quality of the whole work throughout the town has been improved.

The actual results depend, in a great measure, upon the regular teacher; and it is with pleasure that I commend them for the willingness and efficiency with which they have followed my plans.

The year has been a very pleasant one, owing to the kindness and co-operation of the Superintendent and Committee, for which I thank them.

ADRIA L. LANTZ, *Teacher.*

NATURE WORK.

MR. M. W. RICHARDSON, *Superintendent of Schools.*

Dear Sir, — In compliance with your request, I hereby submit the following report: —

In arranging the work for the various schools, and in selecting the material and topics for study, the aim has been, —

1. To adjust the lessons to the nature and needs of the children at different ages.

2. To adapt the work to the season, and to the local conditions and surroundings of each school.

3. To study each topic in its relations and not as an isolated thing.

4. To relate the work as much as possible to other school studies.

As the teachers have generally two grades in charge, the following topical outline is arranged in cycles, the subjects to be studied during or within two successive years.

Throughout the course, the life sciences, the study of plants and animals, are given the greater emphasis. In the first

cycle, though an attempt is made to study all parts of a plant and to get some idea of the common types of animals, it is by simple stories of their life, habits, and home, their protection and care. The more thorough and intensive method of work is left to later years. In the second cycle, much the same ground is covered as in the first, but more attention is given to structure and function, and to phenomena which require maturer consideration on the part of the pupil. In the third cycle, fewer subjects are taken up, but they are studied for a longer time. Emphasis is placed upon the resemblances and differences essential to the deduction of a simple classification.

During suitable weather, field lessons have been given. To intelligently plan and skilfully execute profitable field work, there is still everything to be learned, but the little attempted during the past year has proven an uplift to the work within the school-room.

First Cycle.

FIRST AND SECOND YEARS.

September.	One or two plants as wholes. Recognition of common flowers. Insects. Spiders.
October.	Seeds. Falling and colors of leaves. Galls and leaf-miners. Earth worms. Rain.
November.	Fruits. Preparation of buds for winter. Squirrel, bird, or fish. Preparation of animals for winter. Frost.
December.	Evergreens. The cat. Human body as a whole; its parts. The breathing. Snow.
January.	The dog. Parts of head, face, and trunk. The blood. Ice. Coal. Chalk.
February.	Grass-eating animals. Parts of arm, hand, leg, foot. The moon. Quartz. Glass. Mica.
March.	Buds. Birds. Eyes, ears, nose, mouth. Sand, sandstone. Sun shadows.
April.	Catkins. Germination of bean and pea. Moths or butterflies.
May.	Germination. Parts of leaves. Early flowers. Frogs or toads, eggs and tadpoles.
June.	Germination. Flowers and their parts. Insects.

Second Cycle.

THIRD AND FOURTH YEARS.

September.	Parts and uses of plants. Changes of flower to fruit and seeds. Insect life.
October.	Stone and fleshy fruits. Seeds. Squirrel, rat, or mouse.
November.	Dry fruits. Seeds. Migration of birds. Hibernation of animals.
December.	Fleshy roots. Carbonates of lime. Water and its evaporation.
January.	The potato. Clay, slate, gravel, conglomerate. Condensation.
February.	Bulbs. Buds in winter. Granite and its constituent minerals. Work of water.
March.	Development of buds. Rock-weathering and soil-making.
April.	Germination of seeds whose cotyledons become green and leaf-like. Bird life.
May.	Germination of seeds whose cotyledons remain under ground. Frog life.
June.	Leaves, flowers, insect life.

Third Cycle.

FIFTH AND SIXTH YEARS.

PLANTS, DIVISION INTO.

1. Herbs, shrubs, and trees.
2. Animals, biennials and perennials.
3. Deciduous and evergreen trees.
4. Flower families.

Study of like and unlike trees. Study of marked characteristics of a few flower families.

ANIMALS. DIVISIONS INTO.

1. Known animals with or without a backbone.
2. Vertebrates covered with scales, naked skin, feathers or hair.
3. Slight classification of invertebrates.
4. Groups of birds, — perchers, swimmers, waders, scratchers, climbers, birds of prey, runners.

Study of marks and adaptation in covering claws, beak, and wings of birds.

Study of individual animals, vertebrate or invertebrate, for parts, habits, and uses.

PHYSIOLOGY. Bones, skin, muscle, circulation. Minerals.

MINERALS. Study of one or more of the following groups. 1. Typical minerals with the building stones composed of them. 2. Coal series. 3. Lime series. 4. Metals and ores. 5. Volcanic rocks.

ISABEL B. HOLBROOK, *Teacher.*

SEWING.

MR. M. W. RICHARDSON, *Superintendent of Schools.*

Dear Sir,— It is with pleasure that I can speak of a marked improvement in this department of work. While the outline followed last year has not been materially changed, the added interest and enthusiasm of the girls (particularly in the lower grades) is most gratifying to me.

The following is the work accomplished from the fourth to the eighth grades inclusive. Let it be remembered that the time in the seventh and eighth grades is divided between sewing and cooking.

Fourth Grade.— Pillow cases.
Fifth Grade.— Skirts.
Sixth Grade.— Drawers and skirts.
Seventh Grade.— Night dresses and babies' dresses.
Eighth Grade.— Draft, cut and make dresses.

ORLANA ROOT, *Teacher.*

COOKING.

Mr. M. W. RICHARDSON, *Superintendent of Schools.*

Dear Sir, — In accordance with your request, I send you herewith a report upon the cooking.

The work of the seventh and eighth grades consists of twenty lessons each as outlined below : —

Work of the Seventh Grade.

1. Housekeeper's Rules, measurements, etc.
2. Cocoa; how to wash dishes; scrub boards; clean tins.
3. Baked potatoes; building of fire and care of stove.

4. Boiled, riced, mashed potatoes; the five food principles.
5. Preparing and cooking of vegetables. Boiled carrots, turnips, beets, and parsnips.
6. Boiled onions and creamed cabbage; white sauce.
7. Apples and tapioca; apple tapioca pudding; baked apples; apple sauce.
8. Corn starch pudding and mould; cranberry sauce.
9. Steamed rice; cream rice pudding; stewed prunes.
10. Boiled rice; soft custard; baked custard.
11. Soft boiled eggs; hard boiled eggs; omelet.
12. Dropped eggs; baked eggs; egg vermicelli; coddled eggs.
13. Boiled macaroni; tomato sauce; baked macaroni; buttered crumbs; cheese patties.
14. Oatmeal mush; rolled oats.
15. Wheat germ with dates; hasty pudding.
16. Candies.
17. Milk; care, sterilizing, etc.
18. Pea soup; potato soup; croutons.
19. Mock bisque; baked crackers; noodles; cracker brewis.
20. Review.

Work of the Eighth Grade.

1. Review of work done preceding year; soup stock; lemon jelly.
2. Macaroni and rice soups; broiling steak, chops, and meat balls.
3. Boiled mutton; gravy for sauce; smothered beef; creamed potatoes.
4. Roast beef; clarifying fat.
5. Warmed over meats.
6. Mutton stew and dumplings; fricasseed chicken.
7. Oysters stewed and scalloped; fish balls.
8. Baked fish with stuffing; fried fish.
9. Fish chowder; boiled fish; egg sauce.
10. Baking powder biscuit; short cake.
11. Popovers; breakfast puffs; doughnuts.
12. Suet pudding; gingerbread; corn muffins.
13. Mixing bread; white and entire wheat; cookies.
14. Baking bread and rolls; rhubarb sauce.
15. Pastry.
16. Cake and frosting.
17. Lobster, creamed, etc.; cabbage salad.
18. Invalid cookery.
19. Invalid cookery.
20. Ices; ice cream and sherbet.

The work thus far in the High School has been the same as that outlined for the seventh and eighth grades, but at the beginning of next year, when the pupils entering the High School will have had this work in the grammar schools, more advanced work can be done. The course will then include instruction upon the chemistry of foods, the adaptation of food to age, climate, and seasons; the arranging of menus for family use; the buying and care of food; the ventilation and cleaning of rooms, etc.

The High School class numbered twenty-six, but several pupils who had been in the eighth grade last year dropped out of the class because a part of the work would be a repetition of last year's work. The class now numbers twenty-two, and is doing most excellent work.

The plan of having recipes printed upon slips of paper, which was introduced this year, has been a great help. It saves time and labor, and avoids the mistakes which are liable to arise from copying recipes.

Respectfully submitted,

MARY L. WADE, *Teacher*.

PHYSICAL TRAINING.

MR. M. W. RICHARDSON, *Superintendent of Schools*.

Dear Sir,— The character of the physical training in our schools is essentially that of last year, the Swedish system being made the basis of the work.

During the year, each grammar school has been visited once a month by the special teacher. In the two lower grades, "motion songs" have been introduced, as supplying a needed step between the great freedom of the kindergarten exercises and the restrictions of genuine gymnastics. The grammar school teachers seem to have felt the disciplinary value of the work, the training in promptness, accuracy, and self-control even more than its physical value. In most

of the schools there has been a marked improvement in the gymnastics. In those rooms where two or three grades are combined, a serious difficulty lies in the necessity of repeating the work yearly.

In the High School, the girls have had two periods a week of physical training, nearly three fourths of that time being devoted to floor work, including exercises in walking and running, the remainder to apparatus work. The aim of the course has been to unite in a sound, straight body, alertness and precision of movement with ease and freedom. The mere development of muscle has been made a secondary end. The use of music and gymnastic games has been found most valuable.

THERESA L. HUNTINGTON, *Teacher.*

BRIEF MEMORIALS OF ANCIENT CITIZENS

PRESENTED AT THE

TOWN HALL BEFORE THE SCHOOL COMMITTEE AND SCHOOLS OF MILTON, OCT. 18, 1895, BY ALBERT K. TEELE.

Ladies and Gentlemen of the School Committee:

At your request I have prepared brief statements respecting those of our early inhabitants whose names you propose to affix to our common schools.

The men whom you have selected were in their day, without exception, representative men. They were men of stalwart character, strong, wise, God-fearing men; earnest in purpose and decided in action, who could be safely trusted with the affairs of Church and State.

Such are the individuals whom you have selected, from the vast number of their compeers, to give names to the schools of Milton, whose rare qualities of heart and mind, in many particulars, all our sons and daughters may well emulate.

Never were more truthful words uttered than those of Governor Stoughton, in his Election Sermon, 1668: —

"God sifted a whole nation that he might send choice grain over into this wilderness."

BELCHER SCHOOL.

It is proposed to name the East School the Belcher School.

Jonathan Belcher was born in Cambridge, Mass., Jan. 8, 1681, and graduated at Harvard College in 1699, in a class of twelve.

After leaving college he spent several years abroad, travelling over England and various countries of Central and Northern Europe.

On his return he became partner in business with his father and acquired an ample fortune. He also became deeply interested in public affairs. He was a member of the Council, 1722–23 and 1726–27.

In 1728 he was authorized by the General Court of Massachusetts to represent the State at London in the settlement of a matter of important public interest; and at the same time he was appointed by the State of Connecticut as counsel in the famous suit of Winthrop versus Lechmore. He accepted the trusts and arrived in England early in 1729.

Soon after his arrival Governor Burnet died, and as Belcher was on the spot and was supported at Court by many friends, he secured the appointment as Governor Burnet's successor in the government of Massachusetts and New Hampshire.

During his residence in Europe Belcher formed an intimate acquaintance with Dr. Isaac Watts, the poet, who commemorated the appointment of his friend to this honorable position by a very beautiful ode, which we copy in full from the New England *Weekly Journal* of Aug. 3, 1730: —

To his Excellency Jonathan Belcher, Esq., *in* London. Appointed by his Majesty King George II. to the government of New England on his return.

Go, favorite man; spread to the winds thy sails;
The Western ocean smiles; the Eastern gales,
Attend thy hour. Ten thousand vows arise,
T' ensure for thee the waves, for thee the skies,
And waft thee homeward. On thy native strand,
Thy Nation throngs to hail thy Bark to Land.
She sent thee envoy to secure her Laws
And he loved Freedom. Heaven succeed the cause,
And make thee ruler there. Thy name unites
Thy Prince's honors, and thy People's Rights.
Twice has thy zeal been to thy Sovereign shown
In German Realms, while yet the British Throne,
Sigh'd for the House of Brunswick; there thy knee
Paid its first tribute to future Majesty,
And owned the Title ere the crown had shed
It's radiant Honors round the Royal Father's head.

Long has thy nation loved thee; sage in youth,
In manhood nobly bold and firm to truth;
Shining in arts of Peace; yet midst a Storm
Skillful t' advise, and vigorous to perform;
Kind to the World and duteous to the skies,
Distress and want to thee direct their eyes;
Thy life a public good. What heavenly Ray,
What courteous Spirit pointed out the way,
To make New Albion blest, when George the Just
Gave the Joyful Nation to thy Trust?
Great George rewards thy zeal in happy hour
With a bright Beam of his Imperial Power.

Go, Belcher, Go! Assume thy glorious sway;
Faction expires, and Boston longs to obey.
Beneath thy rule may Truth and Virtue spread,
Divine Religion raise aloft her head,
And deal her Blessings round. Let India hear
That Jesus reigns, and her wild Tribes prepare
For Heavenly Joys. Thy Power shall rule by Love;
So reigns our Jesus in his Realms above.
Illustrous pattern! Let him fix thine Eye
And guide thine Hand. He from the world on high
Came once an Envoy and returned a King:
The Sons of Light in throngs their Homage bring,
While Glory, Life and Joy beneath his Sceptre Spring.

I. WATTS.

MARCH 31, 1730.

Governor Belcher was sent home on the man-of-war-frigate "Blanford." He arrived at Castle William (now Fort Independence) Saturday night, Aug. 8, 1730. He attended divine service at the Castle on the Sabbath and landed Monday morning at the end of Long Wharf amid the ringing of bells, booming of cannon, and general rejoicing.

Governor Belcher purchased the Holman estate situated in Milton on the southwesterly side of Adams Street, and now owned and occupied by Mrs. A. H. Payson, between the years 1728 and 1730. This was his suburban residence during the term of eleven years in which he was governor of this province. His advent here at nearly the same time with Provincial Treasurer Foye, who was nephew of the governor,

and had previously taken up his residence in the vicinity, changed in no small degree the character of this portion of the town. He projected large improvements on his lands; and in preparing to build his mansion, an avenue fifty feet in width was graded and finished from the street up the hill, where the building was to be erected. This work he required to be executed with so great nicety and precision, that friends and visitors on the first entrance upon the avenue might "see the gleaming of his gold knee-buckles as he stood on the distant piazza."

The outline of the avenue is now plainly visible as you pass over Unquity Brook on the way to East Milton. It is enclosed by a wire fence and extends from the southwesterly side of Adams Street up the hill towards the Dustan Mansion. Near the head of the avenue a barn was built, but the plan for the mansion was never carried out. This work of grading was accomplished by the Provincial troops, which were marched out to his Milton land by regiments on drill and fatigue duty. A regiment moved from Boston on Monday, camped on the grounds for the week, and were relieved by a second regiment for the subsequent week.

The necessary retinue of servants and slaves: the showy equipage attendant in those days on high official station, which Governor Belcher accepted to its full extent; the coming and going of messengers; the formal and informal visits of officers and ambassadors which always followed an important person, even to his retirement, all these gave unwonted life and importance to the hitherto quiet town.

In his portrait, now extant, the Governor appears with the colonial wig, velvet coat, and waistcoat decked with rich gold lace; lace ruffles at the neck and wrists, with the attendant small clothes and low shoe adorned with gold knee and shoe buckles. His person and presence were graceful and pleasing. He was a man of society and affairs, and spent his money with elegant liberality.

He generally attended church in Milton. A pew in the

Milton church was formally assigned to him by the town, which was "the first on the easterly side of the southerly doors to remain to his Excellency Governor Belcher's Estate on the same footing as the rest of the pews in our meeting-house."

Governor Belcher was doubtless interested in the school then taught in his immediate neighborhood. Our schools were established at a very early date in the east end of the town.

In 1669 "Thomas Vose was chosen School-Master for the East End of the Town to teach children and youth to write; he excepted the same." This school was at the head of Vose's, now Churchill's Lane. There is good evidence that it was kept in the Old Meeting House, doubtless used for both purposes.

The second school-house was built in 1718, "as near the Smith's Shop as convenient," on the present estate of Charles E. Perkins, Milton Hill.

The third school-house was built in 1768, on land donated by Isaac Howe, opposite Milton Burying Ground.

The fourth house was built in 1779, as follows: "Voted to build a school-house in the East End of the Town near the Liberty Pole, similar to the one burned down opposite the burying grounds."

The fifth house was built in 1835, on the north side of Squantum Street, between the Stone Cottage and the house of George W. Bass. "The sum of $150 was voted by the town to aid the East District in building a new School-house."

The sixth house, which is now standing in Adams Street, was built in 1852, and greatly enlarged in 1877.

The seventh house is the admirable structure erected by the town in 1894.

Governor Belcher held office for eleven years, 1730–1741, and was succeeded by Gov. William Shirley, May 16, 1741. He was a voluminous letter writer. A cotemporary has said, "His reckless pen and ungovernable tongue made many enemies on both sides of the Atlantic." His servility with

those above him and his severity with those below him, his fondness for display and his ostentatious piety, were marked by the men of his day. Governor Hutchinson says of him, "By freedom in conversation, and an unreserved censure of persons whose principles and conduct he disapproved, he made himself many enemies."

Governor Belcher remained in Milton for two years after his dismission, then went again to England in 1744.

On the death of Governor Morris, July, 1746, he was made Governor of New Jersey. Here his administration seems to have been successful. He was deeply interested in the foundation of Princeton College; secured its charter in 1754, and bequeathed to the college his library of four hundred volumes.

He died in Elizabethtown, Aug. 31, 1757, and was buried the following Sabbath, Sept. 4, when a funeral sermon was preached by Aaron Burr, president of the College of New Jersey. His body was deposited in a tomb in the old burying grounds of Cambridge, Mass.

Governor Belcher married, Jan. 8, 1705–6, Mary, daughter of Lieut.-Gov. Wm. Partridge, of New Hampshire, who died Oct. 6, 1736; and as second wife, in Burlington, N. J., Sept. 9, 1748, Mrs. Mary Louisa Amelia Teal. His favorite son, Jonathan, Jr., was born in Boston, July 23, 1710; graduated at Harvard in 1728, then went to England and there studied law for five years, and attained distinction at the English bar. He married, April 8, 1756, at King's Chapel, Boston, Abigail, daughter of Jeremiah Allen. Subsequently he went to Nova Scotia and was one of the first settlers of Chebucto, now Halifax. In 1760 he was appointed Lieutenant Governor, and in 1761 Chief Justice of the Province. His seven children were born in Halifax. Andrew, only representative of the name in the male line, born July 22, 1763, was a member of the Council of Nova Scotia. Chief Justice Belcher died in Halifax, March 29, 1776, where his gravestone may now be seen.

Andrew, the eldest son of Governor Belcher, was born Nov. 17, 1706; graduated at Harvard, 1724. He continued to reside on the Milton estate after his father's removal. He represented the town at the General Court from 1759 to 1764. He was Register of Probate for Suffolk, 1739–1754, and was a member of the Council, 1765–7. He married, April 4, 1754, Elizabeth Teal, daughter of his father's second wife, and died in Milton, Jan. 24, 1771, aged sixty-five years, without issue.

Madame Belcher and the widow of Andrew, after the decease of their husbands, occupied the Milton house. On the 27th of January, 1776, the house was burned down. The two Mrs. Belchers, the only occupants of the house, passed the winter with their friends, the Misses Murray, in the Robbins House on Brush Hill.

The work of rebuilding was at once commenced, and the house now owned and occupied by Mrs. Payson was completed the next summer, which gives it an antiquity of one hundred and eighteen years.

Madame Belcher soon after died. Elizabeth, widow of Andrew, conveyed the Milton estate to John Rowe, of Boston, May 15, 1781 (Suffolk Deeds, Lib. 132, Fol. 217), and removed to England.

Thus, for the period of fifty years, Governor Belcher and his family were intimately associated with the eastern section of our town.

THE GLOVER SCHOOL.

The North School it is proposed to call the Glover School.

John Glover, the eldest son of Thomas and Margery (Deane) Glover, was born at Rainhill Parish, Prescot, Lancaster County, England, Aug. 12, 1600, and died in Boston, Dec. 11, 1654.

Before leaving England he had reached the period of manhood, and married, 1625, Anna, by whom he had three children, born in Prescot, the last in 1629.

He inherited large landed estates from his father, and was in the enjoyment of these estates at the time of his emigration. He seems to have moved in the first ranks of society in his ancestral home, bearing the prefix of *Mr.*, a marked designation of respect and honor in those days.

Being a strict non-conformist and Puritan, he was in sympathy with the movement of the times, and in 1628, by the payment of £50, joined the London Company, organized for the purpose of emigration to New England.

The London Company left England March 20, 1629, and arrived at Nantasket the 31st of May following.

Mr. Glover may have resided at Charlestown for a short time, but his name appears on the list of inhabitants at the incorporation of Dorchester, 1631, and when the church was reorganized there in 1636, under Richard Mather, pastor, Mr. Glover and his wife Anna were among the first signers of the covenant.

He brought over with him a large number of cattle, and the men and implements needful for carrying on the business of tanning, in accordance with the regulation of the London Company requiring each member to establish some trade on his estate. This business he established in Dorchester, where the pits may be seen to this day on Park Street, near Dorchester Avenue. The members of the London Company were entitled to a share of two hundred acres of land for every £50 adventured.

Mr. Glover early located his grant of 180 acres at Unquity, on the south side of Neponset, west of Milton Hill, where his herds of imported cattle were pastured and left under the charge of Nicholas Wood, who came over to New England as the agent of Mr. Glover. Here he built a house, with barns and various out-buildings. Mr. Wood was in charge of the house and farm at the decease of Mr. Glover, and until the estate was sold by the Glover heirs to Robert Vose, July 13, 1654.

In the Deed of Conveyance to Robert Vose is the follow-

ing description of a part of the estate which enables us to understand its location : —

" All that Dwelling House and Farm where now Nicholas Wood dwells with the Barn, Cow House, Out-House, and Yards, Orchards and Gardens, with what fences and privileges to the house there-to belonging, with all appurtenances belonging and appertaining, with ten Acres of upland and Meadow, more or less within the Close lying about the said House and upon which the house standeth."

This grant, as nearly as can be determined, was bounded easterly by the westerly base of Milton Hill, perhaps along Ruggles Lane and School Street; northerly by the brook; westerly it extended to about White's Lane, and southerly to the parallel line on the central line of the township.

The house was built at the junction of Brook Road and Canton Avenue. A cart-path connecting it with the road to Stoughton's Bridge, Canton Avenue as far as Brook Road, and on by Jonathan Badcock's house and Peter Thacher's house to the " Ox-pen," was opened in 1660. Robert Vose and his descendants occupied this house till within the present century, and the brook at this point was called " Aunt Sarah's Brook," from Sarah, widow of Elijah Vose. The cellar has disappeared within my remembrance, and also a portion of the wall of the barnyard between the brook and Vose's Lane, laid two centuries ago.

The " Close " of ten acres fenced in, including buildings, orchards, etc., embraced many of the estates on Canton Avenue and Brook Road, now owned by our fellow citizens, and a part of this enclosed tract is still owned and occupied by the heirs of Gen. Joseph Vose, descendant of Robert Vose.

Mr. John Glover was a man of wonderful capabilities, and of great and good influence.

Johnson says of him : " Mr. Glover was a man strong for the truth, a plain, sincere, and godly man of good abilities."

The following lines appear on the work entitled "The Wonder-Working Providence": —

> "And Godly Glover his rich gifts thou gavest,
> Thus thou, by means, thy flock from spoiling saveth."

His life in Dorchester was one of unceasing activity in the service of the church and colony.

His activity ran in various lines, — civil, political, social, educational, religious, and judicial. All his varied duties were fulfilled with so much wisdom and integrity as to attain for him the title of "The Worshipful John Glover."

He has justly been termed one of the founders of New England.

The North School-house stands on or near the original grant of John Glover.

At an early date a school-house stood on Milton Hill, called the Milton Hill School, not far from the stable on Colonel Peabody's estate, on the land donated to the town by Abel Allien. This house was set on fire by one of the boys of the school and burned, Nov. 23, 1846. The boy was arrested and confessed the deed, assigning as a reason that he wanted a longer vacation. This school had the benefit of many excellent and distinguished teachers. Col. Jesse Pierce taught here in 1815–16 and 1818. Josiah Fairbank followed him for several terms. Nathan Metcalf, known to some of our citizens as "Master Metcalf," taught here from 1825 for eight years. Miss Ann Bent, a lady of remarkable abilities and of most excellent character, was one of the teachers. After the house was burned, Mr. John M. Forbes, owner of the land abutting the school-house lot, by exchange of deeds, took this lot and conveyed to the town of Milton the lot on School Street, the heirs of Abel Allien joining in the conveyance.

In 1846 the town appropriated $1,600 for building a new house on the School Street lot. Meantime, the school was kept at the village in the hall now occupied by the "*Milton*

News." This school-house, with some internal changes, met the needs of the district until the present commodious house was built in 1889.

The descendants of John Glover early took possession of his Newbury farm, also on the south side of the Neponset, perhaps in early times embracing a small part of the eastern section of Milton. Portions of this farm are still owned by the heirs of Horatio Nelson Glover, in direct line from John.

Nathaniel Glover, of the third generation, who married Hannah Hinckley, came into possession of a part of the Newbury Farm in 1674, and removed there with his family in 1701, where he died, 1723.

Thomas Glover, his son, resided there until his father's death and then became owner of the estate. Elijah, the second son of Thomas, was born there July 25, 1725, and died in Milton, at his residence on Milton Hill, July 1, 1770. His gravestone stands in our cemetery. He married Abigail Kingsley, of Milton, Dec. 21, 1751, and through her came into possession of the valuable Kingsley lands on Milton Hill, on the northeast side of Adams Street, embracing the Forbes, Watson, Kidder, and other Milton Hill estates. This was long known as the Glover Farm.

Dr. Samuel Kingsley Glover, son of Elijah, was a distinguished physician and surgeon, and a valued citizen of Milton through a long life. He died here July 1, 1839, aged eighty-six years.

Theodore Russell Glover, son of Stephen and Rebecca Payne Gore Glover, in direct line of descent from John Glover, is at the present time a valued and honored citizen of Milton, residing on Milton Hill very near the Glover Farm.

Thus for the long period of two and a half centuries the salutary influence of this family has been living and acting throughout our borders.

THE WADSWORTH SCHOOL.

It is proposed to name the Pleasant Street school the Wadsworth School.

The name Wadsworth is derived from Waddy, son of Woden, one of the mythic heroes from whom the kings of Northumbria deduced their lineage, and Worth, derived in the Anglo-Saxon from Wyrth, an estate or manor.

In the West Riding of Yorkshire there are two towns, one Wadsworth, the other Wadworth, the latter some ten miles from where the original settler in this country, of the name of Wadsworth, came. The first mention of these towns is in the Doomsday Book in 1086. The spelling of the names of the towns appears to have been interchangeable in the past, leaving it a matter of doubt whether the family sprang from one town or the other.

The earliest mention of the name as a patronymic, that has been found, was in the tenth year of King John, 1209. From that time to the present century the name constantly appears in church, parish, and probate records of Yorkshire and the adjoining counties.

Capt. Samuel Wadsworth was the son of Christopher and Grace Wadsworth, of Duxbury. Christopher was the common ancester of the Maine and Massachusetts Wadsworths. It is believed that he came from England in the ship "Lion," which arrived at Boston Sept. 16, 1632, and settled in Duxbury the same year, near the residence of Miles Standish.

We find Christopher Wadsworth's name in the first record of freemen in the Plymouth Colony in 1633, and he is recorded as being taxed the same year. His name is appended to a will as witness with William Bradford, the second governor of Plymouth Colony, under date of Sept. 16, 1633. In 1636 he was chosen one of the eight to revise the ordinances of the colony. He served many years as representative and in other places of trust.

Capt. Samuel Wadsworth was born in Duxbury, and moved to Milton, then a part of Dorchester, about 1656.

He took possession of a tract of land on Wadsworth Hill, of a hundred acres, extending from Canton Avenue to Braintree line or thereabouts, which was then a wilderness, without roads, and a mile from any other inhabitant. The first road constructed by Milton in 1669 was from the "Countrie Heighway," or Adams Street, to Mr. Wadsworth's homestead. "To run through Richard Collicut's land by the outside of his fence in the same cartway as to go to George Badcock's land, etc., . . . till it do come to Samuel Wadsworth's land. And it is agreed and ordered that the way shall run through Samuel Wadsworth's land and further as need shall require." This is our Pleasant Street, which in some places has not been disturbed since its construction, two and a quarter centuries ago.

Directly on this street a school-house was built, and a school was opened in 1853. After the lapse of twenty-five years, the growth of the district requiring better accommodations, the present commodious house was built in 1879.

The first time the name of Samuel Wadsworth appears in the records of Dorchester is in 1661, when he was appointed with others to view the fence in the common cornfield. He took an active part in the formation of the new town of Milton in 1662; he was also active in church and town affairs, his name appearing oftener on the town records in the last years of his life than any other, as selectman, and as attorney for the town in collecting debts, and in defending the town in suits brought against it before the court. He represented the town at the General Court in 1668.

We turn with the deepest interest to the end of this highly honorable life in King Philip's War.

Captain Wadsworth was captain of a company of infantry raised in the vicinity of Boston and partly in Milton. His lieutenant was John Sharp, of Brookline, who married Martha, daughter of Robert Vose, of Milton. After the destruction of Marlborough, which occurred on the 20th of March, 1676, the Indians increased greatly in that vicinity, endangering the lives of those who escaped the former

onslaught, and making it needful to strengthen the garrison there. Captain Wadsworth was ordered to repair to Marlborough for this purpose. He started with a force of fifty men, which was probably increased to seventy during the march. The movement was effected with safety; he reached Marlborough with his command on the night of the 20th or morning of the 21st. On their march through Sudbury the Indians were lying concealed in large numbers, but failed to show themselves until Captain Wadsworth's company had passed beyond. The next morning they commenced the devastation of the village, burning all the houses on the east side of the river. When the news of the attack reached Marlborough, Captain Wadsworth, though his men were exhausted by the march from Boston, determined to hasten back for the relief of Sudbury. Reinforced by Captain Brocklebank, with a portion of his command from the fort they marched with all possible speed to meet the enemy.

On approaching Sudbury, "on the afternoon of Friday, the 21st, about three o'clock," according to Sewall's Diary, a band of Indians appeared in the distance who seemed to be flying at their approach, and striving to hide themselves. The English pursued and were drawn on by the retreating foe into a thickly wooded section, when suddenly five hundred savages sprang up on every side, and with their terrific war-whoops rushed upon the devoted band. The gallant leader and his heroic command defended themselves as best they could. Securing a stronghold on a hill near by, for four hours they repelled the assault of the foe with the loss of but five men, until ammunition began to fail and night was closing in upon them. At this juncture the Indians set fire to the woods, and the wind drove the smoke and flames in upon the exhausted troops, compelling them to abandon their position. As a last resort they determined to force a passage through the savage horde. In this final struggle they were beset on every side, with all the fury of fiends,

and literally cut to pieces. Captain Wadsworth and Captain Brocklebank fell with twenty-seven of their charge.

This disaster was deeply felt through the country. It was a heavy blow to the town of Milton.

Captain Wadsworth, one of her leading men in the prime of life, eminent for piety, wisdom, and courage, a protector and guardian of the infant town, was taken from his family and fellow-citizens, and with him, doubtless, others of the same community.

Captain Wadsworth and twenty-eight of his command were buried in a common grave near the spot where the action occurred, about a mile south of the centre of the town of Sudbury. Rev. Benjamin Wadsworth, President of Harvard College, the fifth son of Captain Wadsworth, erected a monument at the grave of these heroes about 1730. At a later period the Commonwealth of Massachusetts united with the town of Sudbury in erecting the granite monument now marking the sacred spot.

Captain Wadsworth was father of seven children, six sons and one daughter: —

Ebenezer, born 1660; died Aug. 1, 1717, age fifty-seven years. He was deacon of the Milton church. He had four children. George, the youngest grandson of Captain Wadsworth, born 1699, was ensign in Captain Goffe's company of Colonial troops, at the siege of Havana in 1740.

Christopher, born 1661; died 1687.

Timothy, born, 1662, was a carpenter and gun-maker. Recompense, his youngest son, graduated at Harvard College in 1708, and was Master of the Grammar School in Boston; died 1713. Timothy removed to Newport, R. I., and died there.

Hon. Joseph, born 1667; died 1750. He was much in public life. Was treasurer of Boston for many years.

Rev. Benjamin, born 1670; graduated at Harvard, 1690. He was ordained minister of the First Church, Boston, Sept. 8, 1696. Was made President of Harvard College, July 7, 1725, and died March 16, 1734.

Abigail, born 1672; married Andrew Boardman, of Cambridge.

Deacon John, of Milton, born 1674, died 1734. He was the Milton representative at the General Court, 1717–1725–1726, and 1732–33. He married Elizabeth Vose and had twelve children. It is from him that the branch of the family now occupying the old homestead in Milton is descended.

Deacon John Wadsworth with three other citizens of Milton bought the "Blue Hill Lands," fifteen hundred acres of which were annexed to Milton in 1712. His eldest son, Rev. John, born 1703, graduated at Harvard 1723. He was ordained at Canterbury, Sept. 27, 1728, settled in Palmer, Mass., and finally moved to New Hampshire. He died in Milton, June 15, 1766.

Deacon Benjamin Wadsworth, second son of Deacon John, born in Milton, 1709, married Esther Tucker in 1735, and died Oct. 17, 1771, aged sixty-four years. He represented the town at the General Court, 1769–1771. He built a house about the time of his marriage, which was standing on Wadsworth Hill, Milton, a few years since. Only two of his sons lived to manhood.

One of these, Rev. Benjamin, was born 1751, and was ordained at Danvers, Mass., 1773, where he died in 1826, in the fifty-fourth year of his ministry, aged seventy-five years. He was honored with the degree of S. T. D. in 1816. He published a sermon preached at the ordination of Josiah Badcock, 1783; two Thanksgiving sermons, 1795–96, and a dedication sermon, 1807.

His second daughter married Hon. John Ruggles, of Milton.

John, the eldest son of Deacon Benjamin, was born 1739; married Katherine Bullard and had five children. He was one of the minute-men in 1775, and started with his company for the battle-field at Lexington, but was unable to proceed, being then in ill-health. He died the same year, aged thirty-six, leaving a widow and four small children, all too young to take part in the war that followed; but his patriotic

widow sent her team to assist in transporting the fascines for the fortification of Dorchester Heights.

Three of John's sons settled in Milton and divided the old homestead between them. Joseph, the eldest, was a blacksmith; Benjamin, the second son, was a wheelwright and plough-maker. Wooden ploughs only were made in those days. The Wadsworth plough became famous, not only in Milton, but in all the adjoining towns.

Deacon William, the third son, was a cabinet-maker.

Thomas T. Wadsworth, youngest son of Benjamin, was a selectman for several years and represented the town in the Legislature in 1844.

The only representatives of the family left in Milton are Capt. Edwin D. Wadsworth, of the sixth generation from Captain Samuel living on the original Wadsworth estate, and his son, Dexter Emerson Wadsworth.

THE THACHER SCHOOL,

To the Centre School it is proposed to give the name of the Thacher School after Rev. Peter Thacher, the first settled minister of Milton.

Rev. Peter Thacher was born in Salem, Mass., July 18, 1651, and graduated at Harvard College in 1671. "June 15, 1674, he was chosen third fellow of the Colledg."

Judge Sewall wrote, July 1, 1674: —

"Sir Thacher Common placed. Justification was his head. He had a good solid piec. . . . Stood above an hour and yet brake off before he came to any use. By reason that there was no warning given none (after ye undergraduates) were present save Mr. Dan. Gookin Sr. the President and myself."

In 1676 he accompanied his classmates Judge Samuel Sewall and John Danforth to Europe, where he remained for a year or more pursuing and perfecting his studies in preparation for his life work.

After returning to America he preached for nearly a year at Barnstable, Mass., gaining the confidence and affection of

the people to such a degree that when called to Milton great opposition to his leaving was experienced.

The Journal of Mr. Thacher contains the following entries regarding his invitation to Milton and his removal from Barnstable : —

"June 28, 1680. A Committee of eight persons, among whom was Thomas Swift, came to request me to settle among them."

In his reply to the call of the church, dated May 18, 1681, he says : —

"I was pursuaded so far to comply withall as to remove myself and my family to this place, yt so I might the more clearly discern and faithfully follow divine guidance and direction in any future settlement amongst you, or remove from you accordingly as God should unite ye heart of ye Chh. and Congregation unto me and mine, and ours unto you or otherwise dispose."

A delegation of ten members of the Church went forward to Barnstable to attend home the coming minister, and a cavalcade of fifty-seven horsemen escorted him out of Barnstable and attended him on his way as far as Sandwich, and so the triumphal march was made into the new field of labor.

After a residence of nine months the ordination was attended on the first day of June, 1681.

Thatcher's Journal says : —

"May 20. This day the ordination beer was brewed."

"May 30. This day the gates were hung. They made an arbor to entertain the messengers of the Church."

"June 1, 1681. I was ordained (though most unworthy) Pastor of the Chh. of Milton. My text was 2 Tim. 4, 5.

"Mr. Mather called the votes. Old Mr. Elliot, Mr. Mather, Mr. Torrey, Mr. Willard laid on hands.

"We sung the twenty-fourth Psalm and I gave the blessing. They dined at my house in the Arbor."

Thus commenced the interesting life of Milton's first pastor; it was continued through forty-six years, leaving a

record of varied service and duties for every day and year of this long period so wonderful as to be almost incredible.

Rev. Peter Thacher was one of the leading divines of his time. He acquired a knowledge of the Indian language and was appointed to preach to the Indians at Ponkapog once a month. At the same time he was the only physician of Milton serving the whole town in this capacity.

His advice was sought not only in matters pertaining to the churches of the Colony, but also by the magistrates in the general affairs of the government. He was frequently summoned to Boston to advise with the clergymen and magistrates on questions of importance.

Cotton Mather says in that funeral sermon of which the following is the wonderful title : —

"The Comfortable Chambers open and visited upon the departure of that aged and faithful servant of God, Mr. Peter Thatcher, the never-to-be-forgotten Pastor of Milton, who made his flight thither Dec. 17, 1727."

"He was thought worthy to be a fellow of Harvard College, and an owner of the learning wherein we were instructed there. But what I remember with a most abiding impression, is that beside his methods to recommend unto his pupils that early piety whereof he had been himself a notable pattern, we admired his prayers in the Colledge Hall for the fluent, copious expressive beauties of them and the heavenly entries we perceived in them."

"I have in my possession a paper arranged in tabular form, showing the amount paid by each citizen on the salary of Mr. Thacher, which was $350 per year. Payments one third money, one third labor, and one third country produce."

Rev. Mr. Wiswall, Rev. Mr. Maghill and Rev. Samuel Man had each resided in Milton as preachers from 1669 to the time of Mr. Thacher's ordination.

The first meeting-house in use before incorporation stood near the "Country Heighway," now Adams Street, at the head of Churchill's Lane.

In 1664 Robert Vose conveyed to the inhabitants of Milton, as a gift, a tract of land of eight acres on Vose's Lane and Centre Street for a meeting-house and other ministerial purposes. On this land was erected, first, a minister's house, which stood near the house now standing on the corner of Vose's Lane and Centre Street, and, second, a meeting-house in 1671. Two years later Vose's Lane was opened along the west side of the meeting-house, and the Town Way (now Centre Street) passed it on the south. References now extant lead us to conclude that it was a small building nearly square, with gallery on one side, pulpit on the other, and entrance on the Town Way (now Centre Street).

To the ministerial house Mr. Thacher came on his arrival in Milton.

"Sept. 10, 1680. We came safe to Milton that night with our goods, and Quarter-Master Swift got them all into the house that night."

In this meeting-house he commenced his ministry and continued until the time of his death. A long and sore contest regarding the location of the third meeting-house had ended, harmony was restored, and work on the new house had commenced when Mr. Thacher died.

Soon after his ordination the town voted to convey to Mr. Thacher twenty acres of the ministerial land. This was done Nov. 4, 1681. In addition to this grant Mr. Thacher bought of Sargent Vose, Jan. 4, 1682, a tract of land with house and barn standing upon the same, containing twenty-three acres. This new land was near the town grant and abutted the same, so that he owned forty-three acres of land comprising nearly what we now call Thacher's Plain. On this he erected a house, and on the 11th of November, 1689, Mr. Thacher removed from the ministerial house to his own house, where he continued to reside until his death, Dec. 17, 1727. It then passed into the possession of his eldest son, Oxenbridge, who lived there forty-five years until his death, Oct. 29, 1772, at the age of ninety-two years.

This house stood on the westerly side of Thacher Street, about fifteen rods north of Pine-tree Brook. A large elm is growing out of the cellar, and two large flat stones which perhaps were steps lie near by; while the old well and cellar drains are distinctly seen. It was destroyed by fire in 1798. The Thacher land extended from this point to the "Ox-pen," which was located near the Jewish Home. It is proposed, if possible, to secure the land embracing the old cellar, and with proper boundaries and inscriptions pass it down to posterity as a sacred spot ever to be remembered.

The Centre School was not established in Mr. Thacher's day. As early as 1734 it was "voted that there should be a fixed school in the centre of the town between the stone bridge and the pound."

The pound was then near White Street. There is no other reference to such a school. In 1768 the school on the Isaac Howe lot opposite the cemetery may have met the need. After the division of the town into districts in 1835, creating a separate district in the centre, a school which was established in 1832, occupying the building afterwards Jason Reed's store, and then the vestry of the Unitarian Church, was made perpetual.

In 1837 the sum of $150 was voted by the town for building a school-house in the Centre District, and a school-house was built on the lot on Canton Avenue. This house was sold and removed to Clapp Street, where it is now occupied as a dwelling house. In 1860 a new house was built which now stands in the lot; and the third school-house for the Centre School was erected in 1890 near the High School building, which was built in 1886.

Mr. Thacher was three times married. His first wife was Theodora, daughter of Rev. John Oxenbridge, to whom he was married Nov. 2, 1677. He married a second time, 1699, Susannah Bailey, widow of Rev. John Bailey, First Church, Boston, and again, three months before his death, Elizabeth, widow of Joshua Gee, of Boston.

He had the following children: Theodora; Bathsheba; Oxenbridge, born May 17, 1681, died Oct. 29, 1772; Elizabeth, born March 6, 1683, died 1716; Mary, born March 15, 1685; Peter, born Oct. 1, 1688, died April 22, 1744; John; Thomas, born April 6, 1693, died Dec. 19, 1721; John, second son of Peter and Susannah, born March 23, 1701.

TUCKER SCHOOL.

It is proposed to name the Mattapan School the Tucker School.

The Tucker family has been largely represented in the West District of Milton from the first existence of the town. They assisted in its incorporation and have taken no small part in meeting its trusts and bearing its burdens even down to the present time. The West School, which we have called the Sumner School, might, with equal propriety, be styled the Tucker School.

These two families have always lived side by side on contiguous farms in this section of Milton. Their children have been educated in the West School and they have been equally conspicuous in the affairs of the town.

The great increase of inhabitants in the Mattapan section made it needful to provide school privileges for the children who were too remote from other schools, and indeed too numerous to be accommodated. Eighteen years ago the Mattapan School was established; since that time it has greatly increased until now it is one of Milton's largest schools. The school-house was built in 1877. The upper story was finished in 1890. Four new rooms were opened in 1893 and two old rooms were reopened in 1894.

Robert Tucker, the progenitor of this numerous family, was born probably in Milton-next-Gravesend, County of Kent, England, June 7, 1604.

He came to Milton in 1662 and died here March 11, 1682.

In November, 1663, he purchased of Elder Withington a tract of land on Brush Hill of sixty acres; in 1673 he bought

in the same locality Mrs. Fenno's lot of forty acres; and in 1678 he came into possession of Widow Farnsworth's lot of thirty-two acres — making in all one hundred and thirty-two acres on which a house was erected.

In his will, dated March 7, 1681, he speaks of the "new House." This house stood on the west side of Brush Hill Road, at the head of Robbins Street. It was built prior to 1681 and is the oldest house in Milton. I am sorry to say that in order to save this building it has been necessary to remove it from the old site on which it stood for more than two centuries. I am sure we owe most hearty thanks to our fellow-citizen who has secured this ancient relic and removed it to his own grounds, where it now stands, one of the few memorials in Milton of old colonial times.

Robert Tucker occupied an important and highly useful position in the town and in church during the earliest years of the settlement, and his numerous descendants have been among the most active and influential of our citizens through the whole history of Milton. Members of the family have graced the pulpit, the army, and the representative halls of the country. The following representatives of the Tucker name have held the office of Deacon, making almost a continuous line from the formation of the Milton church to the present day. I name them in the order of appointment: — Ephraim, Manasseh, Jaazaniah, William, Ebenezer, David, Isaac, Amariah, Atherton, Jesse, Nathan, Stillman L., and John A. Tucker.

Since Ephraim Tucker was ordained deacon in 1699 there has been generally a Deacon Tucker Senior and a Deacon Tucker Junior, as at the present time.

Manasseh Tucker was born in Weymouth, 1654. He removed with his father Robert to Milton, and died here April 8, 1743, aged eighty-nine years. Samuel Tucker, son of Manasseh and Waitstill (Sumner) Tucker, was born in Milton, March 15, 1686. Samuel, son of Samuel 1st. and Rebecca (Leeds) Tucker, was born in Milton, Sept.

27, 1719. Samuel, son of Samuel 2d and Elizabeth (Haywood) Tucker, was born in Milton, July 14, 1750, and died in Scott's Woods, July 19, 1841, aged ninety-one years, being the oldest man then in Milton. His great-grandfather Manasseh, who was here when the town was incorporated, lived until 1743, within seven years of his birth, and his own life was prolonged to the year 1841. Thus the lives of these two persons extended, with a little break, over the long period of one hundred and eighty years, embracing all the history of Milton which is not within the knowledge of the present generation.

Manasseh Tucker was one of the four citizens who purchased the Blue Hill lands of 3,000 acres in 1711, 1500 of which were annexed to Milton from Braintree, May 21, 1712. His son Samuel, who was then twenty-five years of age, married Rebecca Leeds, of Dorchester, March 2, 1711, and commenced life on the new purchase, which was at that time a wilderness, without roads and remote from any inhabitants.

His father, Manasseh, built a house for them on or near the site now occupied by the Charles K. Hunt House. Thus a part of the Tucker family was transferred from Brush Hill to Scott's Woods.

A portion of these lands descended in direct line from his grandfather, through his father, to Samuel Tucker 3d, who died in the house, or in the near vicinity, 1841.

Capt. Nathaniel Tucker, brother of Samuel 3d, owned the adjoining estate now belonging to Col. H. S. Russell. At his decease, Feb. 10, 1858, he left a legacy of $1,000 to the poor of Milton, in trust of the minister and deacons of the First Evangelical Church. He also gave to the above-named church a tract of land on Canton Avenue and White's Lane, on a part of which the meeting-house of this church now stands.

This wide circle of the Tucker family, for many years resident in Scott's Wood's, have all removed or have passed

from earth. There is but a single representative remaining there.

On Brush Hill there are two families of the Tucker name of the seventh generation still proprietors of lands originally owned by Robert or his sons. On Canton Avenue five families represent the name: one in the seventh, three in the eighth, and one in the ninth generation from Robert, one of which is on land owned by Manasseh Tucker.

THE SUMNER SCHOOL.

The West School it is proposed to call the Sumner School.

William Sumner, son of William, was baptized at Bicester, England, Jan. 27, 1604–5, being by his deposition given Dec. 23, 1685, at the time, eighty-one years old.

William Sumner and his wife, Mary West, settled in Dorchester. He was made freeman in 1637 and was admitted to the Dorchester Church, 1652. He held many important offices and was a prominent man in Dorchester. At the incorporation of Milton he came into possession of land on Brush Hill, by the allotment of Lot No. 11, Sixth Division, containing sixty acres. His wife died in Milton, June 7, 1676. His will was proved March 24, 1691–2.

His second son, Roger, was baptized in England, Aug. 8, 1632; was admitted to the Dorchester Church, 1656.

He married Rebecca Josselyn, of Hingham, removed to Lancaster, Mass., and assisted in forming the Lancaster Church. He remained in Lancaster until it was destroyed by the Indians, 1676, when he returned to Dorchester and took up his residence in Milton, which was then incorporated. He became a most useful and honored citizen. For many years he was deacon of the Milton Church, and died here. The stone in Milton cemetery records his death as May 26, 1698.

Roger Sumner bought of Robert Badcock, June 27, 1679, Lot. No. 2 of the Sixth Division on Brush Hill, and of Robert Pease, Lot. No. 6 of the Sixth Division. He probably built the Sumner House, now standing on Brush Hill on

land of his father, about 1678. The house has been enlarged and perhaps entirely rebuilt. In his inventory taken twenty years later, Mary, his widow, is to have "as her third the old end of the dwelling house at Milton valued at £18.18s."

The old West school-house, which was the second or third school-house built in Milton of which we have record, was built in 1719, twenty feet long and fourteen feet wide, on land of Ephraim Tucker, whose son Ephraim was a school-teacher, and probably had charge of the school here located.

This stood on the northerly side of Brush Hill Road just south of the house of the late William M. Ferry. The location is easily ascertained by the English elms set around the school-house by James Smith and still standing there. May 16, 1768, voted to build a school-house on widow Vose's land where formerly stood a blacksmith's shop. This was on a knoll now covered with cedars, on the west side of Canton Avenue north of the house of the late John D. Bradlee. This house served its day, was removed, and is still standing in Milton. In 1795 the school was taught three months of the winter in the Brush Hill house, and three months on Middle Street where the West school-house now stands. Sarah Glover was teacher of the Middle Street school for nineteen consecutive summers. She married George Tucker and was the mother of Ebenezer G. Tucker, for many years on the School Committee of Milton. These two schools were united in 1812 when the "Old Brick" was built. This was removed and the present house built in 1870. Col. Jesse Pierce was teaching in the Brick school-house in 1815, when the news of peace came.

George Sumner, the third child of William, was baptized in England, March 1, 1633–4. He married, Nov. 7, 1662, Mary, daughter of Edward Baker. He lived in Milton on land of his father, and also on land allotted to him in the Sixth Division Brush Hill.

He was for many years deacon of the Milton Church. His house, built about 1662, stood in the field below the

house of the late George Ferry. It was occupied after his decease, Dec. 11, 1715, by his children, and was burned down April 10, 1748, with all the wearing apparel of the family. It was rebuilt and long occupied by Abijah, his grandchild. A timber from this old house is built into the house of George Ferry.

Governor Increase Sumner was the grandchild of Edward, son of George.

But few of the descendants of this family so noted in the early history of Milton can be noticed in this brief sketch.

William, the son of Roger and Mary, born 1673, died Dec. 27, 1738, married Esther, daughter of Mathias Puffer, of Milton, June 2, 1697. Their seventh child was Seth, born Dec. 15, 1710. He married, first, Hannah Badcock, Oct. 17, 1734. She died Aug. 13, 1739. He married, second, Lydia Badcock, in 1742. He died Nov. 11, 1771.

Seth, the son of Seth and Hannah, born July 4, 1735, married Elizabeth Davis, of Dorchester. His children were first Elisha, who married Nancy Vose, Aug. 3, 1792; he was the father of Edwin V. Sumner Major-General, in our Civil War. General Sumner lived during childhood in the Kendall house on Canton Avenue, now owned by the Whitney heirs. He attended our West School and Milton Academy. The second child of Seth was Davis, who married Dolly Vose, Nov. 3, 1795, twin sister of Nancy, wife of Elisha. They were daughters of Gen. Joseph Vose and sisters of Col. Josiah H. Vose, the father of Mrs. E. V. Field and Miss Caroline Vose, now living on the old General Vose estate in Milton.

Enos, the son of Seth and Lydia, born Sept. 25, 1746. Was a physician in Milton. He died June 3, 1795.

William, son of Seth and Lydia, born Aug. 6, 1748, married, first, Elizabeth Minot; second, Mary Pond; third, Sarah Thayer. His eleventh child was Rufus Pond Sumner, born Jan. 17, 1799; married Susan Kingsbury. He had ten sons and one daughter. Through his father, William, son of Seth,

he inherited a part of the Roger Sumner estate on Brush Hill, Milton, which is now occupied by his sons. His daughter is still living. James Sumner, our honored fellow-citizen and friend who died last August, was his son. James Sumner for a time taught the West school.

Job Sumner, the son of Seth and Lydia, born April 23, 1754, was graduated at Harvard in 1778. He was major in the Massachusetts Army of the Revolution. He died Sept. 16, 1789. His death occurred on a packet-ship on the passage from Charleston, S. C., to New York. He was buried in New York by the Masons, with much ceremony, in St. Paul's churchyard, Broadway, where may be seen a monument to his memory.

He had a son, Charles Pinckney Sumner, born in Milton, Jan. 20, 1776; he graduated at Harvard, 1796. He was High Sheriff of Suffolk for many years. He married Relief Jacobs and died in 1839, aged sixty-three years. Charles Pinckney Sumner was the father of the Hon. Charles Sumner, born at Boston, Jan. 6, 1811, graduated at Harvard College, 1830, — the distinguished United States Senator of Massachusetts.

THE HOUGHTON SCHOOL.

For the South School is proposed the name of the Houghton School, from the Houghton family dwelling in the near vicinity for nearly two centuries.

Ralph Houghton was born in Lancaster, England, in 1623. It is said that he was the son of Sir Richard Hoghton, of Hoghton Tower, Lancaster, who was created a baronet by James I. upon the institution of the order, March 22, 1611.

Ralph Houghton came to America on account of his religious and political opinions. He had fought under Cromwell against Charles I. though he had been knighted by the King for services to his person. He landed at Charlestown between 1645 and 1647. Soon after he removed to Lancaster, Mass., and with twenty-four others founded

that town in 1653. He was chosen the first Town Recorder, and one of the six prudential managers. He represented the town at the General Court in 1673 and again in 1689, and held various other town offices in connection with Roger Sumner, of Milton, his cotemporary.

When Lancaster was destroyed by the Indians in 1676, Mr. Houghton removed to Woburn, Mass., and in 1682 to Milton. Three years after he returned to Lancaster and remained until 1690, when he came back to Milton and settled "at Scott's Woods nigh unto Brush Hill," building the homestead occupied by his descendants for seven generations.

He died in his house on Hillside Street, April 15, 1705, aged eighty-two years.

This house, erected about 1690, was within the limits of Braintree and remained there until April 17, 1754, ninety-two years after the incorporation of Milton, when, in accordance with a petition to the General Court by his grandchildren Nathaniel and Ebenezer Houghton and others, a tract of three hundred and forty acres, embracing the Houghton house and Houghton's pond, was annexed to Milton from Braintree. The Houghton house stood two hundred and five years in good condition, occupied by the Houghton family until the last fifteen years. In 1895 it was removed by the Park Commissioners; like all aged men and things disappearing to give place to the young and the new.

Joseph Houghton, son of Ralph and Jane, his wife, was born at Lancaster July 6, 1657, and died in the homestead at Braintree, March 22, 1737. He married first Jane Vose, and second Margaret Reding.

Ebenezer Houghton, son of Joseph and Jane, was born at the homestead in Braintree, Aug. 25, 1695. He married Sarah Evans, Sept. 17, 1722, and died in the homestead, in Milton, Jan. 24, 1783. In 1722 Joseph Houghton conveyed to his son, Ebenezer, a tract of one hundred and fifty acres of land, embracing what is now known as Houghton's farm.

Ralph Houghton, son of Ebenezer, was born in the homestead at Braintree, Feb. 20, 1729; married, first, Ruth Wadsworth, Feb. 15, 1759; second, Waitstill Gulliver, Feb. 3, 1792. Jason, son of Ralph and Ruth, was born in the Milton homestead, Aug. 25, 1768. He married Katy Wild, Dec. 25, 1788, and died in the homestead, Sept. 16, 1843. He was a schoolmaster and was known everywhere as "Master Houghton." He taught the Scott's Woods school twenty-eight years.

In 1785 the town was divided into school wards. The fourth ward was "from Mr. Reed's to Mr. Seth Crane's including the farm that Mr. Gay lives on," — that is, from Reed's Lane to Canton line, — embracing the Scott's Woods school. Oct. 3, 1785, voted, "that Scott's Woods draw an equal proportion of money according to their taxes, provided the same is expended in keeping school, and shall be free from the expense of a grammar school, but may have the privilege of sending Latin scholars to the west end of the town and no others." Joel Pierce taught the Scott's Woods school in 1818 and 1819. Otis Pierce taught the school in 1822. May 9, 1791, voted "that the school-house at Scott's Woods be repaired." The Scott's Woods school-house stood at the end of a lane on Hillside Street, nearly opposite Harland Street. In 1852, when the present house was built, it was moved and is now the dwelling house of Luther A. Ford. The old house was built in 1769, dimensions 16 x 20 feet; afterwards enlarged and repaired.

In this old school-house Master Houghton taught for twenty-eight years. Later in life he was called Deacon Houghton. He had fourteen children, all born in the Houghton House.

Jason Wadsworth Houghton, his son, born June 12, 1793, married Nancy Davenport, of Milton, Jan. 11, 1821, and died at the homestead, Dec. 13, 1867. Two of his children are living; Sarah still lives on Hillside Street in Milton — George in Dorchester.

The Houghton family has been a prominent family in Milton for nearly two centuries. Members of the family have always been among the leading men of the town. The first Ralph was selectman for three years. Deacon Nathaniel Houghton was selectman for ten years; Joseph for one year; Ralph 2d for seven years; Jason W. for five years.

Ralph 1st was Town Clerk, 1683. Deacon Jason was collector for eight years; Deacon Nathaniel was moderator for four years; Ralph for four years; Deacon Jason for eleven years.

Deacon Jason was School Committee 1839, representative to General Court 1815 and 1816, and for a second term 1834 and 1835; and Jason, the youngest child of Jason W. Houghton, was on the board of the School Committee four years.

62d
Annual Town Report

OF

MILTON

MASS.

FOR THE YEAR ENDING

December 31, 1898.

COMPILED BY

THE AUDITORS.

BOSTON:
ALFRED MUDGE & SON, PRINTERS,
1899.

STATEMENT OF THE AUDITORS.

To the Citizens of Milton:

In accordance with the Public Statutes and the By-Laws of the town, we have examined the books and accounts of all officers and committees intrusted with the expenditure of money, and all original bills and vouchers on which moneys have been paid from the treasury for the year ending Dec. 31, 1898, and have found the same correct.

It is our belief that the system of book-keeping employed in certain departments can be materially improved upon, and we would recommend that all departments adopt the system which is now in use by the Board of Selectmen.

In order that the Auditors may render a comprehensive and detailed report of the town's finances in the limited time given us, it is necessary that the accounts shall be kept in as uniform a manner as is possible.

Respectfully submitted,

W. NEWTON HARLOW,
C. RUSSELL HURD,
Auditors.

MILTON, MASS., Dec. 31, 1898.

Tax Rate . . . . . $9 per $1,000.

Representative to General Court, Fourth Norfolk District.
FREDERICK P. DRAKE, OF CANTON.

* Term expires March, 1899.

BY-LAWS OF THE TOWN OF MILTON.

ADOPTED BY THE TOWN AND APPROVED BY THE SUPERIOR COURT, JULY 7, 1896.

MEETINGS.

I. The warrants for all town meetings shall be directed to either of the constables of the town, and the meetings shall be notified by posting attested copies of the warrant in each of the post-offices of the town fourteen days at least before the day of such meeting, and by leaving printed copies thereof at the dwelling-houses in the town.

II. The annual town meeting for the election of town officers shall be held upon the first Monday of March in each year, the polls to be open at nine o'clock in the forenoon, and after the election of a moderator they shall remain open until two o'clock in the afternoon for the election of such other town officers as are required by law to be elected by ballot, all said officers to be voted for on one ballot. At any time after 2 P. M. a vote may be passed to close the polls in not less than ten minutes.

"After the closing of the polls and the election of other town officers, the remaining articles in the warrant shall be considered.

"After the declaration of the vote for town officers, thirteen legal voters shall be appointed by the moderator, who, together with the chairman of the selectmen, chairman of the school committee, and the officer in charge of the repairs on highways (if there be such officer), shall constitute a committee to be known as the Warrant Committee. And the persons so appointed shall continue members of said committee until the town meeting of the ensuing year.

"Said Warrant Committee shall, within two weeks after their appointment, meet, at the call of the member thereof first named, for organization by the choice of a chairman and secretary. And they shall meet thereafter from time to time as they may deem advisable.

"It shall be the duty of said committee to consider those affairs and interests of the town the subject-matter of which is generally included in the warrants for its town meetings; and the officers of the town shall, upon their request, furnish them with facts, figures, and any other information pertaining to their several departments, provided, however, that any such information may be withheld when, in the opinion of the officer or board of officers so requested, the communication thereof might injuriously affect the interests of the town or its citizens.

"Said Warrant Committee shall consider the various articles in the warrants for all the town meetings held during the period for which they were appointed, including the various articles in the warrant for the annual town meeting next after their appointment. And they shall report in print before all such town meetings their estimates and recommendations for the action of the town."

III. All motions shall, if required by the moderator, be reduced to writing before being submitted to the meeting.

IV. Upon taking the question, if the decision of the moderator is doubted, or a division of the house called for, the moderator shall request the voters to be seated, and shall appoint tellers; the question shall then be distinctly stated, and those in the affirmative and negative, respectively, shall be requested to rise and stand in their places until they are counted by the tellers, who shall carefully count each side and make report thereof to the moderator.

V. No vote shall be reconsidered at the same meeting, except upon a motion made within one hour of the adoption of such vote, or unless ordered by two thirds of the voters present and voting thereon.

VI. When a question is under debate, no motion shall be received but to adjourn the meeting, to lie on the table, to commit or amend, to refer or to postpone to a day certain, or to postpone indefinitely; which several motions shall have precedence in the order in which they are arranged.

FINANCIAL REGULATIONS.

VII. The financial year shall begin with the first day of March.

VIII. The selectmen shall annually, not less than seven days before the annual meeting, cause to be printed and distributed among the tax-payers of the town a detailed report of all moneys received into and paid out of the town treasury during the preceding calendar year, with such information and recommendations as they may deem proper, and with detailed estimates of the amounts of money that will be required for the ensuing financial year. With this report shall be printed the records of all meetings of the town held since the last annual report was printed, the reports of the auditors, of the road commissioners, and of the engineers of the fire department, the collector's account of receipts, payments, and abatements, a list of all taxes assessed, an abstract of the births, marriages, and deaths, to be furnished by the town clerk, a statement concerning the condition and funds of the public library, and of the cemetery, to be furnished by the trustees respectively, and a statement of all other funds belonging to the town or held for the benefit of its inhabitants.

IX. The assessment of taxes shall be completed, and the tax list and warrant shall be delivered to the collector on or before the first day of August in each year.

X. Poll taxes shall be paid on demand, and all other taxes assessed in each year shall be paid on or before the first day of December in the same year; and on all such taxes as shall not be paid on or before said first day of December, interest shall be charged at a rate to be fixed annually by the town, pursuant to section 67 of chapter 11 of the Public Statutes; and the collector shall use all the means and processes provided by law for the collection of all taxes remaining unpaid after the first day of December in the same year.

XI. No officer of the town shall be interested directly or indirectly in any contract, bargain, sale, agreement, or employment in which the town is interested, in that department of the affairs of the town to which the duties of his office pertain; and any and all such contracts, bargains, sales, agreements, or employments shall be utterly void as to the town; but nothing in this section shall apply to the payment to any officer of his salary, or for his services for performing the duties of his office, or to any contract or agreement for such payment.

XII. The selectmen, being duly authorized by vote of the town under the limitations imposed by statute, may authorize the treasurer to borrow money temporarily in anticipation of the collection of taxes, or for loans authorized by vote of the town, and to give promissory notes therefor in behalf of the town, the same to be signed by the treasurer and countersigned by a majority of the selectmen.

XIII. No money granted for special purposes shall be applied to any other use unless by a vote of the town, and all unexpended balance of such grants shall be stated in the selectmen's annual report.

XIV. No orders shall be drawn by any officer or committee on town treasurer for any purpose not authorized by a vote of the town or by the laws of the Commonwealth, nor shall any such draft be made for any amount which overdraws the appropriation against which it is made, whether general or special; and the town treasurer shall keep all necessary accounts in respect to the several separate appropriations and the drafts made against each, and shall not honor any draft which does not state specifically the appropriation against which it is drawn, or which overdraws such appropriation, whether general or special.

To provide for possible necessary expenditures of departments in excess of appropriations made, the town shall annually appropriate a certain sum of money to be known as the "Contingent Fund." No direct drafts against this fund shall be made, but transfers from the fund may be made by vote of the warrant committee to the account of any other appropriation on application of any officer or department. Certified copy of such vote shall be sent to the town treasurer, and the treasurer shall transfer accordingly, and honor drafts against the funds so transferred as if originally appropriated.

XV. No grant of a sum of money exceeding five hundred dollars shall be made until the subject-matter thereof has been considered and the estimates reported to the town either by the selectmen, the school committee, the road commissioners, or other town officers, or by some committee chosen for that purpose in pursuance of a vote of the town.

XVI. The selectmen shall have full authority, as agents of the town, to institute and prosecute suits in the name of the town, and to appear and defend suits brought against it, unless it is otherwise specially ordered by a vote of the town.

XVII. Whenever it shall be necessary to execute any deed conveying land or other instrument required to carry into effect any vote of the town, the same shall be executed by the selectmen, or a majority thereof, in behalf of the town, unless the town shall otherwise vote in any special case.

XVIII. Two auditors shall be chosen by ballot at the annual meeting, who shall have the power and perform the duties prescribed by statute.

POLICE REGULATIONS.

XIX. Whoever, without a written license from the road commissioners or other officers having charge of the repairs of the highways, shall suffer any wood or coal, or any cart or wagon, to remain within the limits of a highway or street, or upon a sidewalk of a highway or street, so as in any manner to obstruct the travel thereon, or for more than twenty-four hours, shall forfeit and pay a sum not less than one dollar and not more than ten dollars for each offence; and he shall be subject to a like penalty if he neglects to remove the same within the time ordered by such officers, who may revoke such license at any time.

XX. Whoever, without the written permission of the road commissioners or other town officers having charge of the repairs of the highway, shall place or cause to be placed in any highway or street, or upon any sidewalk thereof, any ashes, dirt, rubbish or filth of any kind, or any animal or vegetable substance, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXI. Whoever shall suffer any horse, or grazing beast, or swine to run at large in the town, or to feed in any highway or street, either with or without a

keeper, and whoever shall drive any such animal upon and over any sidewalk, or suffer any horse to remain hitched across any sidewalk, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXII. Whoever shall coast upon a sled or sleds on Adams street, between Churchill's lane and the line of the city of Boston, or the sidewalks thereof between those points, or any other highway, street, or public place upon which the selectmen shall by public notice prohibit such coasting; and whoever shall drive, wheel, or draw any coach, cart, wheelbarrow, hand-cart, velocipede, bicycle, or any carriage of burden or pleasure (except children's carriages drawn by hand), or coast upon a sled, or sleds, upon any sidewalk in the town, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXIII. Whoever shall behave in any indecent or disorderly manner, or use profane, indecent, or insulting language in any public place, or on any sidewalk or street in the town, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, and any person or persons who shall play or perform on any musical instruments, or sing, or parade, or march or congregate in any of the streets or public places of the town, except in connection with a funeral, without a written permit from the selectmen, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

XXIV. Three or more persons shall not continue to stand or remain in a group, or near to each other, on any sidewalk or in any public place in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on; and any person who shall violate the provisions of this By-Law shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXV. Whoever shall be or remain on any doorstep, portico, or other projection from any house or building, or upon any wall or fence on or near any highway, street, or public place, after being requested by the occupant of the premises or by any constable or police officer to remove therefrom, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXVI. Whoever shall affix, by paste or otherwise, any handbill, placard, notice, or advertisement, or paint, draw, or stamp the same, or any marks or figures, to or upon any sign-boards of the town, or to or upon any building, fence, wall, tree, or structure in the town, without the permission of the owner of such building, fence, wall, tree, or structure, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence; and if such handbill, placard, notice, advertisement, mark, or figure be obscene or indecent, the penalty shall not be less than twenty dollars for each offence.

XXVII. Whoever shall undertake to enter a particular drain into a common sewer, or make or cause to be made an excavation in a highway or street for any purpose without a permit in writing from the road commissioners (or from the selectmen if there be no road commissioners), or without complying with the conditions and directions of such permit, shall forfeit and pay a sum not exceeding ten dollars.

XXVIII. Whoever shall lead or cause to be led into any highway, street, or running stream in the town any drain or pipe from any house or other building whereby filthy water or other unclean matter may be emptied into or upon any such highway, street, or running stream; and whoever shall throw, lead, or discharge, or cause to be thrown, led, or discharged, into any highway, street, or running stream in the town any noxious or poisonous matter or substance, or any matter or substance which shall cause an offensive smell or odor, or which

shall be destructive of, or injurious to, animal life, shall forfeit and pay a sum not less than five dollars nor more than twenty dollars.

XXIX. The selectmen may grant licenses to use a certain portion of any public way as a carriage-stand, under such terms and conditions as they may prescribe; and no person shall use any portion of any public way in this town as a carriage-stand for the solicitation of passengers for hire without a license from the selectmen; but licenses shall not be confined to one person to the exclusion of other applicants, and shall be granted so as to allow competition and promote public convenience.

TRUANCY.

XXX. The town of Milton hereby avails itself of the several provisions of the statutes of this Commonwealth, now in force, relating to habitual truants and absentees from school, and in pursuance of authority conferred thereby adopts the following By-Laws: —

XXXI. All children between the ages of seven and fifteen years, residing in said town, and who may be found wandering about in the streets or public places of said town, having no lawful occupation or business, not attending school, and growing up in ignorance, shall be committed to the Plummer Farm School, Salem, or the County Truant School at Walpole, for confinement, instruction, and discipline.

XXXII. Two or more truant officers thall be appointed annually, whose duty it shall be to inquire into all the violations of the truant laws and of the law relating to compulsory education, and to do all the acts required of them by the laws of the Commonwealth.

XXXIII. It shall be the duty of every truant officer, previous to making any complaint under these laws, to notify the truant or absentee from school, also his parent or guardian, of the offence committed, and of the penalty there for, and if the truant officer can obtain satisfactory pledges for the restraint and reformation of the child, he may at his discretion forbear to prosecute, so long as such pledges are faithfully kept.

XXXIV. It shall be the duty of the school committee, the teachers of the public schools, and the citizens generally, to aid the truant officers as far as possible in the discharge of their duties.

XXXV. It shall be the duty of the truant officers to keep a full record of all their official acts, and make an annual report thereof to the school committee, who shall publish the same with their own report.

XXXVI. Nothing in these By-Laws shall be construed as to alter or impair the obligation and duty of teachers to enforce punctuality and regularity of attendance, and to preserve good order and discipline.

THE CEMETERY.

XXXVII. The sole care, superintendence, and management of the cemetery shall be intrusted to a board of five trustees to serve for the period of five years; one of said board shall retire and a new member be elected at each annual March meeting of the town.

XXXVIII. Citizens of Milton who are heads of families shall be entitled to lots in the cemetery free of expense, allowing one lot to a family, subject to the regulations adopted by the town.

XXXIX. The trustees, when in their judgment it shall be deemed advisable, may sell lots at the rate of fifty cents a square foot, but only to those who are in some way connected with Milton people.

XL. The proprietor of each lot shall caused to be erected, at his own expense, corner-stones, and a step with his name and the number of the lot inscribed on the same, and shall cause his lot to be kept in proper order; and if the proprietor shall omit, for thirty days after notice, to erect such landmarks and to keep the lot in order, the trustees shall have authority to have the same done at the expense of said proprietor.

XLI. No lot shall be used for any other purpose than as a place of burial for the dead; and no proprietor shall suffer the remains of any person to be deposited within the bounds of his lot for hire; nor shall any proprietor sell or transfer the whole or any part of his lot without the consent of the trustees.

XLII. If, in the judgment of the trustees, any trees or shrubs in any lot shall become detrimental to the adjacent lots or avenues, or dangerous or inconvenient, it shall be the duty of said trustees for the time being to enter upon said lot, and to remove said trees and shrubs, or such parts thereof as are thus detrimental, dangerous, or inconvenient.

XLIII. There shall be no structure nor inscription placed in, upon, nor around any lot which the trustees for the time being shall deem offensive or improper; and it shall be the duty of the trustees to remove all offensive or improper objects.

XLIV. The trustees for the time being shall have authority to purchase any tomb in Milton cemetery offered for sale, paying for the same such sums as, in their judgment, may be fair and reasonable. They shall also be authorized to give for any tomb a lot, to be constructed on the land occupied by the tomb, or to be selected at some other point in the cemetery grounds, as they may agree with the proprietor of the same. Should there be no living proprietors or legal representatives of a tomb, the trustees may take possession of such tomb, carefully remove its contents to a lot prepared for the purpose, and erect over the remains a suitable memorial stone.

XLV. The following regulations shall be posted within the cemetery: —

1. All persons are prohibted from driving on the borders.
2. No horse can be left upon the grounds without a keeper, unless fastened to posts provided for the purpose.
3. All persons are prohibited from discharging firearms within the grounds of the cemetery, except in case of military funerals.
4. All persons are prohibited from writing upon or otherwise defacing any sign, monument, fence, or other structure.
5. All persons are prohibited from gathering flowers, or breaking any tree, plant, or shrub.
6. Dogs are not allowed within the cemetery grounds.

BY-LAWS IN RELATION TO THE CONSTRUCTION AND INSPECTION OF BUILDINGS AND PLUMBING, FOR THE TOWN OF MILTON.

SECTION 1. There shall be in the town of Milton a Department for the Inspection of Buildings, which shall be furnished with office room, and such supplies for the transaction of business as the selectmen may provide.

SECT. 2. The officer of said department shall be called the "Inspector of Buildings." He shall be appointed by the selectmen, and shall hold office until his successor is appointed. His compensation shall be regulated by the selectmen.

SECT. 3. The selectmen may, after a hearing, of which public notice shall be

given at least seven days prior to said hearing, by posting a written notice in each post-office in the town and on the public bulletin boards in the town and by publishing the same in a newspaper published in the town, or, if there be no such newspaper, in one published in the City of Boston, pass a vote establishing building limits within the town, and, upon the acceptance of said vote by the inhabitants of the town, at a town meeting called as provided by law, said building limits shall be established.

Said building limits may comprise the whole or any specified part or parts of the territory of the town.

SECT. 4. The inspector of buildings may, so far as is necessary for the performance of his duties, enter any building or premises within said town at any reasonable hour.

SECT. 5. The inspector of buildings shall keep a record of all business of the department, and shall submit to the selectmen such reports of the same as they may require.

SECT. 6. No work shall be done upon any wall, building or other structure within said "building limits" except such repairs as may be necessary for the preservation of said wall, building or other structure, nor shall any wall, building or other structure be erected, raised, moved, enlarged, altered, built upon or torn down, within said "building limits," without a permit from the inspector of buildings.

SECT. 7. Applications for such permits shall be in writing and shall be directed to the inspector of buildings, who shall keep a record of the same.

SECT. 8. The plans and specifications of every building, or other structure, and of every alteration in a building or other structure, for which permit is required, shall be deposited temporarily with the inspector of buildings. A copy of the plans and specifications of every public building and of every alteration in a public building shall be deposited permanently. All plans and specifications deposited under this section shall be dated and signed by the inspector immediately upon being received by him.

Every permit issued by the inspector of buildings shall state the purpose for which the building is to be used, and the conditions, if any, under which it is granted. All permits issued shall be recorded in detail, and said records shall be preserved.

SECT. 9. The inspector of buildings shall not give a permit for the erection of any building or other structure, until he has inspected the plans and specifications thereof, and ascertained that the building, as planned, has sufficient strength, proper means of ingress and egress, and that it conforms with the laws; or for the alteration of any building or other structure, already erected, until he has examined said building or other structure and the plans and specifications of said alteration, and has satisfied himself that said building, as altered, will have sufficient strength, proper means of ingress and egress, and that it will conform to the laws.

The inspector of buildings shall, as often as is practicable, inspect all work for which a permit has been issued, and shall see that it is being carried on according to the requirements of law.

SECT. 10. No permit for the erection of any building to be used as a factory, or in which steam or other motive power is to be used; or to be used for the manufacturing of chemicals; or for the alteration, or the moving of any building for any of such uses, shall be granted until after public hearing before the selectmen, and no building for any of such purposes shall be erected, altered or moved without such permit.

Notice of such hearing shall be given, at least seven days prior to said hearing, by posting a written notice in each post-office in the town, and on the public bulletin boards in the town, and by mailing a copy of the same to the owners of premises, within 500 feet of the proposed location of the building, addressed to their last known residence or place of business, and by publishing the same in a newspaper, published in the town, or, if there be no such paper, in one published in the city of Boston.

No boiler to furnish steam for motive power shall be set, or erected, except on permit from the inspector of buildings, issued after hearing as provided above.

This section (ten) shall apply to the whole town, irrespective of the building limits prescribed by this by-law.

SECT. 11. Permits for the erection, alteration or moving of any building, to be used as a stable, in which more than four horses are to be kept, shall only be granted after hearing as provided in the preceding section. Notice of such hearing shall be sent to the Board of Health, in addition to the notices required in said preceding section.

SECT. 12. The selectmen may, in their discretion, after a hearing as provided in the two previous sections, instruct the inspector of buildings not to issue the permit asked for at such hearing, and, in such case, no such permit shall issue.

SECT. 13. In case the owner of any building or other structure, or an applicant for a permit to erect or alter a building or other structure, is dissatisfied with any order or decision of the inspector of buildings, the matter shall be referred to the selectmen, who, within one week from said reference, shall hear the parties, and, after taking such expert opinion as may seem to the selectmen to be necessary, give their decision. In case the decision of the inspector of buildings be affirmed, the expense of any expert opinion, taken by the selectmen, shall be paid to the town by the owner or applicant, on demand, otherwise such expense shall be borne by the town.

SECT. 14. Every portion of every structure in process of construction, alteration, repair or removal, and every neighboring structure or portion thereof, affected by such process or by any excavation, shall be properly supported during such process or excavation.

SECT. 15. All chimneys shall be built of brick or stone and shall be lined with flue linings or shall have an eight-inch brick wall from the bottom of the first floor to the top of the attic floor, and shall be topped at least three feet above the highest point of contact with the roof. No nails shall be driven into any chimney at any point; and no woodwork shall be within one inch of any chimney.

All wooden buildings of two or more stories shall have sills, posts and girts, mortised, tenoned and pinned together, and shall be properly braced. End girts shall be placed in all wooden buildings. Sills shall not be less than 6 x 6 inches; and posts and girts not less than 4 x 6 inches.

All woodwork including lath and plaster within two feet of any heating apparatus or smoke-pipe, and all woodwork including lath and plaster coming in contact with any pipes from said apparatus, shall be properly protected by a metal or stone shield.

No wooden building shall be built within two feet of the line of an adjoining lot unless a brick wall at least eight inches in thickness shall be substituted for the wooden wall next said line.

Where dwellings of more than two stories are to be occupied by more than two families there must be at least two flights of stairs from ground floor to top

floor, or one flight from ground floor to top floor inside, together with an approved fire escape outside.

Every owner, either by himself or through his builder or carpenter, shall, before making any substantial alterations in a building, or erecting any new building, within the town of Milton, whether inside the building limits or not, file at the office of said inspector, upon blanks furnished by the town for that purpose, notice of all such work or alterations as come under the provisions of this section; and no such work shall be done in any building in said town except subject to the approval of said inspector.

This section (fifteen) shall apply to the whole town irrespective of the building limits prescribed by this by-law.

SECT. 16. The selectmen may, after a hearing, of which public notice shall be given at least seven days prior to said hearing by posting a written notice in each post-office in the town, and on the public bulletin boards in the town, and by publishing the same in a newspaper, published in the town, or, if there be no such newspaper, in one published in the city of Boston, and by giving personal notice to the owners of land, to be affected, by delivering to such owners a copy of said notice or by depositing the same in the post-office, post-paid, and addressed to them at their last known residence or place of business, pass a vote establishing a building grade or building grades for any part or parts of the town, and on the acceptance of such vote by the inhabitants of the town at a town meeting, called as provided by law, said building grade or building grades shall be established.

Said building grade or building grades may be at different heights above the level of the sea, in different parts of the town, as the nature of the ground may require.

No cellar floor of any building, erected on land for which a building grade has been established, nor any part, except the foundation, of a building, which has no cellar, shall be below said grade.

SECT. 17. The inspector of buildings in the name of the town may take such measures, as the public safety requires, to carry this by-law and every section thereof into effect, and any expense incurred in so doing may be recovered by the town from the owner of the defective property.

SECT. 18. There shall be a fee of $2.00 for any permit required by this by-law. Fees shall be collected by the inspector before issuing permit, and be by him paid into the town treasury and shall be applied toward defraying the cost of the department for the inspection of buildings.

SECT. 19. Any person, firm or corporation guilty of a breach of any regulation contained in this by-law shall be liable to a fine of not less than $20.00 nor more than $100.00 for each such offence. Such fines to be paid into the town treasury.

BY-LAW IN RELATION TO PLUMBING.

Only plumbers allowed to perform plumbing.

SECTION 1. No person shall carry on the business of plumbing unless he is a plumber and shall have first registered his name and place of business in the office of the inspector of buildings; and notice of any change in the place of business of a registered plumber shall be immediately given to said inspector.

Permit necessary before work is performed.

SECT. 2. Every plumber, before doing any work in a building, shall, except in the repair of leaks, file at the office of the said inspector, upon blanks furnished for that purpose, a notice of the

work to be performed; and no such work shall be done in any building without the approval of such inspector.

Plumbing not to be concealed from view until approved.

SECT. 3. No drainage, sewerage or plumbing shall be covered or concealed in any way until after it has been examined and approved by the inspector. Notice must be sent to the inspector when the work is sufficiently advanced for such inspection, and it shall be the duty of such inspector, within two working days after receiving such notice, to inspect the same; and in case any change therein shall be found necessary, he shall direct in writing the change to be made.

Plumbing to be tested by water pressure before using.

SECT. 4. Plumbing work shall not be used until the same is tested in the presence of the inspector, with the water test, if possible, or with the peppermint or other reliable test, and approved by him in writing; and such written approval shall be sent to the owner and the plumber.

Buildings to be separately and independently connected with sewer.

SECT. 5. The sewerage of every house or building shall be separately and independently connected with the street sewer, where one is provided, or with a proper cesspool; and where there is no sewer in the street, and it is necessary to construct a private sewer to connect with one on an adjacent street, such plans shall be used as may be approved by this department.

Sizes and kinds of pipe to be used.

SECT. 6. The soil-pipe of every building shall be of sufficient size to receive, and allow freely to pass, all that enters or should enter the same. All soil-pipes shall be of extra heavy cast-iron pipe, all drain and connecting ventilating pipes within the building shall be of sufficient size and made of cast-iron, with leaded and calked joints, but wrought-iron pipe may be used for vent purposes; said pipes shall be properly secured to walls and ceiling with wrought-iron hangers. The soil-pipe of any building shall not be less than 4 in., vents not less than $1\frac{1}{2}$ in., and iron waste not less than 2 in. in diameter.

Running trap, where placed.

SECT. 7. Every drain-pipe shall be supplied with a suitable trap placed with an accessible clean-out at the point where it leaves the building, and shall have a proper pitch, and extend 5 ft. outside of cellar wall; said clean-out may be placed outside of cellar wall if made accessible. The pipe from this point to sewer or cesspool must have tight joints. All drain or ventilation pipes must extend undiminished in size at least 2 ft. above the highest window on roof, and all changes in direction of soil-pipes must be made by Y branches.

All changes in direction of soil-pipe must be by Y branches.

Joints in iron pipe, how made.

SECT. 8. All joints in iron drain-pipes, soil or vent pipes, must be made by thoroughly calking the same with molten lead, joints of lead pipes with iron pipes must be made by soldering the same into brass ferrules, and calking the ferrules to iron pipes or screwing them to wrought-iron pipes.

Every fixture shall have a separate trap.

SECT. 9. Every water-closet, urinal, sink, basin, bath-tub, slop-hopper, and every tray or set of trays, shall be furnished with a separate trap, placed as near the fixture as possible, and in no case shall the waste from the bath-tub or other fixture be connected with a water-closet trap. Traps should be protected from siphonage or air pressure by special pipes, of a size not less than the waste-pipe, placed outside or below the trap; lead pipes may

Traps to have air-pipes.

be used only where they are exposed to view. Air-pipes for water-closets shall not be less than 2-in. bore. Two or more air-pipes may be connected together, or with a soil-pipe, but in such connection with soil-pipe it must be above the upper fixture of the building.

What fixtures shall not be connected with soil-pipe.

SECT. 10. No drip or overflow pipes from safes under water-closets, urinals or other fixtures, no overflow from tanks or cisterns, no waste-pire from a refrigerator or other receptacle in which food is stored, no rain-water conductors and no steam exhaust or steam from waste-pipes shall be connected with any soil-pipe. No openings will be allowed in the sewer-pipe of any building for the purpose of receiving the surface drainage of the cellar. No brick, sheet-metal, earthenware or chimney flue shall be used as a sewer-ventilator, or to ventilate any trap, drain, soil or waste pipe; and no water-closet shall be flushed from a tank that is used for any other purpose.

No flue, etc., to be used for a ventilator.

Closet supply-pipe.

SECT. 11. Every water-closet or line of water-closets on the same floor, inside of the building proper, shall be supplied with water from a tank, and shall have a flushing pipe of not less than $1\frac{1}{4}$ in. in diameter inside.

Construction cesspools.

SECT. 12. Cesspools shall have a top of stone or arched brick with iron rim and cover, and may be laid up dry, unless otherwise ordered by the board of health.

Vaults, how constructed.

SECT. 13. Every privy vault shall be at least 4 ft. distant from the line of any adjoining lot, unless by the consent of the owner of such lot; and every vault shall be so constructed as to be conveniently approached, opened and cleaned, and shall be made tight, so that the contents thereof cannot escape therefrom, if in the opinion of the inspector the surroundings require it.

Woodwork around water-closets.

SECT. 14. No water-closet shall be enclosed with any upright woodwork.

Appeals.

SECT. 15. In the case of any dispute or difference in opinion between the inspector and any person, firm or corporation, the same shall be submitted by either party to the local board of health, who shall pass upon the same, and whose finding therein, after hearing, shall be final and conclusive upon all parties. No member of said board shall sit in a case in which he is interested, and in case of such disqualification, or of the necessary absence of any member, the two other members shall appoint a substitute. If two or more members are so disqualified or absent, the inspector shall appoint one substitute, the appellant another, and the two so appointed shall, if necessary, appoint a third.

SECT. 16. The inspector of buildings in the name of the town may take such measures as the public safety requires, to carry this by-law and every section thereof into effect, and any expense incurred in so doing may be recovered by the town from the owner of the defective property.

Penalty.

SECT. 17. In case of violation of any one or all of the foregoing sections, by any person or persons, firm or corporation, by or upon whom any duty is herein prescribed or imposed, he or they or it so offending shall be liable to a fine not exceeding the sum of one hundred dollars, to be paid into the town treasury.

GENERAL PROVISIONS.

XLVI. The penalty of any violation of these By-Laws shall, when not otherwise provided for, be the forfeiture and payment for each offence of a fine not exceeding twenty dollars.

XLVII. Prosecutions for the breach of the provisions of the By-Laws of the town shall be commenced within six months from such breach.

XLVIII. These By-Laws may be amended at any annual town meeting, an article having been inserted for the purpose in the warrant for such meeting, and upon the approval of these By-Laws all By-Laws heretofore passed shall be annulled and repealed.

MILTON TOWN RECORDS

FOR THE MUNICIPAL YEAR, 1898–99.

MARCH MEETING.

The annual Town Meeting was held in the Town Hall upon Monday, March 7, 1898, at 9 A. M., when the following proceedings were had upon the several articles in the warrant for said meeting, namely: —

At 9 A. M., the Town Clerk having opened the meeting by reading a portion of the warrant, it was moved by Mr. Felix Rackeman that the further reading of the warrant be dispensed with. Said motion being put for the consideration of the meeting, it was carried by a unanimous vote, and the further reading of the warrant (except the concluding paragraphs) was dispensed with.

ARTICLE 1. To choose a Moderator.

George R. R. Rivers, Esq., chosen.

George V. Fabian, James H. Haley, Jesse B. Baxter, Hazen B. Williams, Edward B. Wheeler, Charles S. Churchill, George B. Pierce, and A. M. D. Robson were appointed by the Selectmen as Ballot Clerks and Tellers.

Waldo A. Martin, Frank H. Richards, and William D. Parsons were appointed by the Town Clerk, and William S. Fallon, Bernard F. Murray, Joseph H. Duffey, and Charles A. Bowman were appointed by the Moderator as additional Tellers, all of the above being sworn by the Town Clerk.

ART. 2. To choose all such town officers as are required by law to be chosen by ballot. Also on the same ballot to vote "yes" or "no" in answer to the question, "Shall license be granted for the sale of intoxicating liquors in this town?"

At 2 o'clock and 12 minutes P. M., *Voted*, To close the polls in 10 minutes.
At 2 o'clock and 22 minutes P. M., *Voted*, That the polls be closed.

The balloting resulting in the choice of the following officers: —

Selectmen, Overseers of Poor, and Surveyors of Highways.— Albert A. Brackett, J. Walter Bradlee, Wm. H. Chubbuck.

Town Clerk.— Henry B. Martin.

Town Treasurer.— Joseph Holmes.

Assessors.— For three years, J. Frank Pope; for 1 year, Geo. W. Nickerson.

School Committee. — Joseph Holmes, Granville S. Webster.

Collector of Taxes. — John H. Emerson.

Auditors. — W. Newton Harlow, C. Russell Hurd.

Park Commissioner. — Nathaniel T. Kidder (3 years).

Sewer Commissioner. — Ernest W. Bowditch (3 years).

Board of Health. — Samuel D. Parker (3 years).

Constables. — Joseph B. Blanchard, Peleg Bronsdon, Edwin L. Crossman, Fred M. Farrington, Edwin A. Houghton, Jacob S. Lincoln, Timothy McDermott, Peter McIntyre, Charles Mitchell, Maurice Pierce, Henry C. Shields, John H. Tucker.

Trustees of Public Library. — (3 years), Orin A. Andrews, Nathaniel T. Kidder, Edwin D. Wadsworth (2 years), Harrison O. Apthorp.

Trustees of Cemetery. — Amor L. Hollingsworth (5 years), C. Minot Weld (2 years).

License vote, "Yes," 224; "No," 524.

ART. 3. To choose all such town officers as are not required by law to be chosen by ballot.

The following officers were chosen *viva voce:*—

Fence Viewers.— Henry W. Vose, George Y. Badger.

Surveyors of Lumber.—John H. Burt, Arthur M. Gardner.

Measurer of Wood and Bark.—James H. Packard.

Field Drivers.—John Welch, C. Henry Lawton.

Pound Keeper.—Fred E. Sanford.

ART. 4. To hear and act upon the Auditor's report, and reports of other town officers or committees.

Voted, That the Auditor's Report be accepted.

The committee appointed at the March meeting, 1897, to investigate the subject of Insurance of Public Buildings, reported as follows:—

"That a committee of three be appointed to confer with the New England Insurance Exchange, with a view to having the buildings of the town re-rated on a lower basis."

So voted. Committee appointed: John C. Cobb, George W. Nickerson, F. Eliot Cabot.

REPORT OF COMMITTEE.

To the Citizens of the Town of Milton:

The undersigned, having been appointed at the Annual Town Meeting of 1897 a committee on rebuilding of Granite avenue, beg leave to report as follows:—

During the summer your committee made several visits to the premises under varying conditions of weather, and once under appointment with Mr. Clink, your present Superintendent of Streets, who has since made a careful estimate of cost of the reconstruction of the avenue.

This report is, in brief, that the distance from the Granite avenue bridge at the Neponset River to Squantum street is 5,082 feet. This is divided into five sections, requiring somewhat different treatment, the most costly being that next to the river, and the easiest or lightest near Squantum street. There is, also, a bridge over the creek, that your Superintendent says should be repaired.

The estimated cost of filling and grading	$17,704.00
Paving the whole distance, 27 feet wide.	21,344.40
Rebuilding bridge over creek	2,270.00
Total	$41,318.40

Should a macadam surface be considered sufficient it is thought the above figures would be reduced to $31,046.80.

In the autumn your committee, together with the Chairman of the Board of Selectmen, had an interview with the Massachusetts Highway Commission, in which we were asked to furnish them a statement of expenditures of the town upon Granite avenue, going back over a considerable period. These figures we have not as yet obtained from the town's books, though we hope to be able to do so.

The State Highway Commissioners said they were willing at their own expense to make a survey and an estimate of cost of rebuilding the avenue, and one of the Commissioners seemed inclined to recommend the State's bearing part of the cost, and it was suggested by your committee that perhaps the State would undertake the reconstruction of that section that was next to the river.

All of which is respectfully submitted,

J. HENRY BROOKS.
J. P. FENNO.
WM. H. KENNEDY.

MILTON, March 3, 1898.

Voted, That the above report be accepted, and that the committee be continued.

ART. 5. To see what sum of money the Town will appropriate for the support of schools the ensuing year.

$55,500 appropriated.

ART. 6. To see what sum of money the Town will appropriate for streets the ensuing year.

$30,000 appropriated.

ART. 7. To see what sum of money the Town will appropriate for the improvement of the Cemetery the ensuing year.

$2,000 appropriated.

ART. 8. To see what sum of money the Town will appropriate for the Public Library the ensuing year.

$1,200 appropriated, together with the amount received for dog licenses.

ART. 9. To see what sum of money the Town will appropriate for the support of the poor the ensuing year.

$7,500 appropriated, and receipt of sales at Poor Farm.

ART. 10. To see what sum of money the Town will appropriate for Soldiers' Relief the ensuing year.

$500 appropriated.

ART. 11. To see what sum of money the Town will appropriate for the Fire Department the ensuing year.

$15,000 appropriated.

ART. 12. To see what sum of money the Town will appropriate for the Police Department the ensuing year.

$15,000, also Court fees and other receipts; also $500 additional for repairs of telephone service and buildings.

ART. 13. To see what sum of money the Town will appropriate for street lighting the ensuing year.

$11,500 appropriated, under contract similar to 1897.

ART. 14. To see what sum of money the Town will appropriate for salaries of town officers the ensuing year.

$5,900, said sum to include salary of Clerk of Selectmen.

ART. 15. To see what sum of money the Town will appropriate for Town Hall and lot the ensuing year.

$1,100 appropriated, and $260 additional for new tin roof.

ART. 16. To see what sum of money the Town will appropriate for State Aid the ensuing year.

$1,000 appropriated.

ART. 17. To see what sum of money the Town will appropriate for printing the ensuing year.

$1,300 appropriated.

ART. 18. To see what sum of money the Town will appropriate for miscellaneous expenses the ensuing year.

$16,425 appropriated as follows: for general miscellaneous expenses, $2,500; for interest, $6,500; for abatement of taxes, $2,500; for Park Commission $1,000; for clerk hire and plans for assessors, $425; for the contingent fund, $3,500.

ART. 19. To see what sum of money the Town will appropriate for the Health Department the ensuing year.

$1,500 appropriated.

ART. 20. To see if the Town will accept the list of jurors, as prepared by the Selectmen.

Voted, That the following list be accepted, viz.: —

LIST OF JURORS.

Brackett, Albert A.
Bradlee, J. Walter.
Bronsdon, Peleg.
Brophy, William.
Burt, George E.
Baxter, Jesse B.
Blackman, Elbridge.
Badger, George Y.
Cates, Bartlett.
Crossman, Alfred H.
Craig, Charles H.
Currier, Louis B.
Clum, Allison B.
Carter, John L.
Duffy, Maurice.
Furber, Charles H.
Fowler, Edwin W.
Gordon, Thomas B.
Gordon, Walter D.
Gibbs, James.
Gardner, Arthur M.
Gallagher, H. Clifford.
Hughes, William H.
Hibbard, Arthur A.
Holmes, Joseph.
Hobbs, Alexander.
Harlow, W. Newton.
Hamilton, Bradford.
Kendrick, John B.
Kidder, Nathaniel T.
Kennedy, William H.
Lawrence, John R.
McHardy, Lewis.
McCue, Hugh.
Moulton, Luther.
Martin, Waldo A.
Meredith, Albert A. H.
Nickerson, George T.
Nickerson, George W.
Pond, Robert L.
Pond, Thomas W.
Pope, J. Frank.
Preston, Frank A.
Packard, James H.
Parker, Samuel D.
Robertson, William W.
Russell, James S.
Ricketson, James H.

Weld, C. Minot.

ART. 21. To authorize the Collector of Taxes to use all means of collecting the taxes which a Town Treasurer, when appointed Collector, may use.

So authorized.

ART. 22. To fix the rate of interest on taxes unpaid after a time fixed by the Town.

Six per cent after Dec. 1.

ART. 23. To see if the Town will vote to appropriate the sum of two hundred dollars, to be expended by Huntington Frothingham Wolcott Post 102, G. A. R., on Memorial Day.

So voted.

ART. 24. To see what sum of money the Town will appropriate for insurance on town buildings the ensuing year.

$1,500 appropriated.

ART. 25. To see what sum of money the Town will appropriate for hydrant rental the ensuing year.

$6,800 appropriated.

ART. 26. To see what sum of money the Town will appropriate for transportation of scholars the ensuing year.

$3,500 appropriated.

ART. 27. To see what action the Town will take in regard to borrowing money.

Voted, That the Town Treasurer be authorized, with the sanction and approval of the Selectmen, to borrow such sums of money as may be necessary for town use in anticipation of the taxes of the year 1898, and that all sums so borrowed be made specifically payable from the taxes of the present year, 1898.

ART. 28. To see what sum of money the Town will appropriate to be used by the Fire Department for special repairs, alterations, and equipments.

$1,400 appropriated for remodelling stable, Central Fire Station; $600 for new hose; $300 for repairs on steamer; and $750 for new fire alarm boxes.

ART. 29. To see if the Town will appropriate the sum of twenty-five dollars for the general uses of the Board of Park Commissioners the ensuing year.

$25 appropriated.

ART. 30. To see what sum of money the Town will appropriate for the use of the Park Commissioners, to be expended in the care of shade trees in public places the ensuing year.

$500 appropriated.

ART. 31. To see if the Town will accept as Town By-Laws the report of the committee as reported to the annual Town Meeting of 1897, entitled, "Proposed By-Laws in relation to the Construction and Inspection of Buildings and Plumbing, for the Town of Milton."

Accepted by the insertion of the following amendment, after the words "flue-linings" in Section 15, viz.: "or shall have an eight-inch brick wall."

ART. 32. To see if the Town will accept section eleven of chapter four hundred and eighty-one of the Acts of 1894, relative to construction of buildings, etc., for the purpose of prevention of fire, and the preservation of life.

Accepted.

Articles 33, 34, 35, and 39, considered in conjunction.

ART. 33. To see if the Town will accept and allow the alteration and widening of Brook road, Eliot street, Reedsdale road, Quarry street, Pleasant street, Edge Hill road and Bryant avenue, under the provisions of law authorizing the assessment of betterments, as reported to the Town by the Selectmen; or take any action with regard to accepting and allowing such alterations and widenings, or all or any part thereof.

Accepted and allowed.

ART. 34. To see if the Town will accept and allow the laying out of special space for the use of street railways, as reported to the Town by the Selectmen, in the following town ways and highways; Brook road, Eliot street, Reedsdale road, Quarry street, Pleasant street, Edge Hill road, Bryant avenue, Central avenue, White street, and Randolph avenue, or take any action in respect of accepting and allowing such special spaee in all or any part of such ways.

Accepted and allowed.

ART. 35. To see if the Town will accept and allow the laying out of a new street, between Edge Hill road and Bryant avenue, under the provisions of law authorizing the assessment of betterments, as reported to the Town by the Selectmen; and also accept and allow the laying out of a special space for the use of street railways therein, as reported to the Town by the Selectmen.

Accepted and allowed.

ART. 39. To determine whether the Town will vote to borrow money, and issue its bonds, notes, or scrip to an amount not exceeding one hundred thousand dollars for the purpose of widening, relocating, and constructing streets and ways, and fix the terms of such bonds, notes, or scrip, and to decide whether the same shall be payable in annual instalments or otherwise, and pass any other votes relating to borrowing money, or the issue or terms of such bonds, notes, or scrip.

Voted, To appropriate $100,000 for the above purposes, and that said amount be raised by borrowing, and that the Town Treasurer be, and he hereby is, authorized and directed to issue the negotiable notes, bonds, or scrip of the Town, in the aggregate principal sum of $100,000, in denominations of $1,000 each or multiplies thereof, ten per cent of the principal thereof being payable annually. Said bonds shall be denominated on the face thereof "Milton Highway Loan," and shall bear interest at the rate of not exceeding four per cent per annum.

ART. 36. To see if the Town will accept and allow as town ways, Valley road, Oak road, Rock View road, and the extension of Maple street as laid out by the Selectmen, and appropriate money for the same.

$3,000 appropriated.

ART. 37. To see if the Town will accept and allow as a town way, Pond street, as laid out by the Selectmen, and appropriate money for the same.

$900 appropriated.

ART. 38. To see if the Town will accept and allow as a town way, Otis street, as laid out by the Selectmen, and appropriate money for the same.

$1,000 appropriated.

ART. 39. (See previous record.)

ART. 40. To determine whether the Town will appoint or authorize the appointment of a special committee, consisting of the Selectmen, and Ernest W. Bowditch, Sewer Commissioner, Nathaniel T. Kidder, Park Commissioner, and James S. Russell, to make contracts on behalf of the Town to widen and construct streets and ways as may be voted at the meeting, and to see that such contracts are duly executed, and to pass any other votes with regard to such committee, and the duty and authority thereof.

Voted, That a committee be appointed in accordance with this article, to consist of the Selectmen, Ernest W. Bowditch, Nathaniel T. Kidder, and two citizens to be appointed by the Moderator. Moderator's appointments, John R. Lawrence and T. K. Cummins, Jr.

ART. 41. To see if the Town will appropriate and raise, by borrowing or otherwise, the sum of forty thousand dollars, to be expended by the Board of Sewer Commissioners towards laying out, construction, and maintenance of the system of sewerage adopted by said Board, for the whole of

the territory of said Town, by a vote of said Board passed Jan. 20, 1898.

Voted, To appropriate $20,000 for the above purposes, and that said amount be raised by borrowing; and that the Town Treasurer be, and he hereby is, authorized and directed to issue the negotiable notes, bonds, or scrip of the Town in the aggregate principal sum of $20,000 in denominations of $1,000 each, or multiples thereof, payable as follows: $1,000 in 1899, and $1,000 in each succeeding year until paid. Said bonds to be denominated "Milton Sewerage Loan, Act of 1895," and to bear interest at the rate of not exceeding four per cent per annum.

ARTS. 42 and 43, considered in conjunction.

ART. 42. To see if the Town will appropriate sixteen thousand five hundred dollars for an addition to the Belcher school building, and equipment for the same.

ART. 43. To see if the Town will purchase a vacant lot of land on Oak street containing 22,500 square feet, to enlarge the Tucker school-house yard, and appropriate five thousand dollars to pay for said lot.

$21,500 appropriated for said purposes, $20,000 of said amount to be raised by borrowing, and the Town Treasurer authorized and directed to issue the negotiable notes, bonds, or scrip of the Town in the aggregate principal sum of $20,000 in denominations of $1,000 each, or multiples thereof, ten per cent of the principal thereof being payable annually. Said bonds to be denominated "Milton School Loan of 1898," and bear interest not exceeding four per cent per annum, and that the expenditure of the said $21,500 be placed in the hands of a committee of five, to consist of three members of the School Committee, and two citizens, all to be appointed by the Moderator.

Committee appointed: Joseph E. Hall, J. Frank Pope, H. C. Gallagher, W. C. Shapleigh, G. S. Webster.

ART. 44. To see what sum of money the Town will appropriate for land damages in the case of street widenings accepted by the Town Oct. 26, 1897, viz., corner of Centre street and Canton avenue, corner of Quarry and Pleasant streets, and Brook road, near Central avenue.

$666 appropriated as follows: Centre street and Canton avenue, $21. Quarry and Pleasant street, $50. Brook road, near Central avenue, $595.

ART. 45. To see if the Town will vote to appoint a committee of citizens who shall consider the necessity of an enlarged Town Hall, and shall also consider whether it is

better to enlarge the present Town Hall building, or build a new Town Hall, and convert the present building into an administration building.

Voted: That such committee be appointed.

Committee appointed: C. Minot Weld, Peleg Bronsdon, H. O. Apthorp, Geo. T. Tilden, B. O. Hamilton.

ART. 46. To see if the Town will vote to authorize the Selectmen to institute proceedings for the abolition of the grade crossing at Central avenue, by the tracks of the Old Colony Railroad Company, now leased by the New York, New Haven & Hartford Railroad Company, in accordance with the provisions of the Laws of 1890, Chapter 428, and the several Acts in amendment thereof and in addition thereto, and to take such further action as may be necessary for such purpose.

Under this article the following committee was appointed, and to report at the next March meeting, viz.: J. Henry Brooks, Harry B. Reid, J. Arthur Turner.

ART. 47. To see if the Town will erect five electric lights on Squantam street between Granite avenue and the Quincy line; also three electric lights on Granite avenue between Squantum street and Hope avenue, and appropriate money for the same.

So voted.

ART. 48. To see if the Town will extend the electric lights on Hillside street from the South School to the Park line, and on Randolph avenue, from corner of Hillside street to Park line, and appropriate money for the same.

So voted.

ART. 49. To see if the Town will authorize the Board of Selectmen to engage the services of a Civil Engineer to act with them in the construction and repair of roads at a

salary not to exceed three thousand dollars per annum, and appropriate such sum for the purpose.

Indefinitely postponed.

ART. 50. To see if the Town will vote to accept the recommendation of the committee on Article 48, of the Warrant considered at Town Meeting, March 1, 1897, relating to the adoption of By-Laws to regulate the laying-out of town ways, namely: That a committee be appointed to petition for such legislation as shall enable the Town to pass By-Laws establishing a general policy in regard to the laying out of ways, by regulating fundamental principles in regard to their character and construction.

Voted, That the recommendation of the Committee be accepted when amended so that the words "shall enable the Town" shall read "shall enable towns," and that a Committee be appointed in accordance therewith.

Committee appointed: C. S Rackemann, A. A. Brackett, N. T. Kidder.

ART. 51. To see if the Town will authorize the Trustees of the Cemetery to have prepared a plan of avenues, paths, ornamental spaces, reserve spaces, and lots for the land lately purchased of Colonel Peabody's estate, the plan to be submitted to the annual Town Meeting of March, 1899, for approval and acceptance, and appropriate the sum of $250 to be expended for that purpose.

So authorized, and $250 appropriated.

ART. 52. To see if the Town will take any action relative to printing its records or any part thereof, and will appropriate the necessary money therefor.

Voted, That the Town Records, including Births, Marriages, and Deaths, previous to the year 1700, be printed, and the sum of $200 appropriated therefor, said printing to be done under the direction of a committee of three to be appointed by the Moderator.

Committee appointed: E. D. Wadsworth, E. J. Carpenter, H. E. Ware.

ART. 53. To see if the Town will vote to appoint a committee of three to consider the best method of holding the

annual Town Meeting, said committee to be named by the chair, and report back to the Town in time so that the proposed changes may be in force at the annual meeting of March, 1899.

So voted.
Committee appointed: Henry B. Martin, Maurice A. Duffy, James S. Russell.

Art. 54. To see if the Town will vote to indorse the action of J. Walter Bradlee and other citizens of the Town in petitioning the Legislature for the repeal of the law governing the location of street railways in Milton, as set forth in Chapter 121 of the Acts of 1895.

So voted.

Art. 55. To see if the Town will vote to place a fire-alarm box on Thacher street, between Houston avenue and Brook road, and appropriate money for the same.

Referred to the Engineers of Fire Department.
At 10 o'clock P. M. *Voted*, To dissolve the meeting.

At the meeting aforesaid the whole number of ballots cast was 1004, together with 198 additional cast by women voters for members of the School Committee.

WARRANT COMMITTEE, 1898–99.

The following were a committee appointed by the Moderator at the foregoing meeting, to be known as the Warrant Committee, as per Section 2 of the By-Laws, to wit: —

Thomas N. Perkins.	James H. Packard.
C. Minot Weld.	Edward A. McCue.
Chas. E. Rogerson.	Peter McIntyre.
Alfred H. Crossman.	Robert F. Herrick.
John Graham.	George W. Nickerson.
James Tucker.	J. Murray Howe.

David Halliday.

SPECIAL MEETING.

WARRANT.

Commonwealth of Massachusetts.

NORFOLK, ss. *To either of the Constables of the Town of Milton*, GREETING: —

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Milton, qualified to vote in town affairs, to meet at the Town Hall, in said Milton, on Monday, the twenty-sixth day of September (current), at eight o'clock P. M., then and there to act upon the following articles, to wit: —

ARTICLE 1. To choose a Moderator to preside at said meeting.

ART. 2. To see if the Town will vote to accept the building limits as established by the Selectmen, in accordance with the provisions of the By-Laws governing the inspection of the construction and plumbing of buildings in the Town.

ART. 3. To see if the Town will vote to appropriate the sum of three hundred dollars for defraying the expenses of the Department of Inspector of Buildings and Plumbing.

ART. 4. To see if the Town will vote to accept and allow as a town way, Cheever street, as laid out by the Selectmen.

ART. 5. To see if the Town will vote to appropriate $3,500, to be expended in completing Maple street extension, Oak road, Rock View and Valley roads.

ART. 6. To see if the Town will vote to erect five electric lights on Cheever street and appropriate money for the same.

ART. 7. To see if the Town will vote to appropriate the sum of five thousand dollars for general highway repairs.

ART. 8. To see if the Town will vote to accept and allow the reserved space for the use of a street railway in and through Canton avenue from Canton town line to Blue Hill avenue, thence through Blue Hill avenue to the Blue Hills Parkway, formerly Mattapan street, as laid out by the Selectmen.

And you are directed to warn said inhabitants, qualified as aforesaid, to meet at the time and place and for the purpose herein mentioned, by posting attested copies of this warrant in each of the post-offices of said town, fourteen days at least before said meeting, and leaving printed copies hereof at the dwelling-houses in said Town.

Hereof fail not, and make due return of this warrant, with your doings hereon, to the Town Clerk at the time and place of said meeting.

Given under our hands at Milton, this ninth day of September, eighteen hundred and ninety-eight.

J. WALTER BRADLEE,
A. A. BRACKETT,
W. H. CHUBBUCK,
Selectmen of Milton.

Commonwealth of Massachusetts.

NORFOLK, ss.

MILTON, September 26, 1898.

Pursuant to the within warrant, I have notified the inhabitants of the Town of Milton, as herein directed, to meet at the Town Hall in said Milton, upon the date above mentioned, for the purposes therein set forth.

PETER MCINTYRE,
Constable of Milton.

At a meeting of the inhabitants of the Town of Milton, held according to the foregoing warrant upon September 26, 1898, the following proceedings were had upon the several articles in said warrant, namely: —

ARTICLE 1. Charles S. Rackemann, Esq., was chosen Moderator.

ART. 2.

Voted, That the building limits, as established by the Selectmen, be accepted.

ART. 3.

Voted, That the sum of three hundred dollars be appropriated for defraying the expenses of the Department of Inspection of Buildings and Plumbing.

ART. 4.

Voted, To indefinitely postpone.

ART. 5.

No appropriation made.

ART. 6.

Voted, To indefinitely postpone.

ART. 7.

No appropriation made.

ART. 8.

Voted, To indefinitely postpone.

Mr. James S. Russell asked leave of the meeting to present the following resolutions, which, being granted, said resolutions were read and accepted as the sense of the meeting, and the following committee were appointed: —

Albert K. Teele, Horace E. Ware, James S. Russell.

RESOLUTIONS.

Whereas, The Metropolitan Park Commissioners have taken land for a parkway from the Neponset River at Mattapan, along Mattapan street to the Blue Hill Reservation, and built a portion of it, and

Whereas, The part of the way still unfinished is both unsatisfactory as a town road, and inadequate as an approach to the Blue Hills,

Therefore, The citizens of Milton respectfully urge the Metropolitan Park Board to complete this parkway as soon as possible, and to provide space for electric cars in it.

Also, That the Moderator name a committee of three to present a copy of thi resolution to the Metropolitan Park Commissioners, and to do all in its power t carry out the wish of the town in the matter.

Voted, To dissolve the meeting.

A true record.

Attest: HENRY B. MARTIN, *Town Clerk*.

NOVEMBER MEETING.

WARRANT.

Commonwealth of Massachusetts.

NORFOLK, ss. *To either of the Constables of the Town of Milton*, GREETING:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the inhabitants of the Town of Milton, qualified to vote at elections, to meet at the Town Hall, in said Milton, on Tuesday, the eighth day of November next, it being the Tuesday after the first Monday of said month, at seven o'clock in the forenoon, then and there to bring in their ballots for the following officers, to wit: —

Member of Congress from the Tenth Congressional District.

Governor, Lieutenant-Governor, Secretary, Treasurer, Auditor and Attorney-General for this Commonwealth.

Councillor for the Second Councillor District. One Senator for the First Norfolk District. One Representative to the General Court from the Fourth Norfolk District. Also one County Commissioner, two Special Commissioners, Register of Probate and Insolvency, and Sheriff, all for the county of Norfolk. Also a District Attorney for the Southeastern District.

All the officers herein named to be voted for on the ballots to be provided by the Secretary of the Commonwealth for that purpose.

The polls will be open at seven o'clock in the forenoon, and may be closed at four o'clock in the afternoon.

And you are directed to serve this warrant by posting attested copies hereof in each of the post-offices of said Town, and distributing printed copies hereof at the dwelling-houses of said Town, seven days at least before said meeting.

Hereof fail not, and make due return of this warrant, with your doings hereon, to the Town Clerk, at or before the time set for said meeting.

Given under our hands at Milton, the fourteenth day of October, in the year of our Lord one thousand eight hundred and ninety-eight.

J. WALTER BRADLEE,
A. A. BRACKETT,
W. H. CHUBBUCK.
Selectmen of Milton.

Commonwealth of Massachusetts.

NORFOLK, ss. MILTON, November 1, 1898.

Pursuant to the within warrant, I have notified the inhabitants of the town of Milton, as therein directed, to meet at the Town Hall in said Milton upon the date above mentioned, for the purposes therein set forth.

PELEG BRONSDON,
Constable of Milton.

Blanks, forty-five.

At 4 o'clock P. M., *Voted*, That the polls be closed in five minutes.

At 4 o'clock and 5 minutes, *Voted*, That the polls be closed.

All of the above votes were duly sorted, counted, declared and recorded, sealed up in open Town Meeting, and delivered to the Town Clerk.

At the meeting aforesaid Messrs. Hazen B. Williams and J. Harry Holmes, Republicans, and Joseph F. Donovan and James H. Haley, Democrats, were appointed by the Selectmen as Ballot Clerks, and Jesse B. Baxter, Leonard E. Littlefield, George W. Sloan, W. Newton Harlow, George V. Fabian, Republicans, and John F. Hooper, Frederick G. Herman, James H. Shea, Bernard F. Murray, Democrats, were appointed Tellers, to receive, sort, and count votes, all of the above being sworn by the Town Clerk.

At 6 o'clock and 30 minutes, *Voted*, That the meeting be dissolved.

A true record.

Attest: HENRY B. MARTIN, *Town Clerk.*

Whole number of ballots cast, eight hundred and ten.

Fourth Norfolk Representative District.

We, the undersigned, Town Clerks of the towns of Canton and Milton, comprising Representative District Number Four in the County of Norfolk, hereby certify: —

That at an election duly held in said towns on the eighth day of November, A. D. 1898, for a candidate to represent said district at the next General Court, the following number of votes were given in for the several persons hereinafter named, to wit: —

For PETER DALY, of Canton, six hundred thirty-six votes.

For FREDERICK P. DRAKE, of Canton, eight hundred forty-seven votes.

For ROBERT BIRD, of Canton, one vote.

Blanks, ninety-one.

Given under our hands at Canton, this eighteenth day of November, A. D. 1898.

WALTER AMES,
HENRY B. MARTIN,
Town Clerks of Canton and Milton.

SELECTMEN'S REPORT.

The Selectmen, in presenting the sixty-second annual report, wish to express their appreciation to the citizens as well as to the town officers who have so kindly co-operated with us in our endeavor to administer the affairs of the town to the advantage of its citizens. We are sorry to say that there has been some unjust criticism from a few citizens who from personal prejudice against us have endeavored to make our administration an unpleasant one.

We believe you will agree with us that the past year the duties of the board have increased materially over previous years, requiring much of our time and personal attention, and it is gratifying to us to report that the town has been free from lawsuits or large claims for damages.

The increase in the volume of the business of the town continues to add to the duties of this board, and we believe that the successful administration of the affairs of the town depends largely upon the attitude of the citizens toward the Selectmen, and the co-operation of all town officers.

We would recommend a separate Board of Surveyors of Highways, as the duties of this department, which is one of the most important in the town, require more attention than it is possible for the Selectmen to give and not neglect other duties. The management of the Highway Department has been and will continue to be criticised, as it is impossible to comply with the views of every citizen as to the proper class and manner of construction and repairs.

We would call attention to the necessity of procuring gravel pits in the several sections of the town before there is

a material advance in value of land, as the supply now on hand will soon be exhausted. We refer particularly to the Centre, Mattapan, South and West districts. We were obliged to expend from the general highway appropriation last year two thousand dollars for a gravel pit on Squantum street, as the supply in that section had been used. The expense of construction or repairing of streets depends largely upon the distance the material has to be hauled.

We believe it is economy to build macadam roads with a good system of drainage to prevent washouts.

We have complied with the Public Statutes requiring the erection and maintaining of guide boards on our streets, and have had them located at such places as in our opinion they were necessary.

We recommend special appropriations for new permanent construction of streets, and a reduction in the appropriation for general repairs, thereby insuring a certain mileage each year of permanent construction as well as having the repairing properly attended to.

We believe the town should give more attention to the building of permanent sidewalks and doing away with plankwalks, which are a continual source of complaint from accident, and expensive to maintain in proper order.

We recommend the erection of a stable with sheds on the town lot on Randolph avenue for the use of the Highway Department, thereby centralizing the equipment and saving the expense of hiring stables in different sections, as we are now obliged to do.

We would call attention to the report of the Superintendent of Streets, where a detailed statement showing where work has been done and the expense in each section is given.

STREET LIGHTING.

We were obliged to make a new contract for street lighting, as the Milton Light and Power Company refused to renew the contract on rates previously paid by the town. After inquiring in several places we were convinced that the town was getting its lights much lower than other towns. We contracted with the company for lights at an advance of two and one half dollars per light a year, and the result has been that the lights have been more satisfactory, the company having maintained the required candle power, and have kept the lights and brackets in better condition. We would recommend an increase in the number of lights on the streets widened last year, as the present lights do not properly light them.

POLICE.

The town has as efficient a police force as any town in Massachusetts, and credit is due to the department for keeping the town as free from crime as Milton has been, considering our relative location to Boston. We would call attention to the Superintendent's Report, and recommend the erection of proper buildings for station house and stable on town landing.

POOR DEPARTMENT.

The management of the Town Farm continues in charge of Mr. and Mrs. Elias C. Conant, and their administration has been, with few exceptions, satisfactory. We wish to express our appreciation of the able manner in which Mrs. Conant, as matron of the institution, has attended to the wants of the inmates; also for the very neat condition in which the institution has been kept.

We believe the Farm can be made more self-supporting by

clearing more land, thereby affording employment for the male inmates.

We have fitted up a bathroom in the house occupied by the male inmates, and have painted the entire interior of the buildings.

The main house will soon need many repairs, including new doors, windows, and casings, as the present ones are badly worn.

The number of inmates has varied from nine to twelve during the year.

We again call attention to the need of a water supply at the Town Farm.

OUTSIDE POOR.

The expenses of this department continue to increase and it is impossible to estimate the amount needed to maintain the department, as the cases continue to increase that require commitment and support in state institutions, and the numerous demands for aid from other places for non-residents whose legal settlement is Milton, as well as from residents in the town who during the winter are out of employment and cannot provide for their families.

We would recommend an increase in the appropriation for Contingent Fund rather than a material increase annually to the Poor Appropriation.

TOWN HALL.

The Town Hall is very badly in need of repairs, especially the sanitary system, but this board did not think it advisable to make any changes until the Committee on Halls had reported to the town. New quarters should be provided for the town offices, as the present ones are not only inadequate but very unhealthy.

Insurance.

We were obliged to expend in excess of the appropriation in this department, owing to the additions to Belcher School, but did so feeling that the town would approve of our action rather than take chances of meeting with a loss by not being insured.

The contingent fund having been allotted, we could not make good the deficit from that account.

STATE AID.

We have exceeded this appropriation, but as the expenses of this department are controlled by the State Aid Commission, and as the town is reimbursed by the State annually for expense incurred, we see no material difference to the town.

METROPOLITAN PARK COMMISSION.

We have concurred with this board in the taking of a large portion of Hillside street, thereby relieving the town from further expense of caring for same.

We understand that this Commission contemplate making a taking extending from the Salt Marshes through the village, to and across Eliot street to the Boston line, at or near Central avenue.

We recommend a careful consideration of this subject before the agents of the town concur with the Park Commission, although we are confident the interests of the town will be fully looked after by the resident member of the Commission, Mr. Ellerton P. Whitney.

STREET RAILWAYS.

A franchise was granted to and accepted by the Boston, Milton & Brockton Street Railway Company in the reserved space accepted by the town in March, 1898.

The company have complied with the conditions of their grant, and have done all in their power to complete the system. They have erected an office, waiting-room, and car stable on their land on Reedsdale road, and the buildings and other work done by the company have met with our approval. We recommend careful consideration of petitions for admittance of other companies in the town, as the operation of two systems means double fares, and that is what we have guarded against. Let us await the effect of the operation of the system already started before taking up another.

In closing our report we would say that we feel that the affairs entrusted to our care have been administered with fairness and economy, and merit an unprejudiced consideration by the citizens.

Respectfully submitted,

J. WALTER BRADLEE,
A. A. BRACKETT,
WM. H. CHUBBUCK,
Selectmen of Milton.

SELECTMEN'S ESTIMATES OF APPROPRIATIONS REQUIRED FOR THE ENSUING YEAR.

For Schools (including transportation)	$60,000 00
Streets (including watering and specials)	39,955 00
Street lighting	14,000 00
Poor (receipts from farm, etc.)	9,000 00
Police (receipts, etc., including specials)	20,000 00
Soldiers' relief	500 00
Fire	15,000 00
Cemetery	2,000 00
Public Library (including dog tax)	2,100 00
Salaries (including Selectmen's clerk)	6,000 00
Town Hall and lot	1,500 00
Hydrants	7,000 00
Printing	1,300 00
State aid	1,200 00
Miscellaneous	3,000 00
Interest	8,500 00
Post 102, G. A. R.	200 00
Board of Health	1,500 00
Contingent fund	6,000 00
Abatement of taxes	2,000 00

REPORT OF THE ASSESSORS.

The Assessors of the Town of Milton submit this as their annual report for the year 1898.

The Board was organized by the choice of E. D. Wadsworth, chairman, and G. W. Nickerson, clerk.

They recommend the continuation of the appropriation of $425 for clerk hire and renewal of land plans. The Board caused legal notices to be posted, requesting taxpayers to bring in true lists of their polls, real and personal estates, as required by law.

There was an increase of $68,390 in personal estate, and of $565,400 in real estate; the number of polls is the same.

The Assessors renew their request to the residents of the town owning stock in national banks or Massachusetts corporations that they have their residence recorded on the books of these corporations as Milton; otherwise the tax on their stock which is paid by the corporations will be lost to the town.

The Assessors found eighty-five lots of stock owned by residents of Milton credited to Boston which city was credited with the tax on this stock.

In addition to the annual appropriations it will be necessary to raise by taxation this year:

On account of High School loan . . .	$6,500 00
On account of East Milton Playground loan .	2,000 00
On account of Brook Road Playground loan .	1,500 00
On account of Cemetery loan . . .	2,000 00

On account of Sewer loan	$1,000 00
On account of Street Widening loan . .	10,000 00
Total	$23,000 00

Being $13,000 in excess of the amount raised for these purposes in 1898.

E. D. WADSWORTH,
J. FRANK POPE,
GEO. W. NICKERSON,
Assessors.

MILTON, Jan. 1, 1899.

For the financial statements of the Assessors see pages 149, 176.

REPORT OF THE PARK COMMISSIONERS FOR 1898.

The work of the Commission is more readily recorded and more easily understood by being divided under headings to indicate where it was done, than if a chronological account were given.

EAST MILTON PLAYGROUND.

We were fortunate enough to obtain a considerable amount of good loam, by the courtesy of the Highway Department, for the cost of carting it a short haul, at the time work was in progress on Otis street. This was spread on that part of the ground towards Adams street, seeded and rolled, improving the old grade. A line of trees was planted along the edges of the lot so far as there was opportunity, and a group set out on the smaller mound. A few citizens asked and were allowed the use of the playground on certain afternoons in the early summer for bicycle polo. They had the ground rolled at their own expense. In their seasons baseball and football were played, and for these we furnished a back-stop, posts, and ropes, etc.

Fourteen benches were placed with special reference to those who wished to watch the games. Bound posts were set and the fence on the east side repaired, there being used for this the materials from the old school lot fence which the School Committee kindly allowed us to remove in the interest of neatness and appearances. Certain dead and dying trees were cut down and the land generally cleared up.

The Commissioners do not contemplate any particular work here in the coming year, but hope before long to be

able to advantageously dispose of the greater part of the gravel and sand which form the larger mound or hillock with its unsightly slope towards the ball field.

BROOK ROAD PLAYGROUND.

Here, early in the season, the surface was cleared up. A row of trees was planted where the lines were determined, and two groups also. Fourteen benches have been placed. A tile and stone drain has been laid from the mud hole to the brook, but this is not yet finished entirely to our satisfaction, needing more filling and grading. We have had a portion of the field surveyed and staked for a ball ground, but our balance was not sufficient to construct it this year, so that we ask the town for an appropriation to do it the coming year, as will be seen at the end of this report. A fence of some sort should be built along the southeast end of the playground. We propose three or four strands of ribbon wire, with occasional chances for foot passengers to pass through. The frontage on Brook road will need to be put in order after the change by the street widening.

WATERSIDE COMMON.

The main part of the stone wall was taken away and used in building the drain at Brook road playground. This work was delayed at both ends by the rainy autumn. We hope next summer to do some work in the way of reclaiming a part of the wet land along the river, and what is left of the wall would be used in carrying out this plan. A few trees have been blown down at the edge of the wet land, and these we expect to have removed before this report is in print. At the same time the thickets will be cleaned up a little.

PUBLIC SHADE TREES.

A large but sickly white oak on the High School grounds was, with the approval of the School Committee, severely

trimmed back, a treatment which usually renews the vigor of such trees. Other trees on this lot were removed to admit more light.

On the 29th of July we began with two men in Milton village trimming out dead wood and removing any branches which interfered with passengers on either sidewalk or street, and cutting down such dead or dangerous trees as we found. This work was carried on as continuously as weather permitted to the Quincy line, and similar work was done in all streets in East Milton which needed it. Then our men came back to Algerine Corner and trimmed Pleasant street as far as its junction with Edge Hill road, then Centre street nearly to Vose's lane, when the weather grew too cold for working on the trees.

After this the time was devoted to cutting down trees which had been posted according to law. Of this work we accomplished thinning out the trees on the Town Hall lot, the removal of the trees in front of the cemetery to allow a line of fine young maples inside of the wall to develop, removed certain trees on Randolph avenue, and on the 31st of December this work was finished nearly to Milton Village. Soon after work would stop on account of the exhaustion of the appropriation. Some scattered trees not here mentioned we have taken out, and several were cut by abutters at our suggestion.

We feel that had we had a larger appropriation we could have worked both earlier and later to advantage. The coming year, too, we would like to plant out trees in certain places. But in this connection we wish to call attention to the fact that as electric wires for one purpose or another are in almost every street, a street tree has no chance to grow without interfering with or being injured by the wires. We therefore wish, so far as possible, to encourage individuals in planting trees on their own land at regular intervals, and

far enough back from the poles to allow of the proper development of such trees.

APPROPRIATIONS FOR NEXT YEAR.

The books last March showed on the Brook road playground account a deficit of one hundred and sixty-five and 85/100 dollars ($165.85). This was owing to the fact that the sum appropriated by the town for the improvement of this lot, at the same time the purchase money was raised, was absorbed for legal expenses in the defence of a suit for damages, and the award resulting from said suit. This, as we explained in the last annual meeting, was done without consulting us, and the town thought it better to appropriate one thousand dollars ($1,000) for general park department expenses, and leave the deficit for the present.

It now seems to us that this seeming debt should be paid, and that Brook road and vicinity should be furnished as good a ball ground as East Milton.

We therefore recommend the following appropriations for this department: —

General expenses	$50 00
Brook road playground, —	
To erase deficit	165 85
For grading a ball field, fencing, and other work	2,500 00
For care of public shade trees . . .	1,000 00
Total	$3,715 85

J. HENRY BROOKS,
NATHANIEL T. KIDDER,
HORATIO A. LAMB,
Board of Park Commissioners, Town of Milton.

MILTON, DEC. 31, 1898.

For the financial statement of the Park Department see page 145.

REPORT OF THE SEWER COMMISSIONERS OF THE TOWN OF MILTON.

To the Citizens of Milton, Mass.:

The Sewer Commissioners of the town of Milton make the following report of their work for the year 1898:

At the annual meeting of March, 1898, an appropriation of $20,000 was voted for sewerage; with this, pipes were laid through portions of Central avenue, School street, Randolph avenue, Russell street, etc., having their out-fall across Central avenue bridge into the Metropolitan Sewer. (See plan.)

In addition to this, the out-fall of the Adams street sewer, from the railroad bridge to Neponset River, a distance of about 300 feet, was rebuilt, as the grades followed in the original construction were so imperfect that several hundred feet of the sewer were constantly full. Besides this, a connection was made from the Adams street sewer by siphon under the railroad at Lower Mills, and over the river to the Metropolitan Sewer, substantially as planned by the Metropolitan Sewer Commissioners, which connection provided only for dry weather flow, retaining the reconstructed out-fall to the river as a storm overflow. (See plan.)

The cost of doing all this work, and of clearing out the deposits in the Adams street sewer, will be found at the end of the report.

The Board has received, during the year, three petitions for sewerage; one from the householders and land owners on Brook Hill road, which was afterwards withdrawn when the

petitioners learned that at some time in the future a sewer assessment would be levied, as provided by law; another petition signed by people representing the bulk of the real estate on Milton Hill asking for sewerage, some of which is evidently very urgent; and the third from the School Committee, asking for sewer connection for Tucker School.

To furnish relief to Milton Hill it will be necessary to construct the Granite avenue connection with the Metropolitan sewer, and so much of the local low-level trunk sewer as is located on Granite avenue between the bridge over Neponset River and a point four thousand one hundred and sixty feet south from the river, thence across private lands owned by Emerson, Bass, Fenno, and others, twenty-four hundred feet to Squantum street, through the latter and Adams street to Algerine Corners, and from here along Centre street to Unkety Brook, near land of Wigglesworth. In addition to this, that portion of the high-level local trunk sewer will require to be built that will be located over private land between Centre street and Randolph avenue, or Canton avenue, along the line of Unkety Brook.

The laterals that serve this district will be located on Adams and Hutchinson streets, Churchill's lane, Dudley road and Barnard avenue, the last two being private ways. The length of each section of this trunk sewer together with its estimated cost, the length and cost of each lateral and the totals, are tabulated below.

DETAIL SEWER ESTIMATES FOR MILTON HILL.

	Length.	Cost.
Granite Avenue	4,160	$19,275 00
Private Land, Granite Ave. to Squantum . .	2,400	*3,254 90
Squantum street	850	2,274 80
Adams Street, Squantum to Centre . . .	1,100	2,876 78
Centre Street, Adams to Trunk	2,660	9,260 13

*Land damages to be added.

	Length.	Cost.
Private land, Centre to Canton	4,010	*$22,267 03
Randolph Ave., Trunk to School	1,200	1,465 19
Canton Ave., Trunk to School	1,380	1,698 84
Adams Street, Centre to Churchill's Lane	4,000	5,793 48
Churchill's Lane, Trunk to Adams	2,000	2,895 00
Dudley Road, Trunk to Adams	1,000	*1,526 50
Barnard Avenue, Trunk to Adams	1,200	*1,776 00
Hutchinson Street	460	440 44
Adams Street, Hutchinson to Churchill's Lane	1,000	1,395 13
	27,420	$76,199 22
The cost of extending the sewer on Blue Hill Parkway to give service to the Tucker School will be		$1,040 00
School connections		250 00
Total		$1,290 00

The Board respectfully reminds the citizens that it suggested an appropriation for the building of the lower end of the Granite avenue trunk sewer last year as a precautionary measure, on the ground that it would soon be needed and that the supposed character of the foundation for several thousand feet along Granite avenue forbade rapid construction.

After carefully considering the petitions, the Board does not feel that the health conditions in the district mentioned around Milton Hill demand the immediate construction of the entire length of sewer tabulated during the current year, though as the larger portion of the expense will be on the trunk sewer, it would be wise to build all the laterals needed within a reasonable time. Sewerage is undoubtedly needed on portions of Milton Hill and Edge Hill road, and they advise an appropriation of $50,000 for general sewerage purposes.

The accompanying rules and regulations governing house connections, together with explanatory diagrams, have been

* Land damages to be added.

adopted by the Board and have received the approval of the Board of Health. The few house connections that were called for in the autumn of 1898 — five in number — were put in by the agent of the Board, the individual in each case depositing the estimated cost of the work before construction began. This plan (which is the one that has been used with great success in Winchester) has been tried experimentally at Milton and is believed to be not only best and cheapest for the householder but best for the town, as it then knows the work has been done in the wisest way and has a reliable record of the pipes as laid on private estates, which record can be used quickly in case of emergencies, whereas, when connections are put in by individuals, the record of such work is usually either imperfect, or altogether wanting.

ERNEST W. BOWDITCH,

RULES AND REGULATIONS

For the Laying of Private Sewers in the Town of Milton, Mass.

No person other than the Superintendent of Sewers for the Board of Sewer Commissioners, or his employees acting under his direction, or a private sewer layer duly licensed by the Board of Sewer Commissioners, and acting under the direction of said Superintendent, shall construct or repair any private sewer to be connected or already connected with the common sewer.

Said sewer layer, before laying or repairing any such sewer, must first obtain a permit therefor from the Sewer Commissioners, the permit to be returned upon completion of the work indorsed by the private sewer layer. No such permit, however, shall be issued to one who has within a year violated any condition of a previous permit.

The Board of Sewer Commissioners may license such private sewer layers as apply in writing, and are found competent, and who shall execute a bond to the town in the sum of five hundred dollars ($500) with one or more satisfactory sureties, conditioned to faithfully perform the work done under the permits in accordance with the Rules and Regulations adopted by the Board of Sewer Commissioners, and to indemnify and save harmless the town of Milton, its officers and agents, from all accidents, damages, or cost, caused by any negligence in protecting the work, or by any unfaithful or inadequate work in connection with building and repairing such sewers.

Such licenses shall remain in force until January 1st of the next succeeding year, unless sooner revoked.

The business address of all such licensed sewer layers must be registered with, and immediate notice of change therein given to the Board of Sewer Commissioners.

Where the private sewer is to be laid by the Sewer Commmissioners or their agents, a deposit with the town treasurer of the estimated cost will be required before commencing the work, and any excess of the actual cost will be returned to the depositor.

All private sewers shall be of the best quality vitrified earthen, or extra heavy cast iron-soil pipe, of an internal diameter of four

(4) inches. The main private sewer is to be of extra heavy cast-iron where it leaves the cellar, and for a distance of at least four (4) feet outside the cellar wall.

Sewers shall not be used for the drainage of land or cellars, or the disposal of roof or storm water, and no cesspools, vaults, stables, no exhaust from steam engines nor blow-off from steam boilers, shall be connected with the common sewers.

Sewers shall not be used for the discharge of any stall drainage, or any contents of any privy vault, manure pit, or carriage wash, except through an intervening catch-basin, the outlet pipe of which shall be high enough above the bottom to prevent any but liquid contents from passing over into the drain or sewer. A sufficient trap shall be placed in every drain connecting such catch-basin with a sewer.

Vaults or privies shall not be allowed in premises that are accessible to the sewer, without a special permit from the Board of Health.

The Sewer Commissioners will stop and cut off all private sewers through which substances are discharged which are liable to injure, interfere with or obstruct the flow in the common sewers.

No more than one building shall be connected with a common sewer through one private sewer without a special permit from the Board of Sewer Commissioners.

Every private sewer connected with a common sewer shall have an efficient running trap just outside or just inside the cellar wall (outside preferred). If six (6) feet or more outside of wall, it may be earthen, otherwise it shall be of extra heavy cast-iron.

Every private sewer shall be ventilated by an iron pipe of not less than four (4) inches internal diameter, which shall be run entirely outside of the building from below the running trap to a point at least two (2) feet above the roof, or six (6) inches above the ridge, where its end shall be left uncovered.

All the portions of this vent pipe below the ground are to be of extra heavy cast-iron, and that portion above the ground to be of either extra heavy cast-iron or wrought welded iron pipe.

There shall be a fresh air inlet pipe entering the sewer on the house side of the running trap of not less than four (4) inches internal diameter, extending therefrom to the external air, sufficiently remote from all openings into building, and protected from dirt and obstruction.

Provided, however, that when a private sewer, together with all lateral waste pipes and fixtures tributary to it, has been found gas-tight by the authorized agent of the local Board of Health, and its satisfactory condition certified to in writing by him, the running trap and fresh air inlet pipe may be entirely omitted.

Grease traps of forms approved by the Board shall be placed outside of all hotels, eating houses, and such other buildings as the Board may direct, before private sewers are connected with common sewers. Every private sewer shall be laid in conformity to the lines, grades, and directions of the Superintendent or inspector, with tight joints, and the inside left smooth and perfectly clean throughout its entire length.

All excavations shall be made of such widths and depths as will readily admit of properly executed work.

All water and gas pipes, drains and other structures, shall be protected from injury, and all damage caused by the work of a licensed sewer layer, or his employees, shall be repaired and made good at his expense. Proper barriers and danger signals shall be maintained on and about the work and materials at all times. All ends and openings into private sewer pipes must be securely closed against the entrance of any earth or surface water.

All pipe, cement and other material, and all workmanship, shall be of the best quality and subject to the approval of the Superintendent or his inspector. The final approval of the completed work shall only be considered as given when the inspector's report has been approved by the Superintendent.

Private sewers laid previous to the adoption of the Rules and Regulations will be connected with the common sewers or with new work, only when found to be in good condition, with proper and suitable fixtures and arrangements, satisfactory to the Sewer Commissioners or their Superintendent.

No private sewer shall pass under another building, or within four (4) feet of the cellar wall thereof, except by special permit.

All plumbing must have received the approval of the Board of Health before a permit for a private sewer connection will be issued by the Sewer Commissioners.

These Rules and Regulations are subject to such modifications as the Board of Sewer Commissioners may, from time to time, deem advisable.

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

The Trustees have somewhat more than usual to report this year.

Soon after the March meeting a request was made by citizens of the Scott's Woods district for the maintenance of a branch library in that part of the town similar to the one at East Milton.

As the Trustees had no funds at their disposal for such a purpose, they were obliged to refuse this request, but they gave their sanction to the establishment of what is now known as the "Russell Reading Room" by allowing books to be transported to and fro, and given out as at East Milton.

Four hundred and fourteen books were given out here between May 21 and Dec. 31, and several papers and magazines were contributed by neighbors and friends, who have also provided the service, heat, lighting, and care of the rooms.

So far the town has incurred no expense, but the demand for such a branch and reading-room has been so clearly proved that the Trustees now heartily recommend its adoption by the town, and the payment of the small sum which this will necessitate.

Within a few weeks a petition has been received from citizens of the Mattapan district asking that a branch library and reading-room be established there also, and the Trustees hope to comply with this request as soon as the necessary arrangements can be made.

It has not been without consideration that the Trustees

have come to favor the establishment of branches in the different sections of our town, and their purpose is to do the most good possible with the books in their charge. The circulation is, and has always been, smaller than that of other towns in proportion to the number of inhabitants, and the establishment of branches will somewhat improve this condition of affairs.

There are other improvements that will tend to the larger use of books, and the Trustees hope gradually to introduce these so that our library may be as beneficial and popular as those of other towns.

The treatment of a library now, in these days of a superabundant supply of books, necessarily differs greatly from that of a country library in old times.

Library trustees can no longer be considered faithful to their trust if they simply buy such books are as in most demand, and put them on the shelves to be doled out to anyone who asks for them.

They must not only buy the best books, — and to discover what are the best among the overwhelming numbers that are published annually is no light task, — but they must see that they are read and used for the best good of the citizens as a whole; that they are well housed in a fire-proof building in a place the most accessible to the largest number, and open at all seasonable hours; that the catalogue and other appliances are the best and simplest, and in fact that the library is, as it should be, and as it now is in many towns, an educational institution hardly inferior to the public school.

It is with this somewhat modern conception of the function of a library that the Trustees are unanimously and harmoniously working to make many needed improvements in the effectiveness of our library, for which they ask this year a somewhat larger appropriation.

The following statistics may be of interest: —

Number of books added	269	
" " " taken out of the main library		11,809
" " " taken out at East Milton		3,045
" " " sent to public schools		689
" " " taken out at Scott's Woods.		414
Total		15,957

Respectfully submitted,

H. O. APTHORP,
for the Trustees.

REPORT OF TRUSTEES OF MILTON CEMETERY.

In accordance with a vote of the town at the March meeting of 1898, the Trustees have caused a plan of the "Peabody Lot" to be made by Ernest W. Bowditch, connecting the new section with the old; which plan has been reduced by the heliotype process, and is bound up with the town report of the present year.

This plan the Trustees ask the town to accept, if, in their judgment, it meets the case.

The plan is designed to connect the new tract with the old in a natural and pleasant way, and to fix the united whole for future use when there is need of more room. For the present, and perhaps for several years, the section now open and prepared for use will meet all demands.

The year under review has been a busy year in the cemetery.

The first work taken in hand was the repairing of avenues which had become bald and rough from the wear of years.

The surface stones were broken, and the ground made ready for a coating of gravel. Extra men and teams were employed, and three thousand linear feet of driveway were resurfaced with gravel of more or less satisfactory grade; leaving about the same extent of avenue for similar treatment. The work cost a little over five hundred dollars.

Thirty-four lots have been granted during the year. One was sold to a non-resident; one was exchanged for a tomb, and one was exchanged for a lot surrendered.

Thirty-one new lots have been put in order, and seven others have been partly completed.

Foundations have been built for nineteen headstones. Ten monuments and seven markers have been set at heads of graves.

Three men have been almost constantly employed from April 1 to Oct. 1, in the care of lots. The work on avenues, grass, leaves, trees, flowers, and shrubs cannot be indicated.

The expenditures have been heavy, but have been kept well within the income.

The Trustees respectfully request the usual appropriation of two thousand dollars for the year ensuing.

Respectfully submitted,

ALBERT K. TEELE,

for the Trustees.

MAJORITY REPORT OF STREET WIDENING COMMITTEE.

The committee for the widening and construction of certain streets, appointed at the annual March meeting of 1898, of the town of Milton, submits herewith the report of its actions to date : —

Upon first taking up the subject of the work intrusted to it, it appeared clear to the committee that, in order to complete the work within the limit of the appropriation voted by the town for the purpose, the only course for it to follow was to place the entire work in the hands of one man.

The committee was instructed by counsel that under the wording of the votes of the town by which it was appointed and the appropriation made, the work could only be done by contract in such way as would accomplish the results in the most economical manner for the town, and the committee voted therefore that the work should be let in one contract. Pursuant to this decision, proposals were advertised for, and the bid of William H. Mague, of West Newton, Mass., was accepted on May 11, 1898, for the sum of $71,505 ; his figure being the lowest and his references and reputation being satisfactory to the committee.

As work progressed it was found by the Street Railway Company that, by obtaining a location for a second track in White street and Reedsdale road, almost all cars could be arranged to pass on those streets only and the necessity for turnouts or switches at other points obviated. It was evident that this would add materially to the convenience of passengers upon the cars and of citizens using the streets.

As the cost of completing the streets mentioned to the full width of the taking, when added to the amount of the original contract, would leave an ample margin for the completion of the remainder of the construction and yet come well within the limit of the appropriation, the committee voted to authorize the carrying out of this proposition to give room for the additional track. This required a considerable increase in the macadam construction, it being thought best to lay both sides of the streets named with macadam, instead of one side only as originally contemplated. This represented an increase of fifteen per cent in the work called for under the original contract and necessitated a corresponding postponement of the time limit for the completion of the work, estimated at six weeks, or till Jan. 1.

The administration of the fund of $100,000, appropriated by the town and placed in the hands of the committee, has been attended with some doubt in the minds of the committee as to how far, in addition to the actual cost of construction, it was applicable to the payment of the cost of land taken and damages to land and other property of abutters upon the line of the widening.

The carefully considered opinion of counsel confirmed the committee in its judgment that the town intended this fund to be used primarily for payment of construction and after that toward the payment of damages as far as possible.

The necessary uncertainty as to the amount of damages to be occasioned abutters by the execution of a work of this character makes the conclusion of the committee and its counsel the only reasonable interpretation of the intention of the town as indicated by its vote. Acting upon this interpretation, the committee consented to make settlement of the most pressing cases of damage, so long as the balance, which, according to estimates, would remain in its hands after the entire cost of construction had been met, was

assured. After several payments had been made, it became evident that the balance then remaining in the hands of the committee was sufficient only for meeting the cost of the unfinished construction. The committee then determined, again acting upon the advice of its counsel, to make no further payments on damage settlements and to refer all such claims to the town for its action. It was a matter of regret to the committee that this course seemed to discriminate against certain abutters who had received real damage, for which their claims were just and for which they deserved full compensation, but it realized that it had no option in the matter and that the settlement of just claims was merely deferred until action by the town could be obtained thereon.

Owing to new and unexpected legal questions regarding the power of the Metropolitan Park Commission to grant locations for street railways through lands reserved for park purposes and the necessity for joint action between that Board and the County Commissioners, the committee was for some time left in ignorance as to what location for the street railway in Randolph avenue would be granted and what changes would be required.

When the matter was finally passed upon by the Metropolitan Park Commissioners and the widening of Randolph avenue about to begin, the committee came to the conclusion that in view of the location granted it would be in the interest of economy to finish the entire length of that street, so far as it was to be widened, with gravel construction on both sides, instead of putting one side in gravel and one in macadam, as originally planned. The committee, having investigated the character of the travel on this thoroughfare, voted to authorize the change. It was influenced further to take this step by the fact that thereby the entire work of construction could be completed by the end of this season,

provided it should remain open for work until Jan. 1, as would usually be the case, and this in spite of the additional amount of work called for by the completion of White street and the Reedsdale road. The severe weather of the last week in November, however, prevented any further work being done until the spring of 1899, excepting such as crushing stone and preparation of material for completing the work rapidly as soon as the season opens.

The Railway Company has been allowed to enter the streets for the purpose of laying its tracks as soon as each street reached such a state of completion that the two classes of work could be carried on therein without interfering with one another. The contractor has shown a disposition to afford the Railway Company every facility for advancing its work at the earliest possible moment, and the committee wishes to express its satisfaction with the care taken by both the contractor and the Railway Company to cause as little inconvenience as possible to the citizens; it having been shown to the satisfaction of the committee in every case when the streets were seemingly unnecessarily obstructed that the cause was unavoidable.

Though the reason of lack of time for the completion of one side of Randolph Avenue to macadam has been eliminated by the carrying over of this part of the work into the next season, the committee feels that practical economy will be effected and every purpose served by adhering to the plan of laying both sides of this street to gravel.

At the time the further progress of the work was stopped by the severe weather there remained unfinished a portion which it would have taken about two weeks to complete fully. The Railway Company expected to occupy a further time of four weeks before having its tracks laid and its cars running. If, however, work can be resumed by March 1, 1899, as would be the case in an ordinary season, the

SECTION USED ON ROADWIDENING AT MILTON

W. F. BATES,
ENGINEER.

citizens may rely upon having the entire work completed by May 15, 1899.

In conclusion, the committee desires to call the attention of the citizens to the thickness of the broken stone which constitutes the wearing surface of all except gravel-finished roads.

The specifications, written to coincide with the method of construction contemplated in the scheme accepted by the town, call for a total depth of six (6) inches of crushed stone after rolling and flushing. This has been obtained everywhere that stone surfacing has been attempted.

To compare the Milton work with that done elsewhere, attention is called to the accompanying cuts, which show graphically the construction of the Milton roads, together with the usual specification adopted by the Metropolitan Park Board and on the state roads built by the Massachusetts Highway Commission.

For the further information of the citizens there is appended hereto a financial statement, showing the amount and nature of the expenses incurred by the committee in its work to-date and the present condition of the fund intrusted to it.

Respectfully submitted,

NATHANIEL T. KIDDER,
JOHN R. LAWRENCE,
THOMAS K. CUMMINS, JR.,
ERNEST W. BOWDITCH,

A majority of the
Committee on Street Widening
of the Town of Milton.

MILTON, Feb. 2, 1899.

FINANCIAL STATEMENT.

Receipts:—

Town of Milton appropriated for road widening		$100,000 00
County of Norfolk		2,500 00
		$102,500 00

Expenditures:—

Road Construction	$65,578 62	
Settlement of claims*	13,966 46	
Legal advice	200 65	
Miscellaneous	82 65	
		79,828 38
Balance in Treasurer's hands,		$22,671 62
County of Norfolk awarded, but not received		3,500 00
Sales of loam, estimated		1,500 00
		$27,671 62
Reserved from contractor's estimates		7,685 66
Balance of appropriation applicable to road widening, Jan. 1, 1899		$19,985 96

* Represents sum advanced by the committee for settlement of land damages from its fund of $100,000, for which it asks reimbursement from the town at the annual meeting.

SINCE JANUARY 1, 1899.

Expenditures: —

Road Construction	$3,953 33
Settlement of claims*	1,262 00
Legal advice	25 00
Miscellaneous	26 50
	$5,266 83
Balance of appropriation applicable to road widening	$14,719 13
Estimated cost of completing work	$13,550 00

* Represents sum advanced by the committee for settlement of land damages from its fund of $100,000, for which it asks reimbursement from the town at the annual meeting.

MINORITY REPORT OF STREET WIDENING COMMITTEE.

THE MINORITY REPORT OF THE SELECTMEN, IN CONJUNCTION WITH THE COMMITTEE FOR THE WIDENING AND CONSTRUCTION OF CERTAIN STREETS, APPOINTED BY THE MODERATOR AT THE ANNUAL MARCH MEETING OF THE TOWN OF MILTON, 1898.

The committee consisted of Messrs. Ernest W. Bowditch, Thomas K. Cummins, Jr., Nathaniel T. Kidder, John R. Lawrence; the Selectmen, by virtue of their office, becoming members of that committee.

On March 21, 1898, the committee organized, with the choice of J. Walter Bradlee, as chairman, and T. K. Cummins, Jr., as secretary.

Mr. W. F. Bates, at that meeting, was employed as engineer in charge of the proposed street widening, his services to be charged at the rate of sixty cents per hour, and he was also to furnish two parties of surveyors, of three in a party, at the rate of one dollar per hour.

It was ordered at this meeting that Mr. Bates be instructed to complete the specifications for the street widenings and construction, and have printed at once, and it was also voted that Mr. Bates be instructed to advertise that the specifications might be obtained and the plans examined at the Selectmen's office, at the Town Hall, on April 14, 1898, and that bids were to be opened on Saturday, April 30, at twelve o'clock.

It was also voted at this meeting to employ a stenographer

to be present at the meetings of the committee and keep complete records of the same; which records are now in the hands of the secretary.

At the next meeting of the committee, which was held on April 4, Mr. Brackett made inquiry of the chairman as to whether or not Mr. Russell had given him the land damage account, and also made a motion that a certain portion of the work be reserved by the committee, to be performed by the Towns-people.

At this meeting the question was raised by Mr. Bowditch as to the legality of this motion, he asking for a copy of the proceedings of the town in March, stating that it would be a good plan to know the precise wording of the vote before making any reservation.

Mr. Bradlee stated that it was the opinion of the Board of Selectmen that a section of the work should be reserved by the committee to be performed by the Highway Department, and it was also the Selectmen's opinion, based upon the statement made by the Superintendent of the Highway Department, that there were certain sections that could be done as cheaply by the town as by contract, for the reason that the stone-crushing plant and the gravel pit belonging to the town were situated near these localities.

Mr. Bradlee stated that the sections which the Selectmen had in mind to be taken out were Reedsdale road and White street.

At this meeting, Mr. Bowditch stated that they were a special committee given a definite appropriation to do certain work, not in a charitable way, but for the best interests of the town, according to their judgment, and the committee was not there to pass on whether or not certain of the town mechanics should or should not have work, but they were there to pass on things with absolute fairness to all concerned, and to act for the best interests of the town to the

best of their ability; and if any portion of that work was taken out and reserved for the towns-people, or for any individual, and thereby the total cost to the town was more than it need be, the committee was making a breach of trust, and they had no right to do it.

Mr. Bradlee asked Mr. Bowditch if it was his view that the committee should not make any stipulations that the laborers of the town should have a preference.

He also stated that had the people of Milton for one minute considered that the committee would take that view of the matter, the vote would never have been passed.

Mr. Brackett inquired at that meeting if the land damages were to be included in the $100,000.

The chairman stated that he supposed that they were intended to be.

Mr. Brackett then stated that he did not think the committee could act understandingly until they had a list of the land damages.

At the meeting of April 14 the matter in relation to land damages was again brought up by Mr. Brackett.

Mr. Bowditch read at this meeting an opinion from Charles A. Williams, of Brookline, whom he considered to be an eminent counsel on these matters, and it was Mr. Williams' opinion that the land damages should be taken from the $100,000, which was also the opinion of the Selectmen.

On April 30, at twelve o'clock, all bids were opened, and the certified checks accompanying the bids were placed in the hands of the Town Treasurer.

It was voted to award the contract for the street widening to Mr. William Mague, of Newton, he being the lowest bidder; Messrs. Bradlee and Brackett dissenting.

The Selectmen still being of the opinion that the vote of the town appropriating $100,000 for street widening was to include the land damages as well as the construction, and

feeling it was their duty that claims of damages should be settled in order to save the town from lawsuits, employed W. Newton Harlow for that purpose, at a compensation of $15 for every claim settled, and nothing if no settlement was made, and with the understanding that he was to see the abutters and get the best possible offers for settlement for the town.

The matter then came to the full Board of Selectmen, and if they thought the amount a good settlement, Mr. Harlow was told to get a release; if not, the board took up the matter and labored with the abutters until a satisfactory arrangement could be made. Mr. Harlow was employed to lessen the labor of the Selectmen, as their time was too much occupied with other matters of the town.

On October 24th the land damage question was again brought up before the committee by Mr. Brackett, and Mr. Bowditch stated that in his opinion the committee should pay no more land damages until the contract for construction was completed; and it was voted by a majority of the committee that no more land damages be paid.

Since this time the committee have not worked together in a harmonious manner, on account of the differences in opinion as to the matter of land damages, the Selectmen believing that the agreements which they had made should be lived up to.

Mr. Mitchell's claim for $550 was voted to be paid by a majority of the committee, Messrs. Bowditch and Cummins objecting thereto.

The committee paid this damage in order to avoid a lawsuit, which was inevitable in this case.

The Selectmen also disagreed as to the matter of changing construction on Randolph avenue, from one side macadam to both sides gravel, in order that the work should be kept within the appropriation and be finished in the autumn,

they believing that the committee had no right to make such a change.

The Selectmen could not agree with the committee as a whole in the matter of money expended for the building of certain stone walls, etc., which they did not think necessary. For instance, they did not think it necessary or advisable to build such walls at so large an expense, the Selectmen having in mind particularly only balance walls, and not walls which were costing in the neighborhood of from $1.50 to $2.00 per running foot; Mr. Bowditch claiming, as an engineer, that these walls should be made to protect land abutters.

The cash expended by the Selectmen in settling land damages amounts to $5,907.95.

The Selectmen would state that in their opinion there is not money enough to complete the widening of the streets, and that $15,228.46 should be appropriated to pay for the construction, and whatever land damages remain unpaid.

It is the opinion of the Selectmen that these damages should be paid immediately to save the town from lawsuits.

We, the Selectmen, regret that we are obliged to tender a minority report, but owing to the wide differences of opinion on the method of construction, etc., between the Selectmen and committee appointed by the town, we consider it justice to ourselves that all citizens should know the stand we have taken on these matters.

Respectfully submitted,

J. WALTER BRADLEE,
A. A. BRACKETT,
W. H. CHUBBUCK,
Minority of Street Widening Committee.

REPORT OF THE SUPERINTENDENT OF STREETS.

To the Honorable Board of Selectmen:

GENTLEMEN: Accompanying my report I submit a table showing the amount of work done during the year, where it was of such a nature as to be considered a new work. There has been a decided increase of the amount of macadam construction, as will be seen in the table.

Any extended remarks as to work done is unnecessary, as the financial statement connected will show where the appropriation was expended.

PERMITS TO OPEN STREETS.

I would recommend that the town take some action regarding the opening of streets for the introduction of gas, water, and sewer pipes. Under present conditions streets are opened at all times of the year, and in many cases the back filling is done in such a manner as to leave the street absolutely dangerous, where the subsoil is of such a nature as it is here in Milton. No permits should be granted for opening streets from Nov. 1 to March 1, and all back filling should be subject to inspection, under the direction of surveyors of highways.

STABLE FOR HORSES.

During the past year the department has paid for rent for stabling horses $222.79, and not having the accommodation required for the storage of its tools and wagons, the horses have been kept in three different places, and tools and

wagons have been stored in five places. Now, then, it seems to me that with the introduction of electric roads, bringing all parts of the town within easy communication, it would be a matter of economy to erect a stable for horses, and sheds for the storage of wagons and tools on lot where stone crusher and roller-house stand on Randolph avenue. $2,000 would be a sufficient amount to build all that is required, thereby bringing the department all together and adding to the efficiency of the same.

STEAM ROLLER.

The road roller which was purchased in 1892 is in need of extensive repairs, and it will be necessary to place it in machine shop immediately. I have received estimates from machinists, and their figures run from $500 to $750 for placing it in good condition.

STONE CRUSHER.

The number of tons of stone crushed was 3,360, together with 75 tons carried over from last year, and 175 tons bought from J. A. Whittemore Sons, making a total of 3,610 tons of stone used, an increase of 831 tons over last year. Last year the crusher ran 556 hours to crush 2,779 tons. This year the run was 527 1/2 hours, and output was 3,360 tons. The cost of coal per ton this year was 3.2 cents; the output per hour has been increased to 6.394 tons.

Owing to the increased mileage of macadam roads, and the need of keeping them in repair, I would advise the purchase of a small Gates crusher to be worked in conjunction with the one now used, and not giving a sufficient amount of stone through the one-inch mesh. The one recommended is of such build as to furnish all that would be required from the tailings of the Farrel crusher.

Again I would call attention to the matter of an elevator

and bins for storage. During the past season an account has been kept of cost of loading, and it has run from eight and one-third cents per ton to fourteen and one-half cents per ton.

SIDEWALKS.

To a stranger entering this town, the first thing which he remarks as wanting is good sidewalks. There seems to be a lack of interest in the matter with some, but if the citizens would but stop to think, I think it would be remedied. Take the Mattapan district, for instance, most of whose people are obliged on their way to and from business to walk in the middle of the road or on narrow plank walks, whose years of usefulness are about over and need replacing. The Central avenue district is in about the same condition minus the old plank walks. It seems that an appropriation should be made to put in walks of a permanent nature, thereby adding to the comfort of the citizens and the looks of the streets.

GRAVEL PIT.

It was necessary to purchase a supply of gravel during the year at East Milton. In the centre of the town it will be required this year. It is to be hoped that an appropriation will be made to cover the expense, and we will not be obliged to take it from the general appropriation as we did this year.

VALLEY ROAD, OAK ROAD, ROCK VIEW ROAD, AND MAPLE STREET EXTENSION.

Work was begun and carried as far as the appropriation would allow; seven (7) feet was allowed in each sidewalk, leaving twenty-six (26) feet for carriages. The subgrade is all finished with the exception of about one hundred (100) feet on Maple street extension, and on Valley road from Oak road to Central avenue, that part being occupied by

stone crushers used in connection with the widening of streets. It will take three thousand dollars ($3,000) to finish these streets in thorough manner. For its financial statement I refer to Auditor's Report.

OTIS STREET.

The work on this street as with the above streets was carried to the extent of the appropriation. The subgrade is all finished, but owing to the springy nature of the soil it is not in safe condition and should be finished this year. It will require fifteen hundred dollars ($1500) to complete this street. See Auditor's Report for financial statement.

POND STREET.

This street, for which the sum of nine hundred dollars ($900) was appropriated, was finished under that amount, as will be seen in Auditor's Report. Seven feet was allowed for gravel sidewalks and twenty-six feet to carriages. A coat of gravel ten (10) inches in depth was placed for wearing surface, and street is in such condition as to stand for ten years without extensive repairs.

GENERAL CONDITION OF STREETS.

The general condition of the streets in town, with the exception of those in which the sewer was placed this year, are good, with few exceptions, as Randolph avenue from Centre street to Reedsdale road, and Brush Hill road from Canton avenue to "Paul's Bridge."

Respectfully submitted,

RICHARD A. CLINK.

For financial statement of Street Department see page 109.

ENGINEERS' REPORT.

To the Honorable Board of Selectmen:

GENTLEMEN,— The Board of Engineers herewith present their annual report.

The fire loss for the year has been considerable, and there have been more working fires than ever before. We regret to say that a large part of the loss was due to fires of incendiary origin.

This increase of incendiary fires is to be greatly deplored, especially as our own town has been unusually free from this sort of thing for several years past.

The loss of livestock was especially large, five horses, one bull, twenty-two cows, twenty-eight fancy pigeons were burned to death.

We feel we cannot too often call the attention of our citizens to the necessity of knowing where the nearest fire alarm box is to their property, who holds the box keys, and how to give an alarm. Also, to persons having telephones the benefit of having a printed card, giving the necessary information to be telephoned to the Central Fire Station in case of fire, tacked up beside their telephone, as an alarm can be given just as well from the Central Station as from a street box, and often much time is saved thereby. Anyone can have these cards by simply asking for them.

The several special appropriations made for this department at the last annual meeting have been expended as directed, and will be spoken of later.

In the month of September a grant of two hundred and

fifty dollars ($250) was made to this department by the Warrant Committee from the contingent fund, to buy wire and other electric material to be used in rebuilding several fire and police telegraph lines made necessary by the new boulevard work and not contemplated in the beginning of the year. Even this sum was not enough to pay for the material used, and the balance was made up from the general appropriation for the department. The work is not nearly completed, and a special appropriation of $750 will be necessary to finish it.

There is one special appropriation we have asked for many times, but for one reason or another it never has been made, — that is, to have the bell on the Town Hall moved to an open tower on the Central Station.

We trust that at the next annual meeting this will be done, as its necessity cannot be questioned.

We feel that the time has come for us to urge upon the town the propriety of taking preliminary steps towards providing better fire protection for the western section of the town.

Hose 4 company, without permanent horses or men, but intended to protect that section, does not and cannot give the fire protection which the valuable property on Brush Hill and Blue Hill is entitled to, and the distance from the Central Station is so great, and the hills so steep, that it is a long time after an alarm before any assistance from this quarter can be expected. We recommend that land be bought at or near the junction of Blue Hill avenue, Atherton street, and Bradlee road, on which in the near future to build a fire house in which suitable apparatus can be located that will give the western section real fire protection.

Twice during the year, by the storms of Jan. 31 and Nov. 26, the fire alarm system has been rendered wholly useless, in one case for twenty-four hours and in the

other for two days. This is a very serious matter, but the only way to prevent it is to put the wires underground.

The question of having all wires, at least on the principal streets of the town, put underground, is in our opinion one that should receive the attention its importance deserves.

We have responded to five Boston alarms, and Boston has responded to three Milton alarms.

The District State Marshal has investigated nine fires.

EXECUTIVE OFFICERS

The executive officers are the same as last year, a chief and three district chiefs.

PERMANENT FORCE.

There have been no changes in the permanent force during the year. It consists of the superintendent of wires, engineer of steamer, and six drivers of apparatus.

CALL FORCE.

The call force is the same as last year, forty men.

Engine and Hose 1	10
Hose 2	6
Hose 3	6
Hose 4	5
Ladder 1	9
Chemical 1	4

The excellent fire duty done by both the permanent and call force during the year in heat and cold, and under most tedious and discouraging conditions, cannot be too highly commended.

APPARATUS AND EQUIPMENT.

With the money especially appropriated for the purpose, the steamer was given a thorough overhauling, new running gear, and new coat of paint and varnish. It is now in thorough order.

Small necessary repairs have been made on such other pieces of apparatus as required them, and all miscellaneous equipments have been kept in good repair or renewed.

We would like to buy two Eastman deluge sets, four Eastman play pipes and one Baker cellar pipe, and one jumping net. The first named tools are especially useful at large fires or when short handed.

The cellar pipe is useful to put out fires in cellars or blind attics where the smoke is so thick it is impossible for men to enter. The jumping net is prescribed by law.

HORSES.

There are fourteen horses owned by the department. Twelve are in good condition, two in poor condition. Three new horses have been bought during the year. One horse has been killed. Two of the old horses, after having been used through this winter, will be disposed of.

HOSE.

In the spring one thousand feet of new hose was bought, giving us 6,500 feet 2½-inch rubber-lined cotton hose ; but the hose during the year has been subjected to such severe use that at least one thousand feet must be wholly discarded, so that we really have no more hose for use than a year ago.

We have 4,500 feet in good order, 1,000 feet in poor order, and 1,000 feet unfit for use. One thousand feet of new hose should be bought.

BUILDINGS.

With the appropriation made for the purpose, the repairs and changes to the stable of the Central Station were made. The stable was enlarged, two more stalls added, better ventilation obtained, and an entire new system of drainage put in. No manure is now kept under the house. The changes are most satisfactory, and the health of both men and horses is greatly benefited.

A new floor was laid in the main apparatus room, and woodwork both inside and out painted or shellacked and varnished.

Hose 2 house was painted. All the department buildings are in good repair.

FIRE ALARM.

The fire-alarm system is in perfect order and has been throughout the year, except in the two cases previously mentioned.

All alarms have been given correctly.

There have been thirty-three bell alarms and thirty-eight still alarms.

Five new alarm boxes have been installed as follows: —

Box No. 12, Thacher street, near residence of H. C. Shields.

Box No. 38, Highland street, near residence of N. H. Spafford.

Box No. 23, Brush Hill road and Bradlee road.

Box No. 521, Mattapan street, near ice houses.

Box No. 542, Canton avenue, near residence of A. L. Rotch.

All boxes on circuit Nos. 1 and 2, covering East Milton, Milton Hill, the village, Central avenue, and Mattapan, are now of the non-interference type. The whole town is now well covered with fire alarm boxes.

The Board of Engineers make the following recommendations: —

That there be appropriated for the maintenance and current expenses of the department for the ensuing year	$15,000 00
That by special appropriation there be appropriated	
For new hose	$550 00
For special tools	650 00
For rebuilding and changing fire and police alarm lines	750 00
For removing bell from Town Hall to Central Station	900 00

Respectfully submitted,

GEORGE F. CHOATE.

REPORT OF SUPT. OF POLICE.

MILTON, Dec. 31, 1898.

To the Honorable Board of Selectmen:

GENTLEMEN, — I have the honor to submit for your consideration the annual report of the police department for the year ending Dec. 31, 1898.

ORGANIZATION.

Superintendent, — Maurice Pierce.
Deputy Supt., — Timothy McDermott.

PATROLMEN.

James Wigley.	Geo. C. Partelow.
Geo. B. Bradlee.	Edward M. Corner.
Fred. M. Farrington.	Henry A. Paterson.
Thomas H. Welch.	Henry C. Shields.
Lucius E. Damon.	John F. O'Connell.

William J. Stephenson.

Driver of Patrol Wagon, — John H. Tucker.
Keeper of Lock-up, — Edwin A. Houghton.

ARRESTS FOR THE YEAR 1898.

Number of persons arrested	125
Males	122
Females	3
Residents	60
Non-residents	65

The offences for which arrests have been made are as follows: —

Assault and battery	8
Assault on a police officer	2
Assault with intent to rape	1
Breaking and entering	6
Disturbing the peace	7
Dipsomania	1
Drunkenness	40
Gaming on the Lord's day	6
Indecent exposure of person	2
Illegal sale of liquor	2
Keeping unlicensed dog	1
Larceny from building	7
Larceny	6
Malicious mischief	13
Malicious mischief to real estate	4
Obtaining money by false pretence	1
Obtaining property by false pretence	1
Overdriving a horse	1
Placing obstructions on electric railroad	4
Riding bicycle on the sidewalk	3
Stubborn children	2
Tramps	1
Trespass	5
Vagrants	2
Total	125

MISCELLANEOUS BUSINESS.

Accidents reported, and assistance rendered	4
Buildings found open and secured.	30
Cases investigated	170

Dangerous places on streets and sidewalks discovered, and lanterns furnished at night	28
Dead bodies found	2
Defective lamps and wires	51
Defective streets and sidewalks	51
Defective water pipes	1
Dogs killed	9
Electric lights reported out	1,209
Injured and sick persons assisted	12
Insane cared for	1
Lost children restored	3
Stray teams put up	4
Stray animals found	7
Street obstructions removed	15
Residences reported temporarily vacant, and special police protection required	37
Officers detailed by request of citizens	23
Officers detailed for public occasions	9
Value of property reported stolen	$440.00
Value of property recovered	$378.00

LODGERS.

Number of persons applying for lodgings at this station in the past year	1,561
American born	754
Foreign born	807

POLICE SIGNAL SYSTEM.

The system has given satisfactory service. I would recommend three additional boxes, one in the Mattapan district, one in the Central district, and one on Pleasant street near Edgehill road.

STATION HOUSE AND STABLE.

They are emphatically a "back number," and I would in the strongest manner urge on your Honorable Board the necessity of taking a vigorous and decided stand in favor of a new station house and stable, until the town shall realize this need, and furnish us the accommodations to which we are entitled.

RECOMMENDATIONS.

I would respectfully recommend the appointment of three officers to the department for day duty; one at Lower Mills, one at East Milton, and one in Mattapan district. With the advent of electric cars their service will be much needed, and it will be impossible to protect the town without day officers.

MORALS OF THE TOWN AND THE FORCE.

The conduct and discipline of the force has been good the past year.

I feel that many of the citizens do not appreciate the work performed by the members of this department. It is not and should not be considered as a source of revenue, but rather one of expense, and the results judged by the good order and the freedom from crime. They do not realize what is required of an officer and what is accomplished. An officer is expected to patrol his route by night, to be found at his post of duty at all times, — in the severest cold, in storm, or in the heat of summer; and attend to many duties the public know nothing of. From no other department is so much expected and so much encouragement needed from the law-abiding citizens.

We have very few serious crimes.

A few cases of breaking and entering. The perpetrators have in nearly every case been captured.

The amount of property stolen is small and a greater part recovered.

This year brings the department to its highest in the number of arrests; but when we consider the size of our town, and surroundings, the hundreds of men employed here on the street widening, we wonder that we have been as fortunate as we have.

In conclusion I desire to thank your Honorable Board for courtesies received, and also for substantial support in the enforcement of the law. I also desire to thank each member of the department for their faithful and efficient service.

My sincere thanks are also due to all citizens who have in any way assisted me in the discharge of my duty.

Respectfully submitted,

MAURICE PIERCE,
Superintendent of Police.

For the financial statement of the Police Department see page 118.

REPORT OF INSPECTOR OF BUILDINGS.

To the Honorable Board of Selectmen:

GENTLEMEN, — I herewith present my report for the term of office from Oct. 28, 1898, to Dec. 31, 1898.

The building laws have met with good approval.

There have been twenty-two applications filed and twenty-two permits granted.

The valuation of work to be done, according to the applications filed up to Dec. 31, 1898, is $87,100.

Respectfully submitted,

G. E. BURT,
Inspector of Buildings.

For financial statement of Inspector of Buildings see page 152.

REPORT OF THE INSPECTOR OF PLUMBING.

JAN. 1, 1899.

To the Honorable Board of Selectmen:

I herewith submit my report from the time of my appointment, Oct. 31, 1898, to the year ending Dec. 31, 1898.

The plumbing laws seem to meet with the hearty approval of the citizens of the town, and have been complied with in every respect.

In accordance with the "Acts of 1894," there has been organized a "Board of Examiners of Plumbers."

Their duty is to examine all plumbers who do not at the present time or who may in the future apply for a license to work at the business of plumbing, as to their practical knowledge of the same. This Board will begin examinations in January, 1899.

There have been twenty-four (24) applications to perform plumbing, and twenty-four (24) permits have been issued. The approximate valuation of plumbing, as specified in these applications, is $4,920.

Respectfully submitted,

TIMOTHY G. RYAN,
Inspector of Plumbing.

Approved, G. E. BURT, *Inspector of Buildings.*

STREET DEPARTMENT.

Pay Roll		$20,513 54
Paid Benj. F. Anthony & Son, repairs on steam roller and crusher	$129 13	
John Atkins, paving blocks, $14.75; use of forge, $10,	24 75	
American Tool and Machine Company, pulley	5 85	
George F. Blake Manufacturing Company, pump and repairs	61 95	
Jos. Breck & Sons, tools	14 40	
Chas. Bowman, stone	3 83	
C. F. Bailey, oil	3 40	
W. C. Bailey, painting and supplies	18 34	
Elbridge Blackman, blacksmith work	93 33	
Michael Blake, paving blocks	58 82	
Clark, Brown & Company, grease and oils	60 00

THE following is a list of remittances which have been sent to the Town Treasurer by order of the Sewer Commissioners for sewer connections.

The Town Treasurer has deposited these amounts in the Blue Hill bank, but has made no disposition of them at present, as he understands that the payments were made with the understanding that when the work is completed a part may be returned.

When the correct assessment is determined they will be passed to the credit of the sewer department.

Full-face figures indicate an overdraft.

Heavy ruling indicates accounts whose balances on March 1, 1898, revert to the Treasury. Balances of all other accounts are carried forward until such time as the object for which they were appropriated is accomplished.

* Through an error in our statement of 1897, this balance was not carried forward from March, 1897, to December, 1897. As the object had not been accomplished we make the correction in this year's statement.

† Contingent Fund appropriations. ‡ Fines. § Dog Tax. ‖ Reverting. ¶ Carried forward

FUNDS HELD BY THE TOWN.

PERPETUAL CARE FUND.

Amount held Dec. 31, 1897	$13,075 00
Receipts	200 00
	$13,275 00

This fund is held by the Town Treasurer, in accordance with Chap. 82, Sects. 15–17 of the Public Statutes, interest at the rate of six per cent per annum being allowed on it and paid over to the Trustees of the Cemetery.

JASON REED CEMETERY FUND.

Amount held Dec. 31, 1897	$2,626 67

The interest on this at four per cent per annum is paid over to the Trustees of the Cemetery.

JASON REED PUBLIC PARK FUND.

Amount held Dec. 31, 1897	$3,016 52
Four per cent interest from Dec. 31, 1897, to Dec. 31, 1898	120 66
	$3,137 18
Less expenses for year 1898	7 00
	$3,130 18

EXTRACT FROM THE WILL OF ELIZABETH T. L. REED.

"All the rest, residue and remainder of all the moneys remaining in the hands of said Executor or Administrator, I direct shall be divided into three equal parts.

. . . . . .

"The second of said parts shall be paid to and deposited with the Treasurer for the time being of said Town of Milton, the same to be received, held and invested by said Town as a fund to be known as the 'Jason Reed Fund,' and the income thereof shall be applied to the preservation, care, improvement or embellishment of the said Milton Cemetery.

"And the third of said parts shall be paid to said Town of Milton, and the same shall be applied by the proper legal authorities to or towards laying out, improvement, or ornamentation of a Public Park or Parks in said town, in such manner as said authorities may deem advisable.

"I make the foregoing bequests in favor of First Parish, the Cemetery and the Parks in said Milton, both on account of the deep intererest taken by my father, the late Jason Reed, deceased, in the affairs of said Town, and of my own profound desire for the welfare of said Town and of the citizens thereof."

Annual Town Report

OF

MILTON

MASS.

FOR THE YEAR ENDING

December 31, 1899.

COMPILED BY

THE AUDITORS.

BOSTON:
ALFRED MUDGE & SON, PRINTERS,
1900.

STATEMENT OF THE AUDITORS.

To the Citizens of Milton:

In accordance with the Public Statutes and the By-Laws of the town, we have examined the books and accounts of all officers and committees intrusted with the expenditure of money, and all original bills and vouchers on which moneys have been paid from the treasury for the year ending Dec. 31, 1899, and have found the same correct.

Respectfully submitted,

W. NEWTON HARLOW,
C. RUSSELL HURD,
Auditors.

MILTON, MASS., Dec. 30, 1899.

Tax Rate . . . . . $11 per $1,000.

*Day Men.

BY-LAWS OF THE TOWN OF MILTON.

ADOPTED BY THE TOWN AND APPROVED BY THE SUPERIOR COURT, JULY 7, 1896.

MEETINGS.

I. The warrants for all town meetings shall be directed to either of the constables of the town, and the meetings shall be notified by posting attested copies of the warrant in each of the post-offices of the town fourteen days at least before the day of such meeting, and by leaving printed copies thereof at the dwelling-houses in the town.

II. The annual town meeting for the election of town officers shall be held upon the first Monday of March in each year, the polls to be open at nine o'clock in the forenoon, and after the election of a moderator they shall remain open until two o'clock in the afternoon for the election of such other town officers as are required by law to be elected by ballot, all said officers to be voted for on one ballot. At any time after 2 P. M. a vote may be passed to close the polls in not less than ten minutes.

"After the closing of the polls and the election of other town officers, the remaining articles in the warrant shall be considered.

"After the declaration of the vote for town officers, thirteen legal voters shall be appointed by the moderator, who, together with the chairman of the selectmen, chairman of the school committee, and the officer in charge of the repairs on highways (if there be such officer), shall constitute a committee to be known as the Warrant Committee. And the persons so appointed shall continue members of said committee until the town meeting of the ensuing year.

"Said Warrant Committee shall, within two weeks after their appointment, meet, at the call of the member thereof first named, for organization by the choice of a chairman and secretary. And they shall meet thereafter from time to time as they may deem advisable.

"It shall be the duty of said committee to consider those affairs and interests of the town the subject-matter of which is generally included in the warrants for its town meetings; and the officers of the town shall, upon their request, furnish them with facts, figures, and any other information pertaining to their several departments, provided, however, that any such information may be withheld when, in the opinion of the officer or board of officers so requested, the communication thereof might injuriously affect the interests of the town or its citizens.

"Said Warrant Committee shall consider the various articles in the warrants for all the town meetings held during the period for which they were appointed, including the various articles in the warrant for the annual town meeting next after their appointment. And they shall report in print before all such town meetings their estimates and recommendations for the action of the town."

III. All motions shall, if required by the moderator, be reduced to writing before being submitted to the meeting.

IV. Upon taking the question, if the decision of the moderator is doubted, or a division of the house called for, the moderator shall request the voters to be seated, and shall appoint tellers; the question shall then be distinctly stated, and those in the affirmative and negative, respectively, shall be requested to rise and stand in their places until they are counted by the tellers, who shall carefully count each side and make report thereof to the moderator.

V. No vote shall be reconsidered at the same meeting, except upon a motion made within one hour of the adoption of such vote, or unless ordered by two thirds of the voters present and voting thereon.

VI. When a question is under debate, no motion shall be received but to adjourn the meeting, to lie on the table, to commit or amend, to refer or to postpone to a day certain, or to postpone indefinitely; which several motions shall have precedence in the order in which they are arranged.

FINANCIAL REGULATIONS.

VII. The financial year shall begin with the first day of March.

VIII. The selectmen shall annually, not less than seven days before the annual meeting, cause to be printed and distributed among the tax-payers of the town a detailed report of all moneys received into and paid out of the town treasury during the preceding calendar year, with such information and recommendations as they may deem proper, and with detailed estimates of the amounts of money that will be required for the ensuing financial year. With this report shall be printed the records of all meetings of the town held since the last annual report was printed, the reports of the auditors, of the road commissioners, and of the engineers of the fire department, the collector's account of receipts, payments, and abatements, a list of all taxes assessed, an abstract of the births, marriages, and deaths, to be furnished by the town clerk, a statement concerning the condition and funds of the public library, and of the cemetery, to be furnished by the trustees respectively, and a statement of all other funds belonging to the town or held for the benefit of its inhabitants.

IX. The assessment of taxes shall be completed, and the tax list and warrant shall be delivered to the collector on or before the first day of August in each year.

X. Poll taxes shall be paid on demand, and all other taxes assessed in each year shall be paid on or before the first day of December in the same year; and on all such taxes as shall not be paid on or before said first day of December, interest shall be charged at a rate to be fixed annually by the town, pursuant to section 67 of chapter 11 of the Public Statutes; and the collector shall use all the means and processes provided by law for the collection of all taxes remaining unpaid after the first day of December in the same year.

XI. No officer of the town shall be interested directly or indirectly in any contract, bargain, sale, agreement, or employment in which the town is interested, in that department of the affairs of the town to which the duties of his office pertain; and any and all such contracts, bargains, sales, agreements, or employments shall be utterly void as to the town; but nothing in this section shall apply to the payment to any officer of his salary, or for his services for performing the duties of his office, or to any contract or agreement for such payment.

XII. The selectmen, being duly authorized by vote of the town under the limitations imposed by statute, may authorize the treasurer to borrow money temporarily in anticipation of the collection of taxes, or for loans authorized by vote of the town, and to give promissory notes therefor in behalf of the town, the same to be signed by the treasurer and countersigned by a majority of the selectmen.

XIII. No money granted for special purposes shall be applied to any other use unless by a vote of the town, and all unexpended balance of such grants shall be stated in the selectmen's annual report.

XIV. No orders shall be drawn by any officer or committee on town treasurer for any purpose not authorized by a vote of the town or by the laws of the Commonwealth, nor shall any such draft be made for any amount which overdraws the appropriation against which it is made, whether general or special; and the town treasurer shall keep all necessary accounts in respect to the several separate appropriations and the drafts made against each, and shall not honor any draft which does not state specifically the appropriation against which it is drawn, or which overdraws such appropriation, whether general or special.

To provide for possible necessary expenditures of departments in excess of appropriations made, the town shall annually appropriate a certain sum of money to be known as the "Contingent Fund." No direct drafts against this fund shall be made, but transfers from the fund may be made by vote of the warrant committee to the account of any other appropriation on application of any officer or department. Certified copy of such vote shall be sent to the town treasurer, and the treasurer shall transfer accordingly, and honor drafts against the funds so transferred as if originally appropriated.

XV. No grant of a sum of money exceeding five hundred dollars shall be made until the subject-matter thereof has been considered and the estimates reported to the town either by the selectmen, the school committee, the road commissioners, or other town officers, or by some committee chosen for that purpose in pursuance of a vote of the town.

XVI. The selectmen shall have full authority, as agents of the town, to institute and prosecute suits in the name of the town, and to appear and defend suits brought against it, unless it is otherwise specially ordered by a vote of the town.

XVII. Whenever it shall be necessary to execute any deed conveying land or other instrument required to carry into effect any vote of the town, the same shall be executed by the selectmen, or a majority thereof, in behalf of the town, unless the town shall otherwise vote in any special case.

XVIII. Two auditors shall be chosen by ballot at the annual meeting, who shall have the power and perform the duties prescribed by statute.

POLICE REGULATIONS.

XIX. Whoever, without a written license from the road commissioners or other officers having charge of the repairs of the highways shall suffer any wood or coal, or any cart or wagon, to remain within the limits of a highway or street, or upon a sidewalk of a highway or street, so as in any manner to obstruct the travel thereon, or for more than twenty-four hours, shall forfeit and pay a sum not less than one dollar and not more than ten dollars for each offence; and he shall be subject to a like penalty if he neglects to remove the same within the time ordered by such officers, who may revoke such license at any time.

XX. Whoever, without the written permission of the road commissioners or other town officers having charge of the repairs of the highway, shall place or cause to be placed in any highway or street, or upon any sidewalk thereof, any ashes, dirt, rubbish or filth of any kind, or any animal or vegetable substance, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXI. Whoevever shall suffer any horse, or grazing beast, or swine, to run at large in the town, or to feed in any highway or street, either with or without a

keeper, and whoever shall drive any such animal upon and over any sidewalk, or suffer any horse to remain hitched across any sidewalk, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXII. Whoever shall coast upon a sled or sleds on Adams Street, between Churchill's Lane and the line of the city of Boston, or the sidewalks thereof between those points, or any other highway, street, or public place upon which the selectmen shall by public notice prohibit such coasting; and whoever shall drive, wheel, or draw any coach, cart, wheelbarrow, hand-cart, velocipede, bicycle, or any carriage of burden or pleasure (except children's carriages drawn by hand), or coast upon a sled, or sleds, upon any sidewalk in the town, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXIII. Whoever shall behave in any indecent or disorderly manner, or use profane, indecent, or insulting language in any public place, or on any sidewalk or street in the town, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, and any person or persons who shall play or perform on any musical instruments, or sing, or parade, or march or congregate in any of the streets or public places of the town, except in connection with a funeral, without a written permit from the selectmen, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

XXIV. Three or more persons shall not continue to stand or remain in a group, or near to each other, on any sidewalk or in any public place in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on; and any person who shall violate the provisions of this By-Law shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXV. Whoever shall be or remain on any doorstep, portico, or other projection from any house or building, or upon any wall or fence on or near any highway, street, or public place, after being requested by the occupant of the premises or by any constable or police officer to remove therefrom, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXVI. Whoever shall affix, by paste or otherwise, any handbill, placard, notice, or advertisement, or paint, draw, or stamp the same, or any marks or figures, to or upon any sign-boards of the town, or to or upon any building, fence, wall, tree, or structure in the town, without the permission of the owner of such building, fence, wall, tree, or structure, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence; and if such handbill, placard, notice, advertisement, mark, or figure be obscene or indecent, the penalty shall not be less than twenty dollars for each offence.

XXVII. Whoever shall undertake to enter a particular drain into a common sewer, or make or cause to be made an excavation in a highway or street for any purpose without a permit in writing from the road commissioners (or from the selectmen, if there be no road commissioners), or without complying with the conditions and directions of such permit, shall forfeit and pay a sum not exceeding ten dollars.

XXVIII. Whoever shall lead or cause to be led into any highway, street, or running stream in the town any drain or pipe from any house or other building whereby filthy water or other unclean matter may be emptied into or upon any such highway, street, or running stream; and whoever shall throw, lead, or discharge, or cause to be thrown, led, or discharged, into any highway, street, or running stream in the town any noxious or poisonous matter or substance, or any matter or substance which shall cause an offensive smell or odor, or which

shall be destructive of, or injurious to, animal life, shall forfeit and pay a sum not less than five dollars nor more than twenty dollars.

XXIX. The selectmen may grant licenses to use a certain portion of any public way as a carriage-stand, under such terms and conditions as they may prescribe; and no person shall use any portion of any public way in this town as a carriage-stand for the solicitation of passengers for hire without a license from the selectmen; but licenses shall not be confined to one person to the exclusion of other applicants, and shall be granted so as to allow competition and promote public convenience.

TRUANCY.

XXX. The town of Milton hereby avails itself of the several provisions of the statutes of this Commonwealth, now in force, relating to habitual truants and absentees from school, and in pursuance of authority conferred thereby adopts the following By-Laws: —

XXXI. All children between the ages of seven and fifteen years, residing in said town, and who may be found wandering about in the streets or public places of said town, having no lawful occupation or business, not attending school, and growing up in ignorance, shall be committed to the Plummer Farm School, Salem, or the County Truant School at Walpole, for confinement, instruction, and discipline.

XXXII. Two or more truant officers shall be appointed annually, whose duty it shall be to inquire into all the violations of the truant laws and of the law relating to compulsory education, and to do all the acts required of them by the laws of the Commonwealth.

XXXIII. It shall be the duty of every truant officer, previous to making any complaint under these laws, to notify the truant or absentee from school, also his parent or guardian, of the offence committed, and of the penalty therefor, and if the truant officer can obtain satisfactory pledges for the restraint and reformation of the child, he may at his discretion forbear to prosecute, so long as such pledges are faithfully kept.

XXXIV. It shall be the duty of the school committee, the teachers of the public schools, and the citizens generally, to aid the truant officers as far as possible in the discharge of their duties.

XXXV. It shall be the duty of the truant officers to keep a full record of all their official acts, and make an annual report thereof to the school committee, who shall publish the same with their own report.

XXXVI. Nothing in these By-Laws shall be construed as to alter or impair the obligation and duty of teachers to enforce punctuality and regularity of attendance, and to preserve good order and discipline.

THE CEMETERY.

XXXVII. The sole care, superintendence, and management of the cemetery shall be intrusted to a board of five trustees to serve for the period of five years; one of said board shall retire and a new member be elected at each annual March meeting of the town.

XXXVIII. Citizens of Milton who are heads of families shall be entitled to lots in the cemetery free of expense, allowing one lot to a family, subject to the regulations adopted by the town.

XXXIX. The trustees, when in their judgment it shall be deemed advisable, may sell lots at the rate of fifty cents a square foot, but only to those who are in some way connected with Milton people.

XL. The proprietor of each lot shall caused to be erected, at his own expense, corner-stones, and a step with his name and the number of the lot inscribed on the same, and shall cause his lot to be kept in proper order; and if the proprietor shall omit, for thirty days after notice, to erect such landmarks and to keep the lot in order, the trustees shall have authority to have the same done at the expense of said proprietor.

XLI. No lot shall be used for any other purpose than as a place of burial for the dead; and no proprietor shall suffer the remains of any person to be deposited within the bounds of his lot for hire; nor shall any proprietor sell or transfer the whole or any part of his lot without the consent of the trustees.

XLII. If, in the judgment of the trustees, any trees or shrubs in any lot shall become detrimental to the ajacent lots or avenues, or dangerous or inconvenient, it shall be the duty of said trustees for the time being to enter upon said lot, and to remove said trees and shrubs, or such parts thereof as are thus detrimental, dangerous, or inconvenient.

XLIII. There shall be no structure nor inscription placed in, upon, nor around any lot which the trustees for the time being shall deem offensive or improper; and it shall be the duty of the trustees to remove all offensive or improper objects.

XLIV. The trustees for the time being shall have authority to purchase any tomb in Milton cemetery offered for sale, paying for the same such sums as, in their judgment, may be fair and reasonable. They shall also be authorized to give for any tomb a lot, to be constructed on the land occupied by the tomb, or to be selected at some other point in the cemetery grounds, as they may agree with the proprietor of the same. Should there be no living proprietors or legal representatives of a tomb, the trustees may take possession of such tomb, carefully remove its contents to a lot prepared for the purpose, and erect over the remains a suitable memorial stone.

XLV. The following regulations shall be posted within the cemetery: —

1. All persons are prohibited from driving on the borders.
2. No horse can be left upon the grounds without a keeper, unless fastened to posts provided for the purpose.
3. All persons are prohibited from discharging firearms within the grounds of the cemetery, except in case of military funerals.
4. All persons are prohibited from writing upon or otherwise defacing any sign, monument, fence, or other structure.
5. All persons are prohibited from gathering flowers, or breaking any tree, plant, or shrub.
6. Dogs are not allowed within the cemetery grounds.

BY-LAWS IN RELATION TO THE CONSTRUCTION AND INSPECTION OF BUILDINGS AND PLUMBING, FOR THE TOWN OF MILTON.

Section 1. There shall be in the town of Milton a Department for the Inspection of Buildings, which shall be furnished with office room and such supplies for the transaction of business as the selectmen may provide.

Sect. 2. The officer of said department shall be called the "Inspector of Buildings." He shall be appointed by the selectmen, and shall hold office until his successor is appointed. His compensation shall be regulated by the selectmen.

Sect. 3. The selectmen may, after a hearing, of which public notice shall be

given at least seven days prior to said hearing, by posting a written notice in each post-office in the town and on the public bulletin boards in the town and by publishing the same in a newspaper published in the town, or, if there be no such newspaper, in one published in the city of Boston, pass a vote establishing building limits within the town, and, upon the acceptance of said vote by the inhabitants of the town, at a town meeting called as provided by law, said building limits shall be established.

Said building limits may comprise the whole or any specified part or parts of the territory of the town.

SECT. 4. The inspector of buildings may, so far as is necessary for the performance of his duties, enter any building or premises within said town at any reasonable hour.

SECT. 5. The inspector of buildings shall keep a record of all business of the department, and shall submit to the selectmen such reports of the same as they may require.

SECT. 6. No work shall be done upon any wall, building or other structure within said "building limits," except such repairs as may be necessary for the preservation of said wall, building or other structure, nor shall any wall, building or other structure be erected, raised, moved, enlarged, altered, built upon or torn down, within said "building limits," without a permit from the inspector of buildings.

SECT. 7. Applications for such permits shall be in writing and shall be directed to the inspector of buildings, who shall keep a record of the same.

SECT. 8. The plans and specifications of every building, or other structure, and of every alteration in a building or other structure, for which permit is required, shall be deposited temporaily with the inspector of buildings. A copy of the plans and specifications of every public building and of every alteration in a public building shall be deposited permanently. All plans and specifications deposited under this section shall be dated and signed by the inspector immediately upon being received by him.

Every permit issued by the inspector of buildings shall state the purpose for which the building is to be used, and the conditions, if any, under which it is granted. All permits issued shall be recorded in detail, and said records shall be preserved.

SECT. 9. The inspector of buildings shall not give a permit for the erection of any building or other structure, until he has inspected the plans and specifications thereof, and ascertained that the building, as planned, has sufficient strength, proper means of ingress and egress, and that it conforms with the laws; or for the alteration of any building or other structure, already erected, until he has examined said building or other structure and the plans and specifications of said alteration, and has satisfied himself that said building, as altered, will have sufficient strength, proper means of ingress and egress, and that it will conform to the laws.

The inspector of buildings shall, as often as is practicable, inspect all work for which a permit has been issued, and shall see that it is being carried on according to the requirements of law.

SECT. 10. No permit for the erection of any building to be used as a factory, or in which steam or other motive power is to be used, or to be used for the manufacturing of chemicals, or for the alteration, or the moving of any building for any of such uses, shall be granted until after public hearing before the selectmen, and no building for any of such purposes shall be erected, altered or moved without such permit.

Notice of such hearing shall be given, at least seven days prior to said hearing, by posting a written notice in each post-office in the town, and on the public bulletin boards in the town, and by mailing a copy of the same to the owners of premises within 500 feet of the proposed location of the building, addressed to their last known residence or place of business, and by publishing the same in a newspaper published in the town, or, if there be no such paper, in one published in the city of Boston.

No boiler to furnish steam for motive power shall be set, or erected, except on permit from the inspector of buildings, issued after hearing as provided above.

This section (ten) shall apply to the whole town, irrespective of the building limits prescribed by this by-law.

Sect. 11. Permits for the erection, alteration, or moving of any building, to be used as a stable, in which more than four horses are to be kept, shall only be granted after hearing as provided in the preceding section. Notice of such hearing shall be sent to the Board of Health, in addition to the notices required in said preceding section.

Sect. 12. The selectmen may, in their discretion, after a hearing as provided in the two previous sections, instruct the inspector of buildings not to issue the permit asked for at such hearing, and, in such case, no such permit shall issue.

Sect. 13. In case the owner of any building or other structure, or an applicant for a permit to erect or alter a building or other structure, is dissatisfied with any order or decision of the inspector of buildings, the matter shall be referred to the selectmen, who, within one week from said reference, shall hear the parties, and, after taking such expert opinion as may seem to the selectmen to be necessary, give their decision. In case the decision of the inspector of buildings be affirmed, the expense of any expert opinion, taken by the selectmen, shall be paid to the town by the owner or applicant, on demand; otherwise such expense shall be borne by the town.

Sect. 14. Every portion of every structure in process of construction, alteration, repair or removal, and every neighboring structure or portion thereof, affected by such process or by any excavation, shall be properly supported during such process or excavation.

Sect. 15. All chimneys shall be built of brick or stone and shall be lined with flue linings or shall have an eight-inch brick wall from the bottom of the first floor to the top of the attic floor, and shall be topped at least three feet above the highest point of contact with the roof. No nails shall be driven into any chimney at any point; and no woodwork shall be within one inch of any chimney.

All wooden buildings of two or more stories shall have sills, posts, and girts, mortised, tenoned and pinned together, and shall be properly braced. End girts shall be placed in all wooden buildings. Sills shall not be less than 6 x 6 inches, and posts and girts not less than 4 x 6 inches.

All woodwork including lath and plaster within two feet of any heating apparatus or smoke-pipe, and all woodwork including lath and plaster coming in contact with any pipes from said apparatus, shall be properly protected by a metal or stone shield.

No wooden building shall be built within two feet of the line of an adjoining lot unless a brick wall at least eight inches in thickness shall be substituted for the wooden wall next said line.

Where dwellings of more than two stories are to be occupied by more than two families there must be at least two flights of stairs from ground floor to top

floor, or one flight from ground floor to top floor inside, together with an approved fire escape outside.

Every owner, either by himself or through his builder or carpenter, shall, before making any substantial alterations in a building, or erecting any new building, within the town of Milton, whether inside the building limits or not, file at the office of said inspector, upon blanks furnished by the town for that purpose, notice of all such work or alterations as come under the provisions of this section; and no such work shall be done in any building in said town except subject to the approval of said inspector.

This section (fifteen) shall apply to the whole town irrespective of the building limits prescribed by this by-law.

SECT. 16. The selectmen may, after a hearing, of which public notice shall be given at least seven days prior to said hearing by posting a written notice in each post-office in the town, and on the public bulletin boards in the town, and by publishing the same in a newspaper published in the town, or, if there be no such newspaper, in one published in the city of Boston, and by giving personal notice to the owners of land to be affected, by delivering to such owners a copy of said notice or by depositing the same in the post-office, post-paid, and addressed to them at their last known residence or place of business, pass a vote establishing a building grade or building grades for any part or parts of the town, and on the acceptance of such vote by the inhabitants of the town at a town meeting, called as provided by law, said building grade or building grades shall be established.

Said building grade or building grades may be at different heights above the level of the sea, in different parts of the town, as the nature of the ground may require.

No cellar floor of any building erected on land for which a building grade has been established, nor any part, except the foundation, of a building which has no cellar, shall be below said grade.

SECT. 17. The inspector of buildings in the name of the town may take such measures as the public safety requires, to carry this by-law and every section thereof into effect, and any expense incurred in so doing may be recovered by the town from the owner of the defective property.

SECT. 18. There shall be a fee of $2.00 for any permit required by this by-law. Fees shall be collected by the inspector before issuing permit, and be by him paid into the town treasury, and shall be applied toward defraying the cost of the department for the inspection of buildings.

SECT. 19. Any person, firm or corporation guilty of a breach of any regulation contained in this by-law shall be liable to a fine of not less than $20.00 nor more than $100.00 for each such offence. Such fines to be paid into the town treasury.

BY-LAW IN RELATION TO PLUMBING.

SECTION 1. No person shall carry on the business of plumbing unless he is a plumber and shall have first registered his name and place of business in the office of the inspector of buildings; and notice of any change in the place of business of a registered plumber shall be immediately given to said inspector.

Only plumber allowed to perform plumbing.

SECT. 2. Every plumber, before doing any work in a building, shall, except in the repair of leaks, file at the office of the said inspector, upon blanks furnished for that purpose, a notice of the

Permit necessary before work is performed.

work to be performed; and no such work shall be done in any building without the approval of such inspector.

Plumbing not to be concealed from view until approved.

SECT. 3. No drainage, sewerage or plumbing shall be covered or concealed in any way until after it has been examined and approved by the inspector. Notice must be sent to the inspector when the work is sufficiently advanced for such inspection, and it shall be the duty of such inspector, within two working days after receiving such notice, to inspect the same; and in case any change therein shall be found necessary, he shall direct in writing the change to be made.

Plumbing to be tested by water pressure before using.

SECT. 4. Plumbing work shall not be used until the same is tested in the presence of the inspector, with the water test, if possible, or with the peppermint or other reliable test, and approved by him in writing; and such written approval shall be sent to the owner and the plumber.

Buildings to be separately and independently connected with sewer.

SECT. 5. The sewerage of every house or building shall be separately and independently connected with the street sewer, where one is provided, or with a proper cesspool; and where there is no sewer in the street, and it is necessary to construct a private sewer to connect with one on an adjacent street, such plans shall be used as may be approved by this department.

Sizes and kinds of pipe to be used.

SECT. 6. The soil-pipe of every building shall be of sufficient size to receive, and allow freely to pass, all that enters or should enter the same. All soil-pipes shall be of extra heavy cast-iron pipe, all drain and connecting ventilating pipes within the building shall be of sufficient size and made of cast-iron, with leaded and calked joints, but wrought-iron pipe may be used for vent purposes; said pipes shall be properly secured to walls and ceiling with wrought-iron hangers. The soil-pipe of any building shall not be less than 4 in., vents not less than $1\frac{1}{2}$ in., and iron waste not less than 2 in. in diameter.

Running trap, where placed.

SECT. 7. Every drain-pipe shall be supplied with a suitable trap placed with an accessible clean-out at the point where it leaves the building, and shall have a proper pitch, and extend 5 ft. outside of cellar wall; said clean-out may be placed outside of cellar wall if made accessible. The pipe from this point to sewer or cesspool must have tight joints. All drain or ventilation pipes must extend undiminished in size at least 2 ft. above the highest window on roof, and all changes in direction of soil-pipes must be made by Y branches.

All changes in direction of soil-pipe must be by Y branches.

Joints in iron pipe, how made.

SECT. 8. All joints in iron drain-pipes, soil or vent pipes, must be made by thoroughly calking the same with molten lead. Joints of lead pipes with iron pipes must be made by soldering the same into brass ferrules, and calking the ferrules to iron pipes or screwing them to wrought-iron pipes.

Every fixture shall have a separate trap.

SECT. 9. Every water-closet, urinal, sink, basin, bath-tub, slop-hopper, and every tray or set of trays, shall be furnished with a separate trap, placed as near the fixture as possible, and in no case shall the waste from the bath-tub or other fixture be connected with a water-closet trap. Traps should be protected from siphonage or air pressure by special pipes, of a size not less than the waste-pipe, placed outside or below the trap; lead pipes may

be used only where they are exposed to view. Air-pipes for water-closets shall not be less than 2-in. bore. Two or more air-pipes may be connected together, or with a soil-pipe, but in such connection with soil-pipe it must be above the upper fixture of the building. Traps to have air-pipes.

SECT. 10. No drip or overflow pipes from safes under water-closets, urinals or other fixtures, no overflow from tanks or cisterns, no waste-pipe from a refrigerator or other receptacle in which food is stored, no rain-water conductors and no steam exhaust or steam from waste-pipes shall be connected with any soil-pipe. No openings will be allowed in the sewer-pipe of any building for the purpose of receiving the surface drainage of the cellar. No brick, sheet-metal, earthenware or chimney flue shall be used as a sewer-ventilator, or to ventilate any trap, drain, soil or waste-pipe; and no water-closet shall be flushed from a tank that is used for any other purpose. What fixtures shall not be connected with soil-pipe. No flue, etc., to be used for a ventilator.

SECT. 11. Every water-closet or line of water-closets on the same floor, inside of the building proper, shall be supplied with water from a tank, and shall have a flushing pipe of not less than 1¼ in. in diameter inside. Closet supply-pipe.

SECT. 12. Cesspools shall have a top of stone or arched brick with iron rim and cover, and may be laid up dry, unless otherwise ordered by the board of health. Construction cesspool.

SECT. 13. Every privy vault shall be at least 4 ft. distant from the line of any adjoining lot, unless by the consent of the owner of such lot; and every vault shall be so constructed as to be conveniently approached, opened and cleaned, and shall be made tight, so that the contents thereof cannot escape therefrom, if in the opinion of the inspector the surroundings require it. Vaults, how constructed.

SECT. 14. No water-closet shall be enclosed with any upright woodwork. Woodwork around water-closets.

SECT. 15. In the case of any dispute or difference in opinion between the inspector and any person, firm or corporation, the same shall be submitted by either party to the local board of health, who shall pass upon the same, and whose finding therein, after hearing, shall be final and conclusive upon all parties. No member of said board shall sit in a case in which he is interested, and in case of such disqualification, or of the necessary absence of any member, the two other members shall appoint a substitute. If two or more members are so disqualified or absent, the inspector shall appoint one substitute, the appellant another, and the two so appointed shall, if necessary, appoint a third. Appeals.

SECT. 16. The inspector of buildings in the name of the town may take such measures as the public safety requires, to carry this by-law and every section thereof into effect, and any expense incurred in so doing may be recovered by the town from the owner of the defective property.

SECT. 17. In case of violation of any one or all of the foregoing sections, by any person or persons, firm or corporation, by or upon whom any duty is herein prescribed or imposed, he or they or it so offending shall be liable to a fine not exceeding the sum of one hundred dollars, to be paid into the town treasury. Penalty.

GENERAL PROVISIONS.

XLVI. The penalty of any violation of these By-Laws shall, when not otherwise provided for, be the forfeiture and payment for each offence of a fine not exceeding twenty dollars.

XLVII. Prosecutions for the breach of the provisions of the By-Laws of the town shall be commenced within six months from such breach.

XLVIII. These By-Laws may be amended at any annual town meeting, an article having been inserted for the purpose in the warrant for such meeting, and upon the approval of these By-Laws all By-Laws heretofore passed shall be annulled and repealed.

MILTON TOWN RECORDS

FOR THE MUNICIPAL YEAR 1899-1900.

APPOINTMENT OF ASSISTANT TOWN CLERK.

MILTON, March 6, 1899.

At 8 o'clock A. M. this day, Waldo Allen Martin was appointed by me Assistant Town Clerk for the Town of Milton, unto whom I administered the oath as in such cases made and provided.

Attest: HENRY B. MARTIN, *Town Clerk.*

MARCH MEETING.

WARRANT.

Commonwealth of Massachusetts.

NORFOLK, ss. *To either of the Constables of the Town of Milton,* GREETING:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the Inhabitants of the Town of Milton, qualified to vote in Town affairs, to meet at the Town Hall, in said Milton, on Monday, the sixth day of March next, at 9 o'clock A. M., then and there to act upon the following articles, to wit: —

ARTICLE 1. To choose a Moderator to preside at said meeting.

ART. 2. To choose all such Town officers as are required by law to be chosen by ballot; also on the same ballot to vote "Yes" or "No" in answer to the question, "Shall

license be granted for the sale of intoxicating liquors in this Town?" The polls will be opened at nine o'clock in the forenoon, and may be closed as early as two o'clock in the afternoon.

ART. 3. To choose all such Town officers as are not required by law to be chosen by ballot.

ART. 4. To see what sum of money the Town will appropriate for the support of schools the ensuing year.

ART. 5. To see what sum of money the Town will appropriate for streets the ensuing year.

ART. 6. To see what sum of money the Town will appropriate for the improvement of the cemetery the ensuing year.

ART. 7. To see what sum of money the Town will appropriate for the Public Library the ensuing year.

ART. 8. To see what sum of money the Town will appropriate for the support of the poor the ensuing year.

ART. 9. To see what sum of money the Town will appropriate for soldiers' relief the ensuing year.

ART. 10. To see what sum of money the Town will appropriate for the Fire Department the ensuing year.

ART. 11. To see what sum of money the Town will appropriate for the Police Department the ensuing year.

ART. 12. To see what sum of money the Town will appropriate for street lighting the ensuing year.

ART. 13. To see what sum of money the Town will appropriate for salaries of Town officers the ensuing year.

ART. 14. To see what sum of money the Town will appropriate for Town Hall and lot the ensuing year.

ART. 15. To see what sum of money the Town will appropriate for State Aid the ensuing year.

ART. 16. To see what sum of money the Town will appropriate for printing the ensuing year.

ART. 17. To see what sum of money the Town will appropriate for miscellaneous expenses the ensuing year.

ART. 18. To see what sum of money the Town will appropriate for the Health Department the ensuing year.

ART. 19. To see if the Town will accept the list of jurors as prepared by the Selectmen.

ART. 20. To authorize the Collector of Taxes to use all means of collecting the taxes which a Town Treasurer, when appointed Collector, may use.

ART. 21. To fix the rate of interest on taxes unpaid after a time fixed by the Town.

ART. 22. To see if the Town will vote to appropriate the sum of two hundred dollars ($200) to be expended by Huntington Frothingham Wolcott Post 102, G. A. R., on Memorial Day.

ART. 23. To see what sum of money the Town will appropriate for insurance on the Town buildings the ensuing year.

ART. 24. To see what sum of money the Town will appropriate for hydrant rental the ensuing year.

ART. 25. To see what sum of money the Town will appropriate for transportation of scholars the ensuing year.

ART. 26. To see what action the Town will take in regard to borrowing money.

ART. 27. To see what sum of money the Town will appropriate to be used by the Fire Department for the following purposes: —

a. For the purchase of new hose.

b. For the purchase of special tools.

c. For rebuilding and changing fire and police electric lines.

d. For removing bell from Town Hall to Central Fire Station.

ART. 28. To see if the Town will appropriate the sum of fifty dollars ($50) for the general use of the Board of Park Commissioners for the ensuing year.

ART. 29. To see what sum of money the Town will appropriate for the use of the Park Commissioners to be expended in the care of shade trees in public places the ensuing year.

ART. 30. To see if the Town will vote to appropriate twenty-two thousand five hundred dollars ($22,500) for the enlargement of the Tucker School-house at Mattapan.

ART. 31. To see if the Town will vote to change the name of Pond Street, in the Mattapan district, to Austin Street.

ART. 32. To see if the Town will vote to instruct the School Committee to charge tuition for those inmates of the Leopold Morse Home, on Mattapan Street, who attend the public schools, in accordance with the Public Statutes of Massachusetts, relating to Public Instruction, Chapter 496, Section 8.

ART. 33. To see if the Town will vote to appropriate the sum of three thousand dollars ($3,000) for the completion of Maple Street, Oak Road, and Rock View Road, and Valley Road.

ART. 34. To see if the Town will vote to appropriate the sum of four hundred and twenty-five dollars ($425) for plans and clerk hire for the Board of Assessors.

ART. 35. To see if the Town will vote to appropriate the sum of seven hundred dollars ($700) to construct a gravel sidewalk on the northeast side of Randolph Avenue, from the corner of Hutchinson Street, south, for a distance of about nine hundred and twenty-five feet, to a point opposite Russell Street.

ART. 36. To see if the Town will vote to build a sewer

commencing at Central Avenue and extending through Eliot Street to Valley Road, also from Eliot Street to Maple Street extension, by the way of Oak Road, and farther if necessary, and appropriate money for the same.

ART. 37. To see if the Town will vote to have printed the list of the births, marriages, and deaths in the Town from its incorporation to the year 1843, and appropriate money for the same.

ART. 38. To see if the Town will vote to place three electric lights on Capen Street, and appropriate money for the same.

ART. 39. To see if the Town will vote to locate five electric lights on Churchill Lane, and appropriate the sum of one hundred and twelve dollars and fifty cents ($112.50) for maintaining the same.

ART. 40. To see if the Town will vote to appropriate the sum of thirty-eight dollars and fifty cents ($38.50) to reimburse David A. Johnson for assistance rendered John Nelson from March 1 to June 15, 1894.

ART. 41. To see if the Town will vote to appropriate eleven hundred and fifteen dollars ($1,115) for resurfacing School Street.

ART. 42. To see if the Town will vote to appropriate five thousand dollars ($5,000) for street watering.

ART. 43. To see if the Town will vote to appropriate four thousand nine hundred and five dollars ($4,905) for resurfacing Canton Avenue, between Atherton Street and "Mingo Hill."

ART. 44. To see if the Town will vote to appropriate two thousand four hundred dollars ($2,400) for resurfacing Adams Street between Dudley Road and Brook at land of Fenno.

Art. 45. To see if the Town will vote to adopt the recommendations of the committee appointed for that purpose, and vote to amend the By-Laws of the Town, by striking out in the second line of Article 2 thereof, the word "nine," and inserting in place the word "seven"; and by striking out in the fourth line thereof the word "two" and inserting in place the word "four"; and by striking out in the sixth line thereof the word "two" and inserting in place the word "four"; and by striking out in the eighth and ninth lines thereof the words "and the election of other Town officers the remaining articles in the warrant shall be considered," and inserting in place the words "and the declaration of the votes for the Town officers, the meeting shall be adjourned fourteen days to the third Monday of March, at seven o'clock in the evening, when the election of other Town officers and the remaining articles of the warrant shall be acted upon"; so that Article 2 shall read as follows: —

"Article 2. The annual Town meeting for the election of Town officers shall be held upon the first Monday of March in each year, the polls to be open at seven o'clock in the forenoon, and after the election of a moderator they shall remain open until four o'clock in the afternoon for the election of such other Town officers as are required by law to be elected by ballot, all of said officers to be voted for on one ballot. At any time after 4 P. M. a vote may be passed to close the polls in not less than ten minutes. After the closing of the polls and the declarations of the votes for Town officers the meeting shall be adjourned fourteen days to the third Monday in March, at seven o'clock in the evening, when the election of other Town officers and the remaining articles of the Warrant shall be acted upon."

Art. 46. To see if the Town will vote to authorize the Selectmen to sell the Town Pound at public auction or private sale and establish a new one at the Town Farm.

Art. 47. To see if the Town will vote to build a board

walk on Central Avenue from Central Avenue railroad station to the junction of Central Avenue and Brook Road, and appropriate four hundred dollars ($400) for the same.

Art. 48. To see if the Town will vote to authorize the Selectmen and Town Treasurer to re-lease the Town landing to the several tenants for a term not exceeding ten years.

Art. 49. To see if the Town will place two electric lights on Oak Road, also two on Maple Street, and appropriate money for the same.

Art. 50. To see if the Town will vote to appropriate the sum of five thousand dollars ($5,000) towards the reconstruction of Granite Avenue, by a committee of three citizens to be appointed by the moderator. The work to be done in conjunction with the State, County, or other cities and towns interested.

Art. 51. To see if the Town will vote to appropriate the sum of two thousand six hundred and sixty-five dollars and eighty-five cents ($2,665.85) for the use of the Board of Park Commissioners at Brook Road play ground, of which one hundred and sixty-five dollars and eighty-five cents ($165.85) shall be used to make good the deficit which appears in that account, and two thousand five hundred dollars ($2,500) for the laying out of a ball ground and other improvements.

Art. 52. To see if the Town will vote to appropriate the sum of one thousand dollars ($1,000) to be expended by the Park Commissioners for setting out and caring for shade trees in public places the ensuing year.

Art. 53. To see if the Town will vote to appropriate the sum of fifteen thousand two hundred and twenty-eight dollars and forty-six cents ($15,228.46) to reimburse the street widening committee appointed at the last March meeting for

a like amount expended by them for payment of land damages and expenses incident thereto.

ART. 54. To see if the Town will appropriate and raise, by borrowing or otherwise, the sum of fifty thousand dollars ($50,000), to be expended by the Board of Sewer Commissioners towards the laying out, construction, and maintenance of the system of sewerage adopted by said board for the whole of the territory of said Town by a vote of said board, and passed Jan. 20, 1898.

ART. 55. To see if the Town will vote to request the street widening committee to construct the westerly side of Randolph Avenue of macadam instead of gravel, between Tucker Hill and Quincy line.

ART. 56. To see if the Town will vote to erect one electric light on Clapp Street, between Central Avenue and Michael McDermott's estate, and appropriate money for the same.

ART. 57. To see if the town will vote to appropriate twenty-five hundred dollars ($2,500) for the payment of three day patrolmen for the ensuing year.

ART. 58. To see if the Town will vote to appropriate the sum of eight hundred dollars ($800) to be expended for plans for street widenings, to be recorded at Norfolk County Registry of Deeds.

ART. 59. To see what sum of money the Town will appropriate for defraying the expenses of the Department of Inspectors of Building and Plumbing.

ART. 60. To see if the Town will vote to appropriate the sum of twelve thousand dollars ($12,000) for payment of land damages on the streets, avenues, and roads, widened by vote of the Town, March 7, 1898.

And you are directed to warn said inhabitants, qualified as aforesaid, to meet at the time and place and for the pur-

pose herein mentioned, by posting attested copies of this warrant in each of the post-offices of said Town, fourteen days at least before said meeting, and leaving printed copies hereof at the dwelling houses in said Town.

Hereof fail not, and make due return of this warrant, with your doings hereon, to the Town Clerk, at the time and place of said meeting.

Given under our hands at Milton this tenth day of February, eighteen hundred and ninety-nine.

J. WALTER BRADLEE,
A. A. BRACKETT,
WM. H. CHUBBUCK,
Selectmen of Milton.

Commonwealth of Massachusetts.

NORFOLK, ss. MILTON, March 4, 1899.

ART. 26.

Voted, To consider this article in conjunction with Article 30.

ART. 27.

Voted, To appropriate the following sums of money to be used by the Fire Department for the purposes specified: $550 for the purchase of new hose; $650 for the purchase of special tools; $750 for rebuilding and changing fire and police electric lines; $900 for removing bell from Town Hall to central fire station.

ART. 28.

Voted, To appropriate the sum of $50 for the general use of the Board of Park Commissioners for the ensuing year.

ART. 29.

Voted, To substitute Art. 52.

ART. 30.

Voted, To appropriate the sum of $22,500, for the enlargement of the Tucker School-house at Mattapan, and that J. Frank Pope and Joseph E. Hall be a committee to act with the School Committee, as a building committee in the matter.

Voted, That the sum of $22,500 be, and it hereby is, appropriated for the purpose of enlarging the Tucker School-house at Mattapan.

The above was passed by a more than two-thirds vote of those present and voting.

Voted, That the sum of $20,000 of the sum of $22,500, appropriated at this meeting to be expended in enlarging the Tucker School-house at Mattapan, be raised by borrowing; and that the Town Treasurer be and is hereby authorized and directed to issue the negotiable notes, bonds, or scrip of the Town, in the aggregate principal sum of $20,000, in denomination of $1,000 each, bearing date the first day of July, 1899, payable to the bearer at the Shoe and Leather National Bank, in the City of Boston, as follows:—

Two thousand dollars on the first day of July in each of the years 1900 to 1909 inclusive, so that the said loan shall all be paid and retired in ten years from said July 1, 1899.

The said notes, bonds, or scrip shall bear interest at a rate not to exceed four per centum per annum, payable at said bank semi-annually on the first days of January and July in each year to the registered holder thereof, or the bearer of the interest coupons to be annexed to the bonds upon presentation and surrender thereof as they severally become due.

The said notes, bonds, or scrip shall be denominated "Milton School Loan of 1899," and each and every one of said notes, bonds, or scrip shall bear such title on its face, shall be signed by the Treasurer, countersigned by the Selectmen or

a majority thereof, shall have the seal of the town attached, and shall be in such form and contain such recital or certificate as the Treasurer shall determine, and the execution thereof by the Treasurer shall be deemed a sufficient determination of such form.

If coupons are annexed they shall bear the fac-simile signature of the Treasurer.

The said notes, bonds, or scrip shall be sold and delivered by the Treasurer, with the approval of the Selectmen, at public or private sale, and the proceeds of the sale thereof shall be expended for the purposes aforesaid.

The above was pssed by a more than two-thirds vote of those present and voting.

Voted, That the Town Treasurer be authorized with the sanction and approval of the Selectmen to borrow such sums of money as may be necessary for Town use, in anticipation of the taxes for the year 1899, and that all sums so borrowed be made specifically payable from the taxes of the present year, 1899.

ART. 31.

Voted, To change the name of Pond Street in the Mattapan District to Austin Street.

ART. 32.

Voted, To indefinitely postpone.

ART. 33. See Article 5.

ART. 34.

Voted, To appropriate the sum of $400 for plans and clerk hire for the Board of Assessors.

ART. 35. See Article 5.

ART. 36.

Voted, To indefinitely postpone.

ART. 37.

Voted, That the Town have printed the list of the Births, Marriages, and Deaths in the Town from its incorporation to the year 1843, and that the sum of $500 be appropriated for the purpose; the matter to be in charge of a committee of three to be appointed by the Moderator.

Committee appointed: Horace E. Ware, Edmund J. Carpenter, Henry B. Martin.

ART. 38.

Voted, To place two electric lights on Capen Street, and appropriate the sum of $45 for maintaining the same.

ART. 39.

Voted, To place five electric lights on Churchill's Lane, and appropriate the sum of $112.50 for maintaining the same.

ART. 40.

Voted, To indefinitely postpone.

ART. 41. See Article 5.

ART. 42. See Article 5.

ART. 43. See Article 5.

ART. 44. See Article 5.

ART. 45.

Voted, To indefinitely postpone.

ART. 46.

Voted, To authorize the Selectmen to sell the town pound, at public auction or private sale, and establish a new one at the town farm.

ART. 47. See Article 5.

ART. 48.

Voted, To authorize the Selectmen and Town Treasurer to re-lease the town landing to the several tenants for a term not exceeding ten years.

ART. 49.

Voted, To indefinitely postpone.

ART. 50.

Voted, To appropriate the sum of $5,000 towards the reconstruction of Granite Avenue, the work to be done only in conjunction with the State, County, or other cities and towns interested.

ART. 51.

Voted, To indefinitely postpone.

ART. 52.

Voted, To appropriate the sum of $1,000 to be expended by the Park Commissioners for setting out and caring for shade trees in public places, the ensuing year.

ART. 53.

Voted, To indefinitely postpone.

ART. 54.

Voted, To indefinitely postpone.

ART. 55.

Voted, To request the Street Widening Committee to construct the westerly side of Randolph Avenue of macadam, instead of gravel, between Tucker Hill and the Quincy line.

ART. 56.

Voted, To place one electric light on Clapp Street, between Central Avenue and Michael McDermott's estate, and appropriate the sum of $22.50 for maintaining the same.

ART. 57.

Voted, To appropriate the sum of $2,500 for the payment of three day patrolmen for the ensuing year.

ART. 58.

Voted, To appropriate the sum of $800 to be expended for plans for street widening to be recorded at Norfolk County Registry of Deeds.

ART. 59.

Voted, To appropriate the sum of $750 for defraying the expenses of the department of Inspectors of Building and Plumbing.

ART. 60.

Voted, To appropriate the sum of $12,000 for the payment of land damages on the streets, avenues, and roads, widened by vote of the Town, March 7, 1898.

The Moderator ruling that it was in order, though no article covering the matter had been inserted in the warrant, it was

Voted, To accept the Auditor's report as printed, and that it be placed on file.

All reports of various committees were ruled out of order.

Voted, That the citizens request the Warrant Committee in future years to put the appropriations of the previous year in their current report.

Voted, That it is the sense of the citizens of Milton, in town meeting assembled, that a vote of thanks be extended to Mr. Augustus Hemenway, for running snow ploughs and keeping open paths in the Blue Hill section of Milton during the past winter, and that the Town Clerk be authorized to notify Mr. Hemenway of the vote of thanks. (Notified March 9, 1899.)

Voted, That the Town approves and respectfully requests the passage by the General Court of an Act to confirm the action of the Town, its officers and committee, in altering, widening, and laying out certain streets and ways under vote of the Town passed in March, 1898, in accordance with the plans as now filed.

Voted, That the records of the meeting held in March, 1898, be corrected so

as to show that the town ways mentioned in Articles 36, 37, and 38, of the warrant for that meeting were duly accepted, as was the case.

[NOTE. — The record of votes passed under the above Articles 36, 37, and 38, in the Town Archives, were at the time of passing the above vote, *full*, *true*, and *correct* in every particular, but owing to the absence of the Town Clerk from the meeting (through illness) he was unable then and there to so state.]

WARRANT COMMITTEE, 1899–1900.

The following citizens were appointed by the Moderator as a Warrant Committee, for the ensuing year, in accordance with Section 2 of the By-Laws: —

THOMAS N. PERKINS.	GEORGE W. NICKERSON.
JOHN GRAHAM.	J. MURRAY HOWE.
JAMES H. PACKARD.	DAVID HALLIDAY.
EDWARD A. MCCUE.	CHARLES S. MINOT.
PETER MCINTYRE.	JAMES C. BARR.
ROBERT F. HERRICK.	JOHN R. LAWRENCE.

C. WILDER HOLMES.

The foregoing meeting was opened at 9 o'clock A. M., by the Town Clerk, who proceeded to the reading of the warrant.

After having read a portion of said warrant, it was moved that the further reading of the warrant be dispensed with. Said motion being put for the consideration of the meeting, it was carried by unanimous vote, and the further reading of the warrant (except the concluding paragraphs) was dispensed with.

At 8.15 o'clock P. M., *Voted*, To dissolve the meeting.

A true record.

Attest: WALDO A. MARTIN, *Asst. Town Clerk.*

At the meeting aforesaid, the whole number of ballots cast was 1,112, of which number 130 were cast by women voters, for members of the School Committee.

MILTON, March 9, 1899.

As per statute law of this Commonwealth, the Town Clerk this day made out his warrant and delivered to constable Timothy McDermott, requiring him within three days from the date thereof, to summon all officers chosen and not having qualified, to appear before the Town Clerk within seven days from the date of such notice to qualify for their several offices; to be sworn where an oath is required, or to signify their refusal of said office; also to signify their acceptance or refusal of said office to which they had been chosen where no oath is required.

Attest: HENRY B. MARTIN, *Town Clerk.*

SPECIAL MEETING.

WARRANT.

Commonwealth of Massachusetts.

NORFOLK, ss. *To either of the Constables of the Town of Milton*, GREETING:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Milton, qualified to vote in Town affairs, to meet at the Town Hall, in said Milton, on Thursday, the twentieth day of April next, at 8 o'clock P. M., then and there to act upon the following Articles, to wit: —

ARTICLE 1. To choose a Moderator to preside at said meeting.

ART. 2. To see if the Town will vote to place two electric lights on Oak Road; also two on Maple Street, and appropriate money for the same.

ART. 3. To see if the Town will vote to approve and accept the plan of "Peabody Lot," submitted by the Trustees of the Cemetery with their last annual report.

ART. 4. To hear and act upon the Auditors' Report, and Reports of Committees.

ART. 5. To see if the Town will vote to accept the provisions of Chapter 548, Acts of 1898, relating to the holding of caucuses by cities and towns for the nominations of Town Officers.

ART. 6. To see if the Town will vote to appropriate one thousand eight hundred and thirteen dollars and fifty cents ($1,813.50) to pay bills contracted to March, 1899, in the Highway Department.

ART 7. To see if the Town will vote to appropriate one thousand six hundred and thirty-four dollars and fifty-nine

cents ($1,634.59) to pay bills contracted to March, 1899, in the Poor Department.

ART. 8. To see what sum of money the Town will vote to appropriate for completing the stone surfacing of Randolph Avenue on the westerly side.

ART. 9. To see if the Town will vote to accept Cheever Street as a Town way, as laid out by the Selectmen.

And you are directed to warn said inhabitants, qualified as aforesaid, to meet at the time and place and for the purposes herein mentioned, by posting attested copies of this warrant in each of the post-offices of said Town, fourteen days at least before said meeting, and leaving printed copies hereof at the dwelling-houses in said Town.

Hereof fail not, and make due return of this warrant with your doings hereon, to the Town Clerk at the time and place of said meeting.

Given under our hands at Milton, this thirtieth day of March, eighteen hundred and ninety-nine.

J. ALBERT SIMPSON,
J. WALTER BRADLEE,
JACOB A. TURNER,
Selectmen of Milton.

Commonwealth of Massachusetts.

NORFOLK, ss. MILTON, April 17, 1899.

Pursuant to the within warrant, I have notified the inhabitants of the Town of Milton, as within directed, to meet at the time and place and for the purposes therein mentioned, by posting attested copies of the same in the post-offices of said Town, and by leaving copies at the dwellings of the inhabitants.

PETER MCINTYRE,
Constable of Milton.

At a meeting of the inhabitants of the Town of Milton, held according to the foregoing warrant, upon April 20, 1899, the following proceedings were had upon the several articles in said warrant, namely: —

ARTICLE 1. Charles S. Rackemann, Esq., was chosen Moderator.

ART. 2.

Voted, To place two electric lights on Oak Road, and two on Maple Street; and that the sum of $90 be appropriated for the maintenance thereof.

ART. 3.

Voted, That the plan of Peabody lot (so called), in Milton Cemetery, submitted by the Trustees with their last annual report, be adopted, subject to such changes as the Trustees may deem advisable.

ART. 4. Under this article, "To hear and act upon the Auditors' report." No report being submitted to the meeting, no action was taken.

REPORT OF COMMITTEES.

Under this head the following reports were submitted: —

BELCHER SCHOOL BUILDING.

MILTON, April 20, 1899.

To the Town of Milton:

The Committee appointed at the Town Meeting held March 7, 1898, as Building Committee for the addition to the Belcher School-house, for which an appropriation of $16,500 was made, have attended to their duty and desire to report that the work is completed and the building finished.

Appropriation	$16,000 00
Expended, December, 1898	15,494 42
Balance, unexpended	$5 58

For detailed report of expenditures, see pages 126 and 127 of the Annual Town Report.

Respectfully submitted,

(Signed) H. CLIFFORD GALLAGHER,
GRANVILLE S. WEBSTER,
WALTER C. SHAPLEIGH,
JOSEPH E. HALL,
J. FRANK POPE,
Committee.

Voted, That the above report be accepted.

TOWN HALL.

MILTON, Feb. 27, 1899.

To the Citizens of the Town of Milton:

The committee appointed at the March meeting, 1898, to consider the necessity of enlarging the Town Hall, report that in their opinion it is inexpedient to expend a large sum of money on the Town Hall, in view of the fact that the Town has before it a proposition to change the method of holding Town meetings.

The proposed change may require facilities which cannot be foreseen at this time.

(Signed) C. M. WELD.
BRADFORD HAMILTON.
HARRISON O. APTHORP.
PELEG BRONSDON.

Voted, That the above report be accepted and placed on file.

CENTRAL AVENUE RAILROAD CROSSING.

The committee appointed at the March Meeting, 1898, to make a report on the matter of abolishing the railroad and highway grade crossing of Central Avenue and the New York, New Haven & Hartford Railroad, make the following report: —

Your committee are of the opinion that it is most desirable to do away with the grade crossing, and can see no engineering difficulties; and it seems a self-evident fact that the longer the work is delayed the more it will cost.

The next question comes on what the expense of doing away with this crossing will be to the Town.

The cost of abolishing this crossing is variously estimated from $20,000 to $40,000. Chapter 428 of the Acts of 1890 provides that the cost of abolishing grade crossings shall be paid as follows: —

The railroad company shall pay	65 per cent.
The State of Massachusetts shall pay	25 " "
The Town shall pay	10 " "

It would therefore seem that the cost to the Town would not be more than $4,000, and we know of no greater benefit that could be secured to the community at such small cost to the Town.

We therefore recommend that the Town pass the following resolve: —

" *Resolved,* That the Selectmen are hereby requested to take such action as is necessary to have a commission appointed by the court, whose duty shall be to abolish the present grade crossing of Central Avenue and the tracks of the New York, New Haven & Hartford Railroad in Milton, as provided by Chapter 428, Acts of 1890, and all subsequent acts and amendments thereto."

Respectfully submitted,

(Signed) JACOB A. TURNER,
H. B. REID,
Committee.

Voted, That the above report be accepted, and that the Selectmen be requested to take the necessary action to have said grade crossing abolished.

HIGHWAY LAYING OUT.

MILTON, March 6, 1899.

The undersigned, a committee appointed at the annual town meeting of Milton, held March 7, 1898, under Article 50, to petition for such legislation as shall enable the Town to pass By-Laws establishing a general policy in regard to the laying out of ways by regulating fundamental principles in regard to their character and construction, beg leave to report as follows: —

Said committee recommends the adoption by the Town of an amendment to its By-Laws in words following: —

"Whenever any way shall have been laid out or altered by the Selectmen, and accepted and allowed by the Town, no entry for the purpose of constructing any part of such laying out or alteration shall be made until all claims for damages by reason thereof shall have been finally adjusted or determined unless such entry shall be authorized by special vote of the Town."

Such amendment to be made by adding another article to the present code of by-laws.

And in respect of any petition to the Legislature for additional legislation enabling towns to pass by-laws establishing a general policy in regard to laying out of ways, your committee respectfully prays that they may be granted further time, or that they may be discharged and a fresh committee appointed for that particular purpose.

Respectfully submitted,

(Signed) CHARLES S. RACKEMANN,
A. A. BRACKETT,
NATHANIEL T. KIDDER,
Committee.

Voted, That the above report be accepted and that the committee be continued.

ANNUAL TOWN MEETINGS.

MILTON, MASS., March 3, 1899.

To the Citizens of Milton:

Your committee appointed last March to consider the best way of holding the Annual Town Meeting, submits the following report: —

By-Laws and other data were obtained from twelve Massachusetts towns situated more or less as Milton is regarding population, appropriations, etc.; these towns were Brookline, Arlington, Wellesley, Dedham, Hyde Park, Winchester, Barnstable, Lexington, Concord, Canton, Falmouth, and Melrose.

Of these, nine make no attempt to do anything except elect officers on the first day: One considers the Warrant after 2 P. M., but keeps the Polls open until 4.30. This involves voting and discussing the warrant at the same time; another votes until 4.30 and adjourns to the evening of the same day, while a third tries to get through in one day, but usually has to adjourn to the next.

Milton is alone so far as we know in having the polls opened so late and closed so early.

Article 45 of the warrant contains our recommendations. The Warrant Committee has changed the time of opening from seven to six in the morning.

Seven is the favorite hour in other towns and seems to us the more comfortable one to adopt.

Respectfully submitted,

(Signed) HENRY B. MARTIN,
MAURICE A. DUFFY,
JAMES S. RUSSELL,
Committee.

Voted, That the above report be accepted, and that the committee be discharged.

ART. 5.

Voted, To indefinitely postpone.

ART. 6.

Voted, To appropriate the sum of $1,813.50 for payment amount of bills contracted by Highway Department to March, 1899.

ART. 7.

Voted, To appropriate the sum of $1,634.59 for payment amount of bills contracted by Poor Department to March, 1899.

ART. 8.

Voted, To appropriate the sum of $8,500 for completing the stone surfacing of Randolph Avenue on the westerly side, and that the Surveyors of Highways be requested to employ the Highway Department on the work as far as possible without prejudice to the regular work of the department.

ART. 9.

Voted, That Cheever Street, as laid out by the Selectmen, be accepted as a town way.

At 9 o'clock and 35 minutes P. M., *Voted,* To dissolve the meeting.

A true record.

Attest: HENRY B. MARTIN, *Town Clerk.*

NOVEMBER MEETING.

WARRANT.

Commonwealth of Massachusetts.

NORFOLK, ss. *To either of the Constables of the Town of Milton*, GREETING:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the inhabitants of the Town of Milton, qualified to vote at elections, to meet at the Town Hall, in said Milton, on Tuesday, the seventh day of November next, it being the Tuesday after the first Monday of said month, at seven o'clock in the forenoon, then and there to bring in their ballots for the following officers, to wit: —

Governor, Lieutenant-Governor, Secretary, Treasurer, Auditor, and Attorney-General for this Commonwealth. Councillor for the Second Councillor District. One Senator for the First Norfolk District. One Representative to the General Court from the Fourth Norfolk District. Also one County Commissioner for the County of Norfolk.

All the officers herein named to be voted for on the ballots to be provided by the Secretary of the Commonwealth for that purpose.

The polls will be open at seven o'clock in the forenoon, and may be closed at four o'clock in the afternoon.

And you are directed to serve this warrant by posting attested copies hereof in each of the post-offices of said Town, and distributing printed copies hereof at the dwelling-houses of said Town, seven days at least before said meeting.

Hereof fail not, and make due return of this warrant, with

your doings hereon, to the Town Clerk, at or before the time set for said meeting.

Given under our hands at Milton, the twentieth day of October, in the year of our Lord one thousand eight hundred and ninety-nine.

J. ALBERT SIMPSON,
J. WALTER BRADLEE,
JACOB A. TURNER,
Selectmen of Milton.

Commonwealth of Massachusetts.

NORFOLK, ss. MILTON, Nov. 1, 1899.

Pursuant to the within warrant, I have notified the inhabitants of the town of Milton, as therein directed, to meet at the Town Hall in said Milton, upon the date above mentioned, for the purposes therein set forth.

PETER MCINTYRE,
Constable of Milton.

At a meeting of the inhabitants of the town of Milton, held, according to a warrant, of which the foregoing is a copy, upon Nov. 7, 1899, the following number of votes were given in for the several persons hereinafter named for the respective offices specified below, namely : —

For Governor.

ALBERT B. COATS, of Beverly, twenty-two votes.

W. MURRAY CRANE, of Dalton, six hundred and twelve votes.

ROBERT TREAT PAINE, Jr., of Boston, two hundred and thirty-two votes.

GEORGE R. PEARE, of Lynn, twenty-one votes.

WINFIELD P. PORTER, of Newburyport, three votes.

BLANKS, seventy-seven.

For Lieutenant-Governor.

JOHN L. BATES, of Boston, six hundred and twenty-five votes.

JOHN H. MACK, of North Adams, two hundred and nineteen votes.

JAMES H. ROBERTS, of Cambridge, nine votes.

ISAAC W. SKINNER, of Brockton, three votes.

JAMES F. STEVENS, of Boston, seventeen votes.

BLANKS, ninety-four.

For Secretary of Commonwealth.

CHARLES H. BRADLEE, of Haverhill, twenty votes.

JOHN B. LEWIS, Jr., of Reading, fifteen votes.

HENRY LLOYD, of Boston, one hundred and eighty-eight votes.

FRANK MCDONALD, of Stoneham, eighteen votes.

WILLIAM M. OLIN, of Boston, six hundred and eight votes.

BLANKS, one hundred and eighteen.

For Treasurer and Receiver General.

EDWARD S. BRADFORD, of Springfield, six hundred and fourteen votes.

JOSEPH J. FLYNN, of Lawrence, one hundred and ninety votes.

HERBERT B. GRIFFIN, of Winthrop, eleven votes.

FREDERICK A. NAYLER, of Springfield, seventeen votes.

CHARLES W. WHITE, of Winchester, four votes.

BLANKS, one hundred and twenty-one.

For Auditor.

ELBRIDGE GERRY BROWN, of Brockton, one hundred and ninety-five votes.

Frank Albin Forsstrom, of Worcester, twenty-three votes.

John W. Kimball, of Fitchburg, six hundred and three votes.

Angus McDonald, of Boston, eight votes.

Franklin A. Palmer, of Stockbridge, ten votes.

Blanks, one hundred and twenty-eight.

For Attorney-General.

Addison W. Barr, of Worcester, fourteen votes.

Hosea M. Knowlton, of New Bedford, six hundred and twenty votes.

John H. Morrison, of Lowell, one hundred and ninety-five votes.

Sidney Perley, of Salem, seven votes.

Walter P. J. Skahan, of New Bedford, fifteen votes.

Blanks, one hundred and sixteen.

For Councillor.

William W. Davis, of Boston, six hundred and twenty-three votes.

Thomas J. A. Johnson, of Boston, two hundred and fifteen votes.

Blanks, one hundred and twenty-nine.

For Senator.

Robert C. Habberly, of Hyde Park, twenty-six votes.

Edwin C. Jenney, of Hyde Park, two hundred and seventy-two votes.

B. Herbert Woodsum, of Braintree, five hundred and fifty votes.

Blanks, one hundred and nineteen.

For Representative in General Court.

J. Walter Bradlee, of Milton, four hundred and ninety-one votes.

George R. R. Rivers, of Milton, four hundred and fifty-one votes.

Blanks, twenty-five.

For County Commissioner.

Charles C. Sanderson, of Dedham, two hundred and thirty-four votes.

Edwin D. Wadsworth, of Milton, six hundred and twenty-seven votes.

Blanks, one hundred and six.

At 4 o'clock p. m., *Voted*, That the polls be closed in ten minutes.

At 4 o'clock and 10 minutes p. m., *Voted*, That the polls be closed.

All of the above votes were duly counted, declared and recorded, sealed up in open Town meeting, and delivered to the Town Clerk.

At the meeting aforesaid Messrs. J. Harry Holmes, Hazen B. Williams, Edward Mullen, William W. Robertson, Frank Richards, Arthur M. Gardner, and Thomas Pond, Republicans, Joseph F. Donovan, James H. Haley, Matthew A. Welch, William F. Welsh, John J. Colgan, Eugene Gallagher, and David A. Heffernan, Democrats, were appointed by the Selectmen as Ballot Clerks and Tellers, all of the above being sworn by the Town Clerk.

At 6 o'clock and 37 minutes p. m., *Voted*, To dissolve the meeting.

A true record.

Attest: Henry B. Martin, *Town Clerk.*

Whole number of ballots cast, 967.

Fourth Norfolk Representative District.

We, the undersigned Town Clerks of the towns of Canton and Milton, comprising Representative District No. 4 in the County of Norfolk, hereby certify : —

That at an election duly held in said towns on the seventh day of November, A. D. 1899, for a candidate to represent said district at the next General Court, the following number of votes were given in for the several persons hereinafter named, to wit : —

For J. Walter Bradlee, of Milton, seven hundred and fifty-nine votes.

For George R. R. Rivers, of Milton, eight hundred and ten votes.

Blanks, thirty-nine.

Given under our hands at Canton this seventeenth day of November, A. D. 1899.

WALTER AMES,
HENRY B. MARTIN,

Town Clerks of Canton and Milton.

REPORT OF SELECTMEN.

HIGHWAY DEPARTMENT.

It was decided to make a change in the management of this department, and Mr. Laroy S. Nevons was appointed Superintendent of Streets, and he has performed the duties to the satisfaction of the Board.

This season it has been difficult to keep the streets in proper condition, owing to the extremely dry weather and scarcity of water. There should be a number of stand-pipes erected, so more area can be added to the districts now watered.

We recommend the building of macadam roads hereafter, on account of the scarcity of good gravel material in the town.

For detailed account we refer to the report of the Superintendent of Streets.

The State Highway Commission has commenced the work of rebuilding the lower end of Granite avenue, and will complete that section this spring.

We recommend that all general highway work be done by citizens of the town, and not by contract.

STREET LIGHTING.

The contract of 1898 was renewed this year, and the lights have been maintained up to the required standard.

Believing that a lower rate could be obtained, if the town would contract for a term of years, we have applied to the company for terms, and the article in the Warrant is the outcome of our investigations. We recommend that the town make a contract, as by the terms of the contract the town will receive the same lights at a saving of $1,300 a year.

The contract provides that there shall be a reduction from the proposed price per light in the event of any improved invention by which the manufacture of electricity can be cheapened.

METROPOLITAN PARK COMMISSION.

The Metropolitan Park Commission have made a grant to the town of a strip of land adjoining Randolph avenue, commencing at, or nearly at, a point opposite Highland street, and extending westerly to "Tucker's Hill." The street railway tracks have been located therein, leaving said Randolph avenue at this point practically the same as before the widening was made. The grading of this section was done by the railway company without expense to the town.

POLICE DEPARTMENT.

The management of this department remains the same as last year. Three day men have been added to the force.

The superintendent and officers have performed their duties faithfully and impartially during the year.

We would again call attention to the condition of the police station and stable, and recommend the erection of proper buildings.

POOR DEPARTMENT.

Mr. and Mrs. Elias C. Conant were reappointed as Superintendent and Matron of the Town Farm, and have managed the institution economically and satisfactorily.

We again call attention to the urgent need of additional water supply at the Farm, for during the last season they were obliged to haul water from Canton avenue.

J. ALBERT SIMPSON,
J. WALTER BRADLEE,
JACOB A. TURNER,
Selectmen.

REPORT OF THE ASSESSORS.

The Assessors of the Town of Milton for the year 1899 submit the following report: —

The Board organized with E. D. Wadsworth, chairman, and George W. Nickerson, clerk.

The Assessors recommend the continuance of the appropriation of $425 for clerk hire and renewing of land plans.

The Assessors gave the notice required by law, requesting taxpayers to bring in true lists of their polls, real and personal property.

The number of polls assessed was 1,671, a gain of 63. Transfers of real estate, 365. There was an increase of $744,196 in personal estate and of $193,700 in real estate.

The Assessors again renew their request to the residents of the town owning stock in national banks or Massachusetts corporations that they have their residence recorded on the books of these corporations as Milton, otherwise the tax on their stock, which is paid by the corporations, will be lost to the town. The Assessors found one hundred and sixteen lots of stock owned by residents of Milton credited to Boston, which city was credited with the tax on this stock.

In addition to the annual appropriations for the present year, it will be necessary for the town to raise by taxation the sum of $27,000 to pay maturing bonds; also about $3,000 to meet the Metropolitan Park assessment.

The town was assessed for $18,554.46 on account of the Neponset Valley and high level sewers in 1899, and it will probably be higher in 1900.

E. D. WADSWORTH,
J. FRANK POPE,
GEO. W. NICKERSON,
Assessors.

MILTON, Jan. 10, 1900.

REPORT OF THE PARK COMMISSIONERS FOR 1899.

Following the same division under headings as last year, we first take up the

EAST MILTON PLAYGROUND.

We have not had occasion to do much except cut the grass and roll the ground on the levelled field. The rest of the ground has been kept in order very easily. The trees which we planted last year are doing as well as could be expected.

BROOK ROAD PLAYGROUND.

We have been obliged to leave this untouched, as the Town did not vote any appropriation for its care last March. This we feel was not good policy, because if the Town is going to furnish a ball field at all it seems to us that it should be made possible for those who have it in charge to keep it in good repair, and this can only be done by occasionally re-seeding it. Very soon the East Milton field should be so treated, but as matters now stand it would be necessary to close it up for repairs. Therefore, we feel that a field should be laid out at Brook Road so as not to deprive the ball players of the privileges which the Town has undertaken to furnish them. A fence along the southeast boundary has become more than ever necessary. The Brook Road front should be put in order and some trees planted there.

WATERSIDE COMMON.

Beyond a little clearing up of unsightly tangles of undergrowth, and removal of trees which had been blown down,

we have done little here. Our project of last year, namely, for making more territory available by building a causeway, and preventing the river from backing up over the low land, does not now seem advisable, in view of the takings by the Metropolitan Park Commission in the vicinity, putting so much land in their care for public use. We have thought that the remaining rocks of the wall could be used in some of the various forms of development in the neighborhood, but such appears not to be the case, and we have finally decided that it was better to pay for their removal, and have let the contract, and the rocks are being carried away.

PUBLIC SHADE TREES.

Your appropriation of last spring has enabled us to keep steadily at work on the road-side trees, so that we have covered a great deal of ground. One of the chief streets trimmed out was Randolph Avenue, which was done its entire length, mostly by our men, a part of their time being paid for by the Street Railway Company, some heavy cutting being done by the Telephone Company in connection with a re-location of poles. The trees about the engine house, at the Centre, were trimmed up to allow the fire apparatus freer passage. Most of Brush Hill Road was cleared up, and sections of Bradlee Road and Blue Hill Avenue, particularly in need of attention, were seen to. Other pieces of less important roads were also included in our work.

Chapter 330, of the Acts of 1899, takes from Park Commissioners the control of roadside trees as soon as the annual meeting gives the Town a chance to elect a Tree Warden. The powers of this officer, new to Milton, are much the same as have been those of the Park Commission, but to them is added that of planting shade trees upon land abutting on

public streets at a distance not exceeding twenty feet; *provided however*, that the written consent of the owner of such land shall be first obtained.

It seems to us that our report should include a recommendation for the appropriation to the use of the Tree Warden, which we have accordingly included in our summary.

We have consulted with the School Committee and do not feel that it is beyond our province to suggest that a sum of money be appropriated to be expended by that Committee and our Board, conjointly, in the improvement of the school lots. The School Committee joins with us in asking that two hundred dollars be appropriated for this purpose.

To sum up we recommend the following appropriations: —

General expenses	$100 00
Brook Road playground, —	
To wipe out the deficit caused by suit against the town	165 85
For grading and preparing a ball field . .	2,000 00
For fencing and planting trees . . .	500 00
Work with School Committee on school lots .	200 00
	$2,965 85
And for the Tree Warden, to be expended in care of and planting public shade trees . . .	1,000 00

Respectfully submitted,

NATHANIEL T. KIDDER.
HORATIO A. LAMB.
CHAS. E. ROGERSON.

REPORT OF THE SEWER COMMISSIONERS.

MILTON, MASS., Jan. 1, 1900.

The Sewer Commissioners of the town of Milton make the following report of their work for the year 1899 : —

No appropriation was made during 1899 for sewerage, so that expenditures for new work were restricted to the extension of the sewer on the west side of Blue Hills Parkway as far as the Tucker School, and to the laying of a water connection between the water main on Adams street and the sewer manhole at the south end of the Adams street syphon to render the flushing of the syphon simpler than it had been in the past.

The Board would respectfully call attention to the fact that on Jan. 1, 1900, there were in the town of Milton 830 private water connections and twenty-two sewer connections. That the consumption of water at the same date was about 100,000 gallons per day, and that approximately 2500 gallons of sewage run through the town sewers per day — the balance of the public water used, 97,500 gallons per day, being disposed of in the form of sewage, either through cesspools, or, with more or less directness, into the open air, a state of things at once unhealthy and improper.

It is for the town to say whether it wishes to build sewers and when. If they are to be built in the immediate future, it would seem better to begin them before an epidemic of filth disease makes their construction imperative.

ERNEST W. BOWDITCH.
ELLERTON P. WHITNEY.
JOSEPH E. HALL.

MILTON SEWER COMMISSIONERS.
MILTON, MASS., Feb. 5, 1900.

To the Board of Sewer Commissioners:

GENTLEMEN, — I have to report that the main sewer on Adams street has been inspected at both ends of the syphon three times during 1899, on each occasion the accumulated silt being removed. The character of the deposit that had collected being mostly fine, broken stone and sand, leads me to believe that a large proportion of the material that is troublesome comes from the surface of the roadway, with more or less directness, through the catch basins. The sewer itself is not so constructed that it can be inspected; neither can it be flushed, so that it is difficult to form any absolutely clear conception of the condition of the main sewer, though there is no reason to believe that any portion of it is seriously fouled.

The sewers comprised in the Central Avenue district were inspected by me during the autumn of 1899, and were found to be in fair condition, not needing to be cleaned. Probably if they are flushed in the spring of 1900, it will be early enough, and possibly once a year thereafter.

The sewers comprised in the Mattapan district were inspected and found to be in very good condition, probably not requiring to be flushed until the autumn of 1900.

G. FRANK KEMP,
Superintendent.

FINANCIAL EXHIBIT.

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

In the report of a year ago, the Trustees indicated the changes they thought desirable in the general policy of the library, and they have, in accordance with the opinion then expressed, put some of their ideas into practice.

In comparing the usefulness of our library with that of libraries in similar towns, it was found that Milton was far below the average in the circulation of books, in the cataloguing and charging systems, in the number of hours the library was open, and in all modern library methods.

The Trustees have devoted two years to a careful consideration of the needs of the library, and they almost unanimously decided that those needs could be best supplied by appointing as librarian, Miss Gertrude E. Forrest, who has had such experience in the Public Library of Boston as specially qualifies her for the position.

Although this report technically covers the year ending Dec. 31, 1899, it may be well to indicate briefly some of the changes made in the early part of January, 1900.

On the first day of January, Miss Forrest entered upon her duties as librarian, and the re-classifying and re-cataloguing of books and other necessary changes were begun at once. The hours for keeping the library open have been greatly increased, two hours in the morning, from nine to eleven, have been added, and the library is now open in the evening until nine o'clock. These hours exceed those of

most libraries in similar towns, and compare favorably with the library hours of such cities as Taunton and New Bedford.

Miss Marian Woodbury and Miss Frances E. Young have been appointed assistants without salary, and are having the advantage of a library training.

In response to the petition received a year ago from the residents of the Mattapan district, and referred to in the last Town Report, a very desirable room has been secured as a delivery station and reading-room, in the building being erected on the corner of the Parkway and Blue Hill Avenue, Mattapan. The Trustees regret the delay in the completion of the building, and they hope the reading-room will be ready for the use of the citizens before many weeks. They are glad to report that the responsible position of attendant at Mattapan has been offered to Miss Emma K. Chapman, who, through her long service as librarian, has been animated, by an ever ready spirit of helpfulness, by constant kindliness, and gracious manner to all.

The Russell reading-room has continued to be useful during the year since it was adopted by the town, and the Trustees wish to thank Miss Kennedy, who, by her service as attendant and by her advice, has been of great help in promoting the usefulness of the reading-room.

The Trustees regret the continued illness of Miss Emerson, the attendant at East Milton, but as Miss Emerson has herself provided a competent substitute, the interest of the East Milton branch has not been allowed to suffer. The confident expectation is that Miss Emerson will be able to return to her duties before long.

The interest which the Woman's Club of Milton has taken in the library has been a source of gratification to the Trustees. The club has had several exhibitions of valuable foreign and local photographs in the main reading-room, which

have attracted many visitors. Any such use of the library rooms is to be heartily welcomed.

It is a great pleasure always to record private gifts to the library. The Trustees take special satisfaction, therefore, in acknowledging a gift of an oil painting by Hinckley, from Mr. Horace E. Ware, in the name of his brother, Mr. William Ware, "in behalf and for the benefit of the Public Library, and always to be kept and used in connection therewith."

A petition has been received from the residents of the Blue Hill and Brush Hill districts asking that two delivery stations be established in those parts of the town.

It is to meet the increasing needs, as well as the demands, of the citizens of Milton, as indicated in this report, that the Trustees ask for a larger appropriation this year.

Respectfully submitted,

RODERICK STEBBINS,
Secretary for the Trustees.

REPORT OF THE TRUSTEES OF MILTON CEMETERY.

The summer of 1899 was remarkable for the small quantity of rain in this locality, causing a great addition of care and labor in the cemetery. The newly seeded lots, the flowers and shrubs, have been kept alive only by constant watering. Some, utterly failing, were seeded and planted anew.

From the last of May to the middle of September, hundreds of gallons of water were almost daily taken from the pond for watering plats and flowers.

This was but a poor substitute for nature's genial work, and left the grounds with a dim and lifeless aspect, through that period when the lots are usually green, and the flowers are bright.

The year under review has been a busy one in this department.

Eight new lots have been taken up by citizens, seven of these, with eight granted last year, have been put in order.

Five lots have been placed in perpetual care.

Nineteen lots have been regraded and laid to grass, or sodded.

Foundations for nine headstones and four monuments have been built, and nine markers set to graves.

Seventy-eight interments have been made.

Three tombs have been removed, and the site of each has been converted into a family lot, retained by the proprietor of the tomb.

Shamrock Avenue has been extended from Walnut to Willow avenues, thus affording a passage across the cemetery, from Willow to Centennial avenues. Other short sections of road have been built.

The Trustees have commenced the work of removing stunted trees in various parts of the grounds, which, in the growth of years, have disfigured the lines and groups of trees, originally too closely set. This will give room for the more vigorous trees to spread and grow.

The hearse-house has been removed from the site where it has stood for sixty-two years, and is transformed into a tool-house.

The plat of ground bounded by Coleus and Centennial avenues and Daphne path has been divided into twenty lots.

It is quite impossible and needless to designate the amount and variety of work accomplished by the superintendent and the faithful men under his direction during the season.

The bath-room addition to the cemetery house, the payment of the balance due for surveying the "Peabody Lot," and the various improvements have increased our expenditures, so that the balance carried over to the new year is less than that of the preceding year.

The Trustees respectfully request the usual appropriation of two thousand dollars for the ensuing year.

Respectfully submitted,

ALBERT K. TEELE,
for the Trustees.

REPORT OF THE STREET WIDENING COMMITTEE.

The last report of this committee was made to the town at its annual meeting in March, 1899. As a result of the elections at that meeting the personnel of the committee was changed by the accession to the committee of Messrs. Simpson and Turner, the selectmen elected in place of Messrs. Brackett and Chubbuck.

At the March meeting referred to, the town expressed its desire that the committee should proceed to lay the westerly side of Randolph Avenue to macadam construction, and appropriated the sum of $8,500 for that purpose. While the majority of the committee, in its report to the town, had recommended, from motives of economy and general expediency, that Randolph avenue be laid on both sides to gravel construction, and while the committee was advised by its counsel that the vote could be considered by the committee simply as an expression of the town's desire and request, not necessarily binding upon the committee, it was deemed best to carry out the wishes of the citizens. A division of opinion then arose in the committee as to how the remainder of the work should be completed. Certain members of the committee felt that the current policy of the committee should be continued, and that the remainder of the work should be given out by contract to the contractor who had executed the work up to that time, and

whose men and teams and machinery were all in readiness along the line of the work. The contractor appeared before the committee and offered to contract to complete the westerly side of Randolph avenue to macadam construction for the sum of $8,400, and the easterly side to gravel construction at the rate specified in his original contract, and to have the entire work completed by the first day of August, 1899.

The members referred to felt it most desirable that the remainder of this work should be awarded to the contractor in accordance with the terms of his proposition, for the reasons especially that he offered to do the work within a definite time and for a definite sum. The contentions of these members were not sustained, and the committee voted to have the work done by day labor, under the supervision of the Surveyors of Highways.

The easterly side of Randolph avenue is still incomplete, but the westerly side has been laid to macadam construction for the sum appropriated therefor; the sum of $12.72 remaining still unused from that appropriation.

At the date of this report there has been expended in excess of the original appropriation made for street widening the sum of $1,863.32. There remains still to be received from the County Commissioners the sum of $3,500, awarded by them, which will be paid as soon as a few details of construction have been completed to meet the conditions under which the award was made. There will then appear to the credit of this appropriation the sum of $1,636.68.

The settlement of land damages is progressing slowly, and there are claims still awaiting adjustment. This matter is treated by the Board of Selectmen in another report.

The committee respectfully submits this report to the citizens, and begs leave to consider itself relieved as a com-

mittee from all further responsibility in connection with the prosecution and completion of the work, leaving the same to be completed under the supervision of the Surveyors of Highways.

Street Widening Committee.

REPORT OF THE SUPERINTENDENT OF STREETS.

To the Honorable Board of Selectmen:

Gentlemen, — The Superintendent of Streets herewith submits this, the annual report of the Highway Department for the year 1899.

In giving this, the annual report of the Highway Department, I will, in a few remarks, show the work that has been done, the expense of different kinds of work, also the material teamed, and will touch on the work which now lies before the department with estimates for money needed for the future.

In doing the work of the past season it has been necessary to team 26,500 loads of material as follows: 6,312½ tons of crushed stone, 2,853 loads of grout or rubble stone, 6,391 loads of gravel, 3,346 loads of loam, and 7,606 loads of gutterings.

Work was begun on or about the 1st of April. The first work was the clearing of the lot at the stone crusher on Randolph Avenue, digging and stoning up cellar preparatory to building a new town stable. This work was completed about the 20th of April, and on the 24th of June the stable was ready for the department to occupy.

The total cost of construction of stable was $3,366.10, including construction of stable, sheds, digging and building cellar, plumbing for water, putting on lightning rods, and electric lights.

In bringing the department all together it adds greatly to the efficiency of same, besides having a proper place for the storage of tools and wagons.

The next work was the cleaning of gutters in the most important thoroughfares which were found to be in a bad condition, there being 7,006 loads of mud and decayed matter removed, making room for the surface water to find its way without tearing away the street before it.

I wish to say here, as I have heard complaints from different citizens of the foolish waste of money in cleaning gutters, that the first thing necessary for good roads is clean gutters, and I think we should take pride in keeping our streets and gutters in a clean condition. The amount expended in this direction was $1,296.80.

Removing plank walks on Adams Street and Canton Avenue, the expense of which, including the relaying and repairing, was $85.55. Taking into consideration the annual expense of taking up and relaying, it would be advisable to concrete the sidewalk, and secure a substantial walk that would be of service at all seasons of the year.

Randolph Avenue was macadamized for a distance of 1,100 feet north of Quarry Street, with 900 feet of six-inch French drain, the cost of this work being $1,790.68, together with other repairs of $122.80, making a total of $1,913.48 expended. This avenue for about 3,000 feet south of Centre Street is in a bad condition, the retaining walls in Poplar Hollow are giving away, and the culvert has fallen in. These should be relaid, new fences built, and the street macadamized.

From the foot of Sigourney's Hill to Hutchinson Street should be macadamized as this is also in a bad condition.

The amount to put this avenue in first-class condition should not be less than $6,000. Should this work be com-

pleted there would be a continuous good road from the bridge at the Chocolate Mills to the Quincy line.

Adams Street was macadamized for a distance of 1,300 feet northwest of Centre Street, and 168 feet between the bridges at Milton Village. The amount expended for this and other minor repairs was $1,714.45. This street should be macadamized from the railroad track at East Milton to Centre Street, then from Mr. Brooks's entrance to the entrance of Mr. Frank Dudley's estate on Milton Hill. The amount necessary for this work would be $6,000. I would say here that Adams Street and Centre Street have to accommodate nearly all the traffic of the stone teams coming from Quincy, and they should be put in good condition.

Centre Street has had no permanent work this season with the exception of some small repairs and 3,750 feet of sidewalk gravelled, the amount expended being $356.60. To put this street in thorough condition it would require $3,000.

Canton Avenue was resurfaced from a point near Mr. Eustis's estate to the foot of Babcock Hill, and a plank walk also laid between Brook Road and Vose's Lane, sidewalks gravelled and necessary repairs to the amount of $611.70. The plank walk should be extended to School Street and to the Town Hall.

Canton Avenue should be macadamized from Morton Road to "Whitelawn," also between White Street and the Town Hall it should be macadamized and underdrained, and a new catch-basin should be put in at the corner of White Street.

From the entrance to Colonel Russell's estate to a point near the town pound should be resurfaced with crushed stone.

At Pine Tree Brook connecting with State Road to Bab-

cock's Hill should also be macadamized. This hill should be underdrained and the gutters paved. In the spring of the year this part of the road is bad on account of the springy nature of the soil. The amount necessary to put this avenue in thorough condition will be $6,000.

Russell and North Russell streets have had small repairs to the amount of $19.50. They are in need of repairs to the amount of $300.

Brook Hill Road was cleaned and sidewalks gravelled and the amount expended was $64.98. This street should have some repairs on the east side near Eliot Street to the amount of $400.

Retaining walls have been built at the following named places: town stables, Otis Street at Mr. Hedlund's, Central Avenue at Clapp Street, Oak Road, Maple Street, and at Mr. Redfern's on Reedsdale Road. The amount expended in this direction was $490.35.

Highland and Reed streets were resurfaced with gravel from Randolph Avenue to Mr. Pierce's entrance, and one new catch-basin was put in at Mr. J. Lincoln's. The amount expended was $576.42. These streets are now in good condition, and need but small outlays for repairs for the next four or five years.

Clapp Street has had a few small repairs on its sidewalks to the amount of $15.87 cents. There should be a basin and drain built near the entrance to the High School, and also sidewalks gravelled. The amount necessary for this work will be $125.

Street Watering. — Owing to the growing demand for this work, and the long dry season and a scarcity of water, compelling us to cart water a long distance, the cost of this work has been in excess of former years, the expense having been $6,501.20. One new cart was added to this depart-

ment, and two carts were employed from Mr. McGue, and then we were unable to attend to the work satisfactory to some of the citizens. It will be necessary to add two more carts the coming season, on account of the extra streets to water on the boulevard and a demand for better service.

Bridges. — Granite Bridge was replanked. Central Avenue bridge walks were replanked, and the wood and iron work under the bridge was painted, and Milton bridge walks were repaired. There was expended on bridges $295.92, beside the draw-tender's salary from April 1, which was $180, making a total of $475.92. Granite Bridge is in need of extensive repairs the coming season; the large timbers underneath will have to be replaced. The expense will be about six to eight hundred dollars.

Steam Roller. — The roller was found to be badly in need of repairs and was put into the shop early in the spring and thoroughly overhauled, the expense being $459.05. New picks, removing roller-house, painting roller, and other small expenses, make the entire cost for maintenance of same, $577.06. The roller worked one hundred and sixty-one days, doing all the rolling on the highway, and on Randolph Avenue Boulevard. It is now in good order and ready for work and needs no outlay for the coming season.

Stone Crusher. — The crusher had repairs to the amount of $333.11, — $22.50 was for a bill contracted in 1897. The crusher should have a new shaft put in this spring and be thoroughly overhauled as the output of crushed stone per day the past season was on the average of sixty-five tons, and it should be from one hundred to one hundred and twenty-five tons, thereby reducing the cost per ton. The expense would be about two hundred and fifty dollars.

I would here call attention to the necessity of an elevator and bins for storage, as proper bins and elevator to carry the

stone from the crusher would make a saving of from eight to fourteen cents a ton in the loading.

With the assistance of Mr. McGue's crusher twenty-four and one quarter days the output was 6,124 tons bought from Mr. McGue 188½ tons, making a total of 6,312½ tons of stone used, of which 4,724¾ tons were used on the boulevard, and 1,588 tons were used on the highway. The cost of crushed stone per ton was ninety cents.

On Central Avenue a plank walk was built from the railroad depot to Brook Road, the cost of which was $1,337.82.

This avenue was graded and surfaced with gravel, and two new culverts built at Clapp Street, the bank at Mr. Cunningham's estate was filled and graded with loam. There were also some small repairs on the new macadam, making the total amount expended on this avenue $2,015.69. Near Mr. Ripley's there should be some gravelling to the amount of $75, and aside from cleaning the gutters there is no need of any great outlay on this thoroughfare the coming season.

On Bradlee Road the fences and road were repaired to the amount of $94.12. This road is in need of some repairs to the amount of $200.

Ice and Snow. — There was expended in the latter part of March, $24.50.

White Street had repairs to the amount of $6.89.

School Street was resurfaced with grout or rubble stone and also gravelled the entire length, and the sidewalk on the easterly side from Canton Avenue to Central Avenue was covered with cinders to the depth of three inches and covered with stone dust and rolled. There was expended $937.56. The sidewalk on the southeasterly end should be gravelled and the gutters paved on the hill side. It would be necessary to expend $300.

The maintenance of horses, feed, shoeing, and veterinary, with one new horse, was $1,732.48.

The salary of the superintendent from April 1 to Dec. 16, was $1,044.

The amount expended for appliances was $222.50.

The maintenance of tools and wagons was $792.28. One new sanitary wagon was added to this branch of the department.

The amount expended on building and repairing culverts was $347.99.

The plank walk on Blue Hill Avenue was repaired and 1,600 feet of road was resurfaced with gravel on the side east of Robbins Street, with other minor repairs, to the amount of $502.92. This avenue is in a very rough state and should be resurfaced the greater part of its length. At Dollar Lane the grade is several feet high, and should be brought to a better grade, the material therein would assist in putting other places on this avenue in good shape, thereby benefiting the larger part of this avenue. The expense for doing this work would be about three thousand dollars.

Thacher Street plank walks were repaired to the amount of $37.36. Two hundred feet of the street were resurfaced with gravel. The amount expended was $269.39. The sidewalk on the westerly end should be gravelled and put in good condition. Between Central Avenue and Clapp Street there should be considerable work done. The amount of $1,500 is needed for such repairs.

At the town lot it was found necessary to do considerable grading, blasting stone, taking down trees, etc., preparatory to building a new stable. Six hundred and sixty-eight dollars and twenty-nine cents was expended on this work.

Drains Laid. — There were 534 feet of 4-inch, 947 feet of 10-inch, 184 feet of 15-inch, 884 feet of 8-inch, and 900 feet

of 6-inch Akron pipe, and 600 feet of 4-inch land tile laid, the expenditure being $1,139.21.

On Capen Street it was found necessary to build two catch-basins and lay 490 feet of eight-inch pipe to relieve that part of the street and surrounding lands next to the railroad of a pond-hole that occurred in the spring and wet season. The expense of this was $143.30, of which Mr. James S. Russell contributed $100.

There were 187 basins cleaned, removing 1,029 loads, and the amount expended in this direction was $428.50. This work is on the increase from year to year, and the coming season there will be more of it than usual to do, as all the basins on the boulevard will be an addition to the work.

We are now well equipped for cleaning catch-basins as a new sanitary wagon was added the past season, thus enabling us to do the work in a neater manner than in former years. There have been 17 new basins built and 8 repaired the past season, the expense being $752.66. There will be a demand the coming season for about the same amount as there are quite a number now needed, which should be built.

High Street was repaired and gravelled, the expense amounting to $81.69.

Pleasant Street had $33.75 expended on it for cleaning brush and logs away and filling in. The lower end of this street needs resurfacing to the amount of $300.

Sheldon Street had sidewalks gravelled and some repairs, the expense being $52.80.

Town Scales. — It was found necessary to remove the scales on Randolph Avenue on account of the street widening. The old scales were found to be worn out, and new ones were purchased. The land on the town lot was filled in, and the scales placed thereon, so that now the scales are

on the town's land, back of the sidewalk line. The expense of new scales, lumber, carpenter work, and filling in was $675.42.

Otis Street had repairs to the amount of $17.48.

On Randolph Avenue there was expended, repairing plank walks, $63.88.

Valley Road, Oak Road, Maple Street, and Rockview Road have been completed in a thorough manner. It was found necessary to do considerable blasting on Oak Road and Maple Street, and two retaining walls were built on Oak Road, with two sets of stone steps. The amount expended on these streets was $2,919.05.

On Houston Avenue there was $136.13 expended for repairs and filling in of sidewalks. This avenue needs the sidewalks gravelled and other repairs, to the amount of $400.

Hillside Street was in a bad condition and it was resurfaced with gravel from Randolph Avenue to a point near Mr. Rollins's house, the amount expended being $713.53. This street is now in good condition with the exception of the short piece next to the Canton line, which should be gravelled. This could be done for $200.

Cleaning Brooks and Waterways. — The amount expended in this direction was $75.50.

Gun Hill Street had repairs to the amount of $6.25. This street is in bad condition and should be put in good order, the expense of which would be $500.

The cost of repairs made on Green Street was $30.50. This street is in need of repairs which will cost $150.

The repairs on Forest Street amounted to $18.50.

Brush Hill Road was cleaned and repaired the entire length, having twelve hundred feet of gravel resurfacing near Robbins Street. The amount expended was $671.13. This street should have $1,500 worth of gravelling to put it in

good condition. Hayward's Hill and several hundred feet near Mr. A. S. Ferry's and Mr. John H. Stahl's estates need gravelling.

On Eliot Street the sidewalks were gravelled for a distance of 3,000 feet, and 534 feet of four-inch under-drain were laid, also some minor repairs were made, the amount expended being $293.10. This street is in comparatively good order. One new basin and some small repairs will be needed the coming year.

Robbins Street was cleaned and repaired to the amount of $105.13. This street is in good order and needs but small outlays for the coming season.

Metropolitan Avenue was cleaned and repaired, the expense being $89.12.

Fairmount Avenue was cleaned and repaired, and 390 feet of walk filled. This cost $32.50.

On Williams Avenue $17.25 was expended for cleaning and repairing.

Dana Avenue was repaired, the cost being $14.25.

Atherton Street was cleaned and repaired, the expense amounting to $56.37. This street is in need of repairing and gravelling to the amount of $200.

Harland Street was cleaned and repaired, and 600 feet of land tile drain laid, the cost of which was $287. About four hundred dollars' worth of work needs to be done on this street.

When Austin Street was reconstructed in 1898 the change in grade made it necessary for Mr. Abbott to raise his buildings, the town agreeing to fill in his lot and cellar, which has been done, the expense being $145.45.

Seventy-nine dollars and sixty-six cents has been expended for the care and repairs of the different pumps and drinking fountains around the town.

Milton Street was cleaned and repaired, the cost of which was $47. This street is in need of more repairs at Mr. Rackemann's estate and at the corner of Blue Hill Avenue, which will cost $150.

There have been thirty-six new street signs erected the past season, the expense being $144.35. There are many more signs which should be replaced by new ones, as the old ones are past their usefulness and the new ones add greatly to the appearance of the streets.

The expense for the care of weeds and grass on the roadsides was $195.

The cost of building and repairing fences has been $265.75. There is a good deal more of this work to be done, as we have many dangerous places where there is no fence to guard the street. The amount necessary to do this work will be $1,000.

Maple Street was repaired and a ledge removed, costing $67.49. This street needs some sidewalks gravelled and one new basin built, which would cost $150. Aside from this the street is in good condition.

On Quarry Street the amount expended was $66.58 for filling and gravelling sidewalks.

Bryant Avenue was cleaned and repaired, the amount expended being $20.95.

State Street was gravelled to the amount of $56.19.

Churchill's Lane was cleaned under the head of street cleaning, but no repairs were made. This street is in need of gravelling, and the gutters should be paved on the hill. The cost of this will be about seven hundred dollars.

Gutters Paved. — There were cross-gutters paved at Russell and North Russell streets, and one driveway on Adams Street, making a total of 104 yards laid, the expense being $169.08. There should be more of this work done,

especially on the sides of our steep hills, as it prevents the gutters from washing and holds the road in place.

Sidewalks and Street Crossings. — There have been 17,540 lineal feet of sidewalks gravelled. There were six new seam-faced granite crossings laid as follows: two at Adams Street and Granite Avenue, one at Adams Street and Bryant Avenue, one on Adams Street at Mr. Glover's, and two at the corner of School Street and Canton Avenue. There was expended $604.40 in this direction.

The sidewalk on Reedsdale Road was graded up with cinders for a distance of 1,500 feet, the expense being $20.95.

On Oak Street the sidewalk was gravelled, which cost $62. On this street more work should be done on sidewalks, and a ledge should be removed. The amount necessary will be $300.

There was expended for miscellaneous street repairs 402.85.

Some provision will have to be made the coming season for a gravel pit in the centre section of the town as the gravel pit on Vose's Lane is now exhausted. There will not be stock enough in this pit to go through the coming season. Now I should say that the sum of $2,000 would be necessary to make this provision.

Aside from the items herein mentioned the department is in good working order. This department should have a more liberal appropriation as the traffic on our streets is greater, and a different method of construction is called for than in past years, and while our streets will compare favorably with those of other towns, they are far from being satisfactory to many of our citizens.

While it would take an appropriation of some one hundred and fifty to two hundred thousand dollars to put all our

streets and sidewalks in first-class condition, it is hardly to be expected that the town would ever appropriate so large an amount of money at one time, but by having a liberal amount of from fifty to sixty thousand dollars each year and the work carried on systematically the desired results should be accomplished in from three to four years; by that time our streets would compare with those of Brookline and Newton.

Our annual expenses in this department for the maintenance of horses, tools, and wagons, superintendent's salary, handling snow, street cleaning, street watering, care of plank walks, cleaning of catch-basins, repairing bridges and fences, draw-tender's salary, and for telephone service would be about thirteen thousand dollars. Deducting this amount from our appropriation of $39,000 would leave us $26,000 for street repairs and permanent work.

Outside of the regular work this past season the boulevard, on Randolph Avenue, was completed in forty-one days, requiring 4,724¾ tons of crushed stone. There remains now some twenty thousand dollars' worth of work to be done on the boulevard, such as the completion of the southeast side of Randolph Avenue, fences, walls, filling and grading slopes where the abutters call for this work, and if left to be done from the highway appropriation it will seriously cripple the work that is necessary to be done on our streets in other parts of the town.

I have herein tried to show to the citizens of the town the work that has been done the past season, and the work that should be done to our streets as I view the matter. While I may have omitted some important points it has not been intentional.

For the financial statement of this department I will refer you to the Auditor's Report.

INVENTORY OF STOCK AND TOOLS IN THE HIGHWAY DEPARTMENT, DEC. 30, 1899.

Stable and sheds	$3,366 00	1 platform wagon	$40 00
5 tons hay	90 00	1 Concord buggy	160 00
450 lbs. straw	4 50	1 old road machine	5 00
3 single dump carts	150 00	4 Wheeler snow ploughss	200 00
1 stone jigger	50 00	1 stone roller	40 00
1 express wagon	200 00	1 pung	40 00
3 wagon jacks	5 00	1 two-horse sled	50 00
1 road machine	225 00	3 sets double harness	150 00
7 water carts	2,000 00	2 horse collars	5 00
9 old snow ploughs	225 00	1 express harness	35 00
1 ring roller	125 00	1 hitch rope and weight	1 75
1 hand roller	14 00	8 street blankets	48 00
1 traverse runner pung	65 00	1 fur robe	12 00
4 sets single harness	90 00	3 pair lead-reins	9 00
2 light driving harnesses	30 00	4 surcingles	4 00
3 collar pads	3 00	3 sets rope-traces	3 00
12 halters	11 00	8 sets combs and brushes	12 00
5 stable blankets	21 00	6 pails and dippers	2 50
1 woolen laprobe	3 75	50 snow shovels	32 00
3 bridles	6 00	24 mattocks	21 60
6 double and single whiffletrees	9 00	63 pick-handles	10 00
7 feed bags	5 50	6 breaking hammers	15 00
5 hay forks	2 50	9 striking hammers	9 00
2 stable lamps	5 00	4 paving hammers	5 00
75 shovels	75 00	1 four-foot cross-cut saw	4 00
35 hoes	21 00	40 gals. engine oil	9 00
5 post-hole shovels	5 00	1 bbl. crusher grease	10 00
60 picks	40 00	Cart grease	5 00
24 wood and iron rakes	8 00	7 sand tampers	9 00
6 hand hammers	6 00	1 hokey-pokey cart	25 00
1 claw hammer	50	1 branding-iron	1 50
2 24-in. hand saws	2 00	3 levels	1 50
5 oil cans	5 00	23 iron stakes	2 00
40 lanterns	20 00	8 wrenches	5 00
20 gallons cylinder oil	5 00	1 hydrant chuck and reducer,	7 00
2 oil tanks	9 00	3 trowels	2 00
2 tamping irons	3 00	1 auger	75
8 tool boxes	56 00	1 stencil	1 00
4 steel wheelbarrows	12 00	2 tree trimmers	2 00
1 vise	5 00	4 rattan brooms	4 00
1 pair interfering boots	1 00	9 wooden horses	12 00
50 lbs. nails	2 00	2 iron horses	4 00
5 bu. corn	2 25	18 street signs	9 00
8 bu. mill feed	3 60	10 scythes and 8 handles	10 00
8 horses	850 00	3 sod cutters and lifters	3 50
2 double dump carts	400 00	1 copper sprinkler	2 00

1 set of eveners	$5 00	2 jackscrews	$10 00
1 grindstone	8 00	½ bale waste	2 50
1 sanitary wagon	190 00	4 oil cans and fillers	1 50
4 stone-drags	32 00	2 3-in. diaphragm pumps	5 00
1 blasting chain	12 00	1 derrick and rigging	130 00
1 10-ft. ladder	1 68	100 ft. wire cable	8 00
1 20-ft. ladder	2 75	1 cant-dog	1 50
135 ft. rubber hose	16 00	400 lbs. chain	40 00
1 4-qt. measure	25	430 lbs. drills	51 60
1 2-qt. measure	15	270 lbs. bars	27 00
1 wagon pole	5 00	16 gravel screens	80 00
1 tripod	10 00	3 wagon awnings	15 00
1 32-ft. suction hose	48 00	1 office 2 desks 3 chairs	207 00
5 blocks	20 00		
1 transit and rod	150 00		
4 grates and covers	19 00	Hay scales	155 00
2 stoves	20 00	4 gals. varnish	6 00
6 pairs rubber boots	10 00	2 calking irons	1 00
1 lawn mower	5 00	1 battery and wires	25 00
1 cesspool dipper and pail	2 00	1 ice chisel	75
14 ft. 10-in. pipe	3 22	3 common ploughs	15 00
400 ft. 4-in. land tile	22 00	2 Babcock ploughs	50 00
900 ft. 4-in. Akron pipe	72 00	4 peen hammers	3 00
30 ft. 15-in. pipe	15 00	20 lbs. wedges and feathers,	4 00
744 ft. 8-in. pipe	111 60	180 lbs. stone cutter's tools	20 00
25 ft. 6-in. pipe	2 50	1 two-horse scraper	8 00
200 ft. 1-in. iron pipe	10 00	120 ft. rope	7 00
450 ft. 1½-in. iron pipe	48 00	1 steam roller	3,000 00
600 ft. 2-in. iron pipe	108 76	2 tons coal	8 00
48 ft. crossing stone	24 00	1 1800-gal. water tank	53 00
300 paving blocks	9 00	1 coal hod and shovel	70
50 tons crushed stone	35 00	1 sprinkler	75
Miscellaneous cut stone	30 00	1 chamois skin	75
Lumber	10 00	Horse salt	1 00
2 mortar bins	4 00	1 harness punch	1 50
1000 brick	8 00	2 pairs scissors	50
3 cords hard wood	12 00	2 billhooks	2 00
58 chestnut posts	11 60	40-ft. curbing	30 00
1 block and rope	4 50	1 whip	1 00
1 stone crusher	500 00	Sponges, harness soap, etc.	2 00
1 Knowles steam pump	70 00	1 pair horse clippers	4 00
1 engine, boiler, and building,	450 00	6 axes	6 00
1 pair belt clamps	5 00	12 hammer-handles	1 56

Respectfully submitted,

LAROY S. NEVONS,

Superintendent of Streets.

REPORT OF SUPERINTENDENT OF POLICE.

MILTON, Dec. 30, 1899.

To the Honorable Board of Selectmen:

GENTLEMEN, — I have the honor to submit for your consideration the annual report of the Police Department for the year ending Dec. 31, 1899.

ORGANIZATION.

Superintendent, — Maurice Pierce.
Deputy Supt., — Timothy McDermott.

PATROLMEN.

James Wigley.	George C. Partelow.
George B. Bradlee.	Fred M. Farrington.
Henry A. Paterson.	Thomas H. Welch.
Henry C. Shields.	Lucius E. Damon.
John F. O'Connell.	William J. Stephenson.
William S. Fallon.	John H. Higgins.
Frank H. McDermott,	Charles E. Page.

Driver of Patrol Wagon, — John E. Shields.
Keeper of Lock-up, — Edwin A. Houghton.

ARRESTS FOR THE YEAR 1899.

Number of persons arrested	107
Males	104
Females	3
Residents	54
Non-residents	53

The offences for which arrests have been made are as follows: —

Assault and battery	18
Bastardy	1
Breaking and entering	4
Cruelty to animals	2
Disturbing the peace	23
Drunkenness	25
Embezzlement	1
False measure	3
False pretence	1
Fraud	1
Insane	3
Larceny from a building	1
Larceny	8
Receiving stolen property	2
Stubborn children	1
Tramps	5
Trespass	8
Total	107

MISCELLANEOUS BUSINESS.

Accidents reported and assistance rendered	7
Buildings found open and secured	44
Cases investigated	154
Dead bodies found	1
Defective streets and sidewalks	52
Defective water pipes	7
Defective wires	14
Disturbances suppressed	8
Dogs killed	12
Electric lights reported out	633
Fire alarms given	3
Fires extinguished without alarm	3

Injured and sick persons assisted	3
Lost children restored	3
Rescued from drowning	1
Residences reported temporarily vacant, and special police protection required	43
Stray animals found	12
Street obstructions removed	11
Stray teams put up	7
Water running to waste	5
Officers detailed by request of citizens	35
Officers detailed for public occasions	15
Value of property reported stolen	$246.08
Value of property recovered	$224.00
Value of property stolen out of town and recovered in Milton	$225.00

LODGERS.

Number of persons applying for lodgings the past year	944
American born	515
Foreign born	429
Males	943
Females	1

CHANGES.

During the past year two officers have been discharged from the force, and five appointments were made, thereby increasing the force three men, who have been detailed as day patrol.

POLICE SIGNAL SYSTEM.

Our electric (Gamewell) police signal system has given very satisfactory service. During the year one police box has been added, located on Pleasant Street near Edgehill Road.

I repeat my recommendation of the past two years in regard to the station house and stable, especially the stable.

MORALS OF THE TOWN AND THE FORCE.

The conduct and discipline of the police force during the year have on a whole been very good.

I can say as I have in the past, that the town is comparatively free from crime.

The addition of three day patrolmen has had a good effect on the lawless element, with the electric cars, together with hawkers and pedlers, junk dealers, and the enforcement of the town by-laws, and considering the geographical condition of our town, the duties of the day officers will increase. The care of vacant houses during the summer season devolves on this department; that they received proper attention the past season is conclusive from the fact that of the number reported vacant, and for which police protection was asked, not one of them was molested.

While I believe that additional officers could be used to advantage to the town, one on Brush Hill district and one on Blue Hill district, business conditions and the necessity for economy makes the addition to the force at the present inexpedient.

CONCLUSION.

I wish to extend my sincere thanks to your Honorable Board for their efforts to promote the success of the department, and to all others who have assisted me in the discharge of my official duties.

I desire to especially thank the members of the department for their attention to duty and their co-operation in all my efforts.

Respectfully submitted,

MAURICE PIERCE,

Supt. of Police.

LOCATION OF POLICE SIGNAL BOXES.

12 Adams Street, corner Churchill's Lane.
13 Granite Avenue, corner Squantum Street.
14 Adams Street, near East Milton Depot.
15 Adams Street, corner Washington Street.
121 Adams Street, corner Centre Street.
122 Pleasant Street, corner Edgehill Road.
21 Adams Street, opposite Associates Hall.
22 Randolph Avenue, corner School Street.
23 Randolph Avenue, corner Centre Street.
24 Randolph Avenue, corner Pleasant Street.
25 Hillside Street, corner Harland Street.
31 Central Avenue, corner Eliot Street.
32 Canton Avenue, opposite Town Hall.
33 Canton Avenue, corner Harland Street.
34 Brush Hill Road, corner Robbins Street.
35 Blue Hill Avenue, corner Blue Hill Parkway.
41 Blue Hill Avenue, corner Atherton Street.
42 Brush Hill Road, corner Bradlee Road.
43 Canton Avenue, corner Dollar Lane.
44 Brush Hill Road, corner Milton Street.
45 Blue Hill Avenue, corner Brush Hill Road.
141 Central Avenue, near Hinckley Road.

ENGINEERS' REPORT.

To the Honorable Board of Selectmen:

Gentlemen, — The Board of Engineers herewith presents its annual report.

During the past year, our town has been subject to a perfect epidemic of incendiary fires. These fires have all been of the "criminal mischief" class, and seem to have been set by two sets of persons. One set have devoted their attention to burning buildings, and the other to setting fire to the woods. These fires, together with fires the result of the usual causes, have given this department more work than it has ever had before in any one year. The department responded to one hundred and one calls of one kind and another, which is almost double the usual number.

It gives us great satisfaction to note the increasing use our citizens make of telephones to notify the department of small fires in the woods, chimney fires, and the like, rather than sending in a bell alarm.

Our policy in the management of the department has been the same as for many years past, to increase the efficiency of what the town now has, rather than to increase the size of the department. To this end, a bell tower was built on the central fire station, and the bell for many years in the tower of the Town Hall removed to it. This is a very great improvement, as it develops the full usefulness of this excellent bell. A number of fire fighting tools were purchased, and have been used with good success. One thousand feet of new hose was bought, which brought up the average

quality of our hose supply, so that now there is on hand six thousand feet of good hose, and eight hundred feet of hose that is not wholly reliable. Five hundred feet of new hose should be bought every year to keep the supply up to a first-class standard.

The apparatus, buildings, equipments, horses, and fire-alarm apparatus are all in good condition.

In the month of September, we became aware that our annual appropriation would not be sufficient to carry us through to March 1, the end of the financial year, and so stated to the Warrant Committee. The cause of there not being sufficient money for the year was due to several reasons. A sufficiently large appropriation was not asked for at the beginning of the year; the large number of fires necessitated renewing many equipments that were worn out by actual use, and there was also a sharp advance in price of all materials used by the department. The Warrant Committee at a meeting in December transferred one thousand dollars to the department for its use, which will enable us to end the financial year with all bills paid, and all equipments in first-class condition.

Several firemen while on duty have been injured, but the injuries, while painful, were fortunately none of them of a serious nature.

On the evening of Dec. 7, for an incendiary fire on Highland Street, three fire-alarm boxes were pulled at the same instant of time, — a seemingly impossible thing to do. As none of the boxes were the non-interfering type, the result was a mixed-up alarm. The old style of box should by degrees be replaced by non-interference boxes.

There have been few changes in the call force, and none in the permanent force during the year. There are eight permanent and forty-two call men, not counting eight sub-

stitutes. The work done by the members has been excellent, and for a call department we think the discipline is reasonably satisfactory.

One new fire-alarm box, No. 371, Thacher Street, near Central Avenue, has been added.

The district fire marshal has investigated seven fires. We have responded to eight calls to Boston, and the Boston department has responded to fifteen calls to Milton. If it had not been for the valuable assistance rendered by the Boston department at the Strangeman fire May 15, there is no question but the greater part of the village would have been destroyed.

Two new horses will have to be bought, and the house of Hose 2 should be painted inside, and the cellar concreted this year.

The Board of Engineers recommend that there be appropriated for the maintenance and current expenses of the department for the ensuing year, $16,500.

Respectfully submitted,

GEO. F. CHOATE.
C. WILDER HOLMES.
ELLERTON P. WHITNEY.

Milton, Dec. 30, 1899.

REPORT OF THE BOARD OF HEALTH.

Believing that a report of the work of this Board should be made to the town at the close of each year, we herewith tender the following as a résumé of our work for a portion of the year ending Dec. 31, 1899.

The Board organized March 25 with the selection of Samuel D. Parker as Chairman, and Thomas N. Perkins as Secretary. John H. Emerson was reappointed as Agent of the Board. Henry B. Martin, Town Clerk, was authorized to sign burial permits for the Board. Permits were granted to John R. Lawrence, Charles Mitchell, Charles Tate, and the Odorless Excavating Company of Boston, to empty vaults and privies. Timothy G. Ryan was appointed Inspector of Plumbing and Examiner of Applicants for Plumbers' Licenses. Later in the year a Deputy Inspector of Plumbing was appointed to examine such plumbing work as should be done by Mr. Ryan, Michael J. McCue being chosen.

The annual tour of the piggeries was made in June, and all but two were found in excellent condition. Permits were granted to eight persons to keep two hundred and forty-five pigs. But a single complaint was made against a piggery during the entire year. There is now very little swill carted into the town from Boston, and the number of pigs kept here is diminishing every year.

To the regret of his associates, Mr. Perkins found it necessary to resign from membership in this Board on Oct. 18,

after a service of several years. At a joint meeting, held by the Board of Selectmen on Nov. 3, Thomas K. Cummins, Jr., was elected for the balance of the year.

A number of specimens of drinking water have been analyzed and several wells condemned. During the fall the water used in each of the school-houses was examined. During September the taste and odor of the water supplied by the Milton Water Company was very disagreeable. Owing to the prolonged drought, it was found necessary to put increased pressure upon the pumps, in order to secure a sufficient quantity of water; and the quality was not as good as usual. The water was analyzed at frequent intervals by the State Board of Health, not merely the water from the mains, but that taken from the separate wells. An engineer of the State Board made a thorough examination of the entire plant at Hyde Park, and all his suggestions were adopted by the water company, and carried out as quickly as possible. New wells were driven, a new pump introduced, and the water has been much improved. We do not apprehend further difficulty with it in the near future. No case of illness attributed to the use of this water has been reported either to this Board or to the Hyde Park Board of Health.

Of the various complaints received during the year, one of the most important was that the New York, New Haven & Hartford Railroad Company was offering water to its patrons in Milton station which was taken from a well located but a few feet from a receptacle for sewage of the Milton sewerage system. On analysis this water was found to be dilute sewage, and the prompt abatement of the nuisance was ordered and secured.

The number of cases of contagious diseases has been as follows: —

Diphtheria	5
Scarlet fever	11
Typhoid fever	4
Measles	20

Of the diphtheria cases three were in one family where isolation was impossible. Almost all the cases of scarlet fever were of a very mild type, the eleven cases occurring in seven families. The typhoid cases were sporadic, occurred in widely separated sections of the town, and could not be traced to a common source of infection. But two deaths occurred during the year from contagious disease, and both of these were typhoid cases.

The last report of the State Board of Health shows that, out of eighty-eight cities and towns in this State with a population of five thousand and over, but three have a lower death rate than Milton. Our death rate for 1898 was estimated to be 11.66 per thousand. The average for the eighty-eight cities and towns is 17.21.

We consider the above a very satisfactory statement; and believing that complete statistics might show that Milton is as healthful as any town in the Commonwealth, we requested the Board of Assessors to ascertain the number of persons living in each house, when they make their annual round in May, so that we might have exact data as to population, upon which to compute our death rate and the number of cases of contagious diseases per thousand. We believe that this annual census would be helpful to the town in many ways, but a majority of the Board of Assessors have declined to accede to our request.

The members of this Board believe that there is no one thing that is as important in advancing the healthfulness of the town as the extension of our sewerage system year by year. The steady increase in population that is taking place in East Milton and Mattapan, and to a less extent in the Lower Mills section of the town, in connection with our public water supply, makes the primitive methods of drainage and sewage disposal in vogue in the greater part of the town more and more dangerous. We have been fortunate in escaping severe epidemics of the preventable diseases, but the number of cases must certainly increase, and we are liable to have serious trouble in the more thickly-settled portions of the town, unless there is adequate provision made for the disposal of sewage. We would also urge all property holders, on streets where sewers have already been constructed, to connect their plumbing with the sewer as soon as possible.

The leaky tin roof of the "Pest House" has been replaced by a new one; and with the improvements made and bedding purchased last year, it can be used at any time for two cases of small-pox, should any cases develop in the town. The Board earnestly recommends all inhabitants of the town who have not been vaccinated to thus protect themselves and their neighbors; and in case small-pox should break out in our immediate vicinity, it advises all persons who have not been vaccinated within a few years to be re-vaccinated.

We believe the work of the Inspector of Plumbing to be of much value, and his records are concise and well kept. We enclose his annual report with our approval.

Mr. Emerson, the agent of the Board, has been faithful and efficient in the discharge of his duties.

The Board wishes to call attention to the fact that it can-

not be held responsible for verbal complaints made to individual members or to the agent. All complaints should be made in writing and signed by an inhabitant of the town. Blank forms will be supplied upon application to any member of the Board or to the agent.

(Signed) SAMUEL D. PARKER, *Chairman*,
THOMAS K. CUMMINS, JR.,
WALTER C. KITE, M. D., *Secretary*,
Board of Health.

REPORT OF INSPECTOR OF PLUMBING.

MILTON, MASS., Jan. 1, 1900.

To the Honorable Board of Health:

GENTLEMEN, — I herewith submit my annual report from Jan. 1, 1899, to Jan. 1, 1900.

During the year, one hundred thirty-nine (139) applications have been filed and one hundred thirty-nine permits have been issued to perform plumbing.

The approximate valuation of the work, as specified in these applications, is thirty-seven thousand one hundred dollars ($37,100).

The number of master plumbers who have registered in Milton is forty-three (43). The number of journeymen is twenty-four (24).

There have been three examinations held by the Examining Board, and seven applicants were examined. Out of this number three have passed successfully, and have been granted licenses as journeymen.

The plumbing laws have been complied with in all cases.

The office hours of this department are, Tuesday and Thursday evenings, at Town Hall, from 7.30 till 9 o'clock. Any information in regard to plumbing can be had during office hours.

I would recommend that the following changes be made in the plumbing laws: —

In Section 4 thereof, after the word "possible," the rest of section be stricken out and the following substituted:

"After all fixtures are set the work shall be given a final test, either smoke, peppermint, or other reliable test, under pressure," so that the section shall read as follows: "Plumbing work shall not be used until the same is tested in the presence of the inspector, with the water test if possible. After all fixtures are set the work shall be given a final test, either smoke, peppermint, or other reliable test, under pressure."

In Section 8 thereof, that the word "soldering" be stricken out and the word "wiping" be inserted, so that the section would read as follows: "All joints in iron drain pipes, soil or vent pipes must be made by thoroughly caulking the same with molten lead. Joints of lead pipes with iron pipes must be made by wiping the same into brass ferrules, and caulking the ferrules to iron pipes, or screwing them to wrought iron pipes."

Respectfully submitted,

TIMOTHY G. RYAN,
Inspector of Plumbing.

REPORT OF INSPECTOR OF BUILDINGS.

MILTON, Jan. 1, 1900.

To the Honorable Board of Selectmen:

GENTLEMEN, — I herewith present my report for the year ending 1899.

The building laws seem to meet with the good approval of the citizens of the town, but have not been complied with in all respects.

I recommend that a few radical changes should be made in the present laws, as they do not state definitely the timbers to be used on different floor plans; also other changes should be made in Section 15 in regard to the framing of buildings. There should also be a stated rule for fire-stops to be used, and to require all chimney flue lining to start two (2) feet below the under side of the first floor joist and extend to the roof boarding.

The above changes and others, if stated in the present building laws of the town, would make it a great deal easier for the builder in every respect to comply with them.

There have been one hundred and thirty-five (135) applications made for new building additions and alterations. There have been one hundred and thirty-five (135) permits issued and filed for the same.

WORK OF BUILDING DEPARTMENT BY MONTHLY REPORTS.

There have been one hundred and thirty-three (133) permits issued for wooden buildings, and two (2) for brick buildings.

Month.	Permits issued for Wooden Buildings.	Permits issued for Brick Buildings.	Valuation of work as stated by Applications.
January	7	0	$17,300
February	5	0	8,150
March	10	0	18,000
April	12	0	20,060
May	16	0	40,650
June	15	0	25,025
July	7	1	29,875
August	19	1	88,775
September	11	0	19,450
October	16	0	27,250
November	7	0	31,585
December	8	0	22,675
Totals	133	2	$348,795

Thus making the valuation of work completed and to be completed three hundred forty-eight thousand seven hundred and ninety-five dollars ($348,795).

The office hours of the department are from 7.30 to 9 o'clock Tuesday and Thursday evenings.

Respectfully submitted,

G. E. BURT,
Inspector of Buildings.

STREET DEPARTMENT.

§ Reverting.
‖ County Award.
¶ Carried forward.

Heavy ruling indicates accounts whose balances on March 1, 1899, revert to the Treasury. Balances of all other accounts are carried forward until such time as the object for which they were appropriated is accomplished.

The balance of $1,250 against account of County Award has been passed to the credit of Street Widening Account.

	$3,255 39
Less expenses for year 1899	41 63
	$3,213 76

EXTRACT FROM THE WILL OF ELIZABETH T. L. REED.

"All the rest, residue and remainder of all the moneys remaining in the hands of said Executor or Administrator, I direct shall be divided into three equal parts.

. . . . . .

"The second of said parts shall be paid to and deposited with the Treasurer for the time being of said Town of Milton, the same to be received, held and invested by said Town as a fund to be known as the 'Jason Reed Fund,' and the income thereof shall be applied to the preservation, care, improvement or embellishment of the said Milton Cemetery.

"And the third of said parts shall be paid to said Town of Milton, and the same shall be applied by the proper legal authorities to or towards laying out, improvement or ornamentation of a Public Park or Parks in said town, in such manner as said authorities may deem advisable.

"I make the foregoing bequests in favor of First Parish, the Cemetery and the Parks in said Milton, both on account of the deep interest taken by my father, the late Jason Reed, deceased, in the affairs of said Town, and of my own profound desire for the welfare of said Town and of the citizens thereof."

ANNUAL TOWN REPORT

OF

MILTON

MASS.

FOR THE YEAR ENDING

DECEMBER 31, 1900.

COMPILED BY

THE AUDITORS.

BOSTON:
MILLS & KNIGHT CO., PRINTERS,
1901.

AUDITORS' STATEMENT.

To the Citizens of Milton:

The undersigned Auditors have examined the books and accounts of all persons intrusted with the expenditure of Town money, and all original bills and vouchers on which moneys have been paid from the treasury for the year ending Dec. 31, 1900, and have found them correct.

Respectfully submitted,

GEORGE A. FLETCHER,
ARTHUR A. HIBBARD,
Auditors.

MILTON, Dec. 31, 1900.

TAX RATE . . . $11 PER $1,000.

Janitor of Town Hall.
JAMES SANGSTER, JR.

BY-LAWS OF THE TOWN OF MILTON.

ADOPTED BY THE TOWN AND APPROVED BY THE SUPERIOR COURT, JULY 7, 1896.

MEETINGS.

I. The warrants for all town meetings shall be directed to either of the constables of the town, and the meetings shall be notified by posting attested copies of the warrant in each of the post-offices of the town fourteen days at least before the day of such meeting, and by leaving printed copies thereof at the dwelling-houses in the town.

II. The annual town meeting for the election of town officers shall be held upon the first Monday of March in each year, the polls to be open at nine o'clock in the forenoon, and after the election of a moderator they shall remain open until two o'clock in the afternoon for the election of such other town officers as are required by law to be elected by ballot, all said officers to be voted for on one ballot. At any time after 2 P. M. a vote may be passed to close the polls in not less than ten minutes.

"After the closing of the polls and the election of other town officers, the remaining articles in the warrant shall be considered.

"After the declaration of the vote for town officers, thirteen legal voters shall be appointed by the moderator, who, together with the chairman of the selectmen, chairman of the school committee, and the officer in charge of the repairs on highways (if there be such officer), shall constitute a committee to be known as the Warrant Committee. And the persons so appointed shall continue members of said committee until the town meeting of the ensuing year.

"Said Warrant Committee shall, within two weeks after their appointment, meet, at the call of the member thereof first named, for organization by the choice of a chairman and secretary. And they shall meet thereafter from time to time as they may deem advisable.

"It shall be the duty of said committee to consider those affairs and interests of the town the subject-matter of which is generally included in the warrants for its town meetings; and the officers of the town shall, upon their request, furnish them with facts, figures, and any other information pertaining to their several departments, provided, however, that any such information may be withheld when, in the opinion of the officer or board of officers so requested, the communication thereof might injuriously affect the interests of the town or its citizens.

"Said Warrant Committee shall consider the various articles in the warrants for all the town meetings held during the period for which they were appointed, including the various articles in the warrant for the annual town meeting next after their appointment. And they shall report in print before all such town meetings their estimates and recommendations for the action of the town."

III. All motions shall, if required by the moderator, be reduced to writing before being submitted to the meeting.

IV. Upon taking the question, if the decision of the moderator is doubted, or a division of the house called for, the moderator shall request the voters to be seated, and shall appoint tellers; the question shall then be distinctly stated, and those in the affirmative and negative, respectively, shall be requested to rise and stand in their places until they are counted by the tellers, who shall carefully count each side and make report thereof to the moderator.

V. No vote shall be reconsidered at the same meeting, except upon a motion made within one hour of the adoption of such vote, or unless ordered by two thirds of the voters present and voting thereon.

VI. When a question is under debate, no motion shall be received but to adjourn the meeting, to lie on the table, to commit or amend, to refer or to postpone to a day certain, or to postpone indefinitely; which several motions shall have precedence in the order in which they are arranged.

FINANCIAL REGULATIONS.

VII. The financial year shall begin with the first day of March.

VIII. The selectmen shall annually, not less than seven days before the annual meeting, cause to be printed and distributed among the tax-payers of the town a detailed report of all moneys received into and paid out of the town treasury during the preceding calendar year, with such information and recommendations as they may deem proper, and with detailed estimates of the amounts of money that will be required for the ensuing financial year. With this report shall be printed the records of all meetings of the town held since the last annual report was printed, the reports of the auditors, of the road commissioners, and of the engineers of the fire department, the collector's account of receipts, payments, and abatements, a list of all taxes assessed, an abstract of the births, marriages, and deaths, to be furnished by the town clerk, a statement concerning the condition and funds of the public library, and of the cemetery, to be furnished by the trustees respectively, and a statement of all other funds belonging to the town or held for the benefit of its inhabitants.

IX. The assessment of taxes shall be completed, and the tax list and warrant shall be delivered to the collector on or before the first day of August in each year.

X. Poll taxes shall be paid on demand, and all other taxes assessed in each year shall be paid on or before the first day of December in the same year; and on all such taxes as shall not be paid on or before said first day of December, interest shall be charged at a rate to be fixed annually by the town, pursuant to section 67 of chapter 11 of the Public Statutes; and the collector shall use all the means and processes provided by law for the collection of all taxes remaining unpaid after the first day of December in the same year.

XI. No officer of the town shall be interested directly or indirectly in any contract, bargain, sale, agreement, or employment in which the town is interested, in that department of the affairs of the town to which the duties of his office pertain; and any and all such contracts, bargains, sales, agreements, or employments shall be utterly void as to the town; but

nothing in this section shall apply to the payment to any officer of his salary, or for his services for performing the duties of his office, or to any contract or agreement for such payment.

XII. The selectmen, being duly authorized by vote of the town under the limitations imposed by statute, may authorize the treasurer to borrow money temporarily in anticipation of the collection of taxes, or for loans authorized by vote of the town, and to give promissory notes therefor in behalf of the town, the same to be signed by the treasurer and countersigned by a majority of the selectmen.

XIII. No money granted for special purposes shall be applied to any other use unless by a vote of the town, and all unexpended balance of such grants shall be stated in the selectmen's annual report.

XIV. No order shall be drawn by any officer or committee on town treasurer for any purpose not authorized by a vote of the town or by the laws of the Commonwealth, nor shall any such draft be made for any amount which overdraws the appropriation against which it is made, whether general or special; and the town treasurer shall keep all necessary accounts in respect to the several separate appropriations and the drafts made against each, and shall not honor any draft which does not state specifically the appropriation against which it is drawn, or which overdraws such appropriation, whether general or special.

To provide for possible necessary expenditures of departments in excess of appropriations made, the town shall annually appropriate a certain sum of money to be known as the "Contingent Fund." No direct drafts against this fund shall be made, but transfers from the fund may be made by vote of the warrant committee to the account of any other appropriation on application of any officer or department. Certified copy of such vote shall be sent to the town treasurer, and the treasurer shall transfer accordingly, and honor drafts against the funds so transferred as if originally appropriated.

XV. No grant of a sum of money exceeding five hundred dollars shall be made until the subject-matter thereof has been considered and the estimates reported to the town either by the selectmen, the school committee, the road commissioners, or other town officers, or by some committee chosen for that purpose in pursuance of a vote of the town.

XVI. The selectmen shall have full authority, as agents of the town, to institute and prosecute suits in the name of the town, and to appear and defend suits brought against it, unless it is otherwise specially ordered by a vote of the town.

XVII. Whenever it shall be necessary to execute any deed conveying land or other instrument required to carry into effect any vote of the town, the same shall be executed by the selectmen, or a majority thereof, in behalf of the town, unless the town shall otherwise vote in any special case.

XVIII. Two auditors shall be chosen by ballot at the annual meeting, who shall have the power and perform the duties prescribed by statute.

POLICE REGULATIONS.

XIX. Whoever, without a written license from the road commissioners or other officers having charge of the repairs of the highways, shall suffer

any wood or coal, or any cart or wagon, to remain within the limits of a highway or street, or upon a sidewalk of a highway or street, so as in any manner to obstruct the travel thereon, or for more than twenty-four hours, shall forfeit and pay a sum not less than one dollar and not more than ten dollars for each offence; and he shall be subject to a like penalty if he neglects to remove the same within the time ordered by such officers, who may revoke such license at any time.

XX. Whoever, without the written permission of the road commissioners or other town officers having charge of the repairs of the highway, shall place or cause to be placed in any highway or street, or upon any sidewalk thereof, any ashes, dirt, rubbish or filth of any kind, or any animal or vegetable substance, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXI. Whoever shall suffer any horse, or grazing beast, or swine, to run at large in the town, or to feed in any highway or street, either with or without a keeper, and whoever shall drive any such animal upon and over any sidewalk, or suffer any horse to remain hitched across any sidewalk, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXII. Whoever shall coast upon a sled or sleds on Adams Street, between Churchill's Lane and the line of the city of Boston, or the sidewalks thereof between these points, or any other highway, street, or public place upon which the selectmen shall by public notice prohibit such coasting; and whoever shall drive, wheel, or draw any coach, cart, wheelbarrow, hand-cart, velocipede, bicycle, or any carriage of burden or pleasure (except children's carriages drawn by hand), or coast upon a sled, or sleds, upon any sidewalk in the town, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXIII. Whoever shall behave in any indecent or disorderly manner, or use profane, indecent, or insulting language in any public place, or on any sidewalk or street in the town, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, and any person or persons who shall play or perform on any musical instruments, or sing, or parade, or march or congregate in any of the streets or public places of the town, except in connection with a funeral, without a written permit from the selectmen, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

XXIV. Three or more persons shall not continue to stand or remain in a group, or near to each other, on any sidewalk or in any public place in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on; and any person who shall violate the provisions of this By-Law shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXV. Whoever shall be or remain on any doorstep, portico, or other projection from any house or building, or upon any wall or fence on or near any highway, street, or public place, after being requested by the occupant of the premises or by any constable or police officer to remove therefrom, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXVI. Whoever shall affix, by paste or otherwise, any handbill, placard, notice, or advertisement, or paint, draw, or stamp the same, or any marks or figures, to or upon any sign-boards of the town, or to or upon any building, fence, wall, tree, or structure, in the town, without the permission of the owner of such building, fence, wall, tree, or structure, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence; and if such handbill, placard, notice, advertisement, mark, or figure be obscene or indecent, the penalty shall not be less than twenty dollars for each offence.

XXVII. Whoever shall undertake to enter a particular drain into a common sewer, or make or cause to be made an excavation in a highway or street for any purpose without a permit in writing from the road commissioners (or from the selectmen, if there be no road commissioners), or without complying with the conditions and directions of such permit, shall forfeit and pay a sum not exceeding ten dollars.

XXVIII. Whoever shall lead or cause to be led into any highway, street, or running stream in the town any drain or pipe from any house or other building whereby filthy water or other unclean matter may be emptied into or upon any such highway, street, or running stream; and whoever shall throw, lead, or discharge, or cause to be thrown, led, or discharged, into any highway, street, or running stream in the town any noxious or poisonous matter or substance, or any matter or substance which shall cause an offensive smell or odor, or which shall be destructive of, or injurious to, animal life, shall forfeit and pay a sum not less than five dollars nor more than twenty dollars.

XXIX. The selectmen may grant licenses to use a certain portion of any public way as a carriage-stand, under such terms and conditions as they may prescribe; and no person shall use any portion of any public way in this town as a carriage-stand for the solicitation of passengers for hire without a license from the selectmen; but licenses shall not be confined to one person to the exclusion of other applicants, and shall be granted so as to allow competition and promote public convenience.

TRUANCY.

XXX. The town of Milton hereby avails itself of the several provisions of the statutes of this Commonwealth, now in force, relating to habitual truants and absentees from school, and in pursuance of authority conferred thereby adopts the following By-Laws: —

XXXI. All children between the ages of seven and fifteen years, residing in said town, and who may be found wandering about in the streets or public places of said town, having no lawful occupation or business, not attending school, and growing up in ignorance, shall be committed to the Plummer Farm School, Salem, or the County Truant School at Walpole, for confinement, instruction, and discipline.

XXXII. Two or more truant officers shall be appointed annually, whose duty it shall be to inquire into all the violations of the truant laws and of the law relating to compulsory education, and to do all the acts required of them by the laws of the Commonwealth.

XXXIII. It shall be the duty of every truant officer, previous to making any complaint under these laws, to notify the truant or absentee from

school, also his parent or guardian, of the offence committed, and of the penalty therefor, and if the truant officer can obtain satisfactory pledges for the restraint and reformation of the child, he may, at his discretion, forbear to prosecute, so long as such pledges are faithfully kept.

XXXIV. It shall be the duty of the school committee, the teachers of the public schools, and the citizens generally, to aid the truant officers as far as possible in the discharge of their duties.

XXXV. It shall be the duty of the truant officers to keep a full record of all their official acts, and make an annual report thereof to the school committee, who shall publish the same with their own report.

XXXVI. Nothing in these By-Laws shall be construed as to alter or impair the obligation and duty of teachers to enforce punctuality and regularity of attendance, and to preserve good order and discipline.

THE CEMETERY.

XXXVII. The sole care, superintendence, and management of the cemetery shall be intrusted to a board of five trustees to serve for the period of five years; one of said board shall retire and a new member be elected at each annual March meeting of the town.

XXXVIII. Citizens of Milton who are heads of families shall be entitled to lots in the cemetery free of expense, allowing one lot to a family, subject to the regulations adopted by the town.

XXXIX. The trustees, when in their judgment it shall be deemed advisable, may sell lots at the rate of fifty cents a square foot, but only to those who are in some way connected with Milton people.

XL. The proprietor of each lot shall cause to be erected, at his own expense, corner-stones, and a step with his name and the number of the lot inscribed on the same, and shall cause his lot to be kept in proper order; and if the proprietor shall omit, for thirty days after notice, to erect such landmarks and to keep the lot in order, the trustees shall have authority to have the same done at the expense of said proprietor.

XLI. No lot shall be used for any other purpose than as a place of burial for the dead; and no proprietor shall suffer the remains of any person to be deposited within the bounds of his lot for hire; nor shall any proprietor sell or transfer the whole or any part of his lot without the consent of the trustees.

XLII. If, in the judgment of the trustees, any trees or shrubs in any lot shall become detrimental to the adjacent lots or avenues, or dangerous or inconvenient, it shall be the duty of said trustees for the time being to enter upon said lot, and to remove said trees and shrubs, or such parts thereof as are thus detrimental, dangerous, or inconvenient.

XLIII. There shall be no structure nor inscription placed in, upon, nor around any lot which the trustees for the time being shall deem offensive or improper; and it shall be the duty of the trustees to remove all offensive or improper objects.

XLIV. The trustees for the time being shall have authority to purchase any tomb in Milton cemetery offered for sale, paying for the same such sums as, in their judgment, may be fair and reasonable. They shall also be authorized to give for any tomb a lot, to be constructed on the land occupied by the tomb, or to be selected at some other point in the cemetery

grounds, as they may agree with the proprietor of the same. Should there be no living proprietors or legal representatives of a tomb, the trustees may take possession of such tomb, carefully remove its contents to a lot prepared for the purpose, and erect over the remains a suitable memorial stone.

XLV. The following regulations shall be posted within the cemetery: —

1. All persons are prohibited from driving on the borders.

2. No horse can be left upon the grounds without a keeper, unless fastened to posts provided for the purpose.

3. All persons are prohibited from discharging firearms within the grounds of the cemetery, except in case of military funerals.

4. All persons are prohibited from writing upon or otherwise defacing any sign, monument, fence, or other structure.

5. All persons are prohibited from gathering flowers, or breaking any tree, plant, or shrub.

6. Dogs are not allowed within the cemetery grounds.

BY-LAWS IN RELATION TO THE CONSTRUCTION AND INSPECTION OF BUILDINGS AND PLUMBING, FOR THE TOWN OF MILTON.

SECTION 1. There shall be in the town of Milton a Department for the Inspection of Buildings, which shall be furnished with office room and such supplies for the transaction of business as the selectmen may provide.

SECT. 2. The officer of said department shall be called the "Inspector of Buildings." He shall be appointed by the selectmen, and shall hold office until his successor is appointed. His compensation shall be regulated by the selectmen.

SECT. 3. The selectmen may, after a hearing, of which public notice shall be given at least seven days prior to said hearing, by posting a written notice in each post-office in the town and on the public bulletin boards in the town and by publishing the same in a newspaper published in the town, or, if there be no such newspaper, in one published in the city of Boston, pass a vote establishing building limits within the town, and upon the acceptance of said vote by the inhabitants of the town, at a town meeting called as provided by law, said building limits shall be established. Said building limits may comprise the whole or any specified part or parts of the territory of the town.

SECT. 4. The inspector of buildings may, so far as is necessary for the performance of his duties, enter any building or premises within said town at any reasonable hour.

SECT. 5. The inspector of buildings shall keep a record of all business of the department, and shall submit to the selectmen such reports of the same as they may require.

SECT. 6. No work shall be done upon any wall, building or other structure within said "building limits," except such repairs as may be necessary for the preservation of said wall, building or other structure, nor shall any wall, building or other structure be erected, raised, moved, enlarged, altered, built upon or torn down, within said "building limits," without a permit from the inspector of buildings.

SECT. 7. Applications for such permits shall be in writing, and shall be directed to the inspector of buildings, who shall keep a record of the same.

SECT. 8. The plans and specifications of every building, or other structure, and of every alteration in a building, or other structure, for which permit is required, shall be deposited temporarily with the inspector of buildings. A copy of the plans and specifications of every public building and of every alteration in a public building shall be deposited permanently. All plans and specifications deposited under this section shall be dated and signed by the inspector immediately upon being received by him.

Every permit issued by the inspector of buildings shall state the purpose for which the building is to be used, and the conditions, if any, under which it is granted. All permits issued shall be recorded in detail, and said records shall be preserved.

SECT. 9. The inspector of buildings shall not give a permit for the erection of any building or other structure, until he has inspected the plans and specifications thereof, and ascertained that the building, as planned, has sufficient strength, proper means of ingress and egress, and that it conforms with the laws; or for the alteration of any building or other structure, already erected, until he has examined said building or other structure and the plans and specifications of said alteration, and has satisfied himself that said building, as altered, will have sufficient strength, proper means of ingress and egress, and that it will conform to the laws.

The inspector of buildings shall, as often as is practicable, inspect all work for which a permit has been issued, and shall see that it is being carried on according to the requirements of law.

SECT. 10. No permit for the erection of any building to be used as a factory, or in which steam or other motive power is to be used, or to be used for the manufacturing of chemicals, or for the alteration, or the moving of any building for any of such uses, shall be granted until after public hearing before the selectmen, and no building for any of such purposes shall be erected, altered or moved without such permit.

Notice of such hearing shall be given, at least seven days prior to said hearing, by posting a written notice in each post-office in the town, and on the public bulletin boards in the town, and by mailing a copy of the same to the owners of premises within 500 feet of the proposed location of the building, addressed to their last known residence or place of business, and by publishing the same in a newspaper published in the town, or, if there be no such paper, in one published in the city of Boston.

No boiler to furnish steam for motive power shall be set, or erected, except on permit from the inspector of buildings, issued after hearing as provided above.

This section (ten) shall apply to the whole town, irrespective of the building limits prescribed by this by-law.

SECT. 11. Permits for the erection, alteration, or moving of any building, to be used as a stable, in which more than four horses are to be kept, shall only be granted after hearing as provided in the preceding section. Notice of such hearing shall be sent to the Board of Health, in addition to the notices required in said preceding section.

SECT. 12. The selectmen may, in their discretion, after hearing as provided in the two previous sections, instruct the inspector of buildings not

to issue the permit asked for at such hearing, and, in such case, no such permit shall issue.

SECT. 13. In case the owner of any building or other structure, or an applicant for a permit to erect or alter a building or other structure, is dissatisfied with any order or decision of the inspector of buildings, the matter shall be referred to the selectmen, who, within one week from said reference, shall hear the parties, and, after taking such expert opinion as may seem to the selectmen to be necessary, give their decision. In case the decision of the inspector of buildings be affirmed, the expense of any expert opinion, taken by the selectmen, shall be paid to the town by the owner or applicant, on demand; otherwise such expense shall be borne by the town.

SECT. 14. Every portion of every structure in process of construction, alteration, repair or removal, and every neighboring structure or portion thereof, affected by such process or by any excavation, shall be properly supported during such process or excavation.

SECT. 15. All chimneys shall be built of brick or stone and shall be lined with flue linings or shall have an eight-inch brick wall from the bottom of the first floor to the top of the attic floor, and shall be topped at least three feet above the highest point of contact with the roof. No nails shall be driven into any chimney at any point; and no woodwork shall be within one inch of any chimney.

All wooden buildings of two or more stories shall have sills, posts, and girts, mortised, tenoned and pinned together, and shall be properly braced. End girts shall be placed in all wooden buildings. Sills shall not be less than 6 x 6 inches, and posts and girts not less than 4 x 6 inches.

All woodwork including lath and plaster within two feet of any heating apparatus or smoke-pipe, and all woodwork including lath and plaster coming in contact with any pipes from said apparatus, shall be properly protected by metal or stone shield.

No wooden building shall be built within two feet of the line of an adjoining lot unless a brick wall at least eight inches in thickness shall be substituted for the wooden wall next said line.

Where dwellings of more than two stories are to be occupied by more than two families there must be at least two flights of stairs from ground floor to top floor, or one flight from ground floor to top floor inside, together with an approved fire-escape outside.

Every owner, either by himself or through his builder or carpenter, shall, before making any substantial alterations in a building, or erecting any new building, within the town of Milton, whether inside the building limits or not, file at the office of said inspector, upon blanks furnished by the town for that purpose, notice of all such work or alterations as come under the provisions of this section; and no such work shall be done in any building in said town except subject to the approval of said inspector.

This section (fifteen) shall apply to the whole town irrespective of the building limits prescribed by this by-law.

SECT. 16. The selectmen may, after a hearing, of which public notice shall be given at least seven days prior to said hearing by posting a written notice in each post-office in the town, and on the public bulletin boards in the town, and by publishing the same in a newspaper published in the town,

or, if there be no such newspaper, in one published in the city of Boston, and by giving personal notice to the owners of land to be affected, by delivering to such owners a copy of said notice or by depositing the same in the post-office, post-paid, and addressed to them at their last known residence or place of business, pass a vote establishing a building grade or building grades for any part or parts of the town, and on the acceptance of such vote by the inhabitants of the town at a town meeting, called as provided by law, said building grade or building grades shall be established.

Said building grade or building grades may be at different heights above the level of the sea, in different parts of the town, as the nature of the ground may require.

No cellar floor of any building erected on land for which a building grade has been established, nor any part, except the foundation, of a building which has no cellar, shall be below said grade.

SECT. 17. The inspector of buildings in the name of the town may take such measures as the public safety requires, to carry this by-law and every section thereof into effect, and any expense incurred in so doing may be recovered by the town from the owner of the defective property.

SECT. 18. There shall be a fee of $2.00 for any permit required by this by-law. Fees shall be collected by the inspector before issuing permit, and be by him paid into the town treasury, and shall be applied toward defraying the cost of the department for the inspection of buildings.

SECT. 19. Any person, firm or corporation guilty of a breach of any regulation contained in this by-law shall be liable to a fine of not less than $20.00 nor more than $100.00 for each such offence. Such fines to be paid into the town treasury.

BY-LAW IN RELATION TO PLUMBING.

Only plumber allowed to perform plumbing.

SECTION 1. No person shall carry on the business of plumbing unless he is a plumber and shall have first registered his name and place of business in the office of the inspector of buildings; and notice of any change in the place of business of a registered plumber shall be immediately given to said inspector.

Permit necessary before work is performed.

SECT. 2. Every plumber, before doing any work in a building, shall, except in the repair of leaks, file at the office of the said inspector, upon blanks furnished for that purpose, a notice of the work to be performed; and no such work shall be done in any building without the approval of such inspector.

Plumbing not to be concealed from view until approved.

SECT. 3. No drainage, sewerage or plumbing shall be covered or concealed in any way until after it has been examined and approved by the inspector. Notice must be sent to the inspector when the work is sufficiently advanced for such inspection, and it shall be the duty of such inspector, within two working days after receiving such notice, to inspect the same; and in case any change therein shall be found necessary, he shall direct in writing the change to be made.

Plumbing to be tested by water pressure before using.

SECT. 4. Plumbing work shall not be used until the same is tested in the presence of the inspector, with the water test, if possible, or with the peppermint or other reliable test, and approved by him in writing; and such written approval shall be sent to the owner and the plumber.

Buildings to be separately and independently connected with sewer.

SECT. 5. The sewerage of every house or building shall be separately and independently connected with the street sewer, where one is provided, or with a proper cesspool; and where there is no sewer in the street, and it is necessary to construct a private sewer to connect with one on an adjacent street, such plans shall be used as may be approved by this department.

Sizes and kinds of pipe to be used.

SECT. 6. The soil-pipe of every building shall be of sufficient size to receive, and allow freely to pass, all that enters or should enter the same. All soil-pipes shall be of extra heavy cast-iron pipe, all drain and connecting ventilating pipes within the building shall be of sufficient size and made of cast-iron, with leaded and calked joints, but wrought-iron pipe may be used for vent purposes; said pipes shall be properly secured to walls and ceiling with wrought-iron hangers. The soil-pipe of any building shall not be less than 4 in., vents not less than 1½ in., and iron waste not less than 2 in. in diameter.

Running trap, where placed.

SECT. 7. Every drain-pipe shall be supplied with a suitable trap placed with an accessible clean-out at the point where it leaves the building, and shall have a proper pitch, and extend 5 ft. outside of cellar wall; said clean-out may be placed outside of cellar wall if made accessible. The pipe from this point to sewer or cesspool must have tight joints. All drain or ventilation pipes must extend undiminished in size at least 2 ft. above the highest window on roof, and all changes in direction of soil-pipes must be made by **Y** branches.

All changes in direction of soil-pipe must be by Y branches.

Joints in iron pipe, how made.

SECT. 8. All joints in iron drain-pipes, soil or vent pipes, must be made by thoroughly calking the same with molten lead. Joints of lead pipes with iron pipes must be made by soldering the same into brass ferrules, and calking the ferrules to iron pipes or screwing them to wrought-iron pipes.

Every fixture shall have a separate trap.

SECT. 9. Every water-closet, urinal, sink, basin, bath-tub, slop-hopper, and every tray or set of trays, shall be furnished with a separate trap, placed as near the fixture as possible, and in no case shall the waste from the bath-tub or other fixture be connected with a water-closet trap. Traps should be protected from siphonage or air pressure by special pipes, of a size not less than the waste-pipe, placed outside or below the trap; lead pipes may be used only where they are exposed to view. Air-pipes for water-closets shall not be less than 2-in. bore. Two or more air-pipes may be connected together, or with a soil-pipe, but in such connection with soil-pipe it must be above the upper fixture of the building.

Traps to have air-pipes.

SECT. 10. No drip or overflow pipes from safes under water-

What fixtures shall not be connected with soil-pipe.

closets, urinals or other fixtures, no overflow from tanks or cisterns, no waste-pipe from a refrigerator or other receptacle in which food is stored, no rain-water conductors and no steam exhaust or steam from waste-pipes, shall be connected with any soil-pipe. No openings will be allowed in the sewer-pipe of any building for the purpose of receiving the surface drainage of the cellar. No brick, sheet-metal, earthenware or chimney flue shall be used as a sewer-ventilator, or to ventilate any trap, drain, soil or waste-pipe; and no water-closet shall be flushed from a tank that is used for any other purpose.

No flue, etc., to be used for a ventilator.

Closet supply-pipe.

SECT. 11. Every water-closet or line of water-closets on the same floor, inside of the building proper, shall be supplied with water from a tank, and shall have a flushing pipe of not less than $1\frac{1}{4}$ in. in diameter inside.

Construction cesspool.

SECT. 12. Cesspools shall have a top of stone or arched brick with iron rim and cover, and may be laid up dry, unless otherwise ordered by the board of health.

Vaults, how constructed.

SECT. 13. Every privy vault shall be at least 4 ft. distant from the line of any adjoining lot, unless by the consent of the owner of such lot; and every vault shall be so constructed as to be conveniently approached, opened and cleaned, and shall be made tight, so that the contents thereof cannot escape therefrom, if, in the opinion of the inspector, the surroundings require it.

Woodwork around water-closets.

SECT. 14. No water-closet shall be enclosed with any upright woodwork.

Appeals.

SECT. 15. In the case of any dispute or difference in opinion between the inspector and any person, firm or corporation, the same shall be submitted by either party to the local board of health, who shall pass upon the same, and whose finding therein, after hearing, shall be final and conclusive upon all parties. No member of said board shall sit in a case in which he is interested, and in case of such disqualification, or of the necessary absence of any member, the two other members shall appoint a substitute. If two or more members are so disqualified or absent, the inspector shall appoint one substitute, the appellant another, and the two so appointed shall, if necessary, appoint a third.

SECT. 16. The inspector of buildings, in the name of the town, may take such measures as the public safety requires, to carry this by-law and every section thereof into effect, and any expense incurred in so doing may be recovered by the town from the owner of the defective property.

Penalty.

SECT. 17. In case of violation of any one or all of the foregoing sections, by any person or persons, firm or corporation, by or upon whom any duty is herein prescribed or imposed, he or they or it so offending shall be liable to a fine not exceeding the sum of one hundred dollars, to be paid into the town treasury.

GENERAL PROVISIONS.

XLVI. The penalty of any violation of these By-Laws shall, when not otherwise provided for, be the forfeiture and payment for each offence of a fine not exceeding twenty dollars.

XLVII. Prosecutions for the breach of the provisions of the By-Laws of the town shall be commenced within six months from such breach.

XLVIII. These By-Laws may be amended at any annual town meeting, an article having been inserted for the purpose in the warrant for such meeting, and upon the approval of these By-Laws all By-Laws heretofore passed shall be annulled and repealed.

MILTON TOWN RECORDS

FOR THE MUNICIPAL YEAR 1900–1901.

MARCH MEETING.

WARRANT.

Commonwealth of Massachusetts.

NORFOLK, ss. *To either of the Constables of the Town of Milton*, GREETING:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Milton, qualified to vote in Town affairs, to meet at the Town Hall, in said Milton, on Monday, the fifth day of March next, at 9 o'clock A. M., then and there to act upon the following articles, to wit: —

ARTICLE 1. To choose a Moderator to preside at said meeting.

ART. 2. To choose all such Town officers as are required by law to be chosen by ballot; also on the same ballot to vote "Yes" or "No" in answer to the questions, "Shall license be granted for the sale of intoxicating liquors in this Town?" and "Shall the Town accept the provisions of chapter 344 of the Acts of 1899, entitled an Act to make eight hours a day's work for city and town employees?" The polls will be opened at nine o'clock in the forenoon, and may be closed as early as two o'clock in the afternoon.

ART. 3. To choose all such Town officers as are not required by law to be chosen by ballot.

ART. 4. To hear and act upon the Auditors' report, and reports of other Town officers or committees.

ART. 5. To see what sum of money the Town will appropriate for the support of schools the ensuing year.

ART. 6. To see what sum of money the Town will appropriate for streets the ensuing year.

ART. 7. To see what sum of money the Town will appropriate for the improvement of the cemetery the ensuing year.

ART. 8. To see what sum of money the Town will appropriate for the Public Library the ensuing year.

ART. 9. To see what sum of money the Town will appropriate for the support of the poor the ensuing year.

ART. 10. To see what sum of money the Town will appropriate for soldiers' relief the ensuing year.

ART. 11. To see what sum of money the Town will appropriate for the Fire Department the ensuing year.

ART. 12. To see what sum of money the Town will appropriate for the Police Department the ensuing year.

ART. 13. To see what sum of money the Town will appropriate for street lighting the ensuing year.

ART. 14. To see what sum of money the Town will appropriate for salaries of Town officers the ensuing year.

ART. 15. To see what sum of money the Town will appropriate for Town Hall and lot the ensuing year.

ART. 16. To see what sum of money the Town will appropriate for State aid the ensuing year.

ART. 17. To see what sum of money the Town will appropriate for printing the ensuing year.

ART. 18. To see what sum of money the Town will appropriate for miscellaneous expenses the ensuing year.

ART. 19. To see what sum of money the Town will appropriate for the Health Department the ensuing year.

ART. 20. To see if the Town will accept the list of jurors as prepared by the Selectmen.

ART. 21. To authorize the Collector of Taxes to use all means of collecting the taxes which a Town Treasurer, when appointed Collector, may use.

Art. 22. To fix the rate of interest on taxes unpaid after a time fixed by the Town.

Art. 23. To see if the Town will vote to appropriate the sum of two hundred dollars ($200) to be expended by Huntington Frothingham Wolcott Post 102, G. A. R., on Memorial Day.

Art. 24. To see what sum of money the Town will appropriate for insurance on the Town buildings the ensuing year.

Art. 25. To see what sum of money the Town will appropriate for hydrant rental the ensuing year.

Art. 26. To see what sum of money the Town will appropriate for transportation of scholars the ensuing year.

Art. 27. To see what action the Town will take in regard to borrowing money.

Art. 28. To see if the Town will vote to appropriate the sum of four hundred and twenty-five dollars ($425) for plans and clerk hire for the Board of Assessors.

Art. 29. To see if the Town will vote that all sewer assessments paid to the Town Treasurer shall be placed to the credit of the Sewer Commission, to be used by them for sewage purposes.

Art. 30. To see if the Town will vote that the Tree Warden shall hereafter be chosen by official ballot.

Art. 31. To see what sum of money the Town will appropriate for the general uses of the Board of Park Commissioners the ensuing year.

Art. 32. To see what sum of money the Town will appropriate for the use of the Tree Warden, to be expended in the care and planting of shade trees the coming year.

Art. 33. To see what salary (if any) the Town will vote te pay the Tree Warden the ensuing year.

Art. 34. To see what sum of money the Town will vote to appropriate to be expended by the Park Commissioners in conjunction with the School Committee in the improvement of the school lots.

Art. 35. To see what sum of money the Town will vote to appropriate to be expended by the Board of Park Commissioners in grading a ball field, erecting a fence, and planting along the roadside at Brook Road Playground, and whether the Town will vote that such sum or any portion thereof remain to the credit of the Board until so expended by them.

Art. 36. To see if the Town will vote to appropriate the sum of one hundred and sixty-five dollars and eighty-five cents ($165.85) to make good the deficit in the Brook Road Playground account caused by the use of the money appropriated in 1898 for the purpose of paying the award of damages and expenses incidental thereto.

Art. 37. To see if the Town will vote to accept Blue Hill Terrace street, as laid out by the Selectmen under the act authorizing the assessment of betterments.

Art. 38. To see if the Town will vote to accept the following additional police regulations as by-laws: —

No person shall move, or assist in moving, any building, more than ten feet high, over any way in the Town which the Town is obliged to keep in repair, without the written permit of the Selectmen being first obtained; nor, having obtained such permit, without complying with the restrictions and provisions thereof.

In case any building shall be moved contrary to the provisions of the preceding section, the owner of the building shall reimburse the Town for all expenses and damages which the Town may be compelled to pay by reason of the way being encumbered.

No person having charge of any beast shall suffer or permit any such beast to run, gallop, trot, pace, or go, at a rate exceeding eight miles to the hour, through any way, avenue or street in this Town.

No person shall permit any team under his care or control, to stand across any public highway or street, in such a

manner as to obstruct the travel over the same, for an unnecessary length of time; no person shall stop with any team in any public street so near to another team as to obstruct public travel; and no person shall stop with any team or carriage upon or across any crossing in any street or highway in the Town.

No person shall throw stones, snow-balls, sticks or other missiles, or kick at foot-ball, or play at any game in which a ball is used, or fly any kites or balloons, in any of the public ways in the town.

No person shall place, or cause to be placed upon any public way, foot-path or sidewalk within the town, any lumber, iron, coal, trunk, bale, box, crate, cask, barrel, package or other thing, or shall otherwise obstruct such way by placing things therein, for more than one hour, or more than ten minutes after being notified by a constable, police officer or the selectmen; or shall lay, throw or place, or cause to be laid, thrown or placed any ice or snow into any street within the town, unless the same be broken into small pieces and spread evenly on the surface of such street.

Any person who intends to erect, repair or take down any building on land abutting on any way which this town is obliged to keep in repair, and desires to make use of any portion of said way for the purpose of placing thereon building materials or rubbish, shall give notice thereof to the selectmen. And thereupon the selectmen may grant a permit to occupy such a portion of said way to be used for such purpose as in their judgment the necessity of the case demands and the security of the public allows; such permit in no case to be in force longer than ninety days, and to be on such conditions as the selectmen may require; and especially, in every case, upon condition that during the whole of every night, from twilight in the evening until sunrise in

the morning, lighted lanterns shall be so placed as effectually to secure all travellers from liability to come in contact with such building materials or rubbish.

No person shall use any portion of any way which the town is obliged to keep in repair, without the permit, in writing, of the selectmen, as above provided, nor, having obtained such permit, shall fail to comply with the conditions thereof; and in addition to any penalty to which he may be subjected under these by-laws for such failure, he shall reimburse the town for all expenses and damages for which the town may be compelled to pay by reason of such unauthorized use, or of any failure to comply with said conditions.

No persons shall distribute papers, circulars, or advertisements through the town in such manner as to create a disturbance or litter.

No person shall fire or discharge any gun, fowling-piece or firearm within two hundred feet of any street in the town of Milton or on any private grounds, except with the consent of the owner thereof; *provided*, however, that this by-law shall not apply to the use of such weapons at any military exercise or in the lawful defence of the person, family or property of any citizen.

No person shall wilfully deface or injure any public playground, planting space, flower-bed, tree, shrub or grass border.

No person shall deal in junk within the town or go from house to house purchasing or endeavoring to purchase junk, bottles, bones or grease without a license from the selectmen.

No person shall own or keep in the town of Milton any dog which by barking, biting, howling, or in any other manner disturbs the quiet of any neighborhood.

Except when otherwise provided by law, prosecutions for

offenses under the by-laws of the town may be made by any constable or police officer of the town.

Any person who shall violate any provision of these by-laws, or who shall refuse or neglect to obey any order of the Board of Selectmen issued under these by-laws, and directed to him and properly served upon him, shall, in cases not otherwise provided for, forfeit and pay for each offense a fine not exceeding twenty dollars.

Art. 39. To see if the Town will vote to have a committee of five appointed by the Chair, who shall investigate and report in print to the town, within sixty days, as to the advisability of the Town's purchasing the plant of the Milton Water Company.

If the report of said committee is favorable to the purchase of said plant, the committee shall request the Selectmen to call a Town meeting to act upon their report, and shall draft such articles for the Town-meeting warrant as will enable the Town, should it so desire, to pass the necessary votes to accomplish the purpose intended.

Art. 40. To see if the Town will vote to place four electric lights on Squantum Street between Unguety Brook and Granite Avenue, and appropriate money for the same.

Art. 41. To see if the Town will build a plank sidewalk on Randolph Avenue, west side, from Centre Street to School Street.

Art. 42. To see if the Town will place two electric lights on Reed Street, and two on Highland Street near Reed Street, and appropriate money for the same.

Art. 43. To see if the Town will vote to authorize its Board of Selectmen, or a committee appointed therefor, to execute, for and in its behalf, a contract with the Milton Light and Power Company for lighting the streets and ways of the Town for a term of ten years, in accordance with a proposition made by said company to said Board, together

with such additional conditions as said Board or committee may deem to be in the interest of the Town.

Art. 44. To see if it is the sense of the Town that the Town Clerk shall receive a fair compensation for his services.

Art. 45. To see if the Town will vote to instruct the Board of Assessors to ascertain the number of persons living in each house, when they make their annual round in May, so that the Board of Health may have exact data as to population, upon which to compute the death rate, and the number of cases of contagious diseases occurring in the Town in each year.

Art. 46. To see what action the Town will take in regard to Pine Tree Brook from Pope's Pond to Turner's Pond.

Art. 47. To see if the Town will vote to appropriate the sum of twenty thousand dollars ($20,000) for payment of land damages on the streets, avenues and roads widened by vote of the Town, March 7, 1898.

Art. 48. To see if the Town will vote to appropriate the sum of two thousand dollars ($2,000) toward the reconstruction of Granite Avenue, the work to be done only in conjunction with the State, county, or other cities or towns interested.

Art. 49. To see if the Town will vote to appropriate the sum of two hundred dollars ($200) additional to what has been already appropriated, that a portion of its records copied, "Births, Marriages and Deaths," may be bound in cloth.

Art. 50. To see if the Town will instruct the School Committee to sell the old schoolhouse at East Milton.

Art. 51. To see what sum the Town will appropriate to build an addition and improve the ventilating and heating of the Thatcher School.

Art. 52. To see if the Town will vote to accept Lincoln

Street as laid out by the Selectmen under the acts authorizing the assessment of betterments and appropriate money for the same.

Art. 53. To see if the Town will accept Reservation and Waldeck Roads as laid out by the Selectmen under the acts authorizing the assessment of betterments and appropriate money for the same.

Art. 54. To see if the Town will accept Grafton Avenue and State Street as laid out by the Selectmen under the acts authorizing the assessment of betterments and appropriate money for the same.

Art. 55. To see if the Town will vote to build a hard-pine plank walk, three and one-half feet wide, along the north side of Eliot Street, from Blue Hills Parkway to Central Avenue, and appropriate money for the same.

Art. 56. To see if the Town will vote to authorize the Selectmen to release to the abutters that part of the land on the southerly side of Edge Hill Road, included in the taking of March, 1898, that comes outside of the street line as the street is now laid out.

Art. 57. To see if the inhabitants of the Town will accept the report of the Selectmen laying out a special or reserved space for the use of street railways from a point near the northerly end of Eliot Street, at or near the easterly end of the present reserved space therein, thence along Eliot Street to Adams Street, thence along Adams Street to the boundary line between the Town of Milton and the City of Boston.

And you are directed to warn said inhabitants, qualified as aforesaid, to meet at the time and place, and for the purpose herein mentioned, by posting attested copies of this warrant in each of the post-offices of said town, fourteen days at least before said meeting, and leaving printed copies hereof at the dwelling-houses in said town.

Hereof fail not, and make due return of this warrant, with your doings hereon, to the Town Clerk, at the time and place of said meeting.

Given under our hands, at Milton, this ninth day of February, nineteen hundred.

J. ALBERT SIMPSON,
J. WALTER BRADLEE,
JACOB A. TURNER,
Selectmen of Milton.

Commonwealth of Massachusetts.

NORFOLK, ss. MILTON, February 19, 1900.

Pursuant to the within warrant, I have notified the inhabitants of the Town of Milton, as herein directed, to meet at the Town Hall, in said Milton, upon the date above mentioned, for the purposes herein set forth.

PETER MCINTYRE,
Constable of Milton.

At a meeting of the inhabitants of the Town of Milton, held according to the foregoing warrant upon March 5, 1900, the following proceedings were had upon the several articles in said warrant, namely: —

ARTICLE 1. Felix Rackemann, Esq., was chosen Moderator.

S. Egbert Alden, Albert S. Ferry, George V. Fabian and Paul Carpenter were appointed by the Selectmen as Ballot Clerks; and Charles Copeland, Arthur M. Gardner, J. Harry Holmes, Harvey F. Chute, George W. Sloan, Oscar Price, Hazen B. Williams, Herbert W. Bater and Henry F. Briley, Tellers.

The following were appointed additional Tellers by the Moderator: Edward B. Wheeler, Matthew A. Welch, David S. Hill, Frank H. Wright, Edmund J. Carpenter, Harry A. McLaughlin, Edmund J. Duffy and John Colgan, all of the before-mentioned being sworn by the Town Clerk.

At 1 P. M., George V. Fabian, Ballot Clerk (being a candidate for office), resigned his office at the suggestion of the Moderator, who appointed William F. Lee to fill vacancy. (Sworn by Moderator.)

At 2 o'clock P. M., *Voted*, That the polls for Town officers be closed in fifteen minutes.

At 2 o'clock and 15 minutes P. M., *Voted*, That the polls be closed.

ART. 2. J. Walter Bradlee, J. Albert Simpson and Jacob A. Turner were chosen Selectmen, Overseers of Poor, and Surveyors of Highways.

Henry B. Martin was chosen Town Clerk.

Edwin D. Wadsworth was chosen Assessor for three years.

Joseph Holmes was chosen Town Treasurer.

John H. Emerson was chosen Collector of Taxes.

George A. Fletcher and Arthur A. Hibbard were chosen Auditors.

Charles E. Rogerson was chosen Park Commissioner for three years.

James H. Packard was chosen Sewer Commissioner for three years.

Walter C. Kite, M. D., was chosen a member of the Board of Health for three years, and Thomas K. Cummins, Jr., for two years.

The following Constables were chosen, namely: Peleg Bronsdon, Edwin L. Crossman, Fred M. Farrington, Edwin A. Houghton, Herbert R. Lawrence, Jacob S. Lincoln, Timothy McDermott, Peter McIntyre, Charles Mitchell, Maurice Pierce, Henry C. Shields and John H. Tucker.

Harrison O. Apthorp, Charles E. Rogerson and Joseph C. Whitney were chosen Trustees of Public Library for three years.

C. Minot Weld was chosen Trustee of Cemetery for five years.

Voted, That no license be granted for the sale of intoxicating liquors in this town, the ballot being as follows: Yes, 227 votes; No, 501 votes.

Voted, That Chapter 344, Acts of 1899, entitled, "An Act to make eight hours a day's work for city and town employees," be accepted; the vote being as follows: Yes, 398; No, 321.

ART. 3. To choose all such Town officers as are not required by law to be chosen by ballot.

The following officers were elected *viva voce:* —

Tree Warden. — Nathaniel T. Kidder.
Fence Viewers. — Henry W. Vose and George Y. Badger.
Surveyors of Lumber. — John H. Burt and Arthur M. Gardner.
Field Driver and Pound Keeper. — Elias C. Conant.

ART. 4.

Voted, That the Auditors' report be accepted.

ART. 5.

Voted, To appropriate the sum of $60,000 for the support of schools the ensuing year, $3,000 of said amount being for plumbing changes and sewer connections.

ART. 6.

Voted, To appropriate the sum of $42,000 for highway expenditures the ensuing year.

ART. 7.

Voted, To appropriate the sum of $2,000 for improvement of Cemetery the ensuing year.

ART. 8.

Voted, To appropriate the sum of $3,800, and the dog tax of 1899, for Public Library expenditures the ensuing year.

It was also *Voted*, That the thanks of the Town be given to Mr. N. T. Kidder for the presentation of a $1,000 bond for Library use.

ART. 9.

Voted, To appropriate the sum of $8,000 for the support of poor the ensuing year.

ART. 10.

Voted, To appropriate the sum of $500 for soldiers' relief the ensuing year.

ART. 11.

Voted, To appropriate the sum of $17,500 for the Fire Department the ensuing year.

ART. 12.

Voted, To appropriate the sum of $19,500 for the Police Department the ensuing year.

ART. 13.

Voted, To appropriate the sum of $13,050 for street lighting the ensuing year.

ART. 14.

Voted, To take up Articles 14 and 44 in conjunction.

Voted, To appropriate the sum of $6,400 for salaries of Town officers the ensuing year; $250 of said sum for increase of Town Clerk's salary to five hundred dollars, and $150 of said sum for increase of Town Treasurer's salary to six hundred fifty dollars.

ART. 15.

Voted, To appropriate the sum of $2,000 for Town Hall and lot the ensuing year; $800 of said sum to be expended in sanitary improvements.

ART. 16.

Voted, To appropriate the sum of $1,420 for State aid the ensuing year.

ART. 17.

Voted, To appropriate the sum of $1,350 for printing the ensuing year.

ART. 18.

Voted, To appropriate the sum of $20,500 for miscellaneous expenses the ensuing year, as follows: For general miscellaneous expenses, $3,500; for interest, $11,000; for abatement of taxes, $2,500; for the contingent fund, $3,500.

ART. 19.

Voted, To appropriate the sum of $1,500 for the Health Department the ensuing year.

ART. 20.

Voted, That the following list of jurors, prepared and presented by the Selectmen, be accepted by the Town: —

ART. 21.

Voted, That the Collector of Taxes be authorized to use all means of collecting the taxes which a Town Treasurer, when appointed Collector, may use.

ART. 22.

Voted, That the rate of interest on all taxes unpaid December 1, be six per cent. per annum.

ART. 23.

Voted, To appropriate the sum of $200, to be expended by Huntington Frothingham Wolcott Post, 102, G. A. R., on Memorial Day.

ART. 24.

Voted, To appropriate the sum of $1,800 for insurance of town buildings the ensuing year.

ART. 25.

Voted, To appropriate the sum of $8,800 for hydrant rental the ensuing year.

ART. 26.

Voted, To appropriate the sum of $2,500 for transportation of scholars the ensuing year.

ART. 27.

Voted, That the Town Treasurer be authorized, with the sanction and approval of the Selectmen, to borrow such sums of money as may be necessary for Town use in anticipation of the taxes for the year 1900, and that all sums so borrowed be made specifically payable from the taxes of the present year, 1900.

ART. 28.

Voted, To appropriate the sum of $425 for plans and clerk hire for the Board of Assessors.

ART. 29.

Voted, That all sewer assessments paid to the Town Treasurer shall be placed to the credit of the Sewer Commission, to be used by them for such sewer purposes as may be directed by vote of the Town.

ART. 30.

Voted, That hereafter the Tree Warden shall be chosen by official ballot.

ART. 31.

Voted, To appropriate the sum of $100 for general use of the Park Commission the ensuing year.

ART. 32.

Voted, To appropriate the sum of $1,000, to be expended by the Tree Warden in the care and planting of shade trees the coming year.

ART. 33.

Voted, That the Tree Warden serve without pay.

ART. 34.

Voted, To appropriate the sum of $100, to be expended by the Park Commissioners, conjointly with the School Committee, in the improvement of the school lots.

ART. 35.

Voted, That the sum of $2,000 be appropriated, to be expended by the Board of Park Commissioners in grading a ball field, erecting a fence, and planting along the roadside at Brook Road Playground, and that said sum remain to the credit of the Board until so expended.

ART. 36.

Voted, To indefinitely postpone.

ART. 37.

Voted, To indefinitely postpone.

ART. 38.

Voted, That the following by-law be accepted by the Town: —

"No person shall move, or assist in moving, any building more than ten feet high over any way in the Town which the Town is obliged to keep in repair, without the written permit of the Selectmen being first obtained; nor, having obtained such permit, without complying with the restrictions and provisions thereof.

"In case any building shall be moved contrary to the provisions of the preceding section, the owner of the building shall reimburse the Town for all expenses and damages which the Town may be compelled to pay by reason of the way being encumbered."

Voted, That all succeeding paragraphs in this article (38th) be referred to a committee of three, to be appointed by the Chair, who shall have public hearings, and report at the next annual meeting.

Committee appointed: Albert A. Brackett, Horace E. Ware, C. Minot Weld.

ART. 39.

Voted, That a committee of five be appointed by the Chair, who shall investigate and report in print to the Town, on or before the next annual meeting, as to the advisability of the Town's purchasing the plant of the Milton Water Company, and that the sum of $1,000 be placed at the disposal of the committee for investigation.

If the report of said committee is favorable to the purchase of said plant, the committee shall request the Selectmen to call a Town meeting to act upon their report, and shall draft such articles for the Town-meeting warrant as will enable the Town, should it so desire, to pass the necessary votes to accomplish the purpose intended.

Committee appointed: Samuel Gannett, John F. Brown, M. Vassar Pierce, James S. Russell, H. Clifford Gallagher.

ART. 40.

Voted, To place four electric lights on Squantum Street, between Unquety Brook and Granite Avenue, and that the sum of $90 be appropriated therefor.

ART. 41.

Voted, That Articles 41 and 55 be considered in conjunction.

Voted, That the subject-matter of said articles be referred to the Selectmen, to take such action as they deem proper.

ART. 42.

Voted, To place two electric lights on Reed Street, and two on Highland Street, near Reed Street, and that the sum of $90 be appropriated therefor.

ART. 43.

Voted, To indefinitely postpone.

ART. 44.

See Article 14.

ART. 45.

Voted, That the Board of Assessors be instructed to ascertain the number of persons living in each house when they make their annual round in May, so that the Board of Health may have exact data as to population, upon which to compute the death rate and the number of cases of contagious diseases occurring in the town each year.

ART. 46.

Voted, To refer to Park Commissioners.

ART. 47.

Voted, That the sum of $20,000 be appropriated for payment of land damages on the streets, avenues and roads widened by vote of the Town, March 7, 1898.

ART. 48.

Voted, That the sum of $2,000 be appropriated toward the reconstruction of Granite Avenue, the work to be done only in conjunction with the State, county, or cities or towns interested.

ART. 49.

Voted, To appropriate the sum of $100 (additional to what has been already appropriated), that a portion of the Town Records copied, "Births, Marriages and Deaths," may be bound in cloth.

ART. 50.

Voted, That the School Committee be instructed to sell the old school building at East Milton.

ART. 51.

Voted, That the sum of $2,500 be appropriated for building an addition, and improving the ventilation and heating of the Thacher School.

ART. 52.

Voted, To indefinitely postpone.

ART. 53.

Voted, To indefinitely postpone.

ART. 54.

Voted, That Grafton Avenue and State Street, as laid out by the Selectmen, under the acts authorizing the assessment of betterments, be accepted, and that the sum of $800 be appropriated therefor.

ART. 55. See Article 41.

ART. 56.

Voted, That the Selectmen have authority to release to the abutters that portion of land on the southerly side of Edge Hill Road included in the taking of March, 1898, that comes outside of the street line, as the street is now laid out.

ART. 57.

Voted, To accept the report of the Selectmen in laying out a special or reserved space for the use of street railways, from a point near the northerly end of Eliot Street, at or near the easterly end of the present reserved space therein; thence along Eliot Street to Adams Street; thence along Adams Street to the boundary line between the Town of Milton and the City of Boston.

The two following sets of resolutions upon the death of the late George R. R. Rivers, Esq., being presented for the consideration of the meeting, were, upon being read, unanimously accepted and adopted as the sense of the voters there assembled: —

RESOLUTIONS.

Whereas, Death has taken from us George R. R. Rivers, Esq., an able and conscientious citizen, distinguished for the deep sincerity and the high integrity of his public life; and

Whereas, He has frequently served the Town of Milton, fairly and impartially, in the capacity of Moderator; and

Whereas, It is befitting that the Town of Milton should tender a recognition of his services and untiring devotion to the interests of his fellow-citizens:

Be it now Resolved, That it is the sense of the voters, in Town meeting assembled, that these resolutions be spread upon the records of the Town, and a copy of the same transmitted to the bereft family.

Resolved, By the citizens of the Town of Milton, in their annual Town meeting assembled,

That, by the death of the late George R. R. Rivers, the Town of Milton has lost a loyal and wise representative and counsellor, and the people a tried and devoted friend. True always to the best interest of this Town, and faithful and kind to all its people, his death has inflicted a great loss.

That the sympathy of the Town be extended to his family in their bereavement.

That these resolutions be entered in the records of the Town, and that a copy suitably engraved be forwarded by the Clerk to his family.

Voted, That the thanks of the meeting be tendered Felix Rackemann, Esq., for the able and impartial manner in which he had conducted the business of the meeting as Moderator.

The foregoing meeting was opened at 9 o'clock A. M. by the Town Clerk, who proceeded to the reading of the warrant.

Upon the conclusion of the reading of the second article, it was moved by Mr. Apthorp that the further reading of the warrant be dispensed with.

Said motion being put for the consideration of the meeting, it was carried by unanimous vote, and the further reading of the warrant (except the concluding paragraphs) was dispensed with.

At 8.53 o'clock P. M., *Voted*, To dissolve the meeting.

A true record.

Attest: HENRY B. MARTIN, *Town Clerk*.

At the meeting aforesaid, the whole number of ballots cast was 1,026, of which number nine were cast by women voters, for members of the School Committee.

WARRANT COMMITTEE, 1900–1901.

The following citizens were appointed by the Moderator as a Warrant Committee, for the ensuing year, in accordance with Section 2 of the By-Laws, to wit: —

CHARLES S. MINOT.
JOHN R. LAWRENCE.
SAMUEL A. MORSE.
CHARLES S. PIERCE.
CHARLES MITCHELL.
ARTHUR H. TUCKER.
JOHN SWIFT.
ALBERT A. BRACKETT.
J. FRANK. POPE.
ERDMANN SONNENBRODT.
WALTER C. KITE.
JOHN P. REYNOLDS, JR.
ORRIN A. ANDREWS.

MILTON, March 7, 1900.

As per statute law of this Commonwealth, the Town Clerk this day made out his warrant and delivered to constable Timothy McDermott, requiring him, within three days from the date thereof, to summon all officers chosen and not having qualified to appear before the Town Clerk within seven days from the date of such notice, to qualify for their several offices; to be sworn where an oath is required, or to signify their refusal of said office; also to signify their acceptance or refusal of said office to which they had been chosen where no oath is required.

Attest: HENRY B. MARTIN, *Town Clerk.*

RECOUNT OF VOTES.

Commonwealth of Massachusetts.

NORFOLK, ss. MILTON, March 14, 1900.

At a meeting called and held at the Town Hall in Milton, on the above date, as per order of the chairman of the Board of Registrars, a recount of the votes for candidates for Selectmen being petitioned for by more than ten citizens, the result of said recount was as follows: —

SPECIAL ELECTION.

WARRANT.

Commonwealth of Massachusetts.

Norfolk, ss. *To either of the Constables of the Town of Milton*, Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Milton, qualified to vote at elections, to meet at the Town Hall, in said Milton, on Tuesday, the third day of April next, it being the Tuesday after the first Monday of said month, at seven o'clock in the forenoon, then and there to bring in their ballots for the following officers, to wit: —

One Representative to the General Court from the Fourth Norfolk District, to fill vacancy caused by the death of George R. R. Rivers of Milton, late a member of the Massachusetts House of Representatives, and a Representative from said district.

The officer herein named to be voted for on the ballots to be provided by the Secretary of the Commonwealth for that purpose.

The polls will be open at seven o'clock in the forenoon, and may be closed at four o'clock in the afternoon.

And you are directed to serve this warrant by posting attested copies thereof in each of the post-offices of said Town, and distributing printed copies thereof at the dwelling-houses of said Town, seven days at least before said meeting.

Hereof fail not, and make due return of this warrant, with

your doings thereon, to the Town Clerk, at or before the time set for said meeting.

Given under our hands at Milton, the sixteenth day of March, in the year one thousand nine hundred.

J. WALTER BRADLEE,
J. ALBERT SIMPSON,
JACOB A. TURNER,
Selectmen of Milton.

Commonwealth of Massachusetts.

NORFOLK, ss. MILTON, April 3, 1900.

Pursuant to the within warrant, I have notified the inhabitants of the Town of Milton, as therein directed, to meet at the Town Hall, in said Milton, upon the date above mentioned, for the purposes therein set forth.

PETER MCINTYRE,
Constable of Milton.

At a meeting of the inhabitants of the Town of Milton, held according to a warrant, of which the foregoing is a copy, upon April 3, 1900, the following number of votes were given in for the several persons hereinafter named, for the office specified below, namely:—

For Representative in General Court.

J. WALTER BRADLEE, of Milton, five hundred thirty-one votes.

WILLIAM W. BROOKS, of Canton, two hundred eighty-five votes.

HIRAM TUELL, one vote.

BLANKS, two.

At 4 o'clock P. M., *Voted*, That the polls be closed in ten minutes.

All of the above votes were duly counted, declared and recorded, sealed up in open Town meeting, and delivered to the Town Clerk.

At the meeting aforesaid, Messrs. George Nelson and Joseph S. Donovan, Democrats, and Arthur W. Houghton and Frank L. Richards, Republicans, were appointed by the Selectmen as Ballot Clerks, and Eugene Gallagher and Thomas J. Morrissey, Democrats, and Thomas W. Pond and Charles H. Thayer, Republicans, were appointed Tellers, all of the above being sworn by the Town Clerk.

At 4 o'clock and 30 minutes P. M., *Voted*, To dissolve the meeting.

A true record.

Attest: HENRY B. MARTIN, *Town Clerk.*

Whole number of ballots cast, 819.

Fourth Norfolk Representative District.

We, the undersigned Town Clerks of the towns of Canton and Milton, comprising Representative District No. 4, in the County of Norfolk, hereby certify: —

That at an election duly held in said towns on the third day of April, A.D. 1900, for a candidate to represent said district in the General Court (*vice* George R. R. Rivers, deceased), the following number of votes were given in for the several persons hereinafter named, to wit: —

For J. WALTER BRADLEE, of Milton, six hundred fifty-nine votes.

For WILLIAM W. BROOKS, of Canton, seven hundred thirty-seven votes.

ALFRED DRAPER, one vote.

HIRAM TUELL, one vote.

BLANKS, four.

Given under our hands at Canton, this seventh day of April, A. D. 1900.

WALTER AMES,
HENRY B. MARTIN,
Town Clerks of Canton and Milton.

NOVEMBER MEETING.

WARRANT.

Commonwealth of Massachusetts.

NORFOLK, ss. *To either of the Constables of the Town of Milton*, GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Milton, qualified to vote at elections, to meet at the Town Hall in said Milton, on Tuesday, the sixth day of November next, it being the Tuesday after the first Monday of said month, at seven o'clock in the forenoon, then and there to bring in their ballots for fifteen Electors of President and Vice-President, Member of Congress from the Tenth Congressional District, Governor, Lieutenant-Governor, Secretary of State, Treasurer and Receiver General, Auditor, Attorney-General of this Commonwealth, Councillor for Second District; also a County Commissioner, County Treasurer, and Register of Deeds, all for the County of Norfolk; Senator for First Norfolk District, and Representative to General Court for Fourth Norfolk Representative District. All to be voted for on one ballot.

Polls to close at four o'clock P. M.

And you are requested to warn said inhabitants, qualified as aforesaid, to meet at the time and place and for the purpose therein mentioned, by posting copies of this warrant in the post-offices of said Town seven days before said meeting, and by distributing printed copies at the dwelling-houses in said Town.

Hereof fail not, and make due return of this warrant, with your return thereon, to the Town Clerk, at or before the time of said meeting.

Given under our hands at Milton, this twelfth day of October, A. D. 1900.

J. WALTER BRADLEE,
J. ALBERT SIMPSON,
JACOB A. TURNER,
Selectmen of Milton.

NORFOLK, ss. MILTON, November 2, 1900.

By virtue hereof, I have posted copies of this warrant in the post-offices of said Town seven days before said meeting, and printed copies have been distributed at the dwelling-houses in said Town as hereby required.

PETER MCINTYRE,
Constable of Milton.

At a meeting of the inhabitants of the Town of Milton, held according to a warrant, of which the foregoing is a copy, upon November 6, 1900, the following number of votes were given in for the several persons hereinafter named for the respective offices specified below, namely: —

For Presidential Electors "at large."

THOMAS WENTWORTH HIGGINSON, of Cambridge, three hundred two votes.

Francis H. Taylor, of Fitchburg, four votes.

Josiah P. Thacher, of Littleton, seven hundred forty-nine votes.

Alfred L. Cutting, of Weston, seventeen votes.

DISTRICT NO. 5.

Nathan D. Pratt, of Lowell, three hundred two votes.

James A. Wilkinson, of Methuen, fifteen votes.

John F. Bradley, of Woburn, four votes.

William Beggs, of Woburn, seven hundred forty-nine votes.

William W. Sherman, of Lowell, seventeen votes.

DISTRICT NO. 6.

Arthur Withington, of Newburyport, three hundred two votes.

George L. Evans, of Haverhill, fifteen votes.

Burton C. Woodbury, of Haverhill, four votes.

Arthur D. Story, of Essex, seven hundred forty-nine votes.

Frank N. Rand, of Haverhill, seventeen votes.

DISTRICT NO. 7.

Thomas E. Dwyer, of Wakefield, three hundred two votes.

Ernest W. Timson, of Lynn, fifteen votes.

John Welton, of Chelsea, four votes.

George L. Morse, of Melrose, seven hundred forty-nine votes.

George H. Harwood, of Lynn, seventeen votes.

DISTRICT NO. 8.

Henry T. Schaefer, of Winchester, three hundred two votes.

John A. Aitken, of Cambridge, fifteen votes.

Herman W. Raasch, of Boston, four votes.

William H. Dyer, of Boston, seven hundred forty-nine votes.

George E. Crosby, of Medford, seventeen votes.

DISTRICT NO. 9.

Thomas F. Keenan, of Boston, three hundred two votes.

Morris Kaplan, of Boston, fifteen votes.

WILLIAM H. YOUNG, of Boston, four votes.

HENRY C. RICHARDSON, of Boston, seven hundred forty-nine votes.

HERBERT B. GRIFFIN, of Winthrop, seventeen votes.

DISTRICT NO. 10.

RICHARD SULLIVAN, of Boston, three hundred two votes.

WILLIAM M. PACKARD, of Quincy, fifteen votes.

WILLIAM H. CARROLL, of Boston, four votes.

JOHN SHAW, of Quincy, seven hundred forty-nine votes.

SAMUEL F. SMITH, of Quincy, seventeen votes.

DISTRICT NO. 11.

JOHN H. LEE, of Boston, three hundred two votes.

DAVID M. CHASE, of Boston, fifteen votes.

C. ARVIDE OLSON, of Hyde Park, four votes.

EBEN S. DRAPER, of Hopedale, seven hundred forty-nine votes.

SAMUEL B. SHAPLEIGH, of Boston, seventeen votes.

DISTRICT NO. 12.

ALBERT P. WORTHEN, of Weymouth, three hundred two votes.

SAMUEL L. SMITH, of Brockton, fifteen votes.

THOMAS L. LEONARD, of Taunton, four votes.

WILMOT W. BLACKMAR, of Hingham, seven hundred forty-nine votes.

EDWARD G. KNIGHT, of Hull, seventeen votes.

DISTRICT NO. 13.

CHARLES R. CODMAN, of Barnstable, three hundred two votes.

LAWRENCE ROETTINGER, of New Bedford, fifteen votes.

WRIGHT WILDE, of Fall River, four votes.

EDMUND ANTHONY, JR., of Fairhaven, seven hundred forty-nine votes.

ELIJAH HUMPHRIES, of New Bedford, seventeen votes.

BLANKS, ninety-nine.

For Governor.

Michael T. Berry, of Haverhill, fourteen votes.

Charles H. Bradley, of Haverhill, fourteen votes.

W. Murray Crane, of Dalton, seven hundred sixty-nine votes.

John M. Fisher, of Attleborough, five votes.

Robert Treat Paine, Jr., of Boston, two hundred forty-nine votes.

Blanks, one hundred forty-nine.

For Lieutenant-Governor.

John L. Bates, of Boston, seven hundred sixty-seven votes.

John B. O'Donnell, of Northampton, two hundred twenty-eight votes.

Wilbur M. Purrington, of Williamsburg, eight votes.

Moritz E. Ruther, of Holyoke, eleven votes.

George H. Wrenn, of Springfield, ten votes.

Blanks, one hundred seventy-nine.

For Secretary.

Addison W. Barr, of Worcester, sixteen votes.

Alfred E. Jones, of Everett, sixteen votes.

William M. Olin, of Boston, seven hundred forty-eight votes.

William H. Partridge, of Newton, twelve votes.

Luther Stephenson, of Hingham, two hundred seven votes.

Blanks, two hundred four.

For Treasurer.

Edward S. Bradford, of Springfield, seven hundred fifty votes.

Joseph L. Chalifoux, of Lowell, two hundred twelve votes.

Napoleon B. Johnson, of Milford, nine votes.
Fred A. Nagler, of Springfield, twelve votes.
Stephen O'Shaugnessy, of Boston, nine votes.
Blanks, two hundred eleven.

For Auditor.

Elbridge Gerry Brown, of Brockton, two hundred thirty-six votes.
Frank Albin Forsstrom, of Worcester, eleven votes.
William G. Merrill, of Malden, forty-nine votes.
Henry E. Turner, of Malden, six hundred eighty votes.
Frank S. Walsh, of Brockton, ten votes.
Blanks, two hundred seventeen.

For Attorney-General.

John A. Billings, of Rockland, twenty-one votes.
Allen Coffin, of Nantucket, eleven votes.
John C. Crosby, of Pittsfield, two hundred six votes.
Hosea M. Knowlton, of New Bedford, seven hundred forty-two votes.
Frank MacDonald, of Stoneham, thirteen votes.
Blanks, two hundred ten.

For Representative in Congress.

Henry F. Naphen, of Boston, three hundred eighty-seven votes.
George B. Pierce, of Milton, seven hundred fifty-six votes.
Blanks, sixty.

For Councillor (Second District).

Max Boewe, of Taunton, twenty-one votes.
Arthur A. Maxwell, of Boston, seven hundred twenty-five votes.

THOMAS T. WATT, of Wellesley, two hundred thirty votes.

BLANKS, two hundred twenty-seven.

For Senator (First Norfolk District).

WILLIAM C. DEAGLE, of Hyde Park, nineteen votes.

EDWIN C. JENNEY, of Hyde Park, two hundred forty-five votes.

EUGENE H. SPRAGUE, of Quincy, seven hundred forty-two votes.

BLANKS, one hundred ninety-seven.

For Representative to General Court.

J. WALTER BRADLEE, of Milton, seven hundred ten votes.

WILLIAM W. BROOKS, of Canton, four hundred eight votes.

BLANKS, eighty-five.

For County Commissioner.

JOHN CAVANAUGH, of Braintree, two hundred seventy-five votes.

JAMES HEWINS, of Medfield, seven hundred twenty-one votes.

BLANKS, two hundred seven.

For Register of Deeds.

JOHN H. BURDAKIN, of Dedham, eight hundred ten votes. (Two scattering.)

BLANKS, three hundred ninety-one.

For County Treasurer.

CHARLES H. SMITH, of Dedham, seven hundred twenty-four votes.

BLANKS, four hundred seventy-nine.

At 3 o'clock and 57 minutes, *Voted*, To close the polls at 4.10 P.M.

All the above votes were duly sorted, counted, declared and recorded, sealed up in open Town meeting, and delivered to the Town Clerk.

At the meeting aforesaid, Messrs. George V. Fabian and Thomas Forbes, Jr., Republicans, and Thomas M. Lennon and Daniel F. Coakley, Democrats, were appointed as Ballot Clerks, and Messrs. Thomas B. Gordon, G. Frank Kemp, Charles Bradlee, Thomas W. Pond, William C. Hayes, Paul Carpenter, Republicans, and Thomas J. Morrissey, David J. Barry, Frank G. Meagher, Patrick F. Mahoney, John Colgan, Matthew Welch, Democrats, were appointed Tellers, to receive, sort and count votes, all of the above-named Ballot Clerks and Tellers being sworn by the Town Clerk.

At 11 o'clock and 10 minutes P.M., *Voted*, To dissolve the meeting.

A true record.

Attest: HENRY B. MARTIN, *Town Clerk.*

Whole number of ballots cast at the foregoing election, twelve hundred three.

Fourth Norfolk Representative District.

We, the undersigned Town Clerks of the towns of Canton and Milton, comprising Representative District No. 4, in the County of Norfolk, hereby certify: —

That at an election duly held in said towns on the sixth day of November, A. D. 1900, for a candidate to represent said district at the next General Court, the following

number of votes were given in for the several persons hereinafter named, to wit: —

For J. Walter Bradlee, of Milton, one thousand nine votes.

For William W. Brooks, of Canton, eight hundred eighty-one votes.

Alfred Draper, one vote.

Blanks, one hundred sixty.

Given under our hands at Canton, this sixteenth day of November, A. D. 1900.

WALTER AMES,
HENRY B. MARTIN,

Town Clerks of Canton and Milton.

REPORT OF SELECTMEN.

The Selectmen would call attention to the general advantages of Milton over many other towns.

Our schools stand among the best, and we should place every safeguard about the future management to insure a continuance of the present liberal policy of the citizens. We believe that the children's education is the foundation of our future government.

The assessment of taxes is a matter of much more vital importance to the future of the Town than the majority of the citizens realize at this time. The action of a new Board of Assessors might cause a great financial change in our valuation. We should continue to offer advantages to men of property to locate here. That can be accomplished most advantageously by a conservative administration of its affairs.

The Board reappointed Leroy S. Nevons as Superintendent of Streets and he has continued in charge.

We consider it of vital importance that the citizen should give the matter of the management and construction of our streets his fair, unprejudiced consideration. You are aware that the standard of streets required today is far in advance of what the citizens would have been satisfied with even ten years ago. The matter of underdrainage, to provide for the immense volume of surface water that flows over our roads, should be liberally treated in making your appropriation for highways.

The class of construction and the locations for procuring materials for our streets in the near future should receive prompt attention, as the present gravel pits and ledges available are fast being used up by private individuals, and, as is

well known to many of you, the number of good binding gravel veins in the Town now is limited.

In accordance with Chapter 53 of the Public Statutes, guideposts have been placed wherever in the opinion of the Selectmen they ought to be erected and maintained, and the report thereof is hereby submitted to the inhabitants of the Town.

We have endeavored to give proper attention to the streets in all sections of the Town, and refer you to the Superintendent's report for a detailed statement of the work performed.

We were misled by representations of the Street Railway Company into doing much more work on the easterly side of "Tucker's Hill" on Randolph Avenue than it was our intention to do, and the work is still in an unfinished condition. The representative of the Street Railway Company came to us in June and represented that they wanted a double-track location on Randolph Avenue and Brook Road, and we made estimates of the cost of performing the work, and were given to understand that the Railway Company would reimburse the Town for the expense of all the work done by us. A public hearing was given, and a location granted for double tracks upon condition that the cost of the completion of Randolph Avenue and Brook Road should be borne by the Street Railway Company. The matter of acceptance was delayed from time to time until early in November, when the representative of the Railway Company notified us that his company had rejected our proposition. We have been informed since then that one reason given is that there will be a new Board of Selectmen next year and perhaps the company could make better terms with them. Our view of the matter is that the Street Railway Company should complete the streets, sidewalks and all, free of expense to the Town.

We were invited by the selectmen of Hyde Park to unite with Hyde Park in procuring a permanent outlet for the sur-

face water from the northerly slope of Brush Hill on Smith Road and Beacon Street. A joint meeting of our Board with the Hyde Park board was held on premises recommended by them, and, after viewing the proposed location of the drain from Beacon Street to the Neponset River, we were convinced that it was to Milton's advantage to enter into such an agreement. We agreed to pay one-half of the cost of procuring and maintaining said drain, and feel that we have procured ample facilities for disposing of the surface water in that section for a long time.

We believe that the duties required of the Selectmen take more of their time than the Town can fairly expect them to give, and would recommend that the duties of the surveyors of highways be delegated to a separate board. This highway department expends a large amount of money annually, and should be governed by a separate board that can give a greater part of their time to the many matters that are continually coming up in regard to proper construction, repairs, etc.

POOR DEPARTMENT.

Mr. Elias C. Conant and wife were reappointed Superintendent and Matron of the almshouse, and have given satisfaction in their management of the institution. The supply of water is inadequate, and in the summer months we were obliged to haul water from Canton Avenue standpipe and fill the cistern many times. Should a fire occur under present conditions, we believe the building would be a total loss. We recommend that the Town have the water pipe laid up there and a hydrant for fire purposes located on the premises. We recommend that the Town provide a suitable building to be used for emergency cases and contagious diseases, as the building now in use is not a proper one. All of the buildings at the farm will require painting next spring, and should be painted and papered inside. The system of heat-

ing should be improved so that all use of stoves in the sleeping-rooms of inmates can be discontinued.

The demands for assistance by unfortunate citizens continue to increase each year, and a larger appropriation should be made for the Poor Department. We recommended a larger one last year, but your warrant committee declined to accept our recommendation, and the result has been that we were obliged to exceed the amount appropriated.

The Police Department remains under the supervision of Superintendent Maurice Pierce, and the department has performed its duties to the satisfaction of the Board.

J. WALTER BRADLEE,
J. ALBERT SIMPSON,
JACOB A. TURNER,
Selectmen.

REPORT OF THE ASSESSORS.

The Assessors of the Town of Milton for the year 1900 submit the following report: —

The Board organized with E. D. Wadsworth chairman and George W. Nickerson secretary.

The Assessors recommend the continuance of the appropriation of $425 for clerk hire and renewing land plans.

The Assessors gave the notice required by law, requesting taxpayers to bring in true lists of their polls, real and personal property.

The number of polls assessed was 1,731, a gain of 60. There was a loss of $58,987.25 in personal estate, and a gain of $239,500 in real estate.

There was an increase of $12,833.54 in the receipts from bank and corporation taxes of 1899 over 1898, and a reduction of $11,333.03 in amount assessed the Town on account of the Neponset Valley and high-level sewer. But for these two fortunate circumstances the tax rate would have been $12 per thousand.

The vote of the town at the last March meeting, instructing the Assessors to take a census of the Town in May, added materially to their duties and annoyance without any benefit to the town, as the U. S. Government took a census in June which was more accurate than any the Assessors could take. This is a duty not required of the Assessors of any other city or town in the State.

E. D. WADSWORTH,
J. FRANK POPE,
GEO. W. NICKERSON,
Assessors.

REPORT OF THE PARK COMMISSIONERS FOR 1900.

To the Citizens of Milton:—

Your Park Commissioners make the following report for the year 1900.

During the summer the various parcels of land in our care were mowed and kept in order.

At Brook Road Playground a wire fence was built on the northwesterly boundary, the expense being shared by the abutter. Through the courtesy of the Metropolitan Sewer Commissioners, we are getting a quantity of excellent filling hauled on this playground. We had first removed the loam from the space we intended grading for a ballfield and stacked it, and when the filling has been levelled we will spread the loam over it, and hope to get a good field for games. Some time will yet be needed to get it in condition for use.

At East Milton we have arranged with the contractor on a section of the metropolitan sewer there for the filling in of the part of the East Milton Playground next to Adams Street, approximately on a level with the street. Just how this will be developed we have not yet determined.

At Waterside Common a few loads of loam and filling were put in to make a more presentable slope next the street. We feel that the present grade at the southwest end is now safer, as well as more sightly.

Last year a sum of one hundred dollars was appropriated for the School Committee and Park Commissioners, to expend in the improvement of the school lots. This has not been drawn upon owing to the fact that in the spring the

conditions were not favorable for the work intended. After the dry summer it did not seem wise to risk autumn planting. We hope that the Town will vote to repeat this appropriation.

The only other appropriation for which we ask is one hundred ($100) dollars for the general expenses of the department.

At the time this report goes to the printer we are not ready to give any opinion on the matter of the banks of Pine Tree Brook, between the ice ponds, which was referred to us at the last March meeting.

Respectfully submitted,

NATHANIEL T. KIDDER,
HORATIO A. LAMB,
CHARLES E. ROGERSON,

Board of Park Commissioners,
Town of Milton.

REPORT OF THE SEWER COMMISSIONERS.

The Sewer Commissioners of the Town of Milton make the following report of their work for the year 1900 : —

As no appropriation was made during 1900 for sewerage, expenditures for new work were confined to the building of a sewer through Brook Hill Road in accordance with a request to that effect received from the abutters.

The Adams Street syphon has been cleaned and flushed three times during 1900, as will be seen from the report of our Superintendent, considerable accumulations of silt being removed each time. It is the opinion of your Board that most of the silt received in the syphon passes from the road surfaces directly through the catch-basins on and near Adams Street which are connected with the sewer, which catch-basins were not properly built originally and are not cleaned out with sufficient frequency. If traps of some kind were introduced into such catch-basins whereby the basins would cease to work when they were filled with silt to the overflow, it would be found less expensive and more satisfactory to empty the catch-basins than to empty the syphon to the sewer where the silt now accumulates ; and it would prevent, in large measure, the catch-basins from acting as ventilating shafts for gases from the trunk sewer. No adequate provision was ever made for the ventilation of this line of combined sewer and drain, and the consequence is that the nuisance created by the escape of gas produced in the sewer is concentrated at certain definite points, instead of being distributed along the entire line of sewer, as it should be.

ERNEST W. BOWDITCH.
ELLERTON P. WHITNEY.
JAMES H. PACKARD.

MILTON, Mass., Jan. 1, 1901.

To the Board of Sewer Commissioners:

GENTLEMEN, — I have to report that the main sewer on Adams Street has been inspected at both ends of the syphon three times during 1900, on each occasion the accumulated silt being removed. The deposit removed was of the same character as before.

The main sewer itself was inspected and flushed during the summer of 1900, and is in as good condition as it is possible to put it, owing to the way in which it is constructed.

The sewers comprised in the Central Avenue district were inspected and flushed during the summer of 1900, and are now in very good condition. They will probably require flushing twice a year hereafter, as most of the houses along their lines are now connected.

The sewers comprised in the Mattapan district were also inspected and flushed during the summer of 1900, and are now in very good condition, probably requiring to be flushed but once in the coming year.

(Signed) G. FRANK KEMP,
Superintendent.

REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

The Trustees of the Library have the honor to present the following report through the Secretary of the Board for the year ending December 31, 1900: —

On the 1st of January, 1900, Miss Gertrude E. Forrest entered upon her duties as Librarian. To her able direction the Library owes its remarkable increase in usefulness during the past year. Miss Forrest brings to the work personal fitness, education and training, which promise to make the Library, to quote a phrase from the Trustees' report of two years ago, "an educational institution hardly inferior to the public school."

The first subject to which the Trustees would call the attention of the citizens of the Town is that the development of the Library has been in response to a demand. The Trustees have been *asked* to provide the increased facilities. The Russell reading-room, the Mattapan Branch, the branch soon to be opened in the private school building on Atherton Street, have been established because of very general petitions. The Library cannot continue even on its present basis, nor can it expand as it is certain to do under favorable conditions, without an appropriation adequate to its needs.

In comparing the expense of our Library to the Town with that of libraries in towns of about equal size, the Trustees would explain that other libraries, in almost every instance, have large funds, which we have not. For example, Concord, Mass., a town of 5,275 inhabitants, has a fund of $10,000 for warming, lighting, janitor service and repairs.

It has also another fund of $24,000 for "extra expenses." We have nothing of the kind. Our funds, the income of which is less than $500 a year, are for books only. We are obliged to ask the Town for money with which to meet all the expenses of rent, heat, light, repairs, transportation of books, and service of all kinds, ranging from charwoman to assistants and Librarian.

The cost for the past year, however, has not been simply for the running expenses of the Library. The money has been used largely for putting the Library in a working condition. It has never had any modern facilities for doing library work. Owing to lack of money in the past, many important things have necessarily been neglected. During the year many books have had to be rebound. Others, worn out, have had to be replaced. New labels, cards, pockets, have had to be pasted upon the books; this has taken much time and labor. A card catalogue has been begun, and certain necessary articles of library furniture and supplies have been bought. This kind of expense will probably continue for some years to come.

The card catalogue, for which a special appropriation is asked this year, is an absolute necessity to enable the readers to know what books the Library contains, and to facilitate the replacement and addition of books. The Librarian, in her annual report to the Trustees, says of this subject: "It was soon apparent that the greatest need of the Library was a catalogue which should give in one alphabet, by author, title and subject, the contents of the Library. Such a catalogue is possible by means of cards only, since cards representing new books can be filed in their proper places, and cards representing books worn out can be as easily removed from the catalogue. Similar revision is impossible in a printed list." Each book catalogued means, on an average, four or five cards, which in turn require a great deal of research, study and time on the part of the cataloguers. This research

is for the benefit of the readers, who, when the catalogue is completed, can find, under either title, or subject, or author, any book that the Library owns. It is evident that when this work is done the expense of it will not have to be repeated, although the appropriation asked for this year is estimated to be sufficient to complete the printing of but one-half the catalogue.

The growth in the usefulness of the Library has been most satisfactory. In 1899 the circulation was 19,168; in 1900 it has been 31,367, an increase of 12,199. In 1899 the appropriation by the Town was $32\frac{4}{13}$ cents per capita, and the circulation was $2\frac{9}{10}$ books per capita. In 1900 the appropriation was $58\frac{6}{13}$ cents per capita, and the circulation $4\frac{8}{10}$ books per capita, showing that the increase in expense has been met by an equal increase in the circulation of books, notwithstanding the fact, previously mentioned, that a large part of the appropriation for 1900 has been used in preparing the Library for work in the future. Had all the appropriation for 1900 been available for actual running expenses and books, the showing for the year would be even better.

To give a better idea of the actual condition of the Library, the Trustees again quote from the annual report of the Librarian to them: —

"The present Librarian took office January 1, 1900, having one assistant, Miss Marian Woodbury, who resigned her position March 20. Since that time the following persons have entered the service as volunteer workers: —

"January 15, Miss Frances E. Young. (Left service October 20.)

"April 16, Miss Jennie C. Wright.

"July 23, Miss Carrie S. Allen.

"October 22, Miss Alice G. Palmer.

"These young women give their services for one year, in consideration for training received, with the understanding

that they shall have a permanent position in the Library, provided their work is satisfactory. It should be stated that the car fare of each one is paid after three months. The work of these assistants has been both conscientious and faithful.

"HOURS OF OPENING.

"In response to requests from persons in various parts of the Town, a change in the hours was made December 1. With the exception of Sundays and legal holidays, the Central Library is open to the public every day, between the hours of 9 and 11 A. M., and from 3 until 9 P. M., with no intermission." The Trustees would add that these hours far exceed in length the hours of similar libraries in towns of equal size.

"USE OF THE LIBRARY.

"To facilitate the use of the Library, about 200 books, suited to children and young people between the ages of five and eighteen, have been placed on open shelves in the reading-room.

"The new and popular books have been placed on another shelf, where they may be consulted freely. From time to time, books on China, the Transvaal, and other subjects of current interest have been put where they would attract attention. The stacks are now open to the public to enable borrowers to choose for themselves.

"Lists of books added to the Library each month are printed and distributed free. These lists may be obtained at the Central Library and its branches.

"REGISTRATION.

"In June new by-laws were adopted, printed and distributed to card-holders.

"July 1st a reregistration of card-holders was begun, in order to get a proper record of persons using the Library.

"A person desiring to become a card-holder is asked to give his name, residence, occupation, place of business, age (if a minor), and the name of some permanent resident of Milton to whom he is known.

"This is the form used by most up-to-date libraries throughout the country, but it has been the cause of some misunderstanding on the part of the residents of Milton, and particularly on the part of those who have previously held cards.

"When one realizes that, even in so small a library as this, there have been, since January 1, 1900, 438 new registrations, — that is, registrations of persons who have never before had a library card, — one can see that it is impossible for the Librarian or the Trustees to know all who wish to become card-holders. Granting this to be the case, some precaution against loss to the Town must be taken. In a public institution there can be no discrimination; it would be a great injustice to ask of one person the name of a reference, and not require the same formality of some one else who happened to be better known.

"BRANCHES.

"The new reading-room at Mattapan was opened February 27, 1900, with Miss Emma K. Chapman, attendant in charge.

"Miss Emma Emerson, attendant in charge of the East Milton reading-room, resigned her position May 4. Miss Josephine Babcock was appointed to succeed Miss Emerson.

"Once a month collections of from fifty to two hundred books have been sent on deposit to the different reading-rooms, to be issued in the same way as books are issued from the Central Library.

"There is now a regular system of interchange between the Central Library and its branches. Books issued at any one place may be returned at any other station; *e. g.*, a book

issued at the Central Library may be returned at the East Milton reading-room, and *vice versa*."

A branch will probably be opened two days a week in the private school building on Atherton Street before this report reaches the citizens of the Town.

The Trustees would emphasize the need of improved lighting in the Central Library. Electricity should be used. Gas injures the bindings of books, and, as the jets are now placed, it is almost impossible to read the titles of the books on the shelves. The attendants and the readers suffer much inconvenience in consequence.

As a rule the Library provides but one copy of a book. In the case of popular books this is wholly insufficient. Duplicate copies are needed for the schools and extra copies for the branches, but the funds do not allow this expense.

At a recent meeting of the Trustees, a vote was passed "that in their opinion a fireproof building adequate in size for library and reading-rooms has become a necessity for the Central Library." This vote was passed because the Trustees wish to place on record their opinion on this important subject. They wish it to be understood that only through necessity, and not because they believe in the wisdom of it, does the Library remain where it is.

The danger from fire is constant. Rubbish is continually burned under the rear windows. The building itself has been on fire once, although happily but little damage was done to the books. Twice there have been fires in the railroad station, and fires on Godfrey's wharf would inevitably threaten the Library. There are valuable books in the Quincy Library which properly belong to us, but we cannot gain possession of them until we have a fireproof building. There are citizens of Milton who own historical documents, furniture and pictures, which might be eventually given to the Town if we had a proper place in which to keep them.

We need a children's room, as the crowded condition of the present reading-room every afternoon testifies.

By the will of the late Roger Wolcott, the Trustees of the Library have received a gift of $2,000, which they gratefully acknowledge. It will serve continually as a memorial of that distinguished and generous friend of the Library.

Respectfully submitted,

RODERICK STEBBINS, *Secretary*,
For the Trustees of the Library.

REPORT OF THE TRUSTEES OF MILTON CEMETERY.

The Trustees, in making their annual report, have only matters of routine to submit. The past being the second successive dry season, has caused much additional care and attention to be given to the grounds, and whether the injury is temporary or permanent will be developed during the coming season.

The vote of the Town, making eight hours a day's work, made it necessary to employ an additional man, making a working force of nine men.

Twenty-two new lots have been put in order, and twelve old lots regraded and seeded. Curbing around two lots has been removed and lots regraded. Two family tombs were removed and the sites converted into lots. Six lots were placed in perpetual care.

Foundations for twenty-six headstones and two monuments were built, and four markers set at graves.

Eighty-four interments have been made during the year.

The plat of ground bounded by Hemlock Avenue and Iris Path was graded, and divided into ten lots. The plat of ground bounded by Forest Avenue and Eglantine Path was divided into eighteen lots.

The avenues have had considerable care given them, but, owing to the difficulty in securing the material suitable for the purpose, the repairs which had been planned were deferred.

A number of stunted, blighted and unsightly trees have been removed.

A $1,000 bond of the Chicago & North Michigan Railroad has been purchased for the Vose-Tucker Trust Fund.

The usual appropriation of $2,000 is respectfully recommended for the year.

ALBERT K. TEELE,
For the Trustees.

REPORT OF THE SUPERINTENDENT OF STREETS.

To the Honorable Board of Selectmen :

Gentlemen, — The Superintendent of Streets herewith submits this, the annual report of the Highway Department, for the year 1900.

In giving this, the annual report of the Highway Department, I will, in a few remarks, show the work that has been done the past season, — the different kinds of work, also the materials teamed, and money expended for the same.

In doing the work of the past year, it has been necessary to team 24,039 loads of material, as follows: 7,902 loads of gravel, 1,508 loads of grout or rubble stone, 2,173¼ tons of crushed stone, 756 loads of loam, and 11,700 loads of gutterings, decayed matter, and catch-basin offal.

There have been 362 catch-basins cleaned, 81 new street signs erected, 870⅝ square yards of driveways and gutters paved with block paving, 34⅞ square yards of paving relaid, 199 feet of curbstone reset, 28⅝ square yards of flag crossings laid, 123 square yards of brick sidewalk relaid, 3,626 square yards of sidewalk gravelled, 26,696⅝ square yards of street resurfaced with gravel, 16,501⅘ square yards of street macadamized, 3,424⅝ square yards of concrete sidewalk laid, 968 perch of retaining-wall built, 950 feet of fences built, 18 new catch-basins built and 2 repaired.

The first work of the season was the cleaning up of the gutters and streets and getting them in condition for the summer. 4,019 loads of mud, loam and decayed matter were removed. The expense of this work was $2,359.19.

There were 362 basins cleaned, removing 767 loads. The expense of this work was $468.50. I wish to say here that our work in this direction is on the increase every year, there being 18 new basins built the past year, which gives us a total of 380 basins to be cared for the coming season. Necessity requires that the greater part of these basins should be cleaned out twice during the year, whereas they have been done only once in the past, therefore calling for a greater amount of money to be expended in this direction every year.

In removing the plank walks this spring they were found to be in a bad condition, and this fall it was found necessary to buy new lumber and do an extra amount of repairing. The amount expended on these walks, including taking up this spring and relaying and repairing this fall, was $369.38. Taking into consideration the annual expense of caring for these walks, it would be advisable to concrete the same, and secure substantial walks that would be of service at all seasons of the year.

The stone-crusher plant was thoroughly overhauled in the spring, — new shaft and new jaws put in, the buildings repaired and reshingled, new platform built, and a new set of storage bins and an elevator put in. The capacity of these bins is 112 tons, and enables us to do our work more handily and cheaper than formerly, making a saving of from eleven cents to fourteen cents per ton in loading of teams. The saving this year has been $255 on the output of stones crushed. The plant now is in good and thorough working order, and will not need any extensive repairs the coming season. The amount expended in putting the plant in working order was $1,733.77.

Street Watering.— This work has been on the increase from year to year, and this year it was found necessary, on account of the boulevard, to increase our capacity for doing this work, and it was deemed advisable to purchase three

new water-carts as the best method to accomplish the work. The amount expended in watering this season was $8,147.16, making an increase of $1,645.96 over that of 1899.

Ice and Snow. — There was expended in this direction from Dec. 30, 1899, to March 31, 1900, $1,303.98.

Steam Roller. — There was expended $139.20 for repairs and maintenance.

Horses. — The amount expended for care of horses, feed, stable, shoeing and veterinary services was $2,078.32.

Appliances. — For appliances the amount spent was $436.36.

Maintenance of Tools and Wagons. — The amount expended in this direction was $1,756.67. $975 of this amount was paid for three new water-carts.

Stone Crushing. — The crusher was started May 24, running 44 days, the output being 2,324 tons, the cost per ton being 83⅓ cents, including the price of 50 cents per ton paid for stone.

Drains. — There was expended $267.01 for repairs on drains and laying new 8-inch drain on Adams Street at Reservation Road; also 125 feet of new drain on Blue Hill Avenue.

Street Signs. — There were 81 new street signs erected. The amount expended on same was $269.58.

Mowing Grass. — There was expended $213 for mowing grass along the roadsides.

New Catch-Basins. — The amount of $176.48 was expended in constructing new catch-basins.

Street Crossing. — There was one new street crossing laid on Randolph Avenue, at the Episcopal church, the expense of same being $105.53.

Miscellaneous Street Repairs. — For miscellaneous street repairs there was expended $1,563.14. As a matter of explanation, I wish to say here that the greater amount of this was for work that was requested by different citi-

zens, consisting of small work around their respective places. This work is on the increase from year to year.

Miscellaneous Expenses. — Miscellaneous expenses were $47.16. Of this amount, $15 was for a bill contracted in 1898.

Oak Street. — There was expended on this street $46.20.

Brush Hill Road. — There were 866⅔ square yards of gravel resurfacing on Hollingsworth Hill (this was necessary on account of the heavy washout of March 3); 5,582 square yards of gravel resurfacing on Hayward Hill, and 134⅔ square yards of gutters paved, also other minor repairs. The amount expended on this road was $2,333.96.

Cutting Trees around Crusher. —There was expended, for cutting trees and cleaning away brush around crusher, $146.87. From the sale of wood, $44 was returned to our account.

Bradlee Road. — There were 333⅓ square yards of gravel resurfacing on this road. The expense of same was $145.33.

Canton Avenue. — From Morton Road to Mr. Mackintosh's was macadamized, there being 6,928⅔ square yards; 1,591 square yards macadamized at White Street and Centre Street; 900 square yards of gravel resurfacing at Green Street and Blue Hill Avenue; 270 square yards of paving laid; 52 feet of curbstone reset; 20 feet of drain laid, and other minor repairs. The amount expended on this avenue was $3,093.96.

Granite Avenue. — On this avenue the sidewalks were gravelled and the street was repaired. The cost of same was $108.74.

Beacon Street. — This street had repairs to the amount of $41.

Bryant Avenue. — This avenue had sidewalks repaired, the amount expended being $39.76.

Church Street. — This street had repairs to the amount of $11.90.

Pierce Street. — $5.95 was spent on this street.

Bridges. — Milton bridge walk was repaired, the cost of same being $3. Central Avenue bridge was replanked; the amount spent was $357.75. Granite bridge repairs cost $5.01. The railroad bridge at Milton Lower Mills was repaired and one new truss put in, also new timbers and replanking, the expense being $663.88. The total amount expended on bridges was $1,029.64.

Randolph Avenue. — There was work done on this avenue as follows: At Sigourney's Hill there were 2,855⅝ square yards of street macadamized; 305⅝ square yards of gutters paved; and 662⅝ square yards of concrete sidewalk laid from Mr. Sigourney's to Centre Street. At Poplar Hollow there were 1,600 square yards of street macadamized; 968 perch of retaining-wall built; filling back of wall; one 3 x 4 culvert put in, and 950 feet of fence built. There was also $1,581.66 expended on Tucker's Hill. The total amount expended on Randolph Avenue was $6,778.81.

Blue Hill Avenue. — This avenue was repaired as follows: Getting out stone near Cheever Street; building 18 square yards of sidewalk at Charles Street; gravelling 166 square yards at Sumner School; cutting down and resurfacing 2,282 square yards at Milton Street, and other minor repairs. The amount expended on this avenue was $1,194.21.

Walnut Street. — On this street, at Mr. Cushing's place, there was expended $75.25 for cutting away bank and clearing up.

Pleasant Street. — This street had repairs to the amount of $17.85.

Adams Street. — The work done on this street was as follows: There were 3,526 square yards of sidewalk resurfaced with gravel; two new catch-basins built; 147 feet of

curbstone reset; 123 square yards of brick walk relaid, and other minor repairs. The amount spent on this street was $746.08.

Telephone. — The expenditure for telephone service was $58.64.

Hillside Street. — There were 11,742 square yards of street resurfaced with gravel, the expense being $366.10.

Valley Road. — On this road 234 feet of sidewalk were gravelled at Mr. Littlefield's. The amount expended was $14.75.

Maple Street. — On this street 171 feet of sidewalk were gravelled, the expense being $8.00.

Brook Hill Road. — On this road there was some grading done at Mrs. Moulton's place, the street was scraped and repaired, and loam was carted away. The expense was $73.08.

Harland Street. — This street was repaired to the amount of $32.90.

Churchill's Lane. — On this street there were 202⅔ square yards of block gutters paved, and the street cleaned. The expense was $522.53.

Austin Street. — This street was repaired to the amount of $5.00.

Highland Street. — This street had $2.50 worth of repairs.

Otis Street. — The amount paid for repairs on this street was $69.39.

Beacon Street. — The repairs on this street cost $14.66.

Eliot Street. — The work done on this street was as follows: There were 2,762 square yards of concrete sidewalk laid; 18 square yards of block paving at standpipe; 60 feet of under-drain laid; 100 feet of sidewalk gravelled, and other minor repairs. The amount spent on this street was $3,258.24.

Central Avenue. — On this avenue there were 144 feet

of sidewalk gravelled, and 450 square yards of street resurfaced with gravel. The expense here was $196.72.

Edge Hill Road. — The macadam on this road was rerolled. The amount expended was $70.00.

Center Street. — This street was repaired to the amount of $21.50.

Cheever Street. — This street was repaired and gravelled. The amount expended was $206.98.

Squantum Street. — This street was resurfaced with gravel; also two new catch-basins and one new culvert were built. The cost of this work was $326.

Atherton Street. — This street was repaired to the amount of $5.60.

Pumps. — The care and repair of the several pumps about the town cost $23.30.

Grafton Avenue. — This avenue was rebuilt this season with a heavy coating of rubble stone and surfaced with gravel. There remains some work to be done on the reserved space as yet. This avenue was built on the special appropriation of $800.

Washington Street. —The sidewalks on this street were gravelled. The expense was $5.25.

Eaton Street. — The sidewalks were gravelled on this street, the cost being $5.50.

Houston Avenue. — There was expended on this avenue $98.24 for repairing sidewalk and gravelling street at Thacher Street.

Gun Hill Street. — Repairs to the amount of $6 were made on this street.

Clapp Street. — On this street the sidewalk was gravelled and drain repaired. The amount spent here was $65.10.

Central Avenue. — This avenue, from the estate of Mr. Ripley to Valley Road, was widened by the department, the sum of $1,300 being paid by the railroad company for

doing this work. On account of the lateness of the season, the work was not quite completed, there remaining some work to be done in the spring.

There was expended by the Street Department the sum of $6,023.89 on land-damage account, building fences and retaining-walls, grading sidewalks and lots.

Some parts of the boulevard are now in bad shape, and need considerable repairing and rolling the coming season.

Some provision will have to be made the coming season for a gravel-pit in the centre of the town, as the gravel-pit on Vose's Lane is now exhausted. I should say that the sum of $2,000 would be necessary to make this provision.

In the fall of the year we often hear the inquiry as to where all the highway money has gone to. If our citizens would only read the Superintendent's report over carefully from year to year, they would readily see where the money was expended, and be better judges for doing so.

For work that is necessary the coming year, I would most respectfully call the attention of our citizens to last year's report, and by making a comparison with this report they will see what amount of money was expended and how far short we have come in doing the work that was recommended. We were short of money to accomplish the desired results; and I will here recommend a more liberal appropriation for the Street Department, just as I did last year. A larger appropriation seems necessary on account of the increased demand for better roads and more of them, also the increase in heavy traffic, and our increased demand for street-watering, which this year cost us alone the sum of $8,147. We also have an increase in our catch-basin work and drains; and, as the town is growing, more houses being built every year along our now country roads, there is a great demand every season to have grading done and sidewalks gravelled in front of new places to prevent the hitherto wash of street water which formerly had full sway in the

vacant lot. Our annual expense in this department for maintenance of horses, tools and wagons, Superintendent's salary, handling snow, street-cleaning, street-watering, caring for plank walks, cleaning catch-basins, repairing bridges and fences, draw-tender's salary and telephone service would be $19,000. Deducting this amount from our appropriation of $42,000 would leave us $23,000 for street repairs and permanent work.

While it would take an appropriation of some one hundred and fifty to two hundred thousand dollars to put all our streets and sidewalks in first-class condition, it is hardly to be expected that the Town would ever appropriate so large an amount of money at one time; but by having a liberal amount of from fifty to sixty thousand dollars each year, and the work carried on systematically, the desired results should be accomplished in from three to four years.

I have herein tried to show to the citizens of the Town the work that has been done the past season. While I may have omitted some important points, it has not been intentional.

For the financial statement of this department I will refer you to the Auditors' Report.

INVENTORY OF STOCK AND TOOLS IN THE HIGHWAY DEPARTMENT, DEC. 31, 1900.

Stable and sheds	$3,366 00
1 ton of hay	20 00
½ ton of straw	9 50
3 single dump-carts	150 00
1 stone jigger	50 00
50 bushels grain	17 00
1 express wagon	200 00
3 wagon jacks	5 00
1 road machine	225 00
10 water-carts	2,975 00
9 old snow-plows	225 00
1 ring roller	125 00
1 hand roller	14 00
1 traverse runner pung	65 00
4 sets single harness	90 00
3 collar pads	3 00
12 halters	11 00
9 stable blankets	40 50
1 woolen lap robe	3 75
3 bridles	6 00
6 double and single whiffletrees	9 00
7 feed bags	5 50
5 hay forks	2 50
75 shovels	75 00
35 hoes	21 00
5 post-hole shovels	5 00
60 picks	40 00
24 wooden and iron rakes,	8 00
6 hand hammers	6 00
1 claw hammer	50
2 24-in. hand saws	2 00
5 oil cans	5 00
40 lanterns	20 00
20 gals. cylinder oil	5 00
2 oil tanks	9 00
1 lawn mower	5 00
1 cesspool dipper and pail,	2 00
400 ft. land tile	22 00
900 ft. Akron pipe	72 00
180 ft. 15-in. pipe	90 00
75 ft. 8-in. pipe	11 60
200 ft. iron pipe	10 00
450 1½-in. iron pipe	48 00
600 ft. 2-in. pipe	108 76
48 ft. crossing stones	24 00
300 paving blocks	$9 00
150 tons crushed stone	135 00
Miscellaneous cut stone	25 00
Lumber	50 00
2 mortar bins	4 00
500 bricks	4 00
3 cords hard wood	12 00
58 chestnut posts	11 60
3 light driving harnesses	30 00
1 block and rope	4 50
1 stone crusher	500 00
1 elevator and set of bins,	800 00
1 engine, boiler and building	450 00
1 Knowles steam pump	70 00
1 pair belt clamps	5 00
1 pipe cutter	2 00
1 pipe tongs	1 50
2 Stillson wrenches	4 00
2 jack-screws	10 00
½ lb. waste	2 50
4 oil cans and fillers	1 50
2 3-in. diaphragm pumps	5 00
1 derrick and rigging	130 00
100 ft. wire cable	8 00
1 cant dog	1 50
400 lbs. chains	40 00
430 lbs. drills	51 60
Cart grease	5 00
7 sand tampers	9 00
1 hokey-pokey cart	25 00
1 branding-iron	1 50
3 levels	1 50
23 iron stakes	2 00
8 wrenches	5 00
1 hydrant chuck and reducer	7 00
3 trowels	2 00
1 auger	75
1 stencil	1 00
2 tree trimmers	2 00
4 rattan brooms	6 00
9 wooden horses	12 00
2 iron horses	4 00
18 street signs	9 00
3 scythes and handles	3 00

3 sod cutters and lifters	$3 50	55 snow shovels	$35 00
1 copper sprinkler	2 00	24 mattocks	21 00
1 set eveners	5 00	63 pick handles	10 00
1 grindstone	8 00	6 breaking hammers	15 00
1 sanitary wagon	190 00	9 striking hammers	9 00
2 stone drags	16 00	4 paving hammers	5 00
1 blasting chain	12 00	1 4-ft. crosscut saw	4 00
1 10-ft. ladder	1 68	40 gals. engine oil	9 00
1 20-foot ladder	2 75	½ bbl. crusher grease	5 00
135 ft. rubber hose	16 00	270 lbs. bars	27 00
1 4-qt. measure	25	16 gravel screens	80 00
1 2-qt. measure	15	3 wagon awnings	15 00
1 wagon pole	5 00	1 office, 2 desks, 3 chairs,	270 00
1 tripod	10 00		
1 32-ft. suction hose	48 00		
1 blocks	20 00	hay scales	155 00
1 transit and road	150 00	2 calking-irons	1 00
4 grates and covers	19 00	1 battery and wires	25 00
2 stoves	20 00	1 ice chisel	75
1 tamping-iron	1 50	3 common plows	15 00
8 tool boxes	56 00	2 Babcock plows	50 00
4 steel wheelbarrows	10 00	4 pine hammers	3 00
1 vise	5 00	20 lbs. wedges and feathers,	4 00
1 pr. interfering boots	1 00	180 lbs. stone-cutters' tools,	20 00
50 lbs. nails	2 00	1 2-horse scraper	8 00
9 horses	900 00	120 ft. rope	7 00
2 double dump-carts	400 00	1 steam roller	3,000 00
1 platform wagon	40 00	3 tons coal	12 00
1 Concord buggy	65 00	1 1,800-gal. water tank	53 00
1 Concord wagon	160 00	1 coal hod and shovel	70
1 old road machine	5 00	1 sprinkler	75
4 Wheeler snow-plows	200 00	Chamois skin	75
1 stone roller	40 00	1 harness punch	1 50
1 pung	40 00	2 pair scissors	50
1 2-horse sled	50 00	2 bill hooks	2 00
3 sets double harness	150 00	5 catch-basin stones	20 00
2 horse collars	5 00	1 whip	1 00
1 express harness	35 00	Sponges, harness soap, etc.,	2 00
1 hitch rope and weight	1 75	1 pair horse clippers	4 00
9 street blankets	48 00	6 axes	6 00
1 fur robe	12 00	12 hammer handles	1 56
3 pair lead reins	9 00	500 tons stone	250 00
4 surcingles	4 00	9 boundary stones	9 00
3 sets rope traces	3 00		
8 sets combs and brushes,	12 00	Total	$17,616 65
6 pails and dippers	2 50		

Respectfully submitted,

L. S. NEVONS,

Superintendent of Streets.

REPORT OF SUPERINTENDENT OF POLICE.

MILTON, Dec. 31, 1900.

To the Honorable Board of Selectmen:

GENTLEMEN, — I have the honor herewith to submit the annual report of the Police Department for the year ending December 31, 1900.

ORGANIZATION.

Superintendent, — Maurice Pierce.
Deputy Supt., — Timothy McDermott.

PATROLMEN.

James Wigley.	George C. Partelow.
George B. Bradlee.	Fred M. Farrington.
Henry A. Paterson.	Thomas H. Welch.
Henry C. Shields.	Lucius E. Damon.
John F. O'Connell.	William J. Stephenson.
William S. Fallon.	John H. Higgins.
Frank H. McDermott.	Charles E. Page.

Driver of Patrol Wagon, — John E. Shields.
Keeper of Lock-up, — Edwin A. Houghton.

The department is now made permanent by an act of the Legislature, session of 1900, by extending the provisions of the civil service of the Commonwealth to the police force of the Town of Milton.

Special police who have passed civil-service examination and were detailed for duty during the vacations: —

George W. Higgins.	Edward R. Meagher.
John J. Haley.	Joseph F. Donovan.

ARRESTS FOR THE YEAR 1900.

Number of persons arrested	102
Males	94
Females	8
Residents	44
Non-residents	58

The offences for which arrests have been made are as follows: —

Assault and battery	5
Assault with a dangerous weapon	1
Assault on an officer	1
Assault with intent to rob	1
Aiding and abetting and assisting	1
Breaking and entering	2
Cruelty to animals	1
Common nuisance	1
Default warrant	1
Dipsomania	1
Distributing obscene publication	1
Drunkenness	42
Embezzlement	1
Gaming on the Lord's day	4
Incite, move, procure, aid, counsel hire and command,	1
Insane	1
Keeping an unlicensed dog	1
Larceny	9
Larceny from a building	1
Malicious mischief to real estate	9
Manslaughter	1
Rape	1
Stubborn children	4
Tramps	2
Trespass	3
Violation of Town by-laws	6
Total	102

MISCELLANEOUS BUSINESS.

Accidents reported	12
Bicycles found	4
Buildings found open and secured	59
Cases investigated	173
Dead bodies found	4
Defective drains	3
Defective electric light fixtures	10
Defective streets and sidewalks	89
Defective water pipes	6
Defective wires	9
Disturbances suppressed	5
Dogs killed	9
Electric lights out	721
Injured and sick persons assisted	5
Lost children restored	3
Residences reported temporarily vacant, and special police protection required	51
Stray animals found	21
Stray teams put up	5
Street obstructions removed	4
Water running to waste reported	8
Officers detailed by request of citizens	20
Officers detailed for public occasions	27
Value of property reported stolen	$310.00
Value of property recovered	$235.00

LODGERS.

Number of persons applying for lodgings the past year	96
American-born	53
Foreign-born	43
Males	96

There has been quite a large falling-off of this gentry from previous years. I have refused to put them up on account of complaints from citizens of their going from house to house night and morning begging. I find it is generally known among them that they can't get lodging at this station, and for that reason we are not troubled so much as formerly.

RECOMMENDATIONS.

I would respectfully recommend an increase of one officer to the department, to be placed on a new route, — to patrol from Quarry Street, over Pleasant Street, to Centre Street, over Edge Hill Road to Grafton Avenue. There is a continual complaint from that part of the Town that we are unable to cover with our present force. There has been more malicious mischief committed in that section than in all the rest of the Town, as the report of arrests will show. I repeat my recommendation of the past three years in regard to the station-house and stable, and I hope some action will be taken in the matter.

HUCKSTERS AND PEDLERS.

I would recommend that some restrictions be put upon hucksters and pedlers who frequent the Town; and it is a known fact that the majority of junk pedlers we see on our streets are men whose business methods in adjoining cities and towns will not bear very close inspection, and are men to whom licenses have been refused in their own places, and as a consequence they work towns that have no by-laws to protect them. As a safeguard to our citizens from this class of people, I suggest the following by-law be enacted :—

"No person shall purchase, sell or barter junk or old metals within the Town, or go from house to house within the Town purchasing, selling or bartering, or endeavoring to purchase, sell or barter junk, old metals, bones or grease, without a license from the selectmen."

CRIME.

We have very few serious crimes, — one case of manslaughter, for which the person was found not guilty; a case of rape, for which man and wife were found guilty, — man as principal, wife aiding and abetting and assisting, — both now serving time.

THE FORCE.

The members of the department, with one exception, have been faithful and conscientious in their duties, and to them I wish to extend my appreciation of their endeavors.

One officer was suspended, and charges preferred. After a hearing, was found guilty, and fined thirty days' pay.

I think the enforcement of the laws the past year has been such as to satisfy the public generally that the officers have performed their duty in an impartial manner.

In conclusion, I wish to extend my sincere thanks to your Honorable Board for the support you have given me.

Respectfully submitted,

MAURICE PIERCE,
Superintendent of Police.

ENGINEERS' REPORT.

To the Honorable Board of Selectmen:

Gentlemen, — The Board of Engineers herewith presents its annual report.

The past year has been one of unusual quiet for the Fire Department, especially in contrast with the year previous. While the calls upon the department have been numerous, they have been mostly still alarms, and the losses from fire have been small. There have been thirty-one bell alarms and fifty-seven still alarms, with a total fire loss for the year of less than $5,000. This very small loss we do not claim to be wholly due to the efficiency of the department, as there is a large percentage of luck in these matters; but we do think the department is entitled to considerable credit for its share in keeping the losses as small as they were.

In the early part of the year we distributed to all persons in the Town, having telephones, framed cards, to be hung beside their telephones, directing them how to correctly summon the fire department by the use of telephone. By following the directions given on these cards a number of important alarms have been given, with most satisfactory results. Persons having telephones, but who have not cards, are requested to notify the chief of the department, who will see that they are immediately provided.

During the year the usual running repairs have been made. All buildings, apparatus and equipments are in first-class condition. Three new horses have been purchased to take the place of horses that have been used up; a new

buggy has been bought for the chief; and a piece of apparatus on runners, to take the place of the ladder-truck in case of deep snow, has also been procured. This last piece of apparatus is something we have desired for a number of years, as heretofore, in case of heavy snow, the ladder-truck has been badly handicapped; but we think that this contrivance will remove all future trouble.

The Legislature, last winter, passed a law (Section 69, of the Acts of 1900) placing the Milton Fire Department under the civil-service laws. This change in the way in which members of the department are to be appointed and discharged has our most hearty approval. We think it must of necessity have a most beneficial effect on the entire department.

A few years ago we called attention to the desirability of a piece of apparatus, with permanent horses and man, to be located in the western section of the town. No action was taken at that time. We again call attention to the crying need for this piece of apparatus. At the present time, Hose 4, situated on Canton Avenue, near Dollar Lane, is all the fire apparatus there is to give protection to the western section with its aggregation of very valuable property. Hose 4 is what is known as a "call company," having no permanent men or horses. The members of this company, in performing their daily avocations, are obliged to scatter throughout the western portion of the town, so that, in case of a fire, there is apt to be no one to procure a horse and take the hose wagon to a fire, with the result that during the daytime this piece of apparatus is of little or no value. During the past year there was one occasion where the need of this piece of apparatus was most essential, yet it never came to the fire. The apparatus situated in the middle of the Town cannot be expected to arrive on the scene of a fire in the western section of the Town in less than fifteen or twenty minutes after the alarm is given. We feel compelled

to state that in our opinion it is absolutely necessary, if real fire protection is to be given the valuable property in this section of the Town, that a hose-wagon, with permanent horses and man, be provided.

There have been but few changes in the call force, and none in the permanent force, during the year. Two members of the department have died, and four men have resigned, whose places have not yet been filled.

The discipline of the department continues satisfactory.

The District Fire Marshal has investigated four fires. We have responded to four calls to Boston and one to Quincy, and the Boston department has responded to six calls to Milton.

The fire-alarm apparatus is in first-class order, and the storage-battery system introduced three years ago has given most perfect satisfaction. We recommend the replacing of old-style fire-alarm boxes by new non-interference boxes.

The Board of Engineers recommend that there should be appropriated for the maintenance and current expenses of the department, for the ensuing year, $17,500.

Respectfully submitted,

GEORGE F. CHOATE.
C. WILDER HOLMES.
ELLERTON P. WHITNEY.

Milton, Dec. 31, 1900.

REPORT OF THE BOARD OF HEALTH.

The Board organized March 12, with the selection of Samuel D. Parker as chairman and Walter C. Kite as secretary. John H. Emerson was reappointed agent of the Board. Henry B. Martin, Town Clerk, was authorized to sign burial permits for the Board. Timothy G. Ryan was appointed Inspector of Plumbing and Examiner of Applicants for Plumbers' Licenses, and Michael J. McCue Deputy Inspector of Plumbing. Permits were granted to John R. Lawrence, Charles Mitchell, Charles Tate, John R. Delory and the Odorless Excavating Company of Boston to empty vaults and privies. Frank L. Gage was licensed to carry on the undertaking business. Peter McIntyre was licensed to carry on the business of slaughtering animals.

The number of cases of contagious diseases for the years 1899 and 1900 has been as follows:—

	1899	1900
Diphtheria	5	22
Scarlet fever	11	19
Typhoid fever	4	13
Measles	20	53

But three deaths occurred during the year from contagious diseases,— one from typhoid fever, two from diphtheria. Antitoxin was not used early in either of the fatal cases of diphtheria.

During the last six months of the year, seven cases of typhoid fever have occurred in East Milton. Almost all of these cases have developed at intervals of about a month, and most of them have been of a very mild type. It has been

impossible to trace any source of infection. Repeated analyses have been made of the drinking-water and the milk used, without positive evidence of contamination. As the cases have continued to develop, and it was found that all the cases either had taken milk from one milkman or may have taken milk sold by him to another milkman, the discontinuance of the sale of milk from his premises has just been ordered, in the hope that this precaution may be effectual in checking the development of other cases.

Of the cases of diphtheria, seven occurred in four families on Thistle Avenue, all of whom were supplied with milk by one milkman whose son had previously had a very light attack of nasal diphtheria. As circumstances made it impossible to properly isolate this case, the sale of the milk was stopped. Most of the milk had been sold in Boston, and the Boston Board of Health was notified, and was unwilling that the milk should be sold there until negative cultures had been obtained.

It seems very desirable to us that greater care should be taken as to the purity of milk sold in the Town, and attention has been given to this matter in the Rules and Regulations about to be issued by the Board. It is hoped that the new Rules and Regulations of the Board will be in print by the time this report is distributed, and copies may then be had upon application to the Board.

We stated in our annual report of last year, "The members of this Board believe that there is no one thing that is as important in advancing the healthfulness of the Town as the extension of our sewerage system year by year. The steady increase in population that is taking place in East Milton and Mattapan, and to a less extent in the Lower Mills section of the Town, in connection with our public water supply, makes the primitive methods of drainage and sewage disposal in vogue in the greater part of the Town more and more dangerous. We have been fortunate in

escaping severe epidemics of the preventable diseases, but the number of cases must certainly increase, and we are liable to have serious trouble in the more thickly settled portions of the Town, unless there is adequate provision made for the disposal of sewage." We cannot say that the large increase in the number of cases of contagious diseases this year is necessarily due to the absence of a general sewerage system, but we would again strongly emphasize the need for the steady increase of the system of sewerage now in use.

Early in the year complaint was made that the sanitary arrangements of a number of schoolhouses in the Town were very defective, and in some cases dangerous to the health of the scholars, so that we deemed it wise to employ an expert sanitary engineer to ascertain the exact sanitary condition of each schoolhouse, and to suggest the changes necessary to put them in satisfactory condition. This was done and a written report was sent to the School Committee on May 7. We suggested to the School Committee at that time that, while we did not feel it to be practicable to urge the immediate adoption of all the recommendations made, future alterations or repairs be made along the lines indicated in the report, and recommended that the town water be immediately introduced at the Wadsworth School, that a radical change in the method of sewage disposal at the Thacher School be made, and also called their attention to the desirability of connecting the Glover School with the sewer at the earliest possible opportunity, and to the condition of certain piping in the High School. All of the above matters were attended to by the School Committee as promptly as possible. The one great need in the perfection of the sanitary condition of the schoolhouses is the satisfactory disposal of sewage, as without water-carriage systems it is impossible to keep the sanitaries in perfect condition. Aside from the nauseous odors generated by the burning of effete matter in the schoolhouses, the great objection to the "dry" systems of

sewage disposal is that they depend entirely upon the constant care and attention of the janitor in charge.

The occasional cases of smallpox occurring throughout the State are reminders of the necessity for vaccination and revaccination of all those who are not thus protected. The care and vigilance exercised by the school authorities in the enforcement of the State law in regard to vaccination are such that we have not thought it necessary to order a special examination of school children.

The report of the State Board of Health for the year 1899 shows the death rate of the Town to be 11.98, an increase of .32 over that of the preceding year. The average death rate for the eighty-nine cities and towns in the State which have a population of 5,000 or over was 17.26 in 1899. The number of deaths in the Town during the past year was 97; in 1899 it was 78.

There have been no complaints of the water furnished by the Milton Water Company. During the year the company has made connection with the mains of the Metropolitan Water Commission, so that, should another time of prolonged drought occur similar to that of the fall of 1899, an additional supply of water could be obtained.

The causes for complaints made during the year have been as follows:—

Overflowing or defective cesspools	17
Sanitary condition of houses	5
Rubbish heaps	3
Decaying animal or vegetable matter	3
Condition of well water	2
" cow stables	2
" piggeries	2
Violation of quarantine	1
Dumping of night-soil	1
Stench from sewer manholes	1

In addition to these formal complaints, there have been many inquiries for advice on health matters, of more or less importance.

The work of the Board has been systematized in certain directions through the adoption of printed blanks and of a complaint book; all of which have been approved by the officials of the Massachusetts Association of Boards of Health.

Permits were granted to six persons to keep one hundred and eighty-eight pigs, permits having been granted the previous year to eight persons to keep two hundred and forty-five pigs.

Last spring complaints were made by several persons that J. Harvey Dudley of Brook Road had a large quantity of decomposing fish in the cellar of his barn. As the stench was exceedingly offensive, and Mr. Dudley neglected to carry out the orders of the Board to remove the offensive material, we were finally obliged to enter complaint against him in Quincy court, where he was convicted of maintaining a nuisance and fined fifteen dollars. He appealed the case to Dedham, where it was tried in September and the judgment of the lower court promptly affirmed.

We believe that there is a growing demand for the collection of garbage and ashes by the Town. To many small householders, their disposal is a very perplexing problem, and some of our most attractive walks and drives are being disfigured by piles of ashes and refuse matter.

Cards prohibiting spitting have been placed in the street cars and other public places during the past year.

A portion of the roof of the pesthouse has been reshingled and the entire place painted.

We enclose the annual report of the Inspector of Plumbing, and believe that the recommendations made by him are for the best interests of the Town.

The Board wishes to again call attention to the fact that it cannot be held responsible for verbal complaints made to

individual members or to the agent. All complaints should be made in writing and signed by an inhabitant of the Town. Blank forms for this purpose will be supplied upon application to any member of the Board, to the agent, or to the chief of police.

SAMUEL D. PARKER, *Chairman*,
THOMAS K. CUMMINS, Jr.,
WALTER C. KITE, M. D., *Secretary*,
Board of Health.

REPORT OF INSPECTOR OF PLUMBING.

To the Honorable Board of Health:

Gentlemen,— I herewith submit my annual report from January 1, 1900, to January 1, 1901.

During the year 109 applications have been filed, and 109 permits have been granted to perform plumbing.

The approximate valuation of the work, as specified in these applications, is $34,186.

During the year fourteen master plumbers and five journeymen have registered at this office.

Two examinations have been held by the Examining Board and two applicants have been examined. One of these passed successfully and was granted a license as a journeyman.

I think that the plumbing work done by the plumbers of this Town, as well as that done by out-of-town plumbers who come here to do work, is second to none in the State.

The laws are very good in almost all cases, but they do not cover definitely some very important parts in the construction of plumbing. I would recommend the following changes in the plumbing laws: —

In Section 4 thereof, after the word "possible," the rest of the section be stricken out and the following be substituted: "After all fixtures are set, the work shall be given a final test, either smoke, peppermint, or other reliable test, under pressure," so that the section shall read as follows: "Plumbing work shall not be used until the same is tested in the presence of the inspector, with the water test, if possible. After all fixtures are set, the work shall be given

a final test, either smoke, peppermint, or other reliable test, under pressure."

In Section 8 thereof, that the following be inserted after the word "ferrules": "by means of a full-sized wiped joint," so that section shall read: "All joints in iron drain-pipes, soil or vent pipes, must be made by thoroughly calking the same with molten lead. Joints of lead pipes with iron pipes must be made by soldering the same into brass ferrules *by means of a full-sized wiped joint*, and calking the ferrules to iron pipes or screwing them to wrought-iron pipes."

In Section 9 thereof, that the word "should" be stricken out and the word "shall" be inserted, so that the section shall read: "Every water-closet, urinal, sink, basin, bath-tub, slop-hopper, and every tray or set of trays shall be furnished with a separate trap, placed as near the fixture as possible, and in no case shall the waste from the bath-tub or other fixture be connected with a water-closet trap. Traps *shall* be protected from siphonage or air pressure by special pipes of a size not less than the waste-pipe, placed outside or below the trap; lead pipes may be used only where they are exposed to view. Air-pipes for water-closets shall not be less than 2-inch bore. Two or more air-pipes may be connected together, or with a soil-pipe, but in such connection with soil-pipe it must be above the upper fixture of the building."

In Section 10 thereof, that the word "sewer-pipe" be stricken out and the words "soil or waste pipe" be inserted, so that the section shall read: "No drip or overflow pipes from safes under water-closets, urinals or other fixtures, no overflow from tanks or cisterns, no waste-pipe from a refrigerator or other receptacle in which food is stored, no rain-water conductors, and no steam exhaust or steam from waste-pipes shall be connected with any soil-pipe. No openings will be allowed in the waste or soil pipes of any build-

ing for the purpose of receiving the surface drainage of the cellar. No brick, sheet-metal, earthenware or chimney flue shall be used as a sewer ventilator, or to ventilate any trap, drain, soil or waste pipe; and no water-closet shall be flushed from a tank that is used for any other purpose."

Office hours: Tuesdays and Thursdays, 7.30 to 9 P. M.

Respectfully submitted,

TIMOTHY G. RYAN,
Inspector of Plumbing.

REPORT OF THE TREE WARDEN.

To the Citizens of Milton:

The Tree Warden reports as follows: —

At the last annual meeting the Town for the first time elected a Tree Warden, the duties of that office having for the two previous years been performed by the Park Commission.

I have followed the same policy as that begun by the Park Commission, namely, to put the existing trees in as good condition as could be done expeditiously and economically, at the same time trimming them back enough from the road to allow the use of streets and sidewalks by all vehicles and foot passengers without the annoyance of having to avoid overhanging branches.

Attention was also paid to wires and lights, so that wires and branches might as far as practicable be kept apart, and all lights be freed from surrounding foliage, so as to give the best results.

The men employed by this department have thus trimmed, amongst others, Highland and School Streets. The latter street, though short, took considerable time, as the trees were old and, having been planted too close together for their own good, were full of dead wood. Canton Avenue, from the Town Hall to the Canton line, and Blue Hill Avenue, from the foot of Blue Hill back to Robbins Street, have also been done.

In a great many places, not above mentioned, and everywhere that my men have been, it has been my intention to clean up the accumulations of brush, weeds, tin cans and other refuse.

I recommend the appropriation of one thousand dollars again for the work of the Tree Warden, as there is still a considerable mileage of streets on which the trees have not been touched for several years; and the Town should consider planting trees in certain places. Then, also, the question of protectors of wire or other material needs more attention, only a few protectors having as yet been put on the street trees.

Respectfully submitted,

NATHANIEL T. KIDDER,
Tree Warden.

REPORT OF THE INSPECTOR OF BUILDINGS.

To the Honorable Board of Selectmen:

Gentlemen, — I herewith present my annual report for the year ending Dec. 31, 1900.

There have been seventy-seven (77) applications made for additions, alterations and new buildings; and seventy-seven (77) permits issued and filed for the same.

WORK OF THE BUILDING DEPARTMENT BY MONTHLY REPORTS.

Months. 1900.	Permits issued for Wooden Buildings.	Permits issued for Brick Buildings.	Value of Work by Applications.
January	4	0	$9,200
February	3	0	5,150
March	8	0	18,000
April	6	0	12,350
May	8	1	18,400
June	5	1	54,500
July	8	0	19,525
August	4	0	20,250
September	6	0	8,625
October	6	1	42,050
November	8	0	15,500
December	8	0	16,250
Totals	74	3	$239,800

Thus making the valuation of work completed and to be completed, two hundred and thirty-nine thousand eight hundred dollars ($239,800).

The office hours of the department are Tuesday and Thursday evenings, at the Selectmen's room, Town Hall, from 7.30 to 9 o'clock.

RECOMMENDATIONS.

I would recommend that changes be made in the building and plumbing by-laws of the Town.

I also recommend that the *Rules Governing the Wiring of Buildings* for electric lighting, etc., be inserted in the building by-laws of the Town.

Respectfully submitted,

G. E. BURT,
Inspector of Buildings.

FUNDS HELD BY THE TOWN.

PERPETUAL CARE FUND.

Amount held Dec. 31, 1899	$14,125 00
Receipts	1,000 00
	$15,125 00

This fund is held by the Town Treasurer, in accordance with Chap. 82, Sects. 15–17, of the Public Statutes, interest at the rate of six per cent. per annum being allowed on it and paid over to the Trustees of the Cemetery.

JASON REED CEMETERY FUND.

Amount held Dec. 31, 1899	$2,626 67

The interest on this at four per cent. per annum is paid over to the Trustees of the Cemetery.

JASON REED PUBLIC PARK FUND.

Amount held Dec. 31, 1899	$3,213 76
Four per cent. interest from Dec. 31, 1899, to Dec. 31, 1900	128 55
	$3,342 31
Less expenses for year 1900	158 51
	$3,183 80

EXTRACT FROM THE WILL OF ELIZABETH T. L. REED.

"All the rest, residue and remainder of all the moneys remaining in the hands of said Executor or Administrator, I direct shall be divided into three equal parts.

. . . . . .

"The second of said parts shall be paid to and deposited with the Treasurer for the time being of said Town of Milton, the same to be received, held and invested by said Town as a fund to be known as the 'Jason Reed Fund,' and the income thereof shall be applied to the preservation, care, improvement or embellishment of the said Milton Cemetery.

"And the third of said parts shall be paid to said Town of Milton, and the same shall be applied by the proper legal authorities to or towards laying out, improvement or ornamentation of a Public Park or Parks in said town, in such manner as said authorities may deem advisable.

"I make the foregoing bequests in favor of First Parish, the Cemetery and the Parks in said Milton, both on account of the deep interest taken by my father, the late Jason Reed, deceased, in the affairs of said Town, and of my own profound desire for the welfare of said Town and of the citizens thereof."

HOUSTON AVE. ASSESSMENTS.

MADE BY THE BOARD OF SELECTMEN UPON THE ESTATES BENEFITED BY THE BUILDING OF HOUSTON AVENUE FROM THACHER STREET TO MATTAPAN STREET, AS AUTHORIZED BY THE VOTE OF THE TOWN MEETING HELD MARCH 4, 1895, WHEN THE SUM OF SIXTEEN HUNDRED DOLLARS WAS APPROPRIATED FOR BUILDING SAID STREET.

ANNUAL TOWN REPORT

OF

MILTON

MASS.

FOR THE YEAR ENDING

DECEMBER 31, 1901.

COMPILED BY

THE AUDITORS.

BOSTON:
MILLS & KNIGHT CO., PRINTERS.
1902.

AUDITORS' STATEMENT.

To the Citizens of Milton:

The undersigned Auditors have examined the books and accounts of all persons intrusted with the expenditure of Town money, and all original bills and vouchers on which moneys have been paid from the treasury for the year ending Dec. 31, 1901, and have found them correct.

Respectfully submitted,

JESSE B. BAXTER,
ARTHUR A. HIBBARD,
Auditors.

MILTON, DEC. 31, 1901.

TAX RATE . . . $12 PER $1,000.

Inspector of Plumbing.
TIMOTHY G. RYAN.

BY-LAWS OF THE TOWN OF MILTON.

ADOPTED BY THE TOWN AND APPROVED BY THE SUPERIOR COURT, JULY 7, 1896.

MEETINGS.

I. The warrants for all town meetings shall be directed to either of the constables of the town, and the meetings shall be notified by posting attested copies of the warrant in each of the post-offices of the town fourteen days at least before the day of such meeting, and by leaving printed copies thereof at the dwelling-houses in the town.

II. The annual town meeting for the election of town officers shall be held upon the first Monday of March in each year, the polls to be open at nine o'clock in the forenoon, and after the election of a moderator they shall remain open until two o'clock in the afternoon for the election of such other town officers as are required by law to be elected by ballot, all said officers to be voted for on one ballot. At any time after 2 P. M. a vote may be passed to close the polls in not less than ten minutes.

"After the closing of the polls and the election of other town officers, the remaining articles in the warrant shall be considered.

"After the declaration of the vote for town officers, thirteen legal voters shall be appointed by the moderator, who, together with the chairman of the selectmen, chairman of the school committee, and the officer in charge of the repairs on highways (if there be such officer), shall constitute a committee to be known as the Warrant Committee. And the persons so appointed shall continue members of said committee until the town meeting of the ensuing year.

"Said Warrant Committee shall, within two weeks after their appointment, meet, at the call of the member thereof first named, for organization by the choice of a chairman and secretary. And they shall meet thereafter from time to time as they may deem advisable.

"It shall be the duty of said committee to consider those affairs and interests of the town the subject-matter of which is generally included in the warrants for its town meetings; and the officers of the town shall, upon their request, furnish them with facts, figures, and any other information pertaining to their several departments, provided, however, that any such information may be withheld when, in the opinion of

the officer or board of officers so requested, the communication thereof might injuriously affect the interests of the town or its citizens.

"Said Warrant Committee shall consider the various articles in the warrants for all the town meetings held during the period for which they were appointed, including the various articles in the warrant for the annual town meeting next after their appointment. And they shall report in print before all such town meetings their estimates and recommendations for the action of the town."

III. All motions shall, if required by the moderator, be reduced to writing before being submitted to the meeting.

IV. Upon taking the question, if the decision of the moderator is doubted, or a division of the house called for, the moderator shall request the voters to be seated, and shall appoint tellers; the question shall then be distinctly stated, and those in the affirmative and negative, respectively, shall be requested to rise and stand in their places until they are counted by the tellers, who shall carefully count each side and make report thereof to the moderator.

V. No vote shall be reconsidered at the same meeting, except upon a motion made within one hour of the adoption of such vote, or unless ordered by two-thirds of the voters present and voting thereon.

VI. When a question is under debate, no motion shall be received but to adjourn the meeting, to lie on the table, to commit or amend, to refer or to postpone to a day certain, or to postpone indefinitely; which several motions shall have precedence in the order in which they are arranged.

FINANCIAL REGULATIONS.

VII. The financial year shall begin with the first day of March.

VIII. The selectmen shall annually, not less than seven days before the annual meeting, cause to be printed and distributed among the taxpayers of the town a detailed report of all moneys received into and paid out of the town treasury during the preceding calendar year, with such information and recommendations as they may deem proper, and with detailed estimates of the amounts of money that will be required for the ensuing financial year. With this report shall be printed the records of all meetings of the town held since the last annual report was printed, the reports of the auditors, of the road commissioners, and of the engineers of the fire department, the collector's account of receipts, payments, and abatements, a list of all taxes assessed, an abstract of the births, marriages, and deaths, to be furnished by the town clerk, a statement concerning the condition and funds of the public library, and of the cemetery, to be furnished by the trustees respectively, and a statement of all other funds belonging to the town or held for the benefit of its inhabitants.

IX. The assessment of taxes shall be completed, and the tax list and warrant shall be delivered to the collector on or before the first day of August in each year.

X. Poll taxes shall be paid on demand, and all other taxes assessed in each year shall be paid on or before the first day of December in the same year; and on all such taxes as shall not be paid on or before said first day of December, interest shall be charged at a rate to be fixed annually by the town, pursuant to section 67 of chapter 11 of the Public Statutes; and the collector shall use all the means and processes provided by law for the collection of all taxes remaining unpaid after the first day of December in the same year.

XI. No officer of the town shall be interested directly or indirectly in any contract, bargain, sale, agreement, or employment in which the town is interested, in that department of the affairs of the town to which the duties of his office pertain; and any and all such contracts, bargains, sales, agreements, or employments shall be utterly void as to the town; but nothing in this section shall apply to the payment of any officer of his salary, or for his services for performing the duties of his office, or to any contract or agreement for such payment.

XII. The selectmen, being duly authorized by vote of the town under the limitations imposed by statute, may authorize the treasurer to borrow money temporarily in anticipation of the collection of taxes, or for loans authorized by vote of the town, and to give promissory notes therefor in behalf of the town, the same to be signed by the treasurer and countersigned by a majority of the selectmen.

XIII. No money granted for special purposes shall be applied to any other use unless by vote of the town, and all unexpended balance of such grants shall be stated in the selectmen's annual report.

XIV. No order shall be drawn by any officer or committee on town treasurer for any purpose not authorized by a vote of the town or by the laws of the Commonwealth, nor shall any such draft be made for any amount which overdraws the appropriation against which it is made, whether general or special; and the town treasurer shall keep all necessary accounts in respect to the several separate appropriations and the drafts made against each, and shall not honor any draft which does not state specifically the appropriation against which it is drawn, or which overdraws such appropriation, whether general or special.

To provide for possible necessary expenditures of departments in excess of appropriations made, the town shall annually appropriate a certain sum of money to be known as the "Contingent Fund." No direct drafts against this fund shall be made, but transfers from the fund may be made by vote of the warrant committee to the account of any other appropriation on application of any officer or department. Certified copy of such vote shall be sent to the town treasurer, and the treasurer shall transfer accordingly, and honor drafts against the funds so transferred as if originally appropriated.

XV. No grant of a sum of money exceeding five hundred dollars shall be made until the subject-matter thereof has been considered and the estimates reported to the town either by the selectmen, the school committee, the road commissioners, or other town officers, or by some committee chosen for that purpose in pursuance of a vote of the town.

XVI. The selectmen shall have full authority, as agents of the town, to institute and prosecute suits in the name of the town, and to appear and defend suits brought against it, unless it is otherwise specially ordered by a vote of the town.

XVII. Whenever it shall be necessary to execute any deed conveying land or other instrument required to carry into effect any vote of the town, the same shall be executed by the selectmen, or a majority thereof, in behalf of the town, unless the town shall otherwise vote in any special case.

XVIII. Two auditors shall be chosen by ballot at the annual meeting, who shall have the power and perform the duties prescribed by statute.

No board, committee or officer of the town shall commit the town to any expenditure or liability which would in the ordinary course of business be chargeable to the appropriation of which such board, committee or officer is, or had been, in charge after such appropriation has been exhausted, or after the satisfaction of all liabilities against it would exhaust it, until either the warrant committee shall have transferred additional sums to such appropriation, or until the town, at a meeting of the voters, shall have acted in the matter.

POLICE REGULATIONS.

XIX. Whoever, without a written license from the road commissioners or other officers having charge of the repairs of the highways, shall suffer any wood or coal, or any cart or wagon, to remain within the limits of a highway or street, or upon a sidewalk of a highway or street, so as in any manner to obstruct the travel thereon, or for more than twenty-four hours, shall forfeit and pay a sum not less than one dollar and not more than ten dollars for each offence; and he shall be subject to a like penalty if he neglects to remove the same within the time ordered by such officers, who may revoke such license at any time.

XX. Whoever, without the written permission of the road commissioners or other town officers having charge of the repairs of the highway, shall place or cause to be placed in any highway or street, or upon any sidewalk thereof, any ashes, dirt, rubbish or filth of any kind, or any animal or vegetable substance, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXI. Whoever shall suffer any horse, or grazing beast, or swine, to run at large in the town, or to feed in any highway or street, either with or without a keeper, and whoever shall drive any such animal upon and over any sidewalk, or suffer any horse to remain hitched across any sidewalk, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXII. Whoever shall coast upon a sled or sleds on Adams Street, between Churchill's Lane and the line of the city of Boston, or the sidewalks thereof between these points, or any other highway, street, or public place upon which the selectmen shall by public notice prohibit such coasting; and whoever shall drive, wheel, or draw any coach, cart, wheelbarrow, hand-cart, velocipede, bicycle, or any carriage of burden or pleasure (except children's carriages drawn by hand), or coast upon a sled, or sleds, upon any sidewalk in the town, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXIII. Whoever shall behave in any indecent or disorderly manner, or use profane, indecent, or insulting language in any public place, or on any sidewalk or street in the town, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, and any person or persons who shall play or perform on any musical instruments, or sing, or parade, or march, or congregate in any of the streets or public places of the town, except in connection with a funeral, without a written permit from the selectmen, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

XXIV. Three or more persons shall not continue to stand or remain in a group, or near to each other, on any sidewalk or in any public place in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on; and any person who shall violate the provisions of this By-Law shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXV. Whoever shall be or remain on any doorstep, portico, or other projection from any house or building, or upon any wall or fence on or near any highway, street, or public place, after being requested by the occupant of the premises or by any constable or police officer to remove therefrom, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

XXVI. Whoever shall affix, by paste or otherwise, any handbill, placard, notice, or advertisement, or paint, draw, or stamp the same, or any marks or figures, to or upon any sign-boards of the town, or to or upon any building, fence, wall, tree, or structure, in the town, without the permission of the owner of such building, fence, wall, tree, or structure, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence; and if such handbill, placard, notice, advertisement, mark, or figure be obscene or indecent, the penalty shall not be less than twenty dollars for each offence.

XXVII. Whoever shall undertake to enter a particular drain into a common sewer, or make or cause to be made an excavation in a highway or street for any purpose without a permit in writing from the road commissioners (or from the selectmen, if there be no road commissioners), or without complying with the conditions and directions of such permit, shall forfeit and pay a sum not exceeding ten dollars.

XXVIII. Whoever shall lead or cause to be led into any highway, street, or running stream in the town any drain or pipe from any house or other building whereby filthy water or other unclean matter may be emptied into or upon any such highway, street, or running stream; and whoever shall throw, lead, or discharge, or cause to be thrown, led, or discharged, into any highway, street, or running stream in the town any noxious or poisonous matter or substance, or any matter or substance which shall cause an offensive smell or odor, or which shall be destructive of, or injurious to, animal life, shall forfeit and pay a sum not less than five dollars nor more than twenty dollars.

XXIX. The selectmen may grant licenses to use a certain portion of any public way as a carriage-stand, under such terms and conditions as they may prescribe; and no person shall use any portion of any public way in this town as a carriage-stand for the solicitation of passengers for hire without a license from the selectmen; but licenses shall not be confined to one person to the exclusion of other applicants, and shall be granted so as to allow competition and promote public convenience.

TRUANCY.

XXX. The town of Milton hereby avails itself of the several provisions of the statutes of this Commonwealth, now in force, relating to habitual truants and absentees from school, and in pursuance of authority conferred thereby adopts the following By-Laws: —

XXXI. All children between the ages of seven and fifteen years, residing in said town, and who may be found wandering about in the streets or public places in said town, having no lawful occupation or business, not attending school, and growing up in ignorance, shall be committed to the Plummer Farm School, Salem, or the County Truant School at Walpole, for confinement, instruction, and discipline.

XXXII. Two or more truant officers shall be appointed annually, whose duty it shall be to inquire into all the violations of the truant laws and of the law relating to compulsory education, and to do all the acts required of them by the laws of the Commonwealth.

XXXIII. It shall be the duty of every truant officer, previous to making any complaint under these laws, to notify the truant or absentee from school, also his parent or guardian, of the offence committed, and of the penalty therefor, and if the truant officer can obtain satisfactory pledges for the restraint and reformation of the child, he may, at his discretion, forbear to prosecute, so long as such pledges are faithfully kept.

XXXIV. It shall be the duty of the school committee, the teachers of the public schools, and the citizens generally, to aid the truant officers as far as possible in the discharge of their duties.

XXXV. It shall be the duty of the truant officers to keep a ful record of all their official acts, and make an annual report thereof to the school committee, who shall publish the same with their own report.

XXXVI. Nothing in these By-Laws shall be construed as to alter or impair the obligation and duty of teachers to enforce punctuality and regularity of attendance, and to preserve good order and discipline.

THE CEMETERY.

XXXVII. The sole care, superintendence, and management of the cemetery shall be intrusted to a board of five trustees to serve for the period of five years ; one of said board shall retire and a new member be elected at each annual March meeting of the town.

XXXVIII. Citizens of Milton who are heads of families shall be entitled to lots in the cemetery free of expense, allowing one lot to a family, subject to the regulations adopted by the town.

XXXIX. The trustees, when in their judgment it shall be deemed advisable, may sell lots at the rate of fifty cents a square foot, but only to those who are in some way connected with Milton people.

XL. The proprietor of each lot shall cause to be erected, at his own expense, corner-stones, and a step with his name and the number of the lot inscribed on the same, and shall cause his lot to be kept in proper

order; and if the proprietor shall omit, for thirty days after notice, to erect such landmarks and to keep the lot in order, the trustees shall have authority to have the same done at the expense of said proprietor.

XLI. No lot shall be used for any other purpose than as a place of burial for the dead; and no proprietor shall suffer the remains of any person to be deposited within the bounds of his lot for hire; nor shall any proprietor sell or transfer the whole or any part of his lot without the consent of the trustees.

XLII. If, in the judgment of the trustees, any trees or shrubs in any lot shall become detrimental to the adjacent lots or avenues, or dangerous or inconvenient, it shall be the duty of said trustees, for the time being to enter upon said lot, and to remove said trees and shrubs, or such parts thereof as are thus detrimental, dangerous, or inconvenient.

XLIII. There shall be no structure nor inscription placed in, upon, nor around any lot which the trustees for the time being shall deem offensive or improper; and it shall be the duty of the trustees to remove all offensive or improper objects.

XLIV. The trustees for the time being shall have authority to purchase any tomb in Milton cemetery offered for sale, paying for the same such sums as, in their judgment, may be fair and reasonable. They shall also be authorized to give for any tomb a lot, to be constructed on the land occupied by the tomb, or to be selected at some other point in the cemetery grounds, as they may agree with the proprietor of the same. Should there be no living proprietors or legal representatives of a tomb, the trustees may take possession of such tomb, carefully remove its contents to a lot prepared for the purpose, and erect over the remains a suitable memorial stone.

XLV. The following regulations shall be posted within the cemetery.

1. All persons are prohibited from driving on the borders.
2. No horse can be left upon the grounds without a keeper, unless fastened to posts provided for the purpose.
3. All persons are prohibited from discharging firearms within the grounds of the cemetery, except in case of military funerals.
4. All persons are prohibited from writing upon or otherwise defacing any sign, monument, fence, or other structure.
5. All persons are prohibited from gathering flowers, or breaking any tree, plant, or shrub.
6. Dogs are not allowed within the cemetery grounds.

BY-LAWS IN RELATION TO THE CONSTRUCTION AND INSPECTION OF BUILDINGS AND PLUMBING, FOR THE TOWN OF MILTON.

SECTION 1. There shall be in the town of Milton a Department for the Inspection of Buildings, which shall be furnished with office room and such supplies for the transaction of business as the selectmen may provide.

SECT. 2. The officer of said department shall be called the "Inspector of Buildings." He shall be appointed by the selectmen, and shall hold office until his successor is appointed. His compensation shall be regulated by the selectmen.

SECT. 3. The selectmen may, after a hearing, of which public notice shall be given at least seven days prior to said hearing, by posting a written notice in each post-office in the town and on the public bulletin boards in the town and by publishing the same in a newspaper published

in the town, or, if there be no such newspaper, in one published in the city of Boston, pass a vote establishing building limits within the town, and upon the acceptance of said vote by the inhabitants of the town, at a town meeting called as provided by law, said building limits shall be established.

Said building limits may comprise the whole or any specified part or parts of the territory of the town.

SECT. 4. The inspector of buildings may, so far as is necessary for the performance of his duties, enter any building or premises within said town at any reasonable hour.

SECT. 5. The inspector of buildings shall keep a record of all business of the department, and shall submit to the selectmen such reports of the same as they may require.

SECT. 6. No work shall be done upon any wall, building or other structure within said "building limits," except such repairs as may be necessary for the preservation of said wall, building or other structure, nor shall any wall, building or other structure be erected, raised, moved, enlarged, altered, built upon or torn down, within said "building limits," without a permit from the inspector of buildings.

SECT. 7. Applications for such permits shall be in writing, and shall be directed to the inspector of buildings, who shall keep a record of the same.

SECT. 8. The plans and specifications of every building, or other structure, and of every alteration in a building, or other structure, for which permit is required, shall be deposited temporarily with the inspector of buildings. A copy of the plans and specifications of every public building and of every alteration in a public building shall be deposited permanently. All plans and specifications deposited under this section shall be dated and signed by the inspector immediately upon being received by him.

Every permit issued by the inspector of buildings shall state the purpose for which the building is to be used, and the conditions, if any, under which it is granted. All permits issued shall be recorded in detail, and said records shall be preserved.

SECT. 9. The inspector of buildings shall not give a permit for the erection of any building or other structure, until he has inspected the plans and specifications thereof, and ascertain that the building, as planned, has sufficient strength, proper means of ingress and egress, and that it conforms with the laws; or for the alteration of any building or other structure, already erected, until he has examined said building or other structure and the plans and specifications of said alteration, and has satisfied himself that said building, as altered, will have sufficient strength, proper means of ingress and egress, and that it will conform to the laws.

The inspector of buildings shall, as often as is practicable, inspect all work for which a permit has been issued, and shall see that it is being carried on according to the requirements of law.

SECT. 10. No permit for the erection of any building to be used as a factory, or in which steam or other motive power is to be used, or to be used for the manufacturing of chemicals, or for the alteration, or the moving of any building for any such uses, shall be granted until after public hearing before the selectmen, and no building for any of such purposes shall be erected, altered or moved without such permit.

Notice of such hearing shall be given, at least seven days prior to said hearing, by posting a written notice in each post-office in the town, and on the public bulletin boards in the town, and by mailing a copy of the same to the owners of premises within 500 feet of the proposed location

of the building, addressed to their last known residence or place of business, and by publishing the same in a newspaper published in the town, or if there be no such paper, in one published in the city of Boston.

No boiler to furnish steam for motive power shall be set, or erected, except on permit from the inspector of buildings, issued after hearing as provided above.

This section (ten) shall apply to the whole town, irrespective of the building limits prescribed by this by-law.

SECT. 11. Permits for the erection, alteration, or moving of any building, to be used as a stable, in which more than four horses are to be kept, shall only be granted after hearing as provided in the preceding section. Notice of such hearing shall be sent to the Board of Health, in addition to the notices required in said preceding section.

SECT. 12. The selectmen may, in their discretion, after hearing as provided in the two previous sections, instruct the inspector of buildings not to issue the permit asked for at such hearing, and, in such case, no such permit shall issue.

SECT. 13. In case the owner of any building or other structure, or an applicant for a permit to erect or alter a building or other structure, is dissatisfied with any order or decision of the inspector of buildings, the matter shall be referred to the selectmen, who, within one week from said reference, shall hear the parties, and, after taking such expert opinion as may seem to the selectmen to be necessary, give their decision. In case the decision of the inspector of buildings be affirmed, the expense of any expert opinion, taken by the selectmen, shall be paid to the town by the owner or applicant, on demand; otherwise such expense shall be borne by the town.

SECT. 14. Every portion of every structure in process of construction, alteration, repair or removal, and every neighboring structure or portion thereof, affected by such process or by any excavation, shall be properly supported during such process or excavation.

SECT. 15. All chimneys shall be built of brick or stone, and shall be lined with flue linings, or shall have an eight-inch brick wall from the bottom of the first floor to the top of the attic floor, and shall be topped at least three feet above the highest point of contact with the roof. No nails shall be driven into any chimney at any point; and no woodwork shall be within one inch of any chimney.

All wooden buildings, of two or more stories, shall have sills, posts, and girts, mortised, tenoned and pinned together, and shall be properly braced. End girts shall be placed in all wooden buildings. Sills shall not be less than 6 x 6 inches, and posts and girts not less than 4 x 6 inches.

All woodwork, including lath and plaster within two feet of any heating apparatus or smoke-pipe, and all woodwork, including lath and plaster, coming in contact with any pipes from said apparatus, shall be properly protected by metal or stone shield.

No wooden building shall be built within two feet of the line of an adjoining lot unless a brick wall at least eight inches in thickness shall be substituted for the wooden wall next said line.

Where dwellings of more than two stories are to be occupied by more than two families there must be at least two flights of stairs from ground floor to top floor, or one flight from ground floor to top floor inside, together with an approved fire-escape outside.

Every owner, either by himself or through his builder or carpenter, shall, before making any substantial alterations in a building, or erecting any new building, within the town of Milton, whether inside the building limits or not, file at the office of said inspector, upon blanks

furnished by the town for that purpose, notice of all such work or alterations as come under the provisions of this section; and no such work shall be done in any building in said town except subject to the approval of said inspector.

This section (fifteen) shall apply to the whole town, irrespective of the building limits prescribed by this by-law.

SECT. 16. The selectmen may, after a hearing, of which public notice shall be given at least seven days prior to said hearing by posting a written notice in each post-office in the town, and on the public bulletin boards in the town, and by publishing the same in a newspaper published in the town, or, if there be no such newspaper, in one published in the city of Boston, and by giving personal notice to the owners of land to be affected, by delivering to such owners a copy of said notice, or by depositing the same in the post-office, post-paid, and addressed to them at their last known residence or place of business, pass a vote establishing a building grade or building grades for any part or parts of the town, and on the acceptance of such vote by the inhabitants of the town at a town meeting, called as provided by law, said building grade or building grades shall be established.

Said building grade or building grades may be at different heights above the level of the sea, in different parts of the town, as the nature of the ground may require.

No cellar floor of any building erected on land for which a building grade has been established, nor any part, except the foundation, of a building which has no cellar, shall be below said grade.

SECT. 17. The inspector of buildings in the name of the town may take such measures as the public safety requires, to carry this by-law and every section thereof into effect, and any expense incurred in so doing may be recovered by the town from the owner of the defective property.

SECT. 18. There shall be a fee of $2.00 for any permit required by this by-law. Fees shall be collected by the inspector before issuing permit, and be by him paid into the town treasury, and shall be applied toward defraying the cost of the department for the inspection of buildings.

SECT. 19. Any person, firm or corporation guilty of a breach of any regulation contained in this by-law shall be liable to a fine of not less than $20.00 nor more than $100.00 for each such offence. Such fines to be paid into the town treasury.

BY-LAW IN RELATION TO PLUMBING.

Only plumber allowed to perform plumbing.

SECTION 1. No person shall carry on the business of plumbing unless he is a plumber, and shall have first registered his name and place of business in the office of the inspector of buildings; and notice of any change in the place of business of a registered plumber shall be immediately given to said inspector.

Permit necessary before work is performed.

SECT. 2. Every plumber, before doing any work in a building, shall, except in the repair of leaks, file at the office of the said inspector, upon blanks furnished for that purpose, a notice of the work to be performed; and no such work shall be done in any building without the approval of such inspector.

Plumbing not to be concealed from view until approved.

SECT. 3. No drainage, sewerage or plumbing shall be covered or concealed in any way until after it has been examined and approved by the inspector. Notice must be sent to the inspector when the work is sufficiently advanced for such inspection, and it shall be the duty of such inspector, within two working days after receiving such notice, to inspect the same; and in case any change therein shall be found necessary, he shall direct in writing the change to be made.

Plumbing to be tested by water pressure before using.

SECT. 4. Plumbing work shall not be used until the same is tested in the presence of the inspector, with the water test, if possible, or with the peppermint or other reliable test, and approved by him in writing ; and such written approval shall be sent to the owner and the plumber.

Buildings to be separately and independently connected with sewer.

SECT. 5. The sewerage of every house or building shall be separately and independently connected with the street sewer, where one is provided, or with a proper cesspool; and where there is no sewer in the street, and it is necessary to construct a private sewer to connect with one on an adjacent street, such plans shall be used as may be approved by this department.

Sizes and kinds of pipe to be used.

SECT. 6. The soil-pipe of every building shall be of sufficient size to receive, and allow freely to pass, all that enters or should enter the same. All soil-pipe shall be of extra heavy cast-iron pipe, all drain and connecting ventilating pipes within the building shall be of sufficient size and made of cast-iron, with leaded and calked joints, but wrought-iron pipe may be used for vent purposes ; said pipes shall be properly secured to walls and ceiling with wrought-iron hangers. The soil-pipe of any building shall not be less than 4 in., vents not less than $1\frac{1}{2}$ in., and iron waste not less than 2 in. in diameter.

Running trap, where placed.

SECT. 7. Every drain-pipe shall be supplied with a suitable trap placed with an accessible clean-out at the point where it leaves the building, and shall have a proper pitch, and extend 5 ft. outside of cellar wall; said clean-out may be placed outside of cellar wall if made accessible. The pipe from this point to sewer or cesspool must have tight joints. All drain or ventilation pipes must extend undiminished in size at least 2 ft. above the highest window on roof, and all changes in direction of soil-pipes must be made by Y branches.

All changes in direction of soil-pipe must be by Y branches.

Joints in iron pipe, how made.

SECT. 8. All joints in iron drain-pipes, soil or vent pipes, must be made by thoroughly calking the same with molten lead. Joints of lead pipes with iron pipes must be made by soldering the same into brass ferrules, and calking the ferrules to iron pipes or screwing them to wrought-iron pipes.

Every fixture shall have a separate trap

SECT. 9. Every water-closet, urinal, sink, basin, bath-tub, slop-hopper, and every tray or set of trays, shall be furnished with a separate trap, placed as near the fixture as possible, and in no case shall the waste from the bath-tub or other fixture be connected with a water-closet trap. Traps should be protected from siphonage or air pressure by special pipes, of a size not less than the waste-pipe, placed outside or below the trap ; lead pipes may be used

Traps to have air-pipes.

only where they are exposed to view. Air-pipes for water-closets shall not be less than 2-in. bore. Two or more air-pipes may be connected together, or with a soil-pipe, but in such connection with soil-pipe it must be above the upper fixture of the building.

What fixtures shall not be connected with soil-pipe.

SECT. 10. No drip or overflow pipes from safes under water-closets, urinals or other fixtures, no overflow from tanks or cisterns, no waste-pipe from a refrigerator or other receptacle in which food is stored, no rain-water conductors and no steam exhaust or steam from waste-pipes shall be connected with any soil-pipe. No openings will be allowed in the sewer-pipe of any building for the purpose of receiving the surface drainage of the cellar. No brick, sheet-metal, earthenware or chimney flue shall be used as a sewer-ventilator, or to ventilate any trap, drain, soil or waste-pipe; and no water-closet shall be flushed from a tank that is used for any other purpose.

No flue, etc., to be used for a ventilator.

Closet supply-pipe.

SECT. 11. Every water-closet or line of water-closets on the same floor, inside of the building proper, shall be supplied with water from a tank, and shall have a flushing pipe of not less than 1¼ in. in diameter inside.

Construction cesspool.

SECT. 12. Cesspools shall have a top of stone or arched brick with iron rim and cover, and may be laid up dry, unless otherwise ordered by the board of health.

Vaults, how constructed.

SECT. 13. Every privy vault shall be at least 4 ft. distant from the line of any adjoining lot, unless by the consent of the owner of such lot; and every vault shall be so constructed as to be conveniently approached, opened and cleaned, and shall be made tight, so that the contents thereof cannot escape therefrom, if, in the opinion of the inspector, the surroundings require it.

Woodwork around water-closets.

SECT. 14. No water-closet shall be enclosed with any upright woodwork.

Appeals.

SECT. 15. In the case of any dispute or difference in opinion between the inspector and any person, firm or corporation, the same shall be submitted by either party to the local board of health, who shall pass upon the same, and whose finding therein, after hearing, shall be final and conclusive upon all parties. No member of said board shall sit in a case in which he is interested, and in case of such disqualification, or of the necessary absence of any member, the two other members shall appoint a substitute. If two or more members are so disqualified or absent, the inspector shall appoint one substitute, the appellant another, and the two so appointed shall, if necessary, appoint a third.

SECT. 16. The inspector of buildings, in the name of the town, may take such measures as the public safety requires, to carry this by-law and every section thereof into effect, and any expense incurred in so doing may be recovered by the town from the owner of the defective property.

Penalty.

SECT. 17. In case of violation of any one or all of the foregoing sections, by any person or persons, firm or corporation, by or upon whom any duty is herein prescribed or imposed, he or they or it so offending shall be liable to a fine not exceeding the sum of one hundred dollars, to be paid into the town treasury.

GENERAL PROVISIONS.

XLVI. The penalty of any violation of these By-Laws shall, when not otherwise provided for, be the forfeiture and payment for each offence of a fine not exceeding twenty dollars.

XLVII. Prosecutions for the breach of the provisions of the By-Laws of the town shall be commenced within six months from such breach.

XLVIII. These By-Laws may be amended at any annual town meeting, an article having been inserted for the purpose in the warrant for such meeting, and upon the approval of these By-Laws all By-Laws heretofore passed shall be annulled and repealed.

MILTON TOWN RECORDS

FOR THE MUNICIPAL YEAR 1901–1902.

MARCH MEETING.

WARRANT.

Commonwealth of Massachusetts.

NORFOLK, ss. *To either of the Constables of the Town of Milton*, GREETING:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Milton, qualified to vote in Town affairs, to meet at the Town Hall, in said Milton, on Monday, the fourth day of March next, at 9 o'clock A. M., then and there to act upon the following articles, to wit:—

ARTICLE 1. To choose a Moderator to preside at said meeting.

ART. 2. To choose all such Town officers as are required by law to be chosen by ballot; also on the same ballot to vote "Yes" or "No" in answer to the question, "Shall license be granted for the sale of intoxicating liquors in this Town?" The polls to be opened at 9 o'clock in the forenoon, and may be closed as early as 2 o'clock in the afternoon.

ART. 3. To choose all such Town officers as are not required by law to be chosen by ballot.

ART. 4. To hear and act upon the Auditors' Report, and reports of other Town officers or committees.

ART. 5. To see what sum of money the Town will appropriate for the support of schools the ensuing year.

ART. 6. To see what sum of money the Town will appropriate for streets the ensuing year.

ART. 7. To see what sum of money the Town will appropriate for the improvement of the cemetery the ensuing year.

ART. 8. To see what sum of money the Town will appropriate for the Public Library the ensuing year.

ART. 9. To see what sum of money the Town will appropriate to be used by the Trustees of the Public Library towards preparing a card catalogue of the books in the Library.

ART. 10. To see what sum of money the Town will appropriate for the support of the poor the ensuing year.

ART. 11. To see what sum of money the Town will appropriate for Soldiers' Relief the ensuing year.

ART. 12. To see what sum of money the Town will appropriate for the Fire Department the ensuing year.

ART. 13. To see what sum of money the Town will appropriate for the Police Department the ensuing year.

ART. 14. To see what sum of money the Town will appropriate for street lighting the ensuing year.

ART. 15. To see what sum of money the Town will appropriate for salaries of Town officers the ensuing year.

ART. 16. To see what sum of money the Town will appropriate for Town Hall and lot the ensuing year.

ART. 17. To see what sum of money the Town will appropriate for State Aid the ensuing year.

ART. 18. To see what sum of money the Town will appropriate for printing the ensuing year.

ART. 19. To see what sum of money the Town will appropriate for miscellaneous expenses the ensuing year.

ART. 20. To see what sum of money the Town will appropriate for the Health Department the ensuing year.

ART. 21. To see if the Town will accept the list of jurors as prepared by the Selectmen.

ART. 22. To authorize the Collector of Taxes to use all means of collecting the taxes which a Town Treasurer, when appointed Collector, may use.

Art. 23. To fix the rate of interest on taxes unpaid after a time fixed by the Town.

Art. 24. To see if the Town will vote to appropriate the sum of two hundred dollars ($200) to be expended by Huntington Frothingham Wolcott Post 102, G. A. R., on Memorial Day.

Art. 25. To see what sum of money the Town will appropriate for insurance on the Town buildings the ensuing year.

Art. 26. To see what sum of money the Town will appropriate for hydrant rental the ensuing year.

Art. 27. To see what sum of money the Town will appropriate for transportation of scholars the ensuing year.

Art. 28. To see what action the Town will take in regard to borrowing money.

Art. 29. To see if the Town will vote to appropriate the sum of four hundred and twenty-five dollars ($425) for plans and clerk hire for the Board of Assessors.

Art. 30. To see what sum of money the Town will appropriate for the general uses of the Board of Park Commissioners the ensuing year.

Art. 31. To see what sum of money the Town will appropriate for the use of the Tree Warden, to be expended in the care and planting of shade trees the coming year.

Art. 32. To see what salary (if any) the Town will vote to pay the Tree Warden the ensuing year.

Art. 33. To see what sum of money the Town will appropriate to be expended by the Park Commissioners in conjunction with the School Committee in the improvement of the school lots.

Art. 34. To see if the Town will vote to accept Blue Hill Terrace Street, as laid out by the Selectmen under the act authorizing the assessment of betterments, and appropriate money for the same.

Art. 35. To see if the Town will vote to accept Lincoln

Street, as laid out by the Selectmen under the acts authorizing the assessment of betterments, and appropriate money for the same.

Art. 36. To see if the Town will vote to accept Capen Street from the New York, New Haven & Hartford Railroad to the Neponset River, as laid out by the Selectmen, and appropriate money for the same.

Art. 37. To see if the Town will appoint a committee of five to consider the feasibility of erecting a new Police Station on the Town Land, and connecting therewith a stable suitable to the care of horses and wagons used by the police force.

This committee to report in writing before the next Annual March Meeting; their findings to be acted upon at said annual meeting; and five hundred dollars be now appropriated to procure plans and for other expense connected therewith.

Art. 38. To see what sum of money the Town will appropriate to purchase a lot of land on which to erect a fire department building in the western section of the town.

Art. 39. To see what sum of money the Town will appropriate for the purpose of erecting and equipping a fire department building in the western section of the Town.

Art. 40. To see what sum of money the Town will vote to appropriate for the use of a committee of citizens to be appointed by the Moderator for the purpose of considering and reporting on the subject of public bathing facilities for the Town.

Art. 41. To see if the Town will vote to appropriate the sum of fifteen hundred dollars for the purpose of collecting and disposing of ashes and garbage in the Lower Mills, Mattapan, and East Milton sections, or the congested districts throughout the Town, deemed necessary by the Selectmen.

Art. 42. To see if the Town will direct the Warrant

Committee, or will appoint a Committee, to investigate and consider upon the matter of the future granting of locations to street railways in the public ways in the Town, with a view to obtaining information regarding locations in other places and otherwise and to making recommendations which may be of use to the Selectmen or other public officers in granting locations hereafter; and with a further view of the practicability of securing to the Town payment by way of rent or otherwise for the use of such locations; and to report on said matters to the Town; and will appropriate a sum not exceeding three hundred (300) dollars for the purpose aforesaid.

Art. 43. To see if the Town will have printed in each Auditors' Report hereafter issued copies or full statements of all locations granted to street railways in the Town during the preceding year, with all the terms, conditions and modifications thereof, and the terms of any modifications granted during the year of locations previously granted.

Art. 44. To see if the Town will vote to adopt the following amendments to its By-Laws:

Section 1. Every way that shall be laid out for the acceptance of the Town as a town way shall be not less than thirty feet in width.

Sect. 2. Whenever an existing private way, the fee of which is in the abutters, shall be laid out for the acceptance of the Town as a town way, the documents relating to such laying out shall be accompanied by a certificate of a competent civil engineer, which shall be filed in the office of the Town Clerk, together with said documents, before such way shall be accepted. The said certificate shall state that such private way is well built; and that as constructed it is equal to the average construction of the existing highways of the Town.

Sect. 3. Whenever any way shall have been laid out or altered by the Selectmen, and accepted and allowed by the

Town, no entry for the purpose of constructing any part of such laying out or alteration shall be made until all claims for damages by reason thereof shall have been finally adjusted or determined, unless such entry shall be authorized by special vote of the Town.

Art. 45. To see if the Town will vote to amend its By-Laws by adding the following or any other provision substantially similar:—

No Board, Committee or officer of the Town shall commit the Town to any expenditure or liability which would, in the ordinary course of business, be chargeable to the appropriation of which such Board, Committee or officer is or has been in charge, after such appropriation has been exhausted, or after the satisfaction of all liabilities against it would exhaust it, until either the Warrant Committee shall have transferred additional sums to such appropriation, or until the Town at a meeting of the voters shall have acted in the matter.

Art. 46. To see what sum of money the Town will appropriate for the improvement and repair of highways in said Town, including, and lying westerly of, Atherton Street, Bradlee Road and Williams Avenue during the ensuing year.

Art. 47. To see what sum of money the Town will appropriate for the improvement and repair of Milton Street, between Blue Hill Avenue and Paul's Bridge, during the ensuing year.

Art. 48. To see if the Town will amend its By-Laws by an article designed to regulate the speed of vehicles and of animals upon the streets and highways of the Town in substantially the following form:

No person having charge of a horse or other beast of burden, carriage or draught, or of any vehicle, however propelled, shall drive or ride, or permit or suffer such horse or beast, or vehicle, to go or be propelled at a greater rate

of speed than eight miles per hour, in or through any public street in said Town.

Art. 49. To see if the Town will adopt the following Police Regulations recommended by the Committee appointed at the last Annual Meeting:

I. No person shall move, or assist in moving, any building more than ten feet high over any way in the Town which the Town is obliged to keep in repair without the written permit of the Selectmen being first obtained; nor, having obtained such permit, without complying with the restrictions and provisions thereof.

In case any building shall be moved contrary to the provisions of the preceding section, the owner of the building shall reimburse the Town for all expenses and damages which the Town may be compelled to pay by reason of the way being encumbered.

II. No person having charge of any beast shall suffer or permit any such beast to run, gallop, trot, pace or go at a rate exceeding ten miles to the hour over any way, avenue or street in this Town.

And no person in charge of any bicycle, automobile or other vehicle whatsover shall suffer or permit such bicycle, automobile or other vehicle to run or go at a rate exceeding ten miles to the hour over any way, avenue or street in this Town.

III. No person shall permit any team under his care or control to stand across any public highway or street in such a manner as to obstruct the travel over the same for an unnecessary length of time; no person shall stop with any team in any public street so near to another team as to obstruct public travel; and no person shall stop with any team or carriage upon or across any crossing in any street or highway in the Town.

IV. No person shall throw stones, snowballs, sticks or other missiles, or kick at football or play at any game in

which a ball is used, or fly any kites or balloons, in any of the public ways in the Town.

V. No person shall coast upon a sled in any of the streets or upon any of the sidewalks in this Town.

VI. No person shall drive, or take charge of, at the same time, in any of the public ways of the Town, two or more vehicles, drawn by horses or other beasts, or shall allow any vehicle belonging to him to be driven in the public ways of the Town without some competent person in charge thereof.

VII. No person shall place, or cause to be placed, upon any public way, foot-path or sidewalk within the Town, any lumber, iron, coal, trunk, bale, box, crate, cask, barrel, package or other thing, or shall otherwise obstruct such way by placing things therein, for more than one hour, or more than ten minutes after being notified by a constable, police officer or the Selectmen; or shall lay, throw or place, or cause to be laid, thrown or placed, any ice or snow into any street within the Town, unless the same be broken into small pieces and spread evenly on the surface of such street.

VIII. Any person who intends to erect, repair or take down any building on land abutting on any way which this Town is obliged to keep in repair, and desires to make use of any portion of said way for the purpose of placing thereon building materials or rubbish, shall give notice thereof to the Selectmen. And thereupon the Selectmen may grant a permit in writing to occupy such a portion of said way to be used for such purpose as in their judgment the necessity of the case demands and the security of the public allows; such permit in no case to be in force longer than ninety days, and to be on such conditions as the Selectmen may require; and especially, in every case, upon condition that during the whole of every night, from twilight in the evening until sunrise in the morning, lighted lanterns shall be so placed as effectually to secure all travelers from liability to come in contact with such building materials or rubbish.

IX. No person shall dig up or obstruct any portion of any way which the Town is obliged to keep in repair without the permit, in writing, of the Selectmen, as above provided, nor having obtained such permit, shall fail to comply with the conditions thereof; and in addition to any penalty to which he may be subjected under these by-laws for such failure, he shall reimburse the Town for all expenses and damages for which the Town may be compelled to pay by reason of such unauthorized use, or of any failure to comply with said conditions.

X. No person shall distribute papers, circulars or advertisements through the Town in such manner as to create a disturbance or litter.

XI. No person shall fire or discharge any gun, fowling piece or firearm within two hundred feet of any avenue, public way or street in the Town of Milton.

XII. No person shall wilfully deface or injure any public play-ground, planting space, flower-bed, tree, shrub or grass border.

XIII. No person shall purchase, sell, or barter junk or old metals within the Town, or go from house to house within the Town purchasing, selling or bartering or endeavoring to purchase, sell or barter junk, old metals, bottles, bones or grease, without a license from the Selectmen.

XIV. No person shall own or keep in the Town of Milton any dog which by barking, biting, howling or in any other manner disturbs the quiet of any neighborhood.

XV. Except when otherwise provided by law, prosecutions for offences under the by-laws of the Town may be made by any constable or police officer of the Town.

XVI. Any person who shall violate any provision of these by-laws, or who shall refuse or neglect to obey any order of the Board of Selectmen issued under these by-laws, and directed to him and properly served upon him, shall, in cases not otherwise provided for, forfeit and pay for such offence, a fine not exceeding twenty dollars.

ART. 50. To see if the Town will vote to adopt the following amendments to its Building and Plumbing laws:

BUILDING LAWS.

In Sect. 8 thereof, that the word "framing" be inserted after the word "the" in first line, so that the section shall read as follows:—

The framing plans and specifications of every building, or other structure, and of every alteration in a building, or other structure, for which a permit is required, shall be deposited temporarily with the inspector of buildings. A copy of the plans and specifications of public buildings and of every alteration in a public building shall be deposited permanently. All plans and specifications deposited under this section shall be dated and signed by the inspector immediately upon being received by him.

In Sect. 15 thereof, in second line, that the following be inserted after the word "linings" — "starting two feet below the under side of first floor joist and extending to the roof boarding;" also in the third line after the word "bottom" that the following be inserted: — "from the foundation to the roof boarding;" also after the word "buildings," in the eighth line, that the following be inserted: — "hereafter erected."

Also in the ninth line, that the following be inserted, "and supported by suitable studding."

Also in the eleventh line, that the following be inserted after the word "inches" — "and properly tied to all girders, and also a sufficient number of floor timbers shall be tenoned and pinned to same to keep the building from spreading; sills and girders shall be of sufficient size to safely support the superstructure."

Also in the twelfth line after the word "inches" the following be inserted —"other posts not less than 4 x 8 and plates not less than 4 x 4," so that the section shall read as follows: "All chimneys shall be built of brick or stone, and

shall be lined with flue linings, starting two feet below the under side of first floor timbers and to extend to the roof boarding, or shall have an eight inch brick or stone wall from the foundation to the roof boarding, and shall be topped at least three feet above the highest point of contact with the roof."

"No nails shall be driven into any chimney at any point; and no woodwork shall be within one inch of any chimney."

"All wooden buildings hereafter erected shall have the sills, posts and girts mortised, tenoned and pinned together and supported by suitable studding, and shall be properly braced. End girts shall be placed in all wooden buildings. Sills shall not be less than 6 x 6 inches and properly tied to all girders, and a sufficient number of floor timbers shall be tenoned and pinned to same to keep the building from spreading."

"Sills and girders shall be of sufficient size to safely support the superstructure."

"Posts and girts not less than 4 x 6 inches, other posts not less than 4 x 8, and plates not less than 4 x 4."

All woodwork, including lath and plaster, within two feet of any heating apparatus or smoke pipe, and all woodwork, including lath and plaster, coming in contact with any pipes from said apparatus shall be properly protected by a metal or stone shield.

No wooden building shall be built within two feet of the line of an adjoining lot unless a brick wall at least eight inches in thickness shall be substituted for the wooden wall next said line.

Where dwellings of more than two stories are to be occupied by more than two families, there must be at least two flights of stairs from ground floor to top floor, or one flight from ground floor to top floor inside, together with an approved fire escape outside.

Every owner, either by himself or through his builder or

carpenter, shall, before making any substantial alterations in a building, or erecting any new building, within the Town of Milton, whether inside the building limits or not, file at the office of said inspector, upon blanks furnished by the Town for that purpose, notice of all such work or alterations as come under the provisions of this section; and no such work shall be done in any building in said Town except subject to the approval of said inspector.

This section (fifteen) shall apply to the whole Town, irrespective of the building limits prescribed by this by-law.

I would also recommend that section 18 of the Building Laws, which reads as follows, — "There shall be a fee of $2.00 for any permit required by this by-law. Fees shall be collected by the inspector before issuing permit, and be by him paid into the Town Treasury and shall be applied toward defraying the cost of the department for the inspection of buildings," — be stricken out.

Every wooden building or structure hereafter erected in the Town shall have a stone or brick foundation resting upon the solid ground or upon concrete, piles or other durable substructure; said foundations shall be securely and properly built, and shall have a sufficient amount of large stone extending through the wall to properly bond and tie it together, and it shall be of such thickness as to properly sustain the weight it is intended to support.

The underpinning above grade, if of brick, shall not be less than ten inches in thickness; if of stone, not less than fourteen inches in thickness, laid in mortar.

All foundation walls shall be laid at least three inches below cellar bottom, and not less than three feet, six inches below any adjoining surface exposed to frost.

Special permission may be granted for temporary buildings one story high to be set on posts, or for buildings used for storage, etc., to set on brick piers, piles, or on trench-walls.

The studding in outside walls and in partitions shall not

be more than sixteen inches on centres unless permission is otherwise granted. The studding of main or carrying partitions shall not be less than four inches in thickness, and shall have a proper support at bottom with a header not less than three inches in depth unless hard pine is used, then it may be two inches. All openings in main partitions more than thirty inches shall be trussed over and have double studding at sides. Every partition must have a header extending the length of the partition, and carrying partitions must be bridged with stock the full width of studding, and two inches thick, at least once in height.

For buildings other than wooden dwelling houses the size of floor timbers shall be acceptable to the inspector, but shall be of sufficient size to safely carry the weight intended. In wooden dwelling houses the floor timbers for a 12 to 14 foot span shall not be less than 2 x 8; a 14 to 16 foot span not less than 2 x 9; a 16 to 18 foot span not less than 2 x 10; an 18 to 20 foot span not less than 2 x 12; in every case the timbers shall not be more than 16 inches apart on centres.

All headers and trimmers shall be double the thickness, framed together and pinned or hung in stirrup iron and joint bolted.

All floor timbers shall be bridged in a space of more than eight feet; with 1 x 3 in. or 2 x 3 in. stock, properly nailed at each end.

The rafters of all buildings shall be a sufficient size to safely carry the weight that must necessarily be put upon them, and to be placed not over twenty inches apart on centres.

All floor joists on the first floor shall be framed in even with the bottom of the sill and stopped off between where they come above the sills, either with joists or brick. Fire stops, the full width of the studding, and not less than three inches thick, shall be cut in on top of the floor joists on each floor above first floor.

In dwellings arranged for two or more families side by side, the vertical division walls between the families must be either of brick, not less than eight inches thick and continued without break or interruption from cellar bottom to roof boarding, or these division walls are to be of studding not less than four inches in thickness, and the spaces between the studding must be filled solid either with brick and mortar, or mineral wool, or other incombustible material approved by the building inspector, and this fire-proof filling must continue up to the roof boarding.

All hearths shall be supported by trimmer arches of brick or stone.

All partitions in which hot air pipes run shall be lined with sheet metal, or the pipes must be wound with asbestos covering.

Every building or structure hereafter built in the Town of brick, stone, iron or other hard and incombustible materials shall have foundations resting upon the solid ground, not less than four feet below any adjoining surface exposed to frost, or upon concrete, piles or other durable substructure.

Foundation walls for such buildings as are designated in the foregoing section shall be built of brick, stone or other suitable substance, properly bonded and solidly built with one-half cement mortar.

For brick buildings with walls not exceeding thirty-five feet in height the foundation walls, if built of common stone, shall not be less than thirty inches thick at bottom and twenty inches thick at top, and be built of stone large enough to extend through the wall; if built of block stone in horizontal courses the walls shall not be less than sixteen inches the entire height, and shall rest on a footing course twelve inches high and twenty-four inches wide.

For brick buildings exceeding thirty-five feet in height the foundation walls, if built of common stone, shall not be less than thirty-six inches thick at bottom and twenty-four inches

thick at top, and be built of stone large enough to extend through the wall; if built of block stone in horizontal courses the walls shall not be less than eighteen inches thick the entire height, and rest on a footing course twelve inches high and thirty inches wide.

Party or partition walls shall be built upon a footing course of stone or brick not less than four inches each way larger than thickness of wall it is to sustain and twelve inches high.

External walls of brick buildings less than fifteen feet in height may be eight inches thick; over fifteen and less than thirty-five feet in height they shall not be less than twelve inches thick, except when the building is used as a dwelling house, then the walls of the upper story may be eight inches thick; over thirty-five feet in height the walls shall be sixteen inches thick to top of second floor, and twelve inches thick the remaining height.

In every brick wall at least every ninth course shall be a heading or bonding course, except where walls are faced with face brick, in which at least every ninth course shall be bonded with Flemish headers, or by cutting the courses of face brick and putting in diagonal headers behind the same, or by splitting face brick and backing them with a continuous row of headers.

Vaulted walls shall contain, exclusive of ties, the same amount of material as required for solid walls, and shall be securely tied together with headers at least every sixth course.

In reckoning the thickness of walls no allowance for ashlar shall be made unless it is eight inches thick or more, in which case the excess over four inches shall be reckoned as part of the thickness of the wall. Ashlar shall be at least four inches thick and properly held by metal clamps to the backing, or properly bonded to the same.

All piers shall be built of brick or iron columns on proper

stone or brick footing, and to be of such size as to safely carry the weight they are intended to sustain; brick piers shall be built of hard-burned brick, laid in cement mortar.

PLUMBING LAWS.

In section four thereof, after the word "possible," the rest of the section be stricken out and the following be substituted: — "after all fixtures are set the work shall be given a final test, either smoke, peppermint or other reliable test under pressure," so that the section shall read as follows:

"Plumbing work shall not be used until the same is tested in the presence of the inspector, with the water test if possible. After all the fixtures are set the work shall be given a final test, either smoke, peppermint, or other reliable test under pressure."

In section 8 thereof, that the following be substituted after the word "furrules:"— "by means of a full sized wiped joint," so that the section shall read as follows:— "All joints in iron drain-pipes, soil or vent pipes, must be made by thoroughly calking the same with molten lead, joints of lead pipes with iron pipes must be made by soldering the same into brass furrules, by means of a full sized wiped joint, and calking the furrules to iron pipes or screwing them to wrought-iron pipes."

In section 9 thereof, that the word "should" be stricken out and the word "shall" be inserted, so that the section shall read as follows: — "Every water-closet, urinal, sink, basin, bath-tub, slop-hopper, and every tray or set of trays, shall be furnished with a separate trap, placed as near the fixture as possible and in no case shall the waste from the bath-tub or other fixture be connected with a water-closet trap. Traps shall be protected from siphonage or air pressure by special pipes of a size not less than the waste-pipe, placed outside or below the trap; lead pipes may be used only where they are exposed to the view. Air-pipes for

water-closets shall not be less than two inch bore. Two or more air-pipes may be connected together, or with a soil pipe, but in such connection with soil-pipe it must be above the upper fixture of the building."

In section 10 thereof, that the words "sewer-pipe" be stricken out and the words "soil or waste pipe" be inserted, so that the section shall read as follows: — "No drip or overflow pipes from safes under water-closets, urinals or other fixtures, no overflow from tanks or cisterns, no waste-pipe from a refrigerator or other receptacle in which food is stored, no rain-water conductors and no steam exhaust or steam from waste-pipes shall be connected with any soil-pipe. No openings will be allowed in the soil or waste-pipe of any building for the purpose of receiving the surface drainage of the cellar. No brick, sheet-metal, earthenware or chimney flue shall be used as a sewer-ventilator, or to ventilate any trap, drain, soil or waste-pipe; and no water-closet shall be flushed from a tank that is used for any other purpose."

Art. 51. To see if the Town will adopt the following rules for governing the wiring of buildings for electric lighting and power:—

I. No wire to be used which is smaller than No. 14 B. and S. guage.

II. Not over eight lights to be placed on any one tap circuit, unless by special permission of the Wire Department.

III. Wires running through woodwork, masonry, plaster, etc., other than lamp or switch outlets, must be protected by approved bushings, such as glass or porcelain. All bushings must be continuous from one end of hole to other, and must project at least one-quarter inch at each end.

IV. All wires running in bays must be supported on porcelain insulators not less than one and one-half inches in

diameter by one and five-eighths inches in height, and capable of supporting the wire at least one inch from surface wired over. Such insulators to be placed not over four and one-half feet apart, and secured with soft washers under heads of nails and in such manner as to keep the wires as far apart as possible, and in no case nearer each other than three inches.

V. All wires must be run singly and on separate timbers where possible, and in no case shall two wires of opposite polarity be run one over the other.

VI. All wires must be secured to the insulators by tie wires, except at end of run, where they may be secured by dead-ending.

VII. At all outlets the wires must be protected by some approved tubing. No wires to be run nearer than three inches to any pipe or other wires unless protected by such tubing. Porcelain bushings will not be accepted at outlets other than where wires enter cut-out closet.

VIII. All joints must be firmly made, well soldered, carefully wiped to remove all acid or other corrosive substance, covered with a layer of joint compound and then carefully taped.

IX. No other wires shall be run in the same bays in a parallel direction with electric light wires, and where such wires cross electric light wires they shall be below and at least three inches from them.

X. At all outlets wired for both electric light and gas lighting the two different sets of wires must run to the outlet from opposite directions, or at right angles to each other.

XI. All electric, gas lighting and bell wires run in the same building with electric light wires should be braided office, or rubber-covered wire, and separate metallic circuits must be run for the same and operated independent of all piping.

XII. At all outlets not provided with gas pipe a substan-

tial backboard not less than seven-eighths of an inch thick must be provided for fixtures.

XIII. All cut-out closets must be located in dry, easy accessible places, and lined throughout with asbestos.

XIV. All wire used must be of such makes and quality as approved by the National Board of Fire Underwriters.

XV. Application for inspection must be made at least twenty-four hours before the work is completed. All wires must be inspected before being in any way concealed.

XVI. In all cases where wiring is not satisfactorily done, the owner will be notified; and no current will be allowed turned on until such changes have been made as are deemed necessary by the inspector.

XVII. In all cases not covered by these rules, the work must be done in accordance with the Rules and Requirements of the National Board of Fire Underwriters.

Art. 52. To see if the Town will accept Brook Side Park, as laid out by the Selectmen, under the acts authorizing the assessment of betterments, and appropriate money for the same.

Art. 53. To see if the Town will vote to accept the new street, as laid out by the Selectmen, under the act authorizing the assessment of betterments, and appropriate money for the same. Said street beginning on Canton Avenue at or near the junction of Brook Road and running generally in an easterly direction through private land to Adams Street.

Art. 54. To see if the Town will vote to accept the alteration and widening of Brook Road between Canton Avenue and Central Avenue, as laid out by the Selectmen, under the act authorizing the assessment of betterments, and appropriate money for the same.

Art. 55. To see if the Town will vote to accept the new street, as laid out by the Selectmen, under the act authorizing the assessment of betterments, between Canton Avenue and Central Avenue, and appropriate money for the same.

And you are directed to warn said inhabitants, qualified as aforesaid, to meet at the time and place and for the purpose herein mentioned, by posting attested copies of this warrant in each of the post-offices of said Town, fourteen days at least before said meeting, and leaving printed copies hereof at the dwelling houses in said Town.

Hereof fail not, and make due return of this warrant with your doings hereon, to the Town Clerk, at the time and place of said meeting.

Given under our hands at Milton this fifteenth day of February, nineteen hundred and one.

J. WALTER BRADLEE,
J. ALBERT SIMPSON,
JACOB A. TURNER,
Selectmen of Milton.

Commonwealth of Massachusetts.

NORFOLK, ss. MILTON, March 2, 1901.

Pursuant to the within warrant, I have notified the inhabitants of the Town of Milton, as within directed, to meet at the time and place, and for the purposes therein mentioned, by posting attested copies of the same in the post-offices of said Town and by leaving copies at the dwellings of the inhabitants.

PETER MCINTYRE,
Constable of Milton.

At a meeting of the inhabitants of the Town of Milton, held according to the foregoing warrant, upon March 4, 1901, the following proceedings were had upon the several articles in said warrant, namely:—

ARTICLE 1. Felix Rackemann, Esq., was chosen Moderator.

Thomas Forbes, Jr., Thomas M. Lennon, George V.

Fabian and Frederick S. Chute were appointed by the Selectmen as Ballot Clerks; and Arthur M. Gardner, Oscar J. Price, G. Frank Kemp, John A. Palmer, Patrick F. Mahoney, Thomas B. Gordon, George F. Hadlock, Charles Bradlee, Charles C. Copeland, Robert M. Goode, Tellers.

Eugene Gallagher, Matthew A. Welch, David J. Barry, Paul Carpenter, Fred A. Packard were appointed by the Moderator as additional Tellers, all of the foregoing being sworn by the Town Clerk.

At 2 o'clock and 13 minutes P. M., *Voted*, That the Polls for Town Officers be closed.

ART. 2. Albert A. Brackett, Hiram Tuell and Jacob A. Turner were chosen Selectmen, Overseers of Poor and Surveyors of Highways.

Henry B. Martin was chosen Town Clerk.

Josiah Babcock was chosen Assessor for three years and J. Walter Bradlee for two years.

J. Porter Holmes was chosen Town Treasurer.

Theodore I. Reese and Granville S. Webster were chosen School Committee for three years.

John H. Emerson was chosen Collector of Taxes.

Jesse B. Baxter and Arthur A. Hibbard were chosen Auditors.

Nathaniel T. Kidder was chosen Park Commissioner.

William B. Thurber was chosen Sewer Commissioner.

Charles S. Minot, M. D., was chosen a member of the Board of Health for three years.

Nathaniel T. Kidder was chosen Tree Warden.

The following Constables were chosen, namely:—Peleg Bronsdon, Edwin L. Crossman, Fred M. Farrington, Edwin A. Houghton, Herbert R. Lawrence, Jacob S. Lincoln, Timothy McDermott, Peter McIntyre, Maurice Pierce, Henry C. Shields, John H. Tucker and James Wigley.

Orrin A. Andrews, Nathaniel T. Kidder and H. Helm Clayton were chosen Trustees of Public Library for three years.

Albert K. Teele was chosen Trustee of Cemetery for five years.

Voted, That no license be granted for the sale of intoxicating liquors in this Town, the ballot being as follows: — Yes, 222; No, 514.

ART. 3. The following officers were elected *viva voce*:—

Fence Viewers. — Henry W. Vose, George Y. Badger.
Surveyors of Lumber. — Arthur R. Gardner, John H. Burt.
Field Driver and Pound Keeper. — Elias C. Conant.

ART. 4. AUDITORS' REPORT.

MILTON, March 4, 1901.

To the Citizens of Milton:

The undersigned Auditors herewith present the 64th Annual Report of the receipts and expenditures of the Town.

We have examined the books and accounts of all persons intrusted with the expenditure of Town money, and all original bills and vouchers on which moneys have been paid from the treasury for the year ending Dec. 31, 1900, and have found them correct.

Respectfully submitted,

GEORGE A. FLETCHER,
ARTHUR A. HIBBARD,
Auditors.

Voted, That the Auditor's Report be accepted.

REPORT OF THE COMMITTEE TO PRINT THE BIRTHS, MARRIAGES AND DEATHS.

To the Citizens of the Town of Milton:

The committee appointed by the Moderator to have charge of printing the lists of the births, marriages and deaths in the Town from its incorporation to the year 1843, as voted by the Town at the annual meeting held March 6, 1899, report as follows: —

A copy of the original entries of births, marriages and deaths in the Town to May 1, 1843, was made in, or shortly

subsequent to, that year. That copy was not printed, and has remained among the Town Records. In that copy entries of surnames were arranged in alphabetical order, persons of the same surname being placed together in chronological order. This form of entry has not been improved upon up to the present time, and the credit of it was probably due to the then town clerk, Jason Reed, Esq., the entire list appearing to be in his handwriting. We have followed this arrangement in the compilation submitted.

In addition to the Town Records, entries have been taken from the following sources, viz. : —

Births, marriages and deaths from the records of the (First) Church in Milton.

Marriages from the diary of the Rev. Peter Thacher, minister of the (First) Church in Milton, from June 1, 1681, to December 27, 1727.

Deaths from the diary of Miss Hannah Vose.

The list of marriages taken from Mr. Thacher's diary has been printed in the New England Historical-Genealogical Register, and it is from a reprint of that publication that the extracts purporting to be from Mr. Thacher's diary, in the list of marriages herewith, are taken.

Miss Hannah Vose was the daughter of Thomas Vose; was born in Milton, July 13, 1756, and died in Milton, May 25, 1818.

The entries in the list of deaths herewith, indicated as from Miss Vose's diary, have been taken from the list of deaths subjoined to said copy made by Jason Reed, and therein stated to have been taken from Miss Vose's diary.

No births, marriages or deaths, however, have been taken from said Church Records or diaries except where there was no entry thereof in the Town Records, or where there was a discrepancy between the entry in the Town Records and that in said Church Records or diaries.

Where the entire item is from said Church Records or

diaries, it is indicated as follows: Marriage entries from Peter Thacher's diary, and entries of deaths from Hannah Vose's diary, by a * . All entries from said Church Records by a †.

Where there is a discrepancy between the entries, the date or other feature differing from that in the Town Records is printed in addition, and has against it a * if from either of said diaries, and a † if from the Church Records. When any feature of any entry (either wanting or illegible in the original) is supplied from said copy made by Jason Reed that feature is enclosed in brackets.

The period included in the lists submitted is from the incorporation of the Town in 1662 to May 1, 1843, since which latter date a copy of the records is filed in the office of the Secretary of the Commonwealth.

After copying from the original, each item has first been verified from the same, then compared with said copy made by Mr. Reed, and any discrepancies settled by reference again to the original.

September 13, 1900.

HORACE E. WARE,
EDMUND J. CARPENTER,
HENRY B. MARTIN,
Committee.

Voted, That the above report be accepted and the committee discharged.

REPORT OF COMMITTEE ON TOWN WAYS.

To the Inhabitants of the Town of Milton, in the Commonwealth of Massachusetts:

The undersigned, a Committee appointed at the last annual town meeting to consider and report upon methods of laying out town ways within the Town of Milton, hereby respectfully report as follows:

They have prepared a set of three By-Laws in addition o the existing By-Laws of the town, which are printed in

the warrant for the present town meeting (a copy being hereto annexed), and they recommend the adoption thereof.

They have further caused a petition to be introduced into the Legislature for the enactment of a general law relating to the laying out of town ways, which may become binding in any town upon being accepted by a majority of the voters thereof. This is known as House Bill No. 893, and a copy thereof is hereunto annexed.

And they pray that this report may be accepted, and the Committee be discharged.

By order of the Committee,

CHARLES S. RACKEMANN,
Chairman.

Milton, March 4, 1901.

ARTICLE PROPOSED TO BE ADDED TO THE TOWN BY-LAWS OF MILTON.

SECTION 1. Every way that shall be laid out for the acceptance of the Town as a town way shall be not less than thirty feet in width.

SECT. 2. Whenever an existing private way, the fee of which is in the abutters, shall be laid out for the acceptance of the Town as a town way, the documents relating to such laying out shall be accompanied by a certificate of a competent civil engineer, which shall be filed in the office of the Town Clerk, together with said documents, before such way shall be accepted. The said certificate shall state that such private way is well built; and that as constructed it is equal to the average construction of the existing highways of the Town.

SECT. 3. Whenever any way shall have been laid out or altered by the Selectmen, and accepted and allowed by the Town, no entry for the purpose of constructing any part of

such laying out or alteration shall be made until all claims for damages by reason thereof shall have been finally adjusted or determined, unless such entry shall be authorized by special vote of the Town.

Commonwealth of Massachusetts.

In the Year One Thousand Nine Hundred and One.

AN ACT

To regulate and define Certain Powers of Towns to lay out and accept Town Ways.

Be it enacted by the Senate and House of Representatives, in General Court assembled, and by the authority of the same, as follows:

Section 1. Every way that shall be laid out for the acceptance of a town as a town way shall be not less than thirty feet in width.

Sect. 2. Whenever an existing private way, the fee of which is in the abutters, shall be laid out for the acceptance of a town as a town way, the documents relating to such laying out shall be accompanied by the certificate of a competent civil engineer, which shall be filed in the office of the town clerk, together with said documents, before such way shall be accepted. The said certificate shall state that such private way is well built, and that as constructed it is equal to the average construction of the existing highways of the town.

Sect. 3. Whenever any way shall have been laid out or altered by the Selectmen, and accepted and allowed by the town, no entry for the purpose of constructing any part of such laying out or alteration shall be made until all claims for damages by reason thereof shall have been finally adjusted or determined, unless such entry shall be authorized by special vote of the town.

Sect. 4. The provisions of this act shall not be binding on any town until accepted by an affirmative majority vote of the inhabitants thereof present and voting at an annual or special meeting, in the warrant for which an article shall have been inserted to the effect, Shall the town accept the provisions of chapter of the acts of the year nineteen hundred and one relating to the laying out and construction of town ways?

Sect. 5. This act shall take effect upon its passage.

Voted, That the above report be accepted, and the committee discharged.

REPORT OF COMMITTEE ON WATER SUPPLY.

Appointed March 5, 1900.

Milton, Mass., February, 1901.

To the Citizens of Milton:

At the last annual Town Meeting, held March 5, 1900, the following vote was passed: —

"*Voted*, That a Committee of Five be appointed by the Chair to investigate and report in print to the town on or before the next annual meeting as to the advisability of the town's purchasing the plant of the Milton Water Company, and that the sum of one thousand dollars be placed at the disposal of the committee for investigation."

Your committee held several meetings, received figures from the Water Company showing cost of plant, expenses, income, etc., and was considering the value of the property, when a letter was received from the president of the Water Company, dated June 4, 1900, which in part reads as follows: —

"The Milton Water Company have received notice from the Hyde Park Water Company that, with the beginning of the hot, dry weather, they will be unable to supply the Milton Water Company with water for street watering purposes, though they will continue to supply water for domestic and fire purposes as heretofore."

This letter also contains the following: —

"We have given this subject a great deal of careful thought, and have decided that the only proper thing for us to do is to secure a supply from the pipes of the Metropolitan Water Board as soon as possible."

The information contained in this letter was a surprise to your committee, revealing, as it did, an inability on the part of the Hyde Park Company to supply Milton with all the water required.

We heartily agreed with Mr. Whitney that his company should place itself at once in a position to supply both the Town of Milton and private takers with all the water they needed.

Under the date of August 25 a second letter was received from the president of the Milton Water Company, a portion of which follows: —

"The Hyde Park Water Company have notified us that they feel that the danger of a short supply, and their inability to supply water to the Milton Water Company, is for the time being past, and that they will be able to supply Milton with water for two or three years to come, and maybe for a considerably longer time. They did, however, request us to place ourselves in such a position that we could secure a supply of water from the Metropolitan source on three months' notice from them, *i. e.*, Hyde Park Water Company.

"The Board of Directors of the Milton Water Company do not feel that it is desirable to continue to take water from the Hyde Park source on such an indefinite understanding."

Later, a third letter from the president of the Milton Water Company, under date of November 23, was received, which we think desirable to quote in full, as follows: —

"Boston, Mass., Nov. 23, 1900.

"Samuel Gannett, Esq.,

"*Chairman of Water Supply, Milton, Mass.:*

"*Dear Sir:* Referring to my letter of August 25, to you, relative to the water supply question, and to several conver-

sations since then, I am requested by my Board of Directors to inform you that on October 8 we were in receipt of a letter from the Hyde Park Water Company, in which they said that having passed through the unusually dry summer of 1900 without any trouble in supplying both Hyde Park and Milton with all the water they desired they were confident that there would be no difficulty on their part in supplying the Milton Water Company with all the water it will require for all purposes for at least two or three years to come. Further, they say that as they have gone to a very considerable expense to obtain their increased supply they decline to change the existing contract between the two companies, which calls for eighteen months' notice on the part of either to cancel the same.

"Under these conditions, the Board of Directors of this company think it would be unwise for them to take any further action at this time in the matter looking to securing a supply of water for the Town of Milton from the Metropolitan source.

"Respectfully yours,

"ELLERTON P. WHITNEY,

"*President.*"

Your committee does not know how the contract between the Hyde Park Water Company and the Milton Water Company reads, but any contract which gives one side the right to make changes at will is certainly a very undesirable one for the town to become a party to.

Your committee understands that the Milton Water Company, as a safeguard, have connected their pipes with those of the Metropolitan Water Board at the junction of Adams Street and Randolph Avenue, and also at East Milton, so that water can be taken from the Metropolitan source upon short notice. This, we believe, is a wise precaution on the part of the water company.

It is the opinion of your committee that before the Town

makes any attempt to purchase the plant of the Milton Water Company the company should have a permanent, never-failing supply of water, and this supply, we believe, can best be obtained from the Metropolitan source.

Your committee reports unanimously that it does not think it advisable for the Town to purchase the plant of the Milton Water Company at the present time.

Your committee has used none of the funds placed at its disposal, feeling that if it expended money in inspecting pipes, etc., the same expense might be incurred again should the Town, at some future time, appoint another committee to look into the matter.

SAMUEL GANNETT.
JOHN F. BROWN.
M. V. PIERCE.
H. C. GALLAGHER.
J. S. RUSSELL.

Voted, That the foregoing report be accepted and the committee continued.

MILTON, Feb. 14, 1901.

To the Citizens of the Town of Milton:

The Committee appointed at the Annual Town Meeting, held March 6, 1899, as a Building Committee for the Addition to the Tucker Schoolhouse, for which an appropriation of $22,500 was made, have attended to their duty, and desire to report that the work is completed and the building finished.

Appropriation		$22,500.00
Expended, 1899 .	$21,381.84	
" 1900 .	1,118.16	
		$22,500.00

Respectfully submitted,

H. CLIFFORD GALLAGHER,
GRANVILLE S. WEBSTER,
WALTER C. SHAPLEIGH,
J. FRANK POPE,
Committee.

Voted, That the above report be accepted, and the committee discharged.

Milton, Feb. 1, 1901.

SPECIAL REPORT OF MILTON PARK COMMISSIONERS ON THE LANDS ABOUT TURNER'S POND AND ALONG PINE TREE BROOK.

At the last March meeting the Town referred to us the following article in the Warrant:

Art. 46. To see what action the Town will take in regard to Pine Tree Brook, from Pope's Pond to Turner's Pond.

We were given no instructions in the matter, but would report as follows: —

A plan was made of the immediate banks of the brook, showing how far the water rises in ordinary conditions. This was given to the Commission without expense to the Town.

Recently we have received a petition, signed by 46 citizens, asking us to consider the expediency and feasibility of acquiring Turner's Pond and the land about it for some public use.

These two subjects seem very intimately connected.

We have delayed action in the matter, with the feeling that the enterprise was of so much moment that we should have an expression of opinion from the Town, as we do not see how we are to do anything definite with the ordinary appropriations for the Board, on none of which do we feel that we can draw for the expenses of further investigation.

Nathaniel T. Kidder.
Horatio A. Lamb.
Chas. E. Rogerson.

Voted, That the above report be accepted, and the committee continued.

Art. 5.

Voted, To appropriate the sum of $57,000 for the support of Schools the ensuing year.

ART. 6.

Voted, To take up Article 6, 46 and 47 in conjunction.

Voted, That the following amounts be appropriated for the Highway Department the ensuing year, namely: —

For street watering	$8,000
For the removal of ice and snow	3,000
For the construction of new sidewalks . . .	3,000
For other expenditures	31,000

ART. 7.

Voted, To appropriate the sum of $2,000 for the improvement of the Cemetery the ensuing year.

ART. 8.

Voted, To appropriate the sum of $5,000 and the dog tax of 1900 for Public Library expenditures the ensuing year.

ART. 9.

Voted, To appropriate the sum of $1,500 for expenditures by the Trustees of Public Library in preparing card catalogues of books.

ART. 10.

Voted, To appropriate the sum of $10,000 for the Poor Department the ensuing year, not above $1,000 of said sum to be expended upon the buildings at the Town Farm.

ART. 11.

Voted, To appropriate the sum of $500 for soldiers' relief the ensuing year.

ART. 12.

Voted, To appropriate the sum of $18,500 for the Fire Department the ensuing year.

ART. 13.

Voted, To appropriate the sum of $20,500 for the Police Department the ensuing year, and that an additional patrolman be placed in the Edge Hill road and Pleasant Street district.

ART. 14.

Voted, To appropriate the sum of $13,752.50 for street lighting the ensuing year.

ART. 15.

Voted, To appropriate the sum of $7,800 for salaries of Town officers the ensuing year, $400 of said sum for increase of salary of the Collector of Taxes to twelve hundred dollars.

ART. 16.

Voted, To appropriate the sum of $1,400 and such other sums as may be received for use of Hall for expenditures at Town Hall and lot the ensuing year.

ART. 17.

Voted, To appropriate the sum of $1,420 for State Aid the ensuing year.

ART. 18.

Voted, To appropriate the sum of $1,350 for Printing the ensuing year.

ART. 19.

Voted, To appropriate the sum of $26,910.57 for miscellaneous expenses the ensuing year, as follows: For general miscellaneous expenses, $3,500; for interest, $11,000; for abatement of taxes, $2,500; for the contingent fund, $3,500; for deficiencies in 1900, Town Hall, $75.25; Poor Department, $2,022.41; Miscellaneous Department, $1,394.45; Highway Department, $2,553.39; street lighting, $365.07.

ART. 20.

Voted, To appropriate the sum of $1,500 for the Health Department the ensuing year.

ART. 21.

Voted, That the following List of Jurors, prepared and presented by the Selectmen, be accepted by the Town:—

LIST OF JURORS.

Ames, Oakes.	Kennedy, William H.	Robertson, Robert A.
Babcock, Josiah.	Kidder, Nathaniel T.	Robertson, William W.
Billings, Thomas J.	Lowell, Fred A.	Ricketson, James H.
Badger, George Y.	Look, Benjamin P.	Sanford, Fred E.
Bent, George H.	McCue, Hugh.	Sheldon, Henry E.
Bronsdon, Peleg.	McHardy, Lewis.	Shields, John.
Currier, Lewis B.	Meserve, William H.	Sloan, George W.
Diskin, Edward.	Martin, William J.	Swift, John.
Duffy, Maurice.	Meagher, Stephen A.	Stahl, John H.
Edwards, Thomas.	Meredith, Albert A. H.	Simpson, J. Albert.
Fairbank, Edwin J., Jr.	Milliken, Frederick L.	Stanwood, Frederick.
Farrington, J. Henry.	Mitchell, Charles, Jr.	Taylor, Hobart.
Gardner, Arthur M.	Nickerson, George W.	Tucker, Arthur H.
Griggs, Charles A.	Packard, James H.	Tucker, Stephen A.
Hall, Frederick P.	Plummer, Horace N.	Whitney, Hugh.

Hamilton, Robert.	Pond, Thomas W.	Wood, Sam.

ART. 22.

Voted, That the Collector of Taxes be authorized to use all means of collecting the taxes which a Town Treasurer, when appointed collector, may use.

ART. 23.

Voted, That the rate of interest on all taxes unpaid December 1 be six per cent. per annum.

ART. 24.

Voted, To appropriate the sum of $200, to be expended by Huntington Frothingham Wolcott Post 102, G. A. R., on Memorial Day.

ART. 25.

Voted, To appropriate the sum of $2,164.37 for insurance of town buildings the ensuing year.

ART. 26.

Voted, To appropriate the sum of $8,800 for hydrant rental the ensuing year.

ART. 27.

Voted, To appropriate the sum of $2,500 for transportation of scholars the ensuing year.

ART. 28.

Voted, That the Town Treasurer be authorized, with the sanction and approval of the Selectmen, to borrow such sums of money as may be necessary for Town use in anticipation of the taxes for the year 1901, and that all sums so borrowed be made specifically payable from the taxes of the present year, 1901.

ART. 29.

Voted, To appropriate the sum of $425 for plans and clerk hire for the Board of Assessors.

ART. 30.

Voted, To appropriate the sum of $100 for general use of the Park Commission the ensuing year.

ART. 31.

Voted, To appropriate the sum of $1,000, to be expended by the Tree Warden, in the care and planting of shade trees the ensuing year.

ART. 32.

Voted, That the Tree Warden serve without pay.

ART. 33.

Voted, To appropriate the sum of $100, to be expended by the Park Commissioners, conjointly with the School Committee, in the improvement of the school lots.

ART. 34.

Voted, To accept Blue Hill Terrace street, as laid out by the Selectmen, under the act authorizing the assessment of betterments, and that the sum of $1,000 be appropriated therefor.

ART. 35.

Voted, To accept Lincoln Street, as laid out by the Selectmen, under the act authorizing the assessment of betterments, and that the sum of $900 be appropriated therefor.

ART. 36.

Voted, To accept Capen Street, from the New York, New Haven & Hartford Railroad to the Neponset River, as laid out by the Selectmen, and that the sum of $300 be appropriated therefor.

ART. 37.

Voted, That a committee of five be appointed by the Moderator to consider the feasibility of erecting a new police station on the town land, and connecting therewith a stable suitable to the care of horses and wagons used by the police force; said committee to report in writing before the next annual March meeting; their findings to be acted upon at said meeting, and that the sum of $100 be appropriated for committee use.

COMMITTEE APPOINTED.

C. MINOT WELD, MAURICE DUFFY,
ARTHUR M. GARDNER, ROBERT F. HERRICK,
CHARLES S. PIERCE.

ART. 38.

Voted, To appropriate the sum of $2,000 for the purchase of land for a fire department building in the west section of the town.

ART. 39.

Voted, To appropriate the sum of $10,500 for the purpose of erecting and equipping a fire department building in the west section of the town.

Upon the conclusion of action upon Article 39, it was thereupon *Voted*, That the further consideration of the warrant be postponed, and that when the meeting adjourns it be to Monday, March 11th, at 8 P. M.

The following resolutions upon the death of the late Capt. E. D. Wadsworth, being presented for the consideration of the meeting, were, upon being read, unanimously accepted and adopted as the sense of the voters there assembled: —

Whereas, In the order of Divine Providence our late associate, Edwin D. Wadsworth, has been removed from his sphere of usefulness here;

Resolved, That in his death this whole community, as well as the Board of Assessors, have met with a loss which we shall realize in the years to come more fully, perhaps, than now.

He was a man of strict integrity, and served the town faithfully in all the duties to which he was called;

Resolved, That it is the sense of the voters, in town meeting assembled, that these resolves be placed upon the records as a memorial of his faithfulness to all his trusts, and as an incentive to the present and coming citizens to emulate his integrity and faithfulness in all their public and private duties; and that a copy be transmitted by the clerk to his bereaved family.

The foregoing meeting was opened at 9 o'clock A. M. by

the Town Clerk, who proceeded to the reading of the warrant.

Upon the conclusion of the reading of the second article, it was moved by Mr. Apthorp that the further reading of the warrant be dispensed with.

Said motion being put for the consideration of the meeting, it was carried by a unanimous vote, and the further reading of the warrant (except the concluding paragraphs) was dispensed with.

At 10 o'clock and 20 minutes P. M., *Voted*, To adjourn.

At the meeting aforesaid, the whole number of ballots cast was 1084, sixty-four of said number being cast by women voters for School Committee.

A true record.

Attest: HENRY B. MARTIN, *Town Clerk.*

ADJOURNED MEETING.

At the Annual meeting of the Town of Milton, held upon March 4, 1901, and by adjournment upon March 11, 1901, Felix Rackemann, Esq., Moderator, in the Chair, the following proceedings were had upon the several Articles in the warrant remaining unacted upon at the adjournment of the meeting March 4th.

ART. 40.

Voted, That the sum of $200 be appropriated for the use of a committee, to be appointed by the Moderator, to consider the subject of Public Bathing facilities.

COMMITTEE APPOINTED.

M. VASSAR PIERCE, ANDREW H. WARD,
ARTHUR H. TUCKER, FREDERICK M. STONE,
ARTHUR A. HIBBARD.

ART. 41.

Voted, To appropriate the sum of $1,500 for the purpose of collecting and disposing of Ashes and Garbage in the Lower Mills, Mattapan, and East Milton sections, or the congested districts of the Town, deemed necessary by the Selectmen.

ART. 42.

Voted, That the Warrant Committee be directed to investigate and consider upon the matter of the future granting of locations to Street Railways in the Public Ways of the Town, with a view to obtaining information regarding locations in other places, and otherwise, and to making recommendations which may be of use to the Selectmen or other public officers in granting locations hereafter, and with a further view of the practicability of securing to the Town payment by way of rent or otherwise for the use of such locations; and to report on said matters to the Town, and that a sum not exceeding $300 be appropriated for the purpose aforesaid.

ART. 43.

Voted, To have printed in each Auditor's Report, hereafter issued, copies, or full statements of all locations granted to Street Railways in the Town during the preceding year, with all the terms, conditions and modifications thereof, and the terms of any modifications granted during the year, of locations previously granted; and that such statements of all existing locations granted by the Town be printed in the next Auditors' Report.

ART. 44.

Voted, That the following amendments to the Town By-Laws be adopted, viz: —

SECTION 1. Every way that shall be laid out for the acceptance of the Town as a Town Way shall be not less than thirty feet in width.

SECT. 2. Whenever an existing Private Way, the fee of which is in the abutters, shall be laid out for the acceptance of the Town as a Town Way, the documents relating to such laying out shall be accompanied by a certificate of a competent Civil Engineer, which shall be filed in the office of the Town Clerk, together with said documents, before such way shall be accepted. The said certificate shall state that such private way is well built; and that as constructed it is equal to the average construction of the existing highways of the Town.

SECT. 3. Whenever any way shall have been laid out or altered by the Selectmen, and accepted and allowed by the town, no entry for the purpose of constructing any part of such laying out or alteration shall be made until all claims for damages by reason thereof shall have been finally adjusted or determined, unless such entry shall be authorized by special vote of the town.

ART. 45.

Voted, That the following amendment to the Town By-Laws be adopted, viz: —

No board, committee or officer of the town shall commit the town to any expenditure or liability which would in the ordinary course of business be chargeable to the appropriation of which such board, committee or officer is, or has been, in charge, after such appropriation has been exhausted, or after the satisfaction of all liabilities against it would exhaust it, until either the warrant committee shall have transferred additional

sums to such appropriation, or until the town, at a meeting of the voters, shall have acted in the matter.

NOTE: The above by-laws being submitted to the Superior Court for approval, it was ordered by the court that Sections 1, 2 and 3 be, and the same hereby are, disallowed, and that the last By-Law or Amendment be, and the same hereby is, approved.

ART. 46.

See Article 6.

ART. 47.

See Article 6.

ART. 48.

Voted, To indefinitely postpone.

ART. 49.

Voted, To indefinitely postpone.

ART. 50. }
ART. 51. }

Voted, That Articles 50 and 51 be taken up in conjunction.

Voted, That the subject matter of these articles be referred to a committee of seven, to be appointed by the moderator; such committee to give at least one advertised public hearing, and to report in print to the next meeting of the town (general or special), causing appropriate articles to be inserted in the warrant therefor to enable town action on their report, and that said committee be requested to consider and report as to By-Laws of the town as a whole.

COMMITTEE APPOINTED.

HORACE E. WARE, JAMES S. RUSSELL,
J. FRANK POPE, WILLIAM H. KENNEDY,
JOHN GRAHAM, HENRY E. SHELDON,
FRANCIS PEABODY, JR.

ART. 52.

Voted, To accept Brook Side Park, as laid out by the Selectmen, under the acts authorizing the assessment of betterments.

ART. 53.

Voted, That the town hereby accepts and allows the new street, as laid out by the Selectmen, under the act authorizing the assessment of betterments; said street beginning on Canton Avenue, at or near the junction of Brook Road, and running generally in an easterly direction through private land to Adams Street; and that the sum of twenty-two thousand dollars be appropriated for the laying out and construction of the same; and further, that all options that have been obtained in connection with, and relating to, said road, the Selectmen are hereby authorized to accept if in their opinion it is for the best interest of the town so to do.

ART. 54.

Voted, To accept the alteration and widening of Brook Road, between Canton Avenue and Central Avenue, as laid out by the Selectmen, under the acts authorizing the assessment of betterments, and that the sum of six thousand dollars be appropriated therefor.

ART. 55.

Voted, To indefinitely postpone.

The regular business of the meeting being completed, permission was asked and granted for the reception of the following resolutions:

ON POLLUTION OF THE NEPONSET RIVER.

Resolved, That it is the sense of the inhabitants of the Town of Milton, in regular annual meeting assembled, that it is unnecessary and unwise, at least for the present, to do or attempt in connection with the Neponset River as it flows through the Fowl Meadows, so called, anything more than to abate the pollution of the River, and thereby purify its waters.

Resolved, further, That the Selectmen be requested to see that the substance of the foregoing resolution be properly communicated by counsel or otherwise to the Legislature, or any Committee thereof, having the matter under consideration.

ON ENLARGEMENT OF MAIN HALL OF TOWN HOUSE.

Resolved, That the Selectmen be requested to carefully consider the matter of the enlargement of the Main Hall of the Town House by including the passage room in the rear, and report to the next meeting of the Town, inserting appropriate articles in the Warrant, for any action recommended by them.

The following Resolutions, being presented for the consideration of the meeting, were, upon being read, accepted and adopted by a unanimous and rising vote as the sense of the voters there assembled.

UPON THE DEATH OF REV. ALBERT K. TEELE, D. D.

Whereas, Death has taken from us the Rev. Dr. Albert K. Teele, a high type of the Christian gentleman, and

Whereas, His private life in word and deed has ever been characterized by the spirit of a Christian, and

Whereas, He has ever carried that same spirit and sense of service into his public life,

Be it Resolved, That the Citizens of Milton, in Town Meeting assembled, express their deep sense of loss, and their profound sympathy, for the bereaved household by spreading these resolutions upon the Records of the Town and by forwarding a copy of the same, suitably engraved, to his family.

UPON THE DEATH OF MISS EMMA F. WARE.

The inhabitants of the Town of Milton, in regular Annual Meeting assembled, desiring to record their sense of loss in the death of Miss Emma F. Ware, and their gratitude for the years of untiring and valued service which she gave to the Town on its School Committee and otherwise, and their appreciation of and regard for her high standard and public spirit,

Resolved, That this memorial and expression be a part of the Town Records.

Voted, That the thanks of the meeting be tendered Felix Rackemann, Esq., for the able and impartial manner in which he had conducted the business of the meeting as Moderator.

At 10 o'clock and 55 minutes P. M., *Voted*, To dissolve the meeting.

A true record.

Attest: HENRY B. MARTIN, *Town Clerk.*

WARRANT COMMITTEE, 1901–2.

The following citizens were appointed by the Moderator as a Warrant Committee for the ensuing year, in accordance with Section 2, of the By-Laws, to wit: —

ELLERTON P. WHITNEY.

SPECIAL MEETING.

WARRANT.

Commonwealth of Massachusetts.

NORFOLK, ss. *To either of the Constables of the Town of Milton*, GREETING:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Milton, qualified to vote in Town affairs, to meet at the Town Hall, in said Milton, on the twenty-fourth day of October, next, at eight o'clock in the evening, then and there to act on the following articles, to wit:

ARTICLE 1. To see if the Town will consider and vote to appropriate further moneys for the completion and construction of Brook Road between Canton Avenue and Central Avenue, and for land damages for the same.

NOTE: — The sum of six thousand dollars was appropriated at the last annual Town meeting for this purpose, under Article 54. It is now estimated that the further sum of eleven thousand dollars will be necessary.

ART. 2. To see if the Town will consider and act upon the question of the completion and construction of Lincoln Street, which was accepted as a Town way at the last annual Town meeting, including payment for lands taken therefor, and whether the Town will vote to appropriate further moneys for the same.

NOTE: — Nine hundred dollars was appropriated at the annual Town meeting for this purpose, under Article 35.

And you are directed to warn said inhabitants, qualified as aforesaid, to meet at the time and place and for the purposes herein mentioned, by posting attested copies of this warrant in each of the post offices of said town fourteen

days at least before the day of said meeting, and leaving printed copies hereof at the dwelling houses in said town.

Hereof fail not, and make due return of this warrant, with your doings hereon, to the Town Clerk, at the time and place of said meeting.

Given under our hands at Milton, this ninth day of October, nineteen hundred and one.

A. A. BRACKETT,
JACOB A. TURNER,
HIRAM TUELL,
Selectmen of Milton.

Commonwealth of Massachusetts.

NORFOLK, ss. MILTON, October 24, 1901.

Pursuant to the within warrant, I have notified the inhabitants of the Town of Milton, as therein directed, to meet at the Town Hall, in said Milton, upon the date above mentioned, for the purpose therein set forth.

PELEG BRONSDON,
Constable of Milton.

At a meeting of the inhabitants of the Town of Milton, held according to the foregoing warrant, upon October 24, 1901, Felix Rackemann, Esq., was elected (by ballot) Moderator of the meeting, and the following proceedings were had upon the several articles in said warrant, viz. : —

ART. 1.

Voted, That no further appropriation be made for the completion and construction of Brook Road, between Canton Avenue and Central Avenue, or for land damages for the same.

ART. 2.

Voted, To indefinitely postpone.

Voted, That the Selectmen be requested to furnish an alternate plan, relative to the relaying out of Brook Road.

At 9 o'clock P. M., *Voted,* To adjourn.

A true record.

Attest: HENRY B. MARTIN, *Town Clerk.*

NOVEMBER MEETING.

WARRANT.

Commonwealth of Massachusetts.

NORFOLK, ss. *To either of the Constables of the Town of Milton*, GREETING:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the inhabitants of the Town of Milton, qualified to vote at elections, to meet at the Town Hall, in said Milton, on Tuesday, the fifth day of November next, that being the Tuesday after the first Monday of said November, at seven o'clock in the forenoon, then and there to bring in their ballots for Governor, Lieutenant-Governor, Secretary of State, Treasurer and Receiver General, Auditor, Attorney-General, all of and for the Commonwealth; Councillor for the Second District; Senator for the First Norfolk District; Representative in the General Court for the Fourth Norfolk District; District Attorney for the Southeastern District; Clerk of Courts, Sheriff for the County of Norfolk; two County Commissioners, one for the full term of three years, and one for an unexpired term of one year; two Associate Commissioners. All to be voted for on one ballot.

The polls may be closed at four o'clock P. M.

And you are directed to warn said inhabitants qualified as aforesaid to meet at the time and place and for the purposes herein mentioned by posting copies of this warrant in each of the post offices of said Milton at least fourteen days before the day of said meeting, and by leaving printed copies hereof at the dwelling-houses in said town.

Hereof fail not, and make due return of this warrant, with

your doings hereon, to the Town Clerk, at or before the time of said meeting.

Given under our hands at Milton, this eighteenth day of October, nineteen hundred and one.

A. A. BRACKETT,
JACOB A. TURNER,
HIRAM TUELL,
Selectmen of Milton.

Commonwealth of Massachusetts.

NORFOLK, ss. MILTON, November 1, 1901.

Pursuant to the within warrant, I have notified the inhabitants of the Town of Milton, as therein directed, to meet at the Town Hall, in said Milton, upon the date above mentioned, for the purposes therein set forth.

PELEG BRONSDON,
Constable of Milton.

At a meeting of the inhabitants of the Town of Milton, held according to a warrant of which the foregoing is a copy, upon November 5, 1901, the following number of votes were given in for the several persons hereinafter named for the respective offices specified below, namely: —

For Governor.

MICHAEL T. BERRY, of Haverhill, eight votes.

W. MURRAY CRANE, of Dalton, five hundred forty-eight votes.

JOHN B. LEWIS, of Reading, five votes.

JOSIAH QUINCY, of Boston, one hundred sixty-four votes.

GEORGE H. WRENN, of Springfield, seven votes.

BLANKS, thirty-three.

For Lieutenant-Governor.

John L. Bates, of Boston, five hundred thirty-one votes.
John W. Coughlin, of Fall River, one hundred forty-nine votes.
Alfred E. Jones, of Everett, ten votes.
William H. Partridge, of Newton, five votes.
Charles W. White, of Boston, eleven votes.
Blanks, fifty-nine.

For Secretary.

Frederick W. Clark, of Boston, thirteen votes.
Alonzo H. Dennett, of Middleborough, fifteen votes.
Jeremiah O'Fihelly, of Abington, thirteen votes.
William M. Olin, of Boston, five hundred forty votes.
Willmore B. Stone, of Springfield, one hundred twenty-five votes.
Blanks, fifty-nine.

For Treasurer and Receiver-General.

George E. Batchelder, of Lynnfield, seven votes.
Wendell P. Bosworth, of Brockton, sixteen votes.
Edward S. Bradford, of Springfield, five hundred twenty-eight votes.
Joseph L. Chalifoux, of Lowell, one hundred twenty-nine votes.
Frederick A. Nagler, of Springfield, eleven votes.
Blanks, seventy-four.

For Auditor.

James F. Dean, of Salem, one hundred thirty-six votes.
Frank Keefe, of Lynn, thirteen votes.
John H. Smith, of Dalton, nine votes.
Frank Thompson, of Plymouth, twelve votes.

HENRY E. TURNER, of Malden, five hundred fourteen votes.

BLANKS, eighty-one.

For Attorney-General.

ALLEN COFFIN, of Nantucket, four votes.

JOHN T. HARGRAVES, of Worcester, eleven votes.

HERBERT PARKER, of Lancaster, five hundred twenty-three votes.

ARTHUR A. PUTNAM, of Uxbridge, one hundred thirty-six votes.

CLARENCE E. SPELMAN, of Westfield, twelve votes.

BLANKS, seventy-nine.

For Councillor (Second District).

MICHAEL J. COLLINS, of Boston, one hundred thirty-eight votes.

ARTHUR A. MAXWELL, of Boston, five hundred twenty-six votes.

WALTER T. MCDONOUGH, of Hyde Park, twenty-three votes.

BLANKS, seventy-eight.

For Senator (First Norfolk District).

CHARLES F. KING, of Holbrook, one hundred forty-seven votes.

WILLIAM M. PACKARD, of Quincy, twenty-two votes.

EUGENE H. SPRAGUE, of Quincy, five hundred seventeen votes.

JAMES L. WILDES, of Weymouth, eight votes.

BLANKS, seventy-one.

For Representative to General Court.

JOHN PIERCE, of Milton, two hundred twenty-eight votes.

JOSEPH W. WATTLES, JR., of Canton, four hundred eighty-nine votes.

BLANKS, forty-eight.

For County Commissioner.

GUSTAVE B. BATES, of Quincy, thirty-two votes.

THOMAS BLANCHARD, of Stoughton, five hundred sixteen votes.

JOHN CAVANAUGH, of Braintree, one hundred thirty-four votes.

BLANKS, eighty-three.

For County Commissioner (to fill vacancy).

WATTS H. BOWKER, of Brookline, two hundred forty-four votes.

MARSHALL P. WRIGHT, of Quincy, four hundred fifty-seven votes.

BLANKS, sixty-four.

For Associate Commissioners.

JOHN EVERETT, of Canton, five hundred nine votes.

LEWIS R. WHITTAKER, of Franklin, four hundred fifteen votes.

BLANKS, six hundred six.

For District Attorney (Southeastern District).

JAMES P. BARLOW, of Brockton, forty-four votes.

ASA P. FRENCH, of Randolph, five hundred seventy-eight votes.

BLANKS, one hundred forty-three.

For Clerk of Courts.

LOUIS A. COOK, of Weymouth, five hundred seventy-six votes.

BLANKS, one hundred eighty-nine.

For Sheriff.

Samuel H. Capen, of Dedham, five hundred eighty votes.
Peter M. Carlson, of Quincy, forty-eight votes.
Blanks, one hundred thirty-seven.

At 4 o'clock and two minutes, *Voted*, To close the polls in five minutes.

At 4 o'clock and seven minutes, *Voted*, That the polls be closed.

All the above votes were duly sorted, counted, declared and recorded, sealed up in open Town meeting, and delivered to the Town Clerk.

At the meeting aforesaid, Messrs. William W. Churchill and William L. Tarbox, Republicans, and James H. Barry and John C. Casey, Democrats, were appointed as Ballot Clerks, and Hugh McCue, Timothy G. Ryan, William A. Haley, William F. Welch, Democrats, and William B. Thurber, Irving D. Glover, William W. Robertson, W. Newton Harlow, John A. Palmer, George V. Fabian, Republicans, were appointed Tellers, to receive, sort and count votes, all of the above-named being sworn by the Town Clerk.

At 6 o'clock and 20 minutes P. M., *Voted*, To dissolve the meeting.

A true record.

Attest: Henry B. Martin, *Town Clerk.*

Whole number of ballots cast at the foregoing election, seven hundred sixty-five.

Fourth Norfolk Representative District.

We, the undersigned, Town Clerks of the Towns of Canton and Milton, comprising Representative District Number Four, in the County of Norfolk, hereby certify: —

That, at an election, duly held in said towns, upon the fifth day of November, A. D., 1901, for a candidate to represent said district at the next General Court, the following number of votes were given in for the several persons hereinafter named, to wit: —

For JOHN PIERCE, of Milton, four hundred forty-seven votes.

For JOSEPH W. WATTLES, JR., of Canton, eight hundred four votes.

BLANKS, sixty-five.

Given under our hands at Canton, this fifteenth day of November, A. D., 1901.

WALTER AMES,
HENRY B. MARTIN,
Town Clerks of Canton and Milton.

REPORT OF SELECTMEN.

The Selectmen in presenting their sixty-fifth annual report take this opportunity to thank the citizens, as well as the different officers of the town, who have so kindly helped them in their endeavor to conduct the affairs of the town successfully.

Upon closing the books of the town, January 4th, we are able to say there is a substantial balance upon each account, which with careful usage should enable us to continue until March 1st.

SCHOOLS.

We believe our schools are of the best in the Commonwealth, and it is our judgment that they are in safe hands and need no comment from us.

TAXES.

We feel that great care should be used by the Board of Assessors in making up the taxes for the year 1902. We feel that the valuation is already as much as it should be, and would suggest that the Warrant Committee use the utmost care in their recommendations to the town in order that the tax rate may this year be reduced. To this end a conference of the chairman of the Assessors and Warrant Committee might be a benefit.

STREETS.

The board was very fortunate in securing the services of Mr. Charles Mitchell as superintendent. We are happy to say that Mr. Mitchell has worked for the interest of the town honestly and faithfully, and we feel to the satisfaction

of the citizens. A detailed statement of the Highway Department will be found in the superintendent's report.

POOR DEPARTMENT.

Mr. E. C. Conant and wife were retained as superintendent and matron of the almshouse, and have given satisfaction. The buildings have been painted. Hot water heating has been added to the house. Sheds have been moved and repaired, and in all about $1,100 have been expended for permanent improvements. We would recommend that water pipes be laid to the premises for domestic and fire purposes, and we would also recommend that better accommodations be made for sick inmates. The interior of the house should be renovated and this can be done at a small expense.

POLICE.

The Police Department has been under the charge of Mr. Maurice Pierce, and he has conducted the affairs of this department in a very satisfactory manner. We would take this opportunity to thank each member of the force for the courtesy he has extended to us during the year.

TOWN HALL AND LOT.

We believe that the town should appropriate more money for the town hall and lot. The hall should be put in proper repair. The walls and ceilings should be thoroughly renovated. The grounds need regrading, and we believe the whole cost would not exceed $1,000.

FIRE.

There has been added to the Fire Department the past year a new hose house and equipments at Atherton Street and Blue Hill Avenue, and we believe that the Town of Milton now has as good fire protection as any town in the state. We found the members of the department courteous and

obliging, and congratulate the town upon having so efficient a force.

In closing our report we will say that while, as with any board, some differences of opinion have existed, on the whole our associations have been pleasant.

A. A. BRACKETT,
J. A. TURNER,
H. TUELL,
Selectmen of Milton.

REPORT OF THE ASSESSORS.

The assessors of the Town of Milton for the year 1901 submit the following report: —

The board organized, with George W. Nickerson, chairman, and Josiah Babcock, secretary.

The assessors recommend an appropriation of $475 for clerk hire and renewing of land plans.

The assessors gave the notice required by law requesting tax payers to bring in true lists of their polls, real, and personal property.

The number of polls assessed was 1,789, a gain of 58.

There was a gain of $219,001.25 personal, and a gain of $365,750 in real estate.

There was an increase of $4,440.66 in the receipts from bank and corporation taxes of 1900 over 1899.

The assessors would renew their request to the residents of the town owning stock in national banks or Massachusetts corporations, that they have their residence recorded on the books of these corporations as Milton, otherwise the tax on their stock which is paid by the corporations will be lost to the town.

The assessors found this year, seventy-three lots of stock owned by residents of Milton credited to Boston, which city was credited with the tax on this stock.

GEORGE W. NICKERSON,
J. WALTER BRADLEE,
JOSIAH BABCOCK,
Assessors.

REPORT OF THE PARK COMMISSIONERS FOR 1901.

To the Citizens of Milton :

All the grounds in our care have been gone over, as usual, the grass cut and encroaching shrubbery removed.

As we stated in our last report, we seized the opportunity of obtaining filling offered by the work on the Metropolitan sewer; and Brook Road and East Milton Playgrounds are both being graded in parts with the material from the sewer trenches, and during this work are, of course, most unsightly.

This same sewer crosses Waterside Common, and the original plan contemplated a narrow ridge of earth over the work. We have arranged with the contractor to grade this out to right and left as far as the material excavated will go, whereby we will get a causeway across a portion of the land, too wet to be of any present use, to a tongue of hard land along the river bank.

The sum appropriated for the joint use of the School Committee and this Board has been used in planting at the Tucker School, removing some of the overcrowded trees at the Wadsworth School, and trimming the other trees there. A very little work was done at some of the other school lots. During the winter it is our intention to remove several trees from the Sumner School grounds.

We hoped to have ready for this date our report on Pine Tree Brook, but certain complications have made it impossible, and we will again have to make a supplementary report at the time of the March meeting.

We ask for one hundred dollars ($100) for general expenses, and one hundred dollars ($100) for the improvement of school grounds, the latter sum to be expended with the approval of the School Committee.

Respectfully submitted,

NATHANIEL T. KIDDER,
HORATIO A. LAMB,
CHARLES E. ROGERSON,

Board of Park Commissioners,
Town of Milton.

REPORT OF THE SEWER COMMISSIONERS OF THE TOWN OF MILTON.

The Sewer Commissioners make the following report for the year ending Dec. 31, 1901 : —

As no appropriation was made by the town for extending the sewerage system during 1901 the work of the Commissioners has been necessarily limited. The existing sewers at the Lower Mills, Central Avenue and Mattapan districts were inspected and flushed during the year and are in good condition. The syphon on Adams street has been cleaned and flushed three times during the year, and each time a large quantity of gravel and street wash has been removed. Your Commissioners wish to emphasize again the fact that practically all this accumulated silt reaches the syphon through the surface drainage catch-basins. We believe the only satisfactory solution of this difficulty is a complete separation between the street drainage and the sewerage system. Until this is done the syphon will fail to work properly and, consequently, be a source of annoyance and expense. During the year five house connections were applied for and established.

Until the completion of the Metropolitan High Level Trunk Sewer very little extension of the local sewers is practicable, but, upon such completion, we hope the town will recognize the importance of a liberal extension of its sewerage system.

J. H. PACKARD,
ELLERTON P. WHITNEY,
WILLIAM B. THURBER,
Sewer Commissioners.

For financial statement see page 168.

THIRTY-FIRST ANNUAL REPORT

OF THE

TRUSTEES OF THE PUBLIC LIBRARY.

We have to record the loss, since our last report, of our senior member, Rev. A. K. Teele, D. D., who had been a Trustee from the foundation of the Library. Dr. Teele had the interests of the Library always at heart, as, indeed, the interests of everything and everybody in the town. He wanted to see in Milton as good a Library as its citizens could have. His contributions to our shelves are, locally, the most valuable papers there, and his attention to the wants of the Library, and attendance at the meetings of the Trustees, continued after his failing strength made it difficult for him to continue his work.

Last year we printed considerable parts of the Librarian's report to the Trustees, and this year's we have thought well to print in full. From this report it will be seen that the Library is increasing its work in every direction, the circulation having increased thirty-three per cent., while the expenses were only thirty per cent. greater than the previous year. The one detail which was not successful was the Atherton Street Station, but we feel very hopeful of the new plan for the west end of the town, the house-to-house delivery, which begins as this report goes to press.

No one who is not conversant with the working of the Library can realize the difficulty under which the Librarian and assistants are now laboring, owing to the cramped quarters in which they have to work. We have been obliged to place in that part of the room properly given to the reading public, tables at which the assistants work, because there is

absolutely no other place for them. Books going to the Branches must be gathered together somewhere before being packed, and this has now to be done in the stacks; that is, in the space where books should be permanently placed.

These things, and others, together with the discomfort of the reading public, caused by the fact that every available corner of the room is filled with books, and the bad air of our crowded accommodations, cause us to reiterate our request that a suitable fire-proof building be erected at the earliest possible date. We have before stated in this connection that the town has failed to receive valuable gifts of books, not to mention other articles of value, because the owners preferred to bestow them where they were safe from fire.

We consider it our duty as Trustees to make the Library an educational feature, second only to the Public Schools, and for our work in that line we feel that a building is absolutely necessary.

The estimated expenses for the year ending March 1, 1903, are as follows: —

For general expenses	$3,800
" salaries	3,850
Total	$7,650

AMOR L. HOLLINGSWORTH,
REV. RODERICK STEBBINS,
NATHANIEL T. KIDDER,
ORRIN A. ANDREWS,
HARRISON O. APTHORP,
CHARLES E. ROGERSON,
JOSEPH C. WHITNEY,
H. HELM CLAYTON,

Trustees of the Public Library.

"The Roger Wolcott Fund" is the bequest of the late Roger Wolcott, received since the last annual meeting. The income is to be used, "so far and so often as it shall be found practicable and wise, in extending the privileges of the Library to the inhabitants of the southwestern portion of said town (Milton.)"

As last year's Treasurer's Report ran to the 18th January, 1901, this year's shows less income received.

REPORT OF THE LIBRARIAN.

MILTON, Mass., January 1, 1902.

To the Trustees:

I have the honor to submit my report for the year ending December 31, 1901.

CIRCULATION.

The statistics of circulation show a steady increase in the use of the Library. The number of volumes issued for home use in 1901 was 42,264, while the number issued in 1900 was 31,367, showing a gain of 10,897, or 33 per cent., for the present year.

The circulation was lessened about 200 by the closing of the Central Library from November 18 to 20, inclusive, on account of wiring for electric lights, and by the closing of East Milton Reading Room, December 6 and 7, while the walls were being painted.

If the Library had owned duplicate copies of popular books, especially of children's books, and books used in the schools, the statistics for the year would have shown a much larger circulation.

Day after day the Library has been obliged to record "unsuccessful applications," because its resources have not been equal to the demands made upon it.

The present income from the Trust funds is entirely inadequate to purchase more than one copy of the majority of new books, and it is not sufficient to replace these books when they are worn out.

Unless a larger portion of the town appropriation can be used for replacements, and even for new copies, the work of the coming year will be crippled.

REGISTRATION.

The increase in new registration is gratifying. During the year, cards have been issued to 367 persons, who have not heretofore used the Library.

The total number of card-holders at the present time is 1,475.

BRANCHES.

The work at East Milton, Mattapan and Russell Reading Rooms has steadily grown.

The room at East Milton is already too small to accommodate the number of readers.

In June, Russell Reading Room was wired for electric lights, the cost of same being $15.75.

Twenty-five books a month are to be sent on deposit to the Convalescent Home.

Atherton Street Delivery Station, which was opened in the Brush Hill School on February 5, has not proved a success.

The expense of transportation, and the inconvenience of the location have been the chief factors in rendering this station impracticable as a distributing centre.

The circulation of books never exceeded 27 per week, consequently the cost of same (about $0.30 per volume) was too great to justify keeping the station open after the end of the year.

Atherton Street Station was therefore closed on December 31, 1901.

HOUSE-TO-HOUSE DELIVERY OF BOOKS.

BLUE HILL AND BRUSH HILL DISTRICTS.

In order to carry out the work begun through the Atherton Street Station, and in response to urgent requests from residents in the Blue Hill and Brush Hill districts, a system of house-to-house delivery has been formulated.

Circulars, explaining this system, have been mailed to each family in those parts of the town.

The first delivery will be made on Thursday, January 2, 1902, and the regular delivery day will continue to be Thursday of each week. The estimated cost of this system will be about a third more than the cost of maintaining the Atherton Street Station, but the convenience to borrowers will be greatly increased, and this, it is hoped, will cause an increase in circulation, commensurate with the added expense.

Careful inquiry shows that free delivery of books to the homes of borrowers has been attempted in but two public libraries in this state. In Springfield, it has not proved altogether practicable. In Somerville, where it has recently been tried, it has met with more hearty response. But the geographical conditions in Somerville are so different from those in Milton that the work in the former place furnishes no precedent for us to follow.

The success of the experiment in Milton is therefore not assured.

BINDING.

Although 766 books have been bound this year, there are still many more which need rebinding. The greater number of such books is the accumulation of past years, but as the circulation increases there is a corresponding wear and tear on the books added recently. Delay in rebinding causes inconvenience to borrowers and lessens the usefulness of the library.

No magazines have been bound for two years, and many of the volumes previously bound are so soiled and worn that they are unfit for circulation. There is a steady demand from the Central Library, as well as from the branches, for bound volumes of the popular magazines, such as Century, Harper's Monthly, Scribner's, and St. Nicholas. Pupils from the schools often ask for back numbers of the

magazines for use in connection with their school work. In most cases the files are incomplete and unsatisfactory for working purposes. It would be of great advantage to the public if these sets could be completed.

To do this would require not less than $200.

SERVICE.

During the period of my summer vacation Miss Jennie Wright was in charge. Under her supervision, the library routine was carried on without friction. In the duties devolving upon her as first assistant she has shown considerable executive ability and unfailing courtesy.

Of the work of all the assistants, I cannot speak too highly. The faithfulness and enthusiasm of each one have made possible to the public a high grade of service. For twelve months they have not only given their services for the required number of hours each day, but they have worked overtime, when such overwork was for the best interests of the library.

GIFTS.

The Library has received two notable gifts. From Mr. James M. Barnard, thirty-six volumes of philosophical works; thirteen volumes on music and six volumes of fables, stories, etc., for children, illustrated by Boutet de Monvel.

From Mr. John Willard, of Brookline, a set of ninety-six colored photographs of Japan.

A list of other donors to the Library is appended.

CROWDED CONDITION OF THE LIBRARY.

Two second-hand bookcases, purchased for the small sum of $1.75, have been added to the Reading Room. These cases are already filled. The crowded condition of the stacks makes it impossible to arrange books to advantage, and it adds materially to the work of the assistants.

Much time and labor, which are needed for more important work, are spent in moving books about to make room on the shelves for each new volume added to the Library. The question of shelving books is a serious one. The present capacity of the Library is not only insufficient to provide for the growth of the coming year, but there is very little space in either the Reading Room or the stacks in which to put additional shelves.

The work of the Library can never reach its highest development until a Library building, with more room and suitable equipments, is provided.

EXPENSES FOR 1902.

It will not be possible to carry on the work of the coming year without a larger appropriation from the town.

The general expenses, it is estimated, will increase but slightly, but the increase necessary for salaries will be much larger, because after January 1, 1902, all of the volunteer workers will be receiving pay for their services.

Respectfully submitted,

GERTRUDE EMMONS FORREST, *Librarian.*

REPORT OF THE TRUSTEES OF THE CEMETERY.

To the Citizens of Milton:

The Trustees of the Cemetery herewith submit their annual report for the year 1901:

The board organized in March, with Mr. Gannett as chairman, and reappointed Frank L. Gage superintendent.

One of our first duties was to record the death of our esteemed associate, the Rev. Dr. Teele, who passed away in the fulness of years, honored and beloved by all the members of this board. We, from years of contact with him, grew to appreciate his many sterling qualities of head and heart. His sound, good sense and extensive knowledge of the families of the town and their widely scattered branches were particularly useful, and will be much missed in the conduct of the affairs of this department.

Four lots were taken on "Perpetual Care." Four lots have been sold to non-residents. Twenty-four other lots were granted to citizens of the town. One tomb was removed and its site converted into a lot. Seven lots have been regraded. Foundations were built for twenty-four headstones and for seven monuments; also seven markers have been set at graves.

There have been ninety-three interments during the year.

Your trustees wish to call particular attention of all who may be interested in the ownership of any of the family tombs to the desirability of their removal, as so many tombs have already been leveled, it leaves those remaining all the more conspicuous, and in some cases unsightly.

In addition to regular care of the avenues we have made some permanent repairs. The hill on Centennial Avenue, leading from Pine Avenue to the Gun Hill Street entrance, was in such a condition that it was difficult and almost dangerous to travel over in the spring of the year. This hill has been repaired by trenching and laying five hundred feet of four-inch drain pipe and filling the trench to near the surface with large stones and coarse gravel, thus, we trust, making it safe to travel over for many years.

The hill on Willow Avenue, from Fir Avenue to the pond, has been improved at a much greater cost, being drained, resurfaced, and the gutters on both sides paved and a catch basin built. At the foot, pipes were laid underground to convey the drainage to the pond. These were much needed improvements, and we believe the expenditure was necessary.

It is not the intention of the trustees to make many permanent improvements in any one year, but to do a little each season. We therefore ask for only the usual appropriation of $2,000.

SAMUEL GANNETT,
Chairman.

REPORT OF THE SUPERINTENDENT OF STREETS.

To the Honorable Board of Selectmen:

Gentlemen, — The Superintendent of Streets herewith submits this, the annual report of the Highway Department, for the year 1901:

In giving this, the annual report of the Highway Department, I will in a few remarks show the different kinds of work done.

Upon taking charge last March, street cleaning was the first work done.

Gutters. — The gutters were cleaned thoroughly.

Catch-Basins. — The catch-basins were thoroughly cleaned twice during the year, also two new ones built, and others put in repair.

Paving. — Twenty-eight thousand three hundred block pavers have been used in laying the gutters.

Cobble Paving. — Seventy-five linear feet of cobble paving done.

Curbing. — Eight hundred linear feet of curbing set.

Drains. — One thousand two hundred and fifty linear feet of drains laid, 6-inch to 12-inch pipe used.

Culverts. — Seven culverts relaid.

Gravel Roads.—

Sheldon Street resurfaced.

Granite Avenue. — Granite Avenue, five hundred linear feet each side of the railroad crossing stoned and gravelled with material mostly from the Wollaston golf grounds, free of charge.

Squantum Street.— Grade raised from Granite Avenue to railroad crossing.

Churchill's Lane. — From Centre Street to Ware's Lane, Brook Hill Road and Park, gravelled and sidewalks.

Macadam. — Edge Hill Road, from Adams Street to Baptist Church; Brush Hill Road, from Hayward's Hill to Paul's Bridge and Milton Street; Thacher Street, from Brook Road to brook; Houston Avenue, about 200 feet; Centre Street, from Canton Avenue to red gate at Cemetery; Blue Hill Avenue, from Parkway to Brook Road. There was used in permanent work and necessary patching 8,490 tons of crushed stone, 1,600 of which was crushed by the town crusher.

Terrace Street. — Terrace Street graded and dirt sidewalk built. Appropriation, $1,000; spent $985, leaving a balance of $15.

Capen Street. — The appropriation of $300 was spent on Capen Street.

Milton Street. — Milton Street resurfaced.

Blue Hill Avenue. — From Milton Street to Brush Hill Road.

New Sidewalks. — Squantum Street, from Adams Street to railroad crossing; Brook Hill Road and Brook Hill Park; Thacher Street, west side, from Brook Road to Houston Avenue; east side, from J. H. Burt's to near Lincoln Street; Blue Hill Avenue, from Parkway to Brook Road, both sides; Blue Hill Avenue, from Milton Street to Hemenway's Pond. Sidewalks gravelled generally. In building gravelled walks and paving there has been used 2,300 loads of gravel and sand taken from the different sections of the sewer, which cost the town nothing but the carting, saving about $600.

Grass. — Grass and weeds cut and removed from the streets.

Fences. — The fences were examined and 2,400 linear feet of fencing were put up.

Stone Walls. — Stone walls were repaired on Eliot Street, White Street and Blue Hill Avenue.

Plank Walks. — The plank walks were lifted, relaid and general repairs made.

New Board Walks. — Nine hundred feet new board walks laid on Brush Hill Road.

New board walk from Central Avenue Bridge to Eliot Street.

Brick Sidewalks. — Brick sidewalks repaired.

Artificial Stone Sidewalk. — Artificial stone sidewalks were laid on Brackett Street, Washington Street, Church Street, Adams Street, Sheldon's Block, Canton Avenue, from White Street to Thacher Street.

Bridges. — Central Avenue bridge repaired with new timbers and planks.

Granite Avenue, new timber and planks.

Railroad bridge at Milton Station repaired.

Crusher. — The stone crusher was run only about five weeks.

Steam Roller. — The steam roller ran steadily through the season from April 1 into December, losing only two holidays. An extra steam roller was hired by the town for fifty-five days.

The roller was put in good condition when housed and new covers were provided.

Street Watering. — The streets were watered from May to November. Ten carts were in use, and during the summer one new cart was bought. The old carts were repaired temporarily. I would suggest that two new carts be bought in the spring, as two of the old ones are beyond repair.

Highway Buildings. — The roller house and old shed were moved back and placed on stone foundations.

A new shed 20 x 80, with stone foundations, was built for the use of the watering carts, as heretofore they were scattered in different sections of the town.

The old crusher house was moved from Blue Hill Avenue pit to the town lot, and the lumber from it was put into a new shed 28 x 16 for a tool house.

Stable. — Several changes have been made in the stable. The water was changed from overhead to bottom of cellar to prevent freezing. The water-closet was moved from inside stable to outside. Three new storm doors were made and put on.

Horse stalls were rearranged.

The buildings and repairs, with the exceptions of the big shed, plumbing and painting, were all done by the monthly men.

Only married men have been employed during this year.

From April 1 to December 1, 1901, average men per day 28; average teams, single and double, 11. Men received per day $2; single teams, $3; double teams, $5.

Horses. — I found two driving horses more than I needed, as one did the work; so the extra one was sold early in the summer.

Last March there were seven working horses, some of which were quite old. In December two of these were not considered worth keeping all winter, and they were sold at a fair price, which will be found in Auditors' Report. One of the horses was sent to the N. Ward Company. In the spring it will be necessary to buy three horses to replace those sold.

I should recommend an appropriation of $45,000 for this coming year of 1902.

Eight thousand five hundred dollars for street watering and new carts; $3,000 for new sidewalk; $31,500 for general highway; ice and snow $2,000.

In closing I take the opportunity of thanking the Selectmen for the able advice and courteous treatment with which they have assisted me in performing my duty as Superintendent of Streets, at the same time thanking the citizens for their helpful suggestions.

For the financial statement of this department I refer you to the Auditors' Report.

INVENTORY OF STOCK AND TOOLS IN THE HIGHWAY DEPARTMENT, DEC. 31, 1901.

Stable and sheds	$4,000 00	Lumber	$50 00
2 tons of hay	42 00	1 mortar bin	1 00
2 tons of straw	38 00	5 cords of hard wood	20 00
3 single dump-carts	140 00	35 chestnut posts	10 00
1 stone jigger	50 00	3 light driving harnesses,	30 00
50 bushels grain	30 00	1 stone crusher	500 00
1 express wagon	200 00	1 elevator and bins	800 00
3 wagon jacks	5 00	1 engine boiler and buildings	450 00
1 road machine	125 00	1 Knowles steam pump	70 00
11 water-carts	2,000 00	1 pair belt clamps	5 00
9 old snow-plows	90 00	1 pipe cutter	2 00
1 ring roller	75 00	1 pipe tongs	1 50
1 hand roller	4 00	2 Stillson wrenches	4 00
1 traverse runner pump	16 00	2 jack-screws	10 00
3 sets single harnesses	25 00	80 lbs. waste	4 00
3 collar pads	3 00	4 oil cans and fillers	1 50
11 halters	6 00	2 3-in. diaphragm pumps,	25 00
9 stable blankets	13 00	1 derrick and rigging	50 00
1 woolen lap robe	1 00	100 ft. wire cable	8 00
3 bridles	2 00	1 cant dog	1 50
6 double and single whiffletrees	15 00	400 lbs. chain	40 00
8 feed bags	4 00	Cart grease	5 00
5 hay forks	2 00	7 sand tampers	7 00
45 shovels	50 00	1 hokey-pokey	10 00
30 hoes	15 00	1 branding iron	1 50
5 post-hole shovels	3 75	3 levels	1 50
50 picks	60 00	12 iron stakes	50
18 wooden and iron rakes	9 00	8 wrenches	5 00
2 hand hammers	2 00	1 hydrant chuck and reducer	7 00
1 claw hammer	50	3 trowels	50
1 hand saw	1 00	1 auger	75
4 oil cans	4 50	1 stencil	1 00
16 lanterns	9 60	2 tree trimmers	2 00
10 gals. cylinder oil	5 00	4 rattan brooms	6 00
2 oil tanks	9 00	9 wood horses	9 00
1 lawn mower	3 00	2 iron horses	4 00
2 cesspool dippers and pails	3 50	18 street signs	27 00
400 ft. land tile	22 00	3 scythes and handles	3 00
180 ft. 15-in. pipe	90 00	3 sod cutters and lifter	3 50
450 ft. 1½-in. pipe	48 00	40 snow shovels	20 00
48 ft. crossing stone	24 00	18 mattocks	18 00
1 grindstone	5 00	8 striking hammers	16 00
1 sanitary wagon	100 00	3 paving hammers	5 00
2 stone drags	12 00	1 4-ft. crosscut saw	4 00
1 20-ft. ladder	2 75	10 gals. engine oil	5 00

100 ft. rubber hose	$10 00	270 lbs. bars	$27 00
1 4-qt. measure	25	12 gravel screens	66 00
1 2-qt. measure	15	3 wagon awnings	15 00
1 tripod	10 00	1 office, 2 desks, 3 chairs	270 00
1 20-ft. suction hose	25 00		
1 transit and rod	150 00		
3 grates and covers	30 00	Hay scales	155 00
2 stoves	20 00	2 calking irons	1 00
1 tamping iron	1 50	1 battery and wires	25 00
7 tool boxes	56 00	1 ice chisel	75
4 steel wheelbarrows	10 00	3 common plows	15 00
1 vise	5 00	2 Babcock plows	50 00
20 lbs. nails	2 00	3 pine hammers	3 00
5 horses	500 00	5 lbs. wedges and feathers,	4 00
2 double dump carts	300 00	180 lbs. stone cutters' tools	20 00
1 platform wagon	40 00		
1 Concord buggy	65 00	1 steam roller	3,000 00
1 Concord wagon	100 00	2 tons coal	12 00
1 old road machine	5 00	1 1,800-gal. tank	53 00
4 Wheeler snow plows	120 00	1 coal hod and shovel	70
1 stone roller	40 00	1 sprinkler	75
1 pung	40 00	1 Chamois skin	75
1 2-horse sled	50 00	1 harness punch	1 50
3 sets double harness	100 00	2 pair scissors	50
2 horse collars	5 00	2 bill hooks	2 00
1 express harness	20 00	1 whip	1 00
1 hitch rope and weight	1 00	Sponges, harness, soap, etc.	2 00
9 street blankets	15 00		
1 fur robe	10 00	1 pair horse clippers	4 00
2 pair lead reins	6 00	4 axes	4 00
6 sets combs and brushes,	12 00	9 boundary stones	9 00
300 paving blocks	5 50	3 sets rope traces	3 00
Miscellaneous cut stone,	25 00	4 pails and dippers	2 50
		Total	$15,139 20

Respectfully submitted,

CHARLES MITCHELL,

Superintendent of Streets.

REPORT OF SUPERINTENDENT OF POLICE.

MILTON, December 31, 1901.

To the Honorable Board of Selectmen:

GENTLEMEN, — I have the honor to submit for your consideration the annual report of the Police Department for the year ending December 31, 1901.

THE FORCE.

Superintendent, — Maurice Pierce.
Deputy Superintendent, — Timothy McDermott.

PATROLMEN.

James Wigley.
George B. Bradlee.
Henry A. Paterson.
Lucius E. Damon.
William J. Stephenson.
Charles E. Page.
John H. Higgins.
Joseph H. Donovan.
George C. Partelow.
Fred M. Farrington.
Henry C. Shields.
John F. O'Connell.
Frank H. McDermott.
William S. Fallon.
John J. Haley.

Keeper of Lock-up, — Edwin A. Houghton.
Driver of Patrol Wagon, — John E. Shields.

CHANGES.

April 16, 1901, John J. Haley was appointed a patrolman and assigned to a day route.

Officer John H. Higgins transferred to new night route on Pleasant Street.

On June 5, 1901, Thomas H. Welch was discharged from the force for conduct unbecoming an officer, and Joseph F. Donovan was appointed June 14, 1901, to fill the vacancy.

ARRESTS FOR THE YEAR 1901.

Number of persons arrested	120
Males	118
Females	2
Residents	52
Non-residents	68
Causes of arrest —	
Assault and battery	5
Bastardy	1
Breaking and entering	11
Disturbing the peace	7
Drunkenness	59
Insane	5
Larceny	12
Malicious mischief to real estate	7
Non-support	2
Threats	1
Town by-laws, violating	1
Tramps	1
Trespass	3
Truants	1
Vagrants	4
Total	120

MISCELLANEOUS BUSINESS.

Accidents reported	7
Bicycles found	3
Buildings found open, and secured	37
Cases investigated	165
Defective drains	7
Defective electric light fixtures	12
Defective streets and sidewalks	37

Defective water pipes	9
Defective wires	8
Dogs killed	14
Electric lights out	643
Fire alarms given	2
Fires extinguished without alarm	3
Lost children restored	5
Residences reported temporarily vacant and special police protection required	60
Search warrant served	1
Stray animals found	9
Street obstructions removed	10
Water running to waste reported	6
Officers detailed by request of citizens	18
Officers detailed for public occasions	37
Value of property reported stolen	$778 00
Value of property recovered	437 75

LODGERS.

Number of persons applying for lodgings the past year	12
American born	9
Foreign born	3
Males	12

CRIME.

During the period covered by this report the town has been free from any serious crimes.

A few cases of breaking and entering; the perpetrators have in nearly every case been captured.

The arrests have been largely for drunkenness, and a great number of them have given their residence as Milton when they don't belong here, but are employed on the Metropolitan sewer, which is being constructed through the town.

THE LIQUOR LAWS AND THEIR ENFORCEMENT.

A determined effort has been made to suppress the illegal sale of intoxicating liquors, with a good degree of success. The difficulty of procuring evidence sufficient for conviction is such as few persons unacquainted with the business are aware of.

POLICE SIGNAL SERVICE.

The police signal service (Gamewell system) is giving excellent satisfaction, and the usefulness of this important branch of the department is apparent. I recommend one additional box the coming year, and relocating two others.

PENSIONS.

An Act of the Legislature; Session of 1901; Relative to Pensioning Members of Police Departments in Certain Cities and Towns.

I believe the citizens must recognize the fact that under the civil service laws as they exist today, the best years of a policeman's life are spent in protecting their lives and property; and the salaries paid the police in this town are not sufficient for them to lay aside enough to maintain them in their old age.

There is no reason why Milton should not follow her sister cities and towns in this beneficent direction. It is not humane, and certainly not to the credit of any municipal corporation, to push men aside who have imperilled their lives both day and night in all kinds of weather and on all occasions for eighteen and twenty years on its police force, and, at the end of that time, without means, and too old to get a living at anything else, to be laid aside as back numbers.

I am now more impressed than ever with this proposition. I think it just, humane and equitable, and the only satisfactory way of retiring the older men in the department when it is necessary to do so.

IN GENERAL.

I would again call your attention to the condition of the police station and stable. Something has got to be done immediately or they will collapse.

I am pleased to commend to your attention the excellent work of the officers and members of the force. They have been vigilant and attentive to their duties, and have cheerfully responded to all calls made upon them for extra service, and I sincerely extend my thanks to them for the cordial support they have given me.

It has been my constant aim to make the Milton Police Department second to none, and in carrying out this plan I have tried, conscientiously, to conduct my own duties with zeal and fidelity, giving to the town my whole time.

To your honorable board I desire to return my most sincere thanks for the kind and considerate treatment accorded me in the discharge of my official duties.

Respectfully submitted,

MAURICE PIERCE,
Superintendent of Police.

ENGINEERS' REPORT.

To the Honorable Board of Selectmen:

Gentlemen, — The Board of Engineers herewith presents its annual report.

There have been very few working fires during the past year, although the number of calls upon the department have increased over those of any previous year. The total fire loss for the year has been fairly large, made up principally by the losses of two fires. It is satisfactory to state that the number of incendiary fires, or fires suspected of being incendiary, have been remarkably few.

The cards distributed by the department a year ago to citizens having telephones, to enable these citizens to give prompt notification to the department of fires, have worked only fairly well, as citizens have not followed the instructions given in large type on the cards. In several cases, the direction to go to the nearest fire-alarm box and direct the firemen to the fire has been wholly neglected, so that the first firemen to arrive had no knowledge whatever as to where the fire was, resulting in confusion and loss of time, and in one or two cases excited people have called up the department and told them that their property was on fire, and given no further information, leaving the department at a loss as to whose property it was or where located, and necessitating a considerable amount of telephoning before the desired information could be procured.

During the year all buildings, excepting Hose 3 house, apparatus and equipments, have been kept up to first-class standard. Five hundred feet of new hose was purchased from last year's appropriation at the end of the financial year. One new horse has been bought.

The little Hose 3 house, situated near the Police Station, on the town's wharf property, is badly out of repair. The building is so badly out of repair, and is so wholly unadapted to the present necessities of the village, that in our opinion it would be unwise to expend any money upon it.

At the present time a hose wagon is kept in Assistant Chief Holmes' stable on Randolph Avenue, and covers the village district. This is a very satisfactory arrangement, so long as Assistant Chief Holmes is willing to take care of this piece of apparatus; but it is at best only a makeshift, and we are of the opinion that the village section, together with the Central Avenue district, are entitled to a fire department building, in which would be kept a combination wagon, manned by permanent men and permanent horses.

We also desire to call your attention to the necessity of remodeling the heating appliances at the Central fire station. That building is now partially heated by a hot-air furnace and partially by hot water. The furnace consumes a very large amount of coal and gives very unsatisfactory results, and is worn out. We therefore recommend that money be provided for equipping this building with a hot-water system of heating.

The New England Telephone & Telegraph Company have laid an underground conduit for wires through Adams Street and Randolph Avenue, leaving one tube to be occupied by the town's wires. We recommend that an appropriation be made to enable the department of wires to put the town's police and fire alarm wires underground on this line for the double purpose of the greater safety of the wires and removing from the streets the unsightly poles and cross-arms as far as possible.

In the month of June the first civil service examination for call members of the fire department was held. Other examinations are to be held shortly. We think that this

method of securing men for the department can only result to the advantage of the department.

At the last annual town meeting money was appropriated with which to buy land, build and equip a fire department building for the better protection of the western section of the town. Land was purchased on Blue Hill Avenue, between Atherton Street and Bradlee Road. This spot was chosen because of its central location in the territory to be covered, because of its being at the junction point of many roads, also because the slope of the land gave an excellent opportunity to secure a light and dry basement. A two-way house has been built, providing room for two pieces of apparatus, although only one is now contemplated. The building is a basement and one story high, of rustic stone, with a roof wood covered, with unpainted shingles. We think as a public building it is one the town may well be proud of. The apparatus provided is a combination hose wagon, having two thirty-gallon chemical tanks, while the body of the wagon carries one thousand feet of fire hose, together with all other necessary equipment. It is a most useful piece of apparatus, providing, as it does, all the benefits of both a chemical engine and a hose wagon. Two permanent men will be stationed in this house. The demands on the department of wires, which is part of and paid for by this department, has increased to such an extent that during the last two years the services of another man has been required a very large part of the time. As a man permanently employed would be much more useful and cost no more, we propose appointing a man, under civil service rules, to assist in the care of wires and do anything else required of him.

There have been no changes in the permanent force during the past year. In the call force six men resigned and five new men, who took the civil service examination, were appointed.

The discipline of the department is satisfactory.

The district fire marshal has investigated three fires. Milton has responded to twelve calls to Boston and two calls to Quincy, and the Boston department has responded to ten calls to Milton.

On account of the new hose house in the western section of the town the expenses of the department will increase the coming year. We therefore recommend that there should be appropriated for maintenance and current expenses of the department for the ensuing year twenty thousand dollars ($20,000).

Respectfully submitted,

GEORGE F. CHOATE.
C. W. HOLMES.

REPORT OF THE BOARD OF HEALTH.

The board organized March 25th, with the selection of Charles S. Minot as chairman and Walter C. Kite as secretary. John H. Emerson was appointed agent of the board. Henry B. Martin, Town Clerk, was authorized to sign burial permits for the board. Timothy G. Ryan was appointed inspector of plumbing and examiner of applicants for plumbers' licenses, and Michael J. McCue deputy inspector of plumbing. Peter McIntyre was licensed to carry on the business of slaughtering animals for food, and James Spencer was appointed the agent of the board to brand all meat of animals slaughtered in Milton and intended for food. Frank L. Gage was licensed to carry on the undertaking business. Stephen A. Meagher was licensed to carry on the business of rendering oil, tallow, etc. Permits were granted to John R. Lawrence, Charles Mitchell, Jr., Charles Tate, John R. Delory, and the Odorless Excavating Company, of Boston, to empty vaults and privies. Permits were granted to six persons to keep two hundred and ten pigs, permits having been granted the previous year to six persons to keep one hundred and eighty-eight pigs.

The number of cases of contagious diseases for the past three years has been as follows: —

	1899	1900	1901
Diphtheria	5	22	11
Measles	20	53	17
Scarlet fever	11	19	6
Smallpox	0	0	1
Typhoid fever	4	13	11

There were two deaths during the year from contagious disease. One each from diphtheria and typhoid fever.

At the meeting of November 20th it was

Voted, That the school committee concurring, all teachers and scholars in the public schools be required to either produce a certificate showing that they had been vaccinated within four years, to give evidence of recent vaccination, or to present themselves for vaccination to one of the physicians selected by this board. The principals of the private schools of the town were notified of the above action, and urged to see that every scholar in their schools was vaccinated.

On the same date the following notice to the citizens was adopted: —

"Owing to the prevalence of smallpox in Boston and the neighboring towns, the Board of Health considers it imperative that all inhabitants of the town who have not been vaccinated within the past four years should be vaccinated, or re-vaccinated, at once.

"Beside the danger to the individual, the Board of Health calls the attention of all citizens to the inconvenience that would arise, both in the home and in business, from the rigorous quarantine regulations, which would be immediately enforced, should any member of a household contract the disease.

"Those who cannot afford to pay for vaccination will find a physician at the time and places stated below, who will perform the service without charge."

Public vaccinations were performed four times a week for two weeks in four of the schoolhouses, and five hundred persons availed themselves of the opportunity to be vaccinated. In addition to this, seven hundred and twenty-three vaccinations were done in the public schools. We desire to express our appreciation to the school committee for their coöperation, and to the superintendent of schools and the teachers for their valuable assistance in this work.

Owing to the prevalence of smallpox in the neighborhood, the appearance of a case in Milton was a source of much

anxiety, and the case received the closest attention of the board. We were much gratified that there was no spread of the disease, which we attribute in great measure to the universal response on the part of the citizens to the board's notice, urging the necessity for vaccination. In our previous reports we have urged that all citizens should protect themselves and others in this manner, and would call attention to the fact that the case of smallpox that occurred here was in a person who had never been vaccinated. We were notified of this case on December 2d. As it had not been diagnosed until the appearance of the eruption, the patient's children were in a public school at that time. The board immediately ordered that the school be closed for two weeks, and all rooms where there was a possibility of infection be fumigated, and that all children in the school that had not been vaccinated within two months be re-vaccinated at once. As the accommodations at the detention house at the town farm are limited, and there was a probability that some of the patient's children had been infected, it was thought best to remove the children to the town farm, and to quarantine the patient in his own home, so that we might still have the detention house for use in case of the disease appearing in another direction. The board made all the necessary arrangements for the care of the patient, including the most rigid quarantine, to secure which an officer was kept on duty until the patient was declared well. The cost of this case to the town will amount to over eleven hundred dollars. We desire to express our thanks to the Board of Selectmen, the Superintendent of the Town Farm and the Police Department for their coöperation, which went beyond their official obligation. Rumors of alleged cases of smallpox were promptly investigated. A car cleaner at Mattapan, who lived on the Boston side of the river, was found to have been with a brother, who proved to have smallpox, and the superintendent of the railroad, as well as the Boston Board of

Health, were notified, and he was kept out of the cars for two weeks. Several cases of chickenpox in Mattapan were visited to make sure that there was no mistake in the diagnosis that the parents had made.

Of the cases of typhoid fever, two had moved into the town less than two weeks before they were taken sick, so that the infection must have been brought with them. Five other cases were receiving milk of a Wollaston milkman, among whose Quincy customers over twenty cases of typhoid fever occurred. All these cases were undoubtedly due to a contaminated well, which was condemned by the Quincy Board of Health. Of the cases of diphtheria four seemed to be due to contagion carried from a case in Hyde Park.

The town has no proper place or the isolation of contagious diseases for the protection of the public health. The small "pest-house" at the town farm can be used, but, as it has no cellar, no sanitary arrangements, no water or light, and as it is very old and can never be thoroughly cleaned for hospital use, it is a very undesirable hospital building. A number of citizens having expressed to this board the opinion that the town should have a modern detention house, we have inquired concerning the matter. We think that a suitable hospital for the use of the Board of Health for the isolation of cases dangerous to the public, sufficient to accommodate eight patients, could be built and equipped for $5,000 to $5,500 at the town farm, where it could be so placed as to be sufficiently remote from all other buildings. We have accordingly caused an article to be inserted in the warrant, in order that the citizens, being informed as to the facts, the town may take such action as it sees fit.

On account of the construction of the high-level sewer by the Metropolitan Sewer Commission, a number of wells in the Mattapan district were drained, and the commission connected the properties with the mains of the Milton Water Company by means of lead surface pipes, which were imme-

diately used by the householders, and members of several families were poisoned by lead in consequence. No formal notice or complaint of the matter has been made to this board at any time. The trouble seemed to be due to the use of lead pipe for private house supply. It is well known that the greater the purity of the water the more likely it is to absorb lead when passing through new lead pipe. The obvious remedy lay with the individual owners. As there was no apparent danger to the public health, the board took no action until later, when two cases of lead poisoning developed where the pipes had been in use for over a year, although in both cases there was a very long lead service pipe, and but little water used, so that it was probable that much of the water used had been in the lead pipe over night. These facts, together with some rumors which had come to the attention of the board, were deemed by us sufficient to warrant an investigation by the State Board of Health, and on December 9th we informed the State Board of Health of the situation, and asked for a thorough investigation of the entire matter, including the quality of the water as it entered the Milton mains.

During the first week in December, upon inquiry, we were able to trace fourteen cases of lead poisoning occurring in eight families in Milton during the preceding eighteen months, excluding two cases where Milton water was not used. Of these fourteen cases all but two had been drinking water from new lead service pipe. No cases have been reported to us since December 9th. The inspector and chemist of the State Board of Health spent December 17th here, visited all the cases of lead poisoning and took a large number of samples of water for analysis. We have just received the following report from the State Board of Health :

OFFICE OF THE STATE BOARD OF HEALTH,
STATE HOUSE, BOSTON, Jan. 23, 1902.

To the Board of Health of the Town of Milton,

GENTLEMEN:

In response to your request of December 11, 1901, for an investigation of reported cases of lead poisoning in Milton, the board has caused the cases referred to to be visited by its medical inspector, and samples of the water from the service pipe in the houses where the cases were found, and from other parts of the water system, to be analyzed. The results of the examination thus far made show seventeen well marked cases of lead poisoning, some of them very severe.

The results of chemical analysis of the water in the houses in which cases of lead poisoning were found, as well as in many houses in different parts of the town supplied through lead pipes, show that it contains an excessive quantity of lead, which is evidently taken up by the water in passing through the lead service pipes through which water from the street mains is supplied to and distributed about the houses. Examinations of the water supplied to Milton, show that it contains an excess of carbonic acid, which, acting upon the lead of the pipes, produces the poisonous carbonate of lead, a poison which slowly accumulates in the human body, with very serious results.

The investigations of the board show that the watér now supplied to Milton cannot be conveyed into and distributed about the houses through lead pipes without jeopardy to those by whom the water may be used, and that it is necessary, in order to preserve them from serious injury to health, either to replace all lead pipes from which the water will not extract poison, such as lead pipes lined with tin, or iron pipes lined with tin or with cement, or else to obtain from another source water which will not act upon the lead. One course or the other should be pursued without delay.

The water of the Metropolitan supply has been found not to act upon lead to an extent that is found to be injurious.

By Order of the Board,

(Signed) SAMUEL W. ABBOTT, *Secretary.*

In view of the above report we make the following recommendation : —

First, — That whenever water is drawn for drinking or cooking purposes, the water be first allowed to run freely from the faucet until all that may have been standing in lead pipes shall have run off. Water which has stood in lead pipes should under no circumstances be used for drinking or cooking, but water which comes from iron mains may be drawn rapidly through the lead pipes without becoming poisonous. By taking the precaution recommended the danger of lead poisoning which exists with the present water supply may be reduced to a minimum.

Second, — In view of the statement by the State Board that the Milton water is especially liable to become poisonous in passing through lead pipes, we recommend that all lead service pipes be immediately removed and replaced by safe pipes. Attention is called to the fact that whatever the water supply, lead pipes will always be dangerous, and apt to cause poisoning.

Third, — We recommend that immediate steps be taken to improve the town water supply, whether all lead pipes be removed or not. We have been informed that the Metropolitan water is of superior quality and can be obtained for the use of the town. We recommend, therefore, to the citizens to take immediate steps to ascertain what measures are practicable for obtaining the Metropolitan or other new water supply, so that the town may take such action in the premises as it may deem necessary for the public health.

It will be seen that nothing in the report of the State Board conflicts with the statement of this board already published: that there is no evidence of impurity in the main water supply that should be detrimental to the general health unless the water is conveyed through lead pipes.

There is no clinical evidence of the Milton water being unfit for consumption. There are about five thousand people drinking it, and no cases of illness have been reported to us as probably due to its use except those mentioned, and they prove that the use of new lead pipe is dangerous, and that it is not desirable to drink water that has been standing in lead pipe over night. The number of cases of typhoid fever for several years, exclusive of known sources of infection, has been very small, indeed, and cases of dysentery are also rare.

Immediately after receiving the report of the State Board we requested the Milton Water Company to introduce the Metropolitan water for town use until the town should act, for we learned that the Metropolitan mains were already connected with the Milton system. We have sought advice of counsel as to our authority to order the change made, but we hope that the water company will respond to our request, so that further action on our part will be unnecessary.

The report of the State Board of Health for the year 1900 shows the death rate of the town to be 14.44 per thousand, an increase of 2.46 over that of the preceding year. The average death rate for the ninety-four cities and towns in the state which had a population of five thousand and over was 18.26 in 1900. The number of deaths in the town during the past year was 106, including seven stillbirths; in 1900 it was ninety-seven. According to the census of the town taken by the assessors the population for 1901 was 6,809, and this would make our death rate for 1901, 14.54.

We wish to again urge the necessity for an annual extension of our sewerage system. The present methods of sewage disposal are totally inadequate, and are dangerous to the

public health. We would call attention to the recommendation made by the Sewer Commission conjointly with this board that a new drain be constructed on Adams Street. There is no question as to the need for this improvement, as the catch basins at the corner of Canton Avenue and High Street, and on Adams Street, at the junction of Canton Avenue and of Eliot Street, are very offensive during a greater part of the year, and furnish the citizens living or doing business at these points just cause for complaint against the town, and owing to the fact that surface water as well as sewage enters this sewer, we think that the nuisance cannot be permanently remedied except by the separation of the surface water, so that the silt from the street wash will not clog up the siphon of the sewer.

The causes for complaints made during the year have been as follows: —

Overflowing or defective cesspools	10
Rubbish heaps	4
Defective drains	3
Condition of piggeries	3
Condition of cow stable	1
Condition of drinking water at Sumner School	1
Stench from sewer manholes	2
Dumping of night soil	2
Sanitary condition of house	1
Decaying animal or vegetable matter	1
Dead animal in stream	1
Leakage from swill cart	1
Baby farm	1

The board again asks the coöperation of the citizens in giving written notice of any matter coming to their attention requiring action on the part of the Board of Health.

(Signed) CHARLES S. MINOT, *Chairman.*
THOMAS K. CUMMINS, JR.
WALTER C. KITE, M.D., *Secretary.*

REPORT OF THE SUPERINTENDENT OF THE TOWN FARM.

MILTON, Jan. 27, 1902.

To the Honorable Board of Selectmen:

GENTLEMEN,—The superintendent of the town farm herewith submits this report to you in regard to the improvement at the town farm since 1896.

On October, 1896, began to remove and bury boulders from one acre of land; removed 400 tons by September 20, 1897, and from that time until 1901, September 20, cleared in all six acres of land, removing 1,200 tons of boulders, making the land fertile and under good cultivation, so that now that land is in first-class condition for mowing land, or to raise any kind of vegetables much needed at the farm.

On October 15, 1896, the amount of hay found here was 30 cwt.; value $30. On October 15, 1901, the amount of hay cut was 10 tons; value $200; four tons of rowan; value $52; whole value, $252.

I should recommend the further work of clearing the land of stone and getting the land under good cultivation, as it could be done at little expense.

The improvements made have increased the value of the town farm $2,000 in the last five years.

Respectfully submitted,

ELIAS C. CONANT,
Superintendent of Town Farm.

REPORT OF THE INSPECTOR OF PLUMBING.

MILTON, Mass., Jan. 1, 1902.

To the Honorable Board of Health:

GENTLEMEN,—I herewith submit my annual report from Jan. 1, 1901, to Jan. 1, 1902:

During the year one hundred and eleven (111) applications have been filed and one hundred and eleven (111) permits have been granted to perform plumbing.

The approximate valuation of the work as specified in these applications is $29,118. Eighteen (18) master plumbers have registered at this office, and four (4) journeymen have renewed their licenses. One examination was held by the examining board and one applicant was examined, who passed successfully and was granted a license as a master plumber.

The office hours of this department are Tuesdays and Thursdays, 7.30 to 9 P. M.

Respectfully submitted,

TIMOTHY G. RYAN,
Inspector of Plumbing.

REPORT OF THE INSPECTOR OF BUILDINGS.

MILTON, Mass., Jan. 1, 1902.

To the Honorable Board of Selectmen:

GENTLEMEN,—I herewith present my annual report for the year ending Dec. 31, 1901.

There have been eighty (80) applications made for alterations, additions, and new buildings, and eighty (80) permits issued and granted for the same.

WORK OF THE BUILDING DEPARTMENT BY MONTHLY REPORT.

MONTH.	Permits issued for Wooden Buildings.	Permits issued for Stone and Brick Buildings.	Value of Work by Applications.
January	7	0	$16,375 00
February	2	0	3,765 00
March	4	1	52,525 00
April	7	0	19,450 00
May	7	0	8,725 00
June	6	2	14,840 00
July	8	1	24,925 00
August	5	1	45,100 00
September	6	1	49,500 00
October	12	0	19,050 00
November	4	0	21,150 00
December	6	0	16,000 00
Totals	74	6	$291,405 00

Thus making the valuation of work completed and to be completed, two hundred and ninety one thousand four hundred and five dollars ($291,405).

Office hours, Tuesdays and Thursdays, 7.30 to 9 P. M.

Respectfully submitted,

G. E. BURT,

Inspector of Buildings.

REPORT OF THE TREE WARDEN FOR 1901.

To the Citizens of Milton:

As before, the work of this department has been in the line of getting the roadside trees in safe and healthy condition.

Blue Hill avenue, begun last year, was finished this year. Some work was done at the southwesterly end of Randolph avenue. Hillside street was trimmed to the Metropolitan Park line; the westerly section, running to the Canton line, still needs attention. Forest street was cleared up to the Reservation; Harland street, as far as controlled by the town, at the southerly end, was cleaned up. The growth along this road was in such a tangle that a good deal had to be cut over, which should be allowed to grow again under proper restraint.

I take this opportunity of saying that my aim in such places is to give the best possible chance for desirable trees to develop at intervals, checking all such growth as would interfere with this main object, and then allowing as much shrub growth as is possible without obstructing the road or harboring weeds, tin cans and such undesirable features.

Washington street at East Milton was attended to. The big elms in Milton Village were trimmed as well as possible. I would say here that I am afraid they will have to be removed before very long. My men took off all limbs which showed that they were weak, but a gale would be liable to do much damage. During the summer I also attended to a large number of small jobs.

The last part of the year I have devoted to the westerly end of Brush Hill Road beyond Atherton street, and have

removed in Milton street such trees as it was necessary, mostly birches, which were leaning over the roadway and liable to be bent down or broken by snow.

The trees on all the main streets have now been gone over roughly. A few less important streets are left, and the length of time since your Park Commission began on this work makes it desirable that all the streets be gone over again, a much less serious undertaking than it was the first time.

It is possible that the town may this year be forced to spend some money in fighting insects, but so many of the trees along our streets are on private land that I hope the abutters will bear a large part of the expense if it becomes necessary to resort to spraying. Last year the spraying done on Adams street was all paid for by private subscription.

I recommend that one thousand dollars ($1,000) be again appropriated for this department.

Respectfully submitted,

NATHANIEL T. KIDDER,
Tree Warden.

REPORT OF INSPECTOR OF CATTLE.

To the Board of Selectmen:

Gentlemen, — During the past year I made six (6) calls per request of owners, before my regular tour of inspection, and gave an examination to twenty-four (24) cows; and two other calls, also upon request of owners, to two (2) horses, which I found affected with glanders and which were immediately sent to Ward's.

In my annual tour of inspection I visited one hundred seven (107) stables, almost all of which were in splendid sanitary condition, and gave a physical examination to eight hundred forty-four (844) cows, thirteen (13) bulls and one hundred eighteen (118) swine, all of which I found in perfectly healthy conditions.

Besides these I examined eleven (11) cows, in which a physical examination showed up symptoms of tuberculosis. These I immediately quarantined and sent reports of same to the State Board of Cattle Commissioners, who examined same and killed nine (9) and released the other two (2).

Respectfully submitted,

JAMES SPENCER,

Inspector of Cattle.

	$3,311 15
Less expenses for year 1901	10 50
	$3,300 65

EXTRACT FROM THE WILL OF ELIZABETH T. L. REED.

"All the rest, residue and remainder of all the moneys remaining in the hands of said Executor or Administrator, I direct shall be divided into three equal parts.

. . . . . .

"The second of said parts shall be paid to and deposited with the Treasurer for the time being of said Town of Milton, the same to be received, held and invested by said town as a fund to be known as the 'Jason Reed Fund,' and the income thereof shall be applied to the preservation, care, improvement or embellishment of the said Milton Cemetery.

"And the third of said parts shall be paid to said Town of Milton, and the same shall be applied by the proper legal authorities to or towards laying out, improvement or ornamentation of a Public Park or Parks in said town, in such manner as said authorities may deem advisable.

"I make the foregoing bequests in favor of First Parish, the Cemetery and the Parks in said Milton, both on account of the deep interest taken by my father, the late Jason Reed, deceased, in the affairs of said town, and of my own profound desire for the welfare of said town and of the citizens thereof."
